The Richard C. Goodwin College of Professional Studies

The mission of the [Goodwin College of Professional Studies](#) is to provide contemporary students with an academic foundation and practical education for their professional and personal advancement. The College is dedicated to scholarly activities and to educating students by means of programs delivered by committed faculty through creative and effective teaching/learning methods.

The Goodwin College (formerly known as the Evening College) has been recognized as a leading institution for adult and nontraditional learners since its inception. During its long history it has provided part-time students the opportunity to pursue baccalaureate degrees, by taking courses during the evening, in more than 20 different disciplines. In 1989 the Association of Continuing Higher Education honored the College for more than 50 years of outstanding achievement in the field of adult education.

Changing needs among adult and traditional students are driving new trends in higher education, and new societal needs have reshaped what was once the sole mission of the College. Today the College serves full-time and part-time students, traditional and non-traditional learners. Offering for-credit and non-credit courses and programs, it also serves corporations at their sites and students at remote locations through wireless technology.

The College also provides a range of continuing adult and professional education programs, certificates of proficiency, licensing and certification test preparation, and customer contracted training. The College abides by the continuing education unit (CEU) criteria for quality education.

[About Drexel](#) [Admissions](#) [Tuition/Fees](#) [Financial Aid](#) [Drexel Co-op](#) [Programs](#) [Policies](#)

The Richard C. Goodwin College of Professional Studies

Students can pursue studies leading to a baccalaureate degree in the following nine majors:

- [Architecture](#)
- [Applied Engineering Technology](#)
- [Construction Management](#)
- [Communications & Applied Technology](#)
- [Culinary Arts](#)
- [General Studies](#)
- [Hospitality Management](#)
- [Industrial Engineering](#)
- [Sport Management](#)

Degree requirements

Requirements for Goodwin degrees are provided by individual programs according to the requirements for each major, which are set forth in subsequent pages. The minimum number of credits required for the degree of Bachelor of Science varies from one program to another. All graduating students, regardless of the program, must have earned a grade point average of 2.0 or higher for all coursework undertaken at Drexel University.

Writing-Intensive Course Requirements

In order to graduate, all students beginning with the entering class of Fall 2002 must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in the student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog indicates that this course can fulfill a writing-intensive requirement. Departments will designate specific sections of such courses as writing-intensive. Sections of writing-intensive courses are not indicated in this catalog. Students should check the section comments in Banner when registering. Students scheduling their courses in Banner can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term. For more information on writing-intensive courses, see the Drexel University Writing Program's Writing-Intensive Course page.

[About Drexel](#) [Admissions](#) [Tuition/Fees](#) [Financial Aid](#) [Drexel Co-op Programs](#) [Policies](#)

The Richard C. Goodwin College of Professional Studies

The College offers several degree completion options to students with busy schedules or wishing to complete previous studies.

Accelerated Degree Programs

These programs are designed for people who already have earned an associate's degree or equivalent and for working adults and professionals. The types of programs available are listed below:

- Corporate onsite degree completion
- Saturday Scholars Degree Completion Program

Part-time Evening Studies

The College offers several partnership programs with other colleges and schools at the University. These degree programs are housed in the respective day departments, and are offered in the evening for students who cannot attend classes during the day. Most degree course requirements are offered in the day and in the evening. Detailed program descriptions and curriculum requirements may be found by exploring the links below.

- Arts and Sciences
- Engineering
- Business
- Information Technology

Off-site Programs

The Goodwin College brings high quality Drexel courses and faculty members to your facility, offering your employees an exceptional and convenient education. Through Drexel, companies may choose to offer their employees programs and certificates at their place of work. The College works seamlessly with organizations to provide the support and training that their employees want and that management needs in order to maintain a competitive edge in their industry. A Drexel education is a benefit that makes sense for both employers and employees. It enhances an organization's reputation, improves employee retention rates, and makes for a skilled and talented workforce.

Visit <http://www.drexel.edu/goodwin/> for more information.

Drexel University and Burlington County College (BCC) programs

Drexel University and Burlington County College (BCC) have joined together to create a unique educational opportunity: Drexel at BCC. This partnership enables BCC students to earn a bachelor's degree from Drexel University while remaining on BCC's Mount Laurel campus. Currently available programs include:

- Applied Engineering Technology
- Computing Technology
- Construction Management
- Hospitality Management

For more information, visit the [Drexel at BCC](#) web site.

Architecture

The Part-Time Evening Program

The Part-Time Evening Program leads to a Bachelor of Architecture degree. The course of study usually takes seven years to complete, but students with transfer credits in studio design can accelerate their program. Since all courses are offered in the evening, students are expected to supplement their academic work with full-time employment in architectural offices. Please contact the Department of Architecture at 215-895-2409 for further information.

Architecture: Part-Time Evening Program

Bachelor of Architecture Degree: 209.0 credits.

Degree Requirements

Required courses

General education requirements		Credits
ENGL 101	Expository Writing and Reading	3.0
ENGL 102	Persuasive Writing and Reading	3.0
ENGL 103	Analytical Writing and Reading	3.0
MATH 181	Mathematical Analysis I	3.0
MATH 182	Mathematical Analysis II	3.0
MATH 183	Mathematical Analysis III	3.0
PHYS 182	Applied Physics I	3.0
PHYS 183	Applied Physics II	3.0
PHYS 184	Applied Physics III	3.0
Humanities and social science electives		9.0
Free electives		12.0

Departmental requirements

		Credits
ARCH 111	Studio 1-1	3.0
ARCH 112	Studio 1-2	3.0
ARCH 113	Studio 1-3	3.0
ARCH 121	Studio 2-1	3.0
ARCH 122	Studio 2-2	3.0
ARCH 123	Studio 2-3	3.0
ARCH 231	Studio 3-1*	3.0
ARCH 232	Studio 3-2	3.0
ARCH 233	Studio 3-3	3.0
ARCH 241	Studio 4-1	4.0
ARCH 242	Studio 4-2	4.0
ARCH 243	Studio 4-3	4.0
ARCH 351	Studio 5-1	4.0
ARCH 352	Studio 5-2	4.0
ARCH 353	Studio 5-3	4.0
ARCH 361	Studio 6-1*	4.0
ARCH 362	Studio 6-2	4.0

ARCH 363	Studio 6-3	4.0
ARCH 496	Thesis I	8.0
ARCH 497	Thesis II	8.0
ARCH 498	Thesis III	8.0

*Prior to taking this course student must meet the Department of Architecture's minimum studio advancement requirements. See the Department's [Advising Guidelines](#) web page for more details.

Required professional courses		Credits
ARCH 14I	Architecture and Society I	3.0
ARCH 142 WI	Architecture and Society II	3.0
ARCH 143 WI	Architecture and Society III	3.0
ARCH 150	Introduction to CADD I	4.0
ARCH 153	Introduction to CADD II	4.0
ARCH 155	Basic Architectural Drawing	3.0
ARCH 156	Graphic Communication I	3.0
ARCH 161	Architectural Construction	3.0
ARCH 261	Environmental Systems I	3.0
ARCH 262	Environmental Systems II	3.0
ARCH 263	Environmental Systems III	3.0
ARCH 321 WI	General Lecture Series I	3.0
ARCH 322 WI	General Lecture Series II	3.0
ARCH 323 WI	General Lecture Series III	3.0
CIVE 261	Materials and Structural Behavior I	3.0
CIVE 262	Materials and Structural Behavior II	3.0
CIVE 263	Materials and Structural Behavior III	3.0

History and theory electives		12.0 Credits
Three or four of the following courses		
ARCH 341	Theories of Architecture I	3.0
ARCH 342	Theories of Architecture II	3.0
ARCH 343	Theories of Architecture III	3.0
ARCH 344	History of the Modern Movement I	3.0
ARCH 345	History of the Modern Movement II	3.0
ARCH 346	History of Philadelphia Architecture	3.0
ARCH 347	Summer Study Abroad (6 credits)	6.0
ARCH 348	Studies in Vernacular Architecture	3.0
ARCH 441	Urban Design Seminar I	3.0
ARCH 442	Urban Design Seminar II	3.0
ARCH 499	Special Topics in Architecture	3.0

Professional electives		Credits
Any three of the following courses*		
ARCH 157	Graphic Communication II	3.0

ARCH 421 WI	Environmental Psychology and Design Theory	3.0
ARCH 431	Architectural Programming	3.0
ARCH 432	The Development Process	3.0
ARCH 435	Management Seminar I	3.0
ARCH 436	Management Seminar II	3.0
ARCH 451	Advanced Drawing	3.0
ARCH 455	Computer Applications in Architecture I	3.0
ARCH 456	Computer Applications in Architecture II	3.0
ARCH 461	Technology Seminar I	3.0
ARCH 462	Technology Seminar II	3.0
ARCH 465	Energy and Architecture	3.0
ARCH 499	Special Topics in Architecture	3.0
CIVE 400	Structural Design I	3.0
CIVE 401	Structural Design II	3.0
CIVE 402	Structural Design III	3.0
CIVE 464	Acoustics and Noise Control in Buildings I	3.0
CMGT 462	Construction Management I	3.0
CMGT 463	Value Engineering II	3.0
CMGT 363	Estimating I	3.0
PHTO 110	Photography	3.0
VSST 111	Figure Drawing I	3.0
VSST 202	Multimedia: Space	4.0
VSST 301	Painting I	4.0
VSST 311	Sculpture	4.0
	Other approved engineering courses	3.0

* History and theory electives can also be used to satisfy professional elective requirements.

Writing-Intensive Course Requirements

In order to graduate, all students beginning with the entering class of 2002/01 (fall, 2002) must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog indicates that this course can fulfill a writing-intensive requirement. Departments will designate specific sections of such courses as writing-intensive. Sections of writing-intensive courses are not indicated in this catalog. Students should check the section comments in Banner when registering. Students scheduling their courses in Banner can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term. Recommended Plan of Study:

First year

(Fall)		Credits
ARCH 111	Studio 1-1	3.0
ARCH 155	Basic Architectural Drawing	3.0
ENGL 101	Expository Writing and Reading	3.0
(Winter)		
ARCH 112	Studio 1-2	3.0
ARCH 156	Graphic Communication I	3.0
ENGL 102	Persuasive Writing and Reading	3.0
(Spring)		
ARCH 113	Studio 1-3	3.0
ARCH 161	Architecture Construction	3.0
ENGL 103	Techniques of Analysis Evaluation	3.0
(Summer)		
ARCH 150	Introduction to CADD I	4.0
	Total credits	31.0

Second year

(Fall)		Credits
ARCH 121	Studio 2-1	3.0
ARCH 141 WI	Architecture and Society I	3.0
MATH 181	Mathematical Analysis I	3.0
(Winter)		
ARCH 122	Studio 2-2	3.0
ARCH 142 WI	Architecture and Society II	3.0
MATH 183	Mathematical Analysis II	3.0
(Spring)		
ARCH 123	Studio 2-3	3.0
ARCH 143 WI	Architecture and Society III	3.0
MATH 182	Mathematical Analysis III	3.0
(Summer)		

ARCH 153	Introduction to CADD II	4.0
Total credits		31.0

Third year

		Credits
(Fall)		
ARCH 231	Studio 3-1*	3.0
PHYS 182	Applied Physics I	3.0
Humanities or social sciences elective		3.0
(Winter)		
ARCH 232	Studio 3-2	3.0
PHYS 183	Applied Physics II	3.0
Humanities or social sciences elective		3.0
(Spring)		
ARCH 233	Studio 3-3	3.0
PHYS 184	Applied Physics III	3.0
Humanities or social sciences elective		3.0
Total credits		27.0

*Prior to taking this course student must meet the Department of Architecture's minimum studio advancement requirements. See the Department's [Advising Guidelines](#) web page for more details.

Fourth year

		Credits
(Fall)		
ARCH 241	Studio 4-1	4.0
ARCH 261	Environmental Systems I	3.0
CIVE 261	Materials and Structural Behavior I	3.0
(Winter)		
ARCH 242	Studio 4-2	4.0
ARCH 262	Environmental Systems II	3.0
CIVE 262	Materials and Structural Behavior II	3.0
(Spring)		
ARCH 243	Studio 4-3	4.0
ARCH 263	Environmental Systems III	3.0
CIVE 263	Materials and Structural Behavior III	3.0
Total credits		30.0

Fifth year

		Credits
(Fall)		
ARCH 351	Studio 5-1	4.0
ARCH 321 WI	General Lecture Series I	3.0
History/Theory elective		3.0
(Winter)		
ARCH 352	Studio 5-2	4.0
ARCH 322 WI	General Lecture Series II	3.0
History/Theory elective		3.0
(Spring)		

ARCH 353	Studio 5-3	4.0
ARCH 323 WI	General Lecture Series III	3.0
	History/Theory elective	3.0
	Total credits	30.0

Sixth year

		Credits
(Fall)		
ARCH 361	Studio 6-1*	4.0
	History/Theory elective	3.0
	Free elective	3.0
(Winter)		
ARCH 362	Studio 6-2	4.0
	Professional elective	3.0
	Free elective	3.0
(Spring)		
ARCH 363	Studio 6-3	4.0
	Professional elective	3.0
	Free elective	3.0
	Total credits	30.0

*Prior to taking this course student must meet the Department of Architecture's minimum studio advancement requirements. See the Department's [Advising Guidelines](#) web page for more details.

Seventh year (Thesis)

		Credits
(Fall)		
ARCH 496	Thesis I	8.0
	Professional elective	3.0
(Winter)		
ARCH 497	Thesis II	8.0
	Free elective	3.0
(Spring)		
ARCH 498	Thesis III	8.0
	Total credits	33.0

Applied Engineering Technology

The Bachelor of Science (B.S.) degree in Applied Engineering Technology provides an integrated educational experience directed toward development of the ability to apply fundamental knowledge to the solution of practical technological problems.

All students enrolled in the program are required to take general education courses including mathematics, the sciences and liberal arts. During their sophomore year, students need to choose one of the three available concentrations, namely [electrical](#), [manufacturing](#), or [mechanical engineering](#) technology. These concentrations consist of core fundamental courses, technical electives, free electives and a three-term senior design project reflecting industrial practices.

The AET program distinguishes itself from traditional engineering programs by placing emphasis on the application of theory, by integrating most courses with laboratory experience, and by incorporating faculty with extensive industrial experience.

The AET program includes full-time and part-time enrollment options. Students pursuing the full-time option can opt for a four-year program with a six-month internship or a five-year program with an eighteen-month co-op period.

Applied engineering technology graduates are uniquely qualified to serve in a variety of functions requiring traditional and nontraditional technological skills. The program also prepares students for graduate study in a variety of fields including engineering management, business administration, and health technology.

Applied Technology

Dual Degree Program

The Goodwin College of Professional Studies offers a Dual Degree Program with [Delaware County Community College](#) (DCCC) leading to concurrent A. S. and B. S. degrees in appropriate areas of study.

Through a unique articulation agreement, students can earn a Bachelor of Science in Applied Engineering Technology from Drexel as well as an Associate of Applied Science Degree at DCCC in Automated Manufacturing/Robotics, Machine Tool Technology, or Mechanical Technology. Students will be enrolled at both Drexel and DCCC, working concurrently on both degrees.

As an added benefit to the Dual Degree Program, students can earn certifications recognized by industry and required by employers for entry into the workforce. DCCC currently offers four certificates of competency and one certificate of proficiency in advanced manufacturing. Each certificate program, usually completed in six months to one year, provides credits that automatically apply to a student's degrees.

Communications and Applied Technology

Overview

The Bachelor of Science in Communications and Applied Technology is a multidisciplinary program designed for individuals who want to increase their knowledge of all aspects of business communications and relevant communication technologies, while understanding the business principles that are necessary to achieve corporate goals. The major offers a multidisciplinary approach combining theoretical and applied learning principles and encompasses the spectrum of internal and external communications that organizations utilize in their management and marketing functions. The program is tailored to meet the needs of people who sell, communicate, and manage in industries that are heavily customer oriented and are involved in or affected by world markets. The goal of the program is to increase students' understanding of communication, management, applicable technology, business, the world economy, and relationships within their corporate culture.

Program Goals:

- Combine communications and technology skills training with study of sound business fundamentals.
- Hone written, oral, and interpersonal communication skills for effectiveness in a variety of organizational settings, with both internal and external audiences.
- Expand written communication skills including research and design skills to produce reports, proposals, web sites, and other corporate documents.
- Provide conceptual understanding of various principles of management and organizational processes.
- Develop problem-solving, conflict-management, and decision-making skills
- Examine factors that explain international movement of persons, goods, services, financial capital, and technology across national boundaries.
- Understand legal and ethical issues in business communication, technological advancement, employer-employee relations, obligations to customers, and foreign populations.

Assessment of Prior Learning

The Goodwin College of Professional Studies will grant transfer credit for American Council on Education (ACE)-evaluated corporate training offered by professional associations such as the American Institute of Banking, the American College, and the College for Financial Planning as well as for industry certifications such as Microsoft Certified Professional. ACE-evaluated military training will be considered as well. In addition, credit by examination earned via College-Level Examination Program (CLEP), Defense Activity for Nontraditional Education Support (DANTES), Thomas Edison College Examination Program (TECEP), and Excelsior College Examinations (ECE) will also be assessed. All credits earned through assessment of prior learning are subject to advisor approval.

Curriculum

To complete the Bachelor of Science degree in Communications and Applied Technology, students must earn a minimum of 180 quarter credits comprising the following:

- English Composition
- Humanities
- Social Sciences
- Physical Sciences
- Mathematics
- Corporate Communication
- Customer Operations
- Information Systems

Communications and Applied Technology

Program Delivery Options

An attractive feature of the degree-completion program in Communications and Applied Technology is the flexible delivery options. This program can be completed in a variety of formats so that students can complete their degree in the design that best fits their lifestyle.

- *On-campus option.* Students who prefer to study on Drexel's main campus in University City may do so during the day, evening, or on Saturdays. All but five of the courses can be completed during the day. Evening study is available in both traditional and accelerated formats. Finally, students who already have an associate's degree or equivalent credits may complete their degree entirely on Saturdays through Drexel's innovative Saturday Scholars program, providing virtually no interruption to their weekday routine. Please visit the [Saturday Scholars Program](#) web site for more information.
- *Online option.* Students who desire a quality Drexel education but who do not live or work in close proximity to the university can now complete their degree entirely online. The same distinguished Drexel full-time and adjunct faculty that teach on campus also teach online courses using the same syllabus and learning objectives. Please visit the [Drexel E-Learning](#) web site for more information.
- *Off-site option.* Drexel University has developed numerous alliances with corporations in the Delaware Valley who desire to provide their employees with a Drexel education with the convenience of taking class at their workplace. Classes are held at the company's facilities, right after work, one night per week, for four hours a night. To learn more about how Drexel can deliver a quality education at your work site, please visit the [Goodwin College of Professional Studies](#) web site.

Computing Technology

The Computing Technology curriculum centers on the application of software and hardware technology to solve real-world problems. Attention is given to maintenance and administration of information systems, with courses covering each of the major components of computer infrastructure: hardware, servers, Linux, Windows, networks, web, security, databases and OO programming.

The Computing Technology program is supported by seven state of the art computer labs in the Goodwin College building and faculty are selected based on their academic credentials and industry experience.

For additional information about this major, visit the [Goodwin College of Professional Studies](#) web site.

Computing Technology

Program Delivery Options

An attractive feature of the degree-completion program in Computing Technology is the flexible delivery options. This program can be completed in a variety of formats so that students can complete their degree in the design that best fits their lifestyle.

- *On-campus option.* Students who already have an associate's degree or equivalent credits may complete their degree entirely on Saturdays through Drexel's innovative Saturday Scholars program, providing virtually no interruption to their weekday routine. Please visit the [Saturday Scholars Program](#) web site for more information.
- *Online option.* Students who desire a quality Drexel education but who do not live or work in close proximity to the university can now complete their degree entirely online. The same distinguished Drexel full-time and adjunct faculty that teach on campus also teach online courses using the same syllabus and learning objectives. Please visit the [Drexel E-Learning Computing Technology](#) page for more information.
- The [Drexel University and Burlington County College \(BCC\)](#) option: Drexel University and Burlington County College (BCC) have joined together to create a unique educational opportunity: Drexel at BCC. This partnership enables BCC students to earn a bachelor's degree from Drexel University while remaining on BCC's Mount Laurel campus.

Construction Management

Construction management is a dynamic profession that is a combination of art and science. While an understanding of the technical aspects of construction is extremely important, it is also essential that construction professionals have knowledge of the business and management aspects of the profession. While construction has traditionally been a very conservative industry, the increasing rate of technological development and competition in the industry serves to accelerate the development of new construction methods, equipment, materials, and management techniques. As a result of these forces, there is an increasing need for innovative and professionally competent construction professionals. Students in this program receive broad academic, technical, business, and construction management courses that are designed to produce these well-rounded construction professionals.

Program Delivery Options

The B.S. in Construction Management consists of 180 credits. All students enrolled in the program are required to take 75 credits correspond to the professional core. Students can earn a certificate in Construction Management upon completing 36 credits of coursework.

Program delivery options include:

- A traditional 5-year with co-op option
- A part-time study option
- The [Drexel University and Burlington County College \(BCC\)](#) option: Drexel University and Burlington County College (BCC) have joined together to create a unique educational opportunity: Drexel at BCC. This partnership enables BCC students to earn a bachelor's degree from Drexel University while remaining on BCC's Mount Laurel campus.

Construction Management

Certificate Programs

The Certificate Program was started at the request of two contractors' associations: the General Building Contractors Association and the Contractors Association of Eastern Pennsylvania. It is designed for people who have undergraduate degrees in other fields and are employed or wish to be employed in the construction industry. It is also used as a credential for people who are already working in the construction industry, but do not wish to pursue an undergraduate degree. The certificate program is a two-year program with the certificate awarded upon completion of 36 credits. Students interested in continuing their education after certification are able to apply their coursework and credits directly to the Bachelor of Science in Construction Management.

Program of Study:

- Building Materials and Construction Methods I
- Building Materials and Construction Methods II
- Contracts and Specifications I
- Contracts and Specifications II
- Estimating I
- Understanding Construction Drawings
- Construction Management I
- Construction Management II
- Value Engineering I
- Marketing Construction Services
- Techniques of Project Control
- Construction Management of Field Operations

Course substitutions or other electives may be taken with prior approval from a liaison for Construction Management.

Culinary Arts

The culinary arts program prepares students for leadership positions in the fine-foods segment of the hospitality industry. This baccalaureate degree in culinary arts is among the first of its kind in the United States. Prior to this program, chefs have been trained in vocational programs or apprenticeships. This program comprises approximately equal parts liberal arts, business and administration, hospitality management, and culinary arts. Upon completing the program, students have an understanding of how to design or create a desired environment, how to market it, and how to deliver it to the customer. Students also receive the equivalent of a minor in business administration as well as completing the first year of foundation courses required for an MBA degree at Drexel.

For more information, visit the [Culinary Arts and Hospitality Management Programs](#) web site.

Program Delivery Options

Drexel's program is composed of approximately equal parts of liberal arts, business administration and hospitality management courses. Students receive a minor in business, as well as completion of the first year of foundation courses required for an MBA degree at Drexel University. The degree in HM can be completed in several ways, each offering unique features

Traditional Four-year option, with one co-op experience:

This option includes one six-month period of full-time employment in the junior year.

Four plus One option BS/MBA combined degree, with co-op experience:

This option offers the greatest amount of education in the shortest time period due to its compressed structure.

Full-time Status Evening option without co-op experience:

To be eligible, students should have a minimum of two years full-time work experience related to students' majors, and a minimum of one year of college level work. Full-time students are eligible for full-time financial aid packages.

Part-time General Studies option without co-op experience:

Take classes anytime day, night, and in several instances on-line at your own pace. On average the evening part-time degree takes six years to complete.

London option:

Hospitality Management students are invited to spend a term in their sophomore, junior or senior year in the Study Abroad Program, Drexel in London, while earning up to 18 credits. The program's emphasis is on the global implications of and opportunities within the hospitality industry.

Drexel University and Burlington County College (BCC) option:

Drexel University and Burlington County College (BCC) have joined together to create a unique educational opportunity: Drexel at BCC. This partnership enables BCC students to earn a bachelor's degree from Drexel University while remaining on BCC's Mount Laurel campus. For more information about the B.S. in Hospitality, visit the [Drexel at BCC](#) web site.

General Studies

The General Studies program is designed for students who wish to gain a breadth of knowledge in the humanities, social sciences, and natural sciences. In addition, general studies students focus on a particular area of interest by following one of the concentrations that exist in the program:

[Individualized Studies](#)

This is a concentration designed for individuals with a diverse college background and varied educational interests that cannot be captured in a single degree program. In consultation with their academic advisor, students select a specialization within the concentration according to their interests. Students have the opportunity to experiment in a variety of academic subjects through a generous amount of free electives. An attractive feature is that students can complete certificate programs en route to their B.S. degree.

[Liberal Studies](#)

A concentration in Liberal Studies provides a broad-based liberal arts education that increases one's appreciation of the world at large and lays the necessary groundwork for graduate study. All liberal studies students take courses in communication, art or architecture history, literature, philosophy, history, political science, psychology, anthropology/sociology, and liberal studies electives. The final 36 credits in the course of study comprise the student's concentration requirements. Students choose to concentrate in either humanities or social sciences. The humanities concentration usually appeals to students interested in focusing on the fine arts, foreign language, literature, or writing. The social science concentration is excellent preparation for graduate school (including law school), research, and careers in which one would deal extensively with people.

[Physical Sciences](#)

A concentration in Physical Sciences can lead to graduate school, careers in research and, with the selection of natural science courses, medical, dental, pharmacy, and veterinary school. Students take courses in the following areas: calculus, biology, chemistry, and physics.

For more information on this major, visit [Goodwin College's General Studies](#) web page.

General Studies

Bachelor of Science Degree: 180.0 credits

Recommended Plan of Study

General Studies is an individualized plan of study currently advised by Gerry Marekova. Students enroll in the program with a variety of different academic backgrounds, and may apply their credit hours from other institutions toward this multi-disciplinary degree. Flexible policies on transfer credits provide students with the ability to build upon prior coursework and earn a baccalaureate degree relevant to their individualized educational needs. Through the General Studies major, students can create an interdisciplinary program to meet their individual educational goals or to prepare for a particular job or career.

Students majoring in General Studies, in consultation with the director of the program, devise a personalized study plan. The plan of study provides a rationale for their concentration and how the elective credits are to be used.

Hospitality Management

Drexel University's Bachelor's of Science program in Hospitality Management (HM) recognizes the critical importance of an interdisciplinary education with a global perspective for tomorrow's leaders and managers. Building on four major strengths— innovative management, customer service, technology, and international operations— the program prepares individuals to assume leadership of projects, programs, and staff in Hospitality organizations.

Committed to building student knowledge across functional areas and contributing disciplines, the program allows for increased specialization with concentrations in one of four areas: Food & Beverage Management, Gaming and Resort Management, Travel and Tourism, and Lodging Administration.

According to The Gourman Report, which provides rankings of undergraduate programs in American and international universities, Drexel University's Hospitality Management program was ranked in the top tenth percentile of national programs.

For more information, visit the [Culinary Arts and Hospitality Management Programs](#) web site.

Program Delivery Options

Drexel's program is composed of approximately equal parts of liberal arts, business administration and hospitality management courses. Students receive a minor in business, as well as completion of the first year of foundation courses required for an MBA degree at Drexel University. The degree in HM can be completed in several ways, each offering unique features

Traditional Four-year option, with one co-op experience:

This option includes one six-month period of full-time employment in the junior year.

Four plus One option BS/MBA combined degree, with co-op experience:

This option offers the greatest amount of education in the shortest time period due to its compressed structure.

Full-time Status Evening option without co-op experience:

To be eligible, students should have a minimum of two years full-time work experience related to students' majors, and a minimum of one year of college level work. Full-time students are eligible for full-time financial aid packages.

Part-time General Studies option without co-op experience:

Take classes anytime day, night, and in several instances on-line at your own pace. On average the evening part-time degree takes six years to complete.

London option:

Hospitality Management students are invited to spend a term in their sophomore, junior or senior year in the Study Abroad Program, Drexel in London, while earning up to 18 credits. The program's emphasis is on the global implications of and opportunities within the hospitality industry.

Drexel University and Burlington County College (BCC) option:

Drexel University and Burlington County College (BCC) have joined together to create a unique educational opportunity: Drexel at BCC. This partnership enables BCC students to earn a bachelor's degree from Drexel University while remaining on BCC's Mount Laurel campus. For more information about the B.S. in Hospitality, visit the [Drexel at BCC](#) web site.

Industrial Engineering

The current demand for industrial engineers is high, but the supply of credentialed industrial engineers is limited. The trend toward an automated workplace and demands for greater efficiency in business and industry further enhance employment prospects for industrial engineers. Drexel's Goodwin College of Professional Studies curriculum leads to the bachelor of science degree, and Drexel is the only college in the Delaware Valley offering a degree in [industrial engineering](#).

Coursework

The coursework for the Bachelor of Science in Industrial Engineering provides a solid understanding of materials, design, statistics, operations research, information systems, methods engineering, manufacturing engineering, cost accounting, and production economy. Emphasis is placed on basic engineering and applied science, with the remainder of the program devoted to the humanities and those aspects of management pertinent to organizing and managing systems to produce and distribute services and products. Through the selection of electives, the curriculum offers options for specialization in a number of areas, providing the student with a sound basis for graduate study in management and industrial engineering.

Core courses include chemistry, calculus, physics, computer programming, principles of economics, technical writing, and coursework in various engineering principles. In the final year, students complete three levels of project design in a team setting.

[About Drexel](#) [Admissions](#) [Tuition/Fees](#) [Financial Aid](#) [Drexel Co-op Programs](#) [Policies](#)

Sport Management

Through Drexel's [Sport Management program](#), students master the knowledge and skills necessary for success in the fields of Sport Management, athletics/coaching, sports psychology and other professions supporting sports and recreation.

The program focuses on the integration of applicable areas of learning including biology, nutrition, human performance, psychology, athletics and business management. It uses a multidisciplinary approach (athletics and human performance; sport and the psycho-socio-cultural process; sports as an industry) to understand sports and manage the sports industry. Students will also develop the important supporting skills in technology and communications. The major emphasizes the practical application of skills to the solution of problems in the management of sports, athletics and recreation on the professional, amateur and community level.

Coursework

The B. S. in Sport Management consists of 181 credits. All students enrolled in the program are required to take 47 credits of general education courses plus 43 credits of core courses on the foundations of Sport Management. These courses are supplemented by 30 credits of free electives. The balance of the program is based on technical elective courses drawn from four major concentrations, namely Athletics, Health & Human Performance (15 credits); The Business of Sport (15 credits); Sport & the Psycho-Socio-Cultural Process (15 credits); Technology for Sport Management (16 credits).

Degree Completion Options

The Bachelor of Science degree in sport management can be completed in either four or five years:

Five-year option, with co-op experience

This option allows for the greatest amount of employment experience, with three distinct six-month periods of employment included with studies. After the start of the sophomore year, students study or work through all terms, including summers.

Four-year option, with internship experience

This option includes just one six-month period of full-time employment. After the start of the sophomore year, students study or work through all terms, including summers.

* Course offered through the College of Nursing and Health Professions

The Business of Sport 15.0 Credits

BLAW 201	Business Law I	4.0
ECON 211	Principles of Economics I (Micro)	3.0

In addition to BLAW 201 and ECON 211, students select from following electives to complete a minimum of 15.0 credits in this area:

ACCT 115	Financial Accounting Foundations	5.0
ACCT 116	Managerial Accounting Foundations	5.0
BLAW 202	Business Law II	4.0
ECON 212	Principles of Economics II (Macro)	3.0
MKTG 311	Introduction to Marketing Management	3.0
SMT 220	Recreation, Wellness and Society	3.0
SMT 235	Sports Administration and Governance	3.0
SMT 340	International Aspect of Sport	3.0
SMT 365	Operations Management in Sports	3.0
SMT 475	Coaching Practicum	3.0

Sport and the Psycho/Socio-cultural Process 15.0 Credits

Select five of the following courses:

PHIL 210	Philosophy of Sport	3.0
PSY 101	General Psychology	3.0
PSY 120	Developmental Psychology	3.0
PSY 140	Approaches to Personality	3.0
PSY 212	Physiological Psychology	3.0
PSY 230	Psychology of Learning	3.0
PSY 342	Counseling Psychology	3.0
PSY 355	Health Psychology	3.0
SMT 330	Gender Equity and Women in Sport	3.0
SMT 335	Minority Issues and Opportunities in Sport	3.0
SOC 101	Introduction to Sociology	3.0
SOC 210	Race and Ethnic Relations	3.0
SOC 250	Research Methods I	3.0

Technology for Sport Management		13.0 Credits
COM 240	New Technologies in Communication	3.0
COM 335	Writing for the World Wide Web	3.0
MIS 300	Management of Information Systems	4.0
Technology elective**		3.0

**Suggested Technology electives include: COM 300 Computer Assisted Journalism, COM 340 Desktop Publishing, INFO 102 Intro to Information Systems, INFO 105 Information Evaluation, Organization and Use, DIGM 150 Overview of Digital Media, FMVD 110 Shooting and Lighting, MIS 341 Micro-computing Technology for Business. Check with the Sport Management program for additional technical elective options.

Electives	27.0 Credits
Free electives***	27.0

*** Students may pursue a minor or take further studies in the sport management area electives.

Writing-Intensive Course Requirements

In order to graduate, all students beginning with the entering class of 2002/01 (fall, 2002) must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog indicates that this course can fulfill a writing-intensive requirement. Departments will designate specific sections of such courses as writing-intensive. Sections of writing-intensive courses are not indicated in this catalog. Students should check the section comments in Banner when registering. Students scheduling their courses in Banner can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term. For more information on writing-intensive courses, see the Drexel University Writing Program's [Writing-Intensive Course](#) page.

Minor in Construction Management

Students in Civil Engineering, Architectural Engineering and Architecture may select to pursue Construction Management as a minor area of study. Because construction is inherently related to design in these disciplines, the Construction Management minor can be a natural extension of each field of study.

The requirements for the minor include:

- completion of a minimum of 24 credits
- courses used to fulfill general education requirements may not be counted toward an academic minor
- up to nine credits earned within the student's major may be counted toward the minor with minor department approval.
- prerequisite courses may be counted toward the minor if recommended by the minor department.

Required courses	Credits
CMGT 161 Building Materials and Construction Management I	3.0
CMGT 162 Building Materials and Construction Management II	3.0
CMGT 361 Contracts & Specifications I	3.0
CMGT 362 Contracts & Specifications II	3.0
CMGT 363 Estimating I	3.0
CMGT 467 Techniques of Project Control	3.0

Two of the following elective courses may be chosen to meet the minor requirements* :

CMGT 261 Construction Safety	3.0
CMGT 263 Understanding Construction Drawing	3.0
CMGT 364 Estimating II	3.0
CMGT 461 Construction Management I	3.0
CMGT 462 Construction Management II	3.0
CMGT 463 Value Engineering I	3.0
CMGT 465 Marketing Construction Services	3.0

* Choice of electives must be approved by the department based on the student's major field and prior experience.

Certain courses within the student's major may also be used to meet the minor requirements. These include:

ARCH 261 Environmental Systems I	3.0
ARCH 262 Environmental Systems II	3.0
CIVE 240 Engineering Economics	3.0
ARCH 161 Architectural Construction*	3.0

* ARCH 161 can be substituted for CMGT 161 for Architects. An elective may be substituted for CMGT 162.
