## The LeBow College of Business

The mission of the [Bennett S. LeBow College of Business](#) is to educate students for successful business and professional careers. At the undergraduate and master's levels, this objective is accomplished by providing high-quality educational programs that integrate theory and practice through a combination of academic coursework and complementary professional work experience. Our highly regarded co-operative education program, in which students interchange periods of academic study and full-time, off-campus employment with partner companies, sets us apart from other business schools. At the Ph.D. level, our programs provide both a rigorous understanding of the disciplines of business and the research skills that enable exploration and discovery of new knowledge within those disciplines.

The vitality of all our academic programs is maintained by the scholarship of the College's distinguished faculty. The College is committed to advancing the science and practice of management through basic, applied, and instructional research in the various disciplines of business.

The College and its faculty maintain strong connections to business professions and the community through participation in professional organizations, a commitment to community service, and dedication to providing opportunities for lifelong learning.

### Goals of the Bachelor of Science in Business Administration Program

The Bachelor of Science in Business Administration program is designed to prepare students for managerial positions in business and other institutions. To accomplish this, the undergraduate curriculum has the following characteristics and goals:

- *An early exposure to the structure and functions of business enterprises*
- *The bridging of theory and concepts with professional practice*
- *The integration of material across disciplines within business as well as between business and other fields*
- *The enhancement of effective communication, problem-solving, and interpersonal skills*
- *Coverage of the ethical issues inherent in a business setting*
- *Coverage of the global, political, social, and legal/regulatory environment in which businesses operate*
- *Coverage of the impact of technology and technological changes on the operation of the business enterprise*
- *An emphasis on career preparation*
- *Opportunities for experiential learning through traditional co-op programs*

*and other "hands-on" opportunities*

### **Goals of the Bachelor of Science in Business and Engineering Program**

The Business and Engineering Degree Program contains a broad-based business and engineering curriculum, enabling graduates to work successfully in technically oriented business positions. Students complete a set of broad functional business core courses along with a firm foundation in science, mathematics, and engineering. Students also study more deeply the areas of operations management, entrepreneurship, finance, and marketing, while also studying the functional areas of engineering. Graduates of this program will be well prepared to participate in innovative technological efforts in business.

The Business and Engineering Degree Program gives students the opportunity to learn important concepts in functional business areas such as accounting, economics, finance, information systems, law, marketing, organizational behavior, operations, and statistics.

The Business and Engineering Degree Program gives students the opportunity to:

- *Learn important concepts in functional business areas such as accounting, economics, finance, information systems, law, marketing, organizational behavior, operations, and statistics.*
- *Study in more depth the areas of operations, entrepreneurship, finance, management, marketing and other functional business areas.*
- *Complete a broad education in engineering disciplines after completing a firm foundation in science and mathematics.*
- *Develop skills in technical communication and critical reasoning.*
- *Study ethical issues faced by managers and engineers, and understand technology from a historical perspective.*
- *Apply acquired skills in two co-op work experiences to further enhance their knowledge base.*
- *Study entrepreneurship from a management and finance perspective for preparation in innovative technological efforts.*
- *Learn the operational aspects of business operations to improve the functioning of technically oriented businesses*

### **Goals of the Bachelor of Science in Economics Program**

The Bachelor of Science in Economics program is designed to provide students with an understanding of the market system, as well as economic institutions, policies and development. In addition to this deep coverage of economics, the major includes liberal arts and sciences requirements. The program is flexible, allowing the student to customize the curriculum and choose areas of emphasis ranging from political economy to mathematical economics, as well as to select a coordinating field from other majors and minors at Drexel.

## The LeBow College of Business

### Degree Requirements

All Business Administration curriculum require a minimum of 180 credits. All Business & Engineering curriculum require a minimum of 185.5 credits. The Economics curriculum require a minimum of 187 credits. The courses in each curriculum may be grouped into three categories:

#### *General Education*

The liberal arts comprise 50 percent or more of total credits required. Courses in communications, economics, English, history, mathematics, natural science, political science, psychology, sociology, and statistics teach students to think effectively and to communicate ideas to others. In addition, they provide a good understanding of the economic, social, and political systems within which we live and business operates.

#### *Common Body of Knowledge in Business*

Courses in accounting, business strategy and social responsibility, finance, law, organizational behavior, management information systems, production management, and marketing introduce students to all the functional areas of business, the quantitative aspects of decision-making, and the behavioral factors common to all organizational structures.

#### *Specialization (BSBA & BSB&E) or Coordinated Field (BSECON)*

The curriculum permits a limited degree of specialization in a student-chosen area of concentration. The area of concentration and the common body of knowledge in business together comprise not more than 50 percent of the total credits required for graduation. In the Economics program, students must select a non-business coordinated field to augment the general education and economics course work.

#### *Writing-Intensive Course Requirements*

In order to graduate, all students beginning with the entering class of 2002/01 (fall, 2002) must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog indicates that this course can fulfill a writing-intensive requirement. Departments will designate specific sections of such courses as writing-intensive. Sections of writing-intensive courses are not indicated in this catalog.

## The LeBow College of Business

### Special Programs

The College's *Drexel in London Program* offers flexible schedules for study abroad, ranging from six-week summer sessions to six-month (two-term) combined study and co-operative education programs in which students can earn up to 18 credits and fulfill one of their co-op requirements. The program's emphasis is on international business in general, with a particular focus on the United Kingdom and the European Union. Business course selections each year will be selected from the list of courses that constitute the international business concentration, but students in other concentrations may participate in the program. Housing is provided in South Kensington, one of central London's most desirable residential sections. Drexel in London applications are administered by the Study Abroad office, 215-895-1704.

LeBow College's [My LIFEfolio](#) is a Web-based portfolio that enables students to connect introductory course material to upper level classes. Beginning in freshman year, My LIFEfolio students build an integrated academic experience as they progress through the LeBow curriculum. The four electronic portfolios that comprise My LIFEfolio—business concentration, career, writing and quantitative reasoning—allow students to store information, reflect on what they have learned, and understand how that knowledge has impacted their beliefs, attitudes and personal development.

[Co-operative education](#), academic eligibility requirements, acceptance of transfer students, and placement services are described in detail in other sections of this catalog.

Students wishing to prepare for admission to professional schools may obtain preprofessional counseling from the Office of Preprofessional Programs, 215-895-2437.

The LeBow College of Business offers graduate work leading to the degrees of Master of Business Administration, Master of Science, and Doctor of Philosophy. Certificate programs are also offered. Undergraduate students may not enroll in graduate-level courses. Please see the [graduate catalog](#) for full details of all graduate curricula. For additional information, please contact the [LeBow College of Business](#).

## Business Administration

The Business Administration curriculum, accredited by AACSB International, the Association to Advance Collegiate Schools of Business, underscores the College's commitment to educate tomorrow's leaders in business with a broad-based education to enhance intellectual development, develop strong business capabilities, and cultivate leadership skills through citizenship and community engagement.

The curriculum provides an excellent broad-based foundation while continuing to allow for dual [concentrations](#) and [minors](#).

The co-operative four-year and five-year curricula offer a balanced program of general education, studies in the common body of knowledge, and an area of concentration in one or more of the functional fields of business. Students have the advantages of the co-operative education plan with alternating terms in industry and classes after the freshman year.

The course content of the non-co-operative four-year curriculum is the same as that of the five-year program. The curriculum is offered for those students who wish to complete their education in a four-year period without the benefits of co-op experiences

For more information about this major, visit [LeBow College Bachelor of Science in Business Administration](#) page.

## Accounting

Accounting produces information for making decisions about organizations. The LeBow College of Business's accounting coursework is designed to provide basic conceptual accounting and business knowledge for careers in accounting and taxation in many settings. Courses cover accounting, auditing, tax preparation, and related topics.

The greatest range of career opportunities are in public, private and government accounting. Professional accountants are normally certified as public accountants (CPA) or managerial accountants (CMA) after passing professional examinations. The University's co-op program provides an advantage to accounting students who plan to practice locally. Time spent working in co-op internship positions as a student is often accepted as part of the two years of accounting experience required for the Certified Public Accountant certificate in Pennsylvania and many other states.

Students planning to take the CPA exam must take additional accounting coursework. Interested students should contact the [Department of Accounting](#) at the beginning of the third year to ensure ample time to fulfill such requirements.

Students interested in pursuing a dual concentration in accounting and finance should contact the department heads.

## Economics

Economics is the study of allocating scarce resources among competing needs. Drexel's Economics concentration is designed for two groups of students: those who wish to prepare for advanced degrees in the field, and those who want a sound business education with a focus on economics. The program places particular emphasis on the application of theory toward the solution of particular problems in such areas as international trade, money and finance, consumer activities, economic development, and other areas.

For permission to substitute other courses for those listed, students should see the department head. For more information about this concentration, contact the [Department of Economics and International Business](#).

## Entrepreneurship

Entrepreneurs and the new ventures they create fuel the economy. Entrepreneurs recognize market opportunities that others fail to see. A thriving population of entrepreneurs is essential to progress. Drexel's tradition of technological excellence and entrepreneurial spirit provide LeBow with an opportunity to offer a distinctive *interdisciplinary* entrepreneurship curriculum in the Philadelphia region. Our entrepreneurship faculty bring a unique blend of research, experiences and teaching in this area. In addition, LeBow is able to integrate the resources and offerings of the [Baiaada Center for Technology Entrepreneurship](#) into our curriculum.

The concentration in entrepreneurship provides students with a required hands-on experience to study and work at the *Baiaada Center for Technology Entrepreneurship*. Moreover, the curriculum includes courses in finance, law and marketing that are geared toward the issues in entrepreneurship.

## Finance

Throughout the finance curriculum, students develop and apply quantitative skills for financial decision making within the business environment.

The concentration prepares students for careers in private business firms, including positions involving forecasting and budgeting for financial resources, cost-effectiveness analysis, control of expenditures, evaluation and financing of new projects, and evaluation of alternative methods of financing; in the investment field, including positions in banks, brokerage houses, and financial institutions that participate in the various money and capital markets; and in the public sector, including positions at the federal, state, and local government levels.

For more information about the concentration, contact the [Department of Finance](#).

## Finance

All core mathematics and statistics courses should be completed before embarking on the finance concentration. Because of the relevance of financial accounting to the field of finance, it is strongly recommended that finance students complete ACCT 321 and ACCT 322 (Financial Accounting I and II) as two of their free electives.

Required courses		24.0 Credits
<a href="#">FIN 302</a>	Intermediate Corporate Finance	4.0
<a href="#">FIN 321</a>	Investment Securities and Markets	4.0
<a href="#">FIN 325</a>	Financial Institutions and Markets	4.0
<a href="#">FIN 340</a>	Seminar in Finance	4.0

Students select two of the following courses:

<a href="#">FIN 323</a>	Risk Management	4.0
<a href="#">FIN 330</a>	Derivative Securities	4.0
<a href="#">FIN 332</a>	Investment Analysis	4.0

## General Business Concentration

### General Business Concentration

This option is provided for those students who do not want to specialize in any one area but want a more extensive exposure to all the various areas of business.

The total credits required for this concentration is 24.0 for Business Administration majors.

Students selecting the General Business Concentration should choose six courses from at least five of the following fields: accounting (ACCT), economics (ECON), finance (FIN), human resource management (HRMT), international business (INTB), legal studies (BLAW), management (MGMT), marketing (MKTG), management information systems (MIS), business statistics (STAT), and operations management (OPM).

## International Business

International business focuses on business activities that cross national borders. The plan of study explores the international business environment as well as the internal workings of international corporations and the impact of international considerations on the various functional areas of business.

The international business concentration allows students to choose from a menu of courses. The curriculum is interdisciplinary, with courses drawn from across business disciplines and anthropology. Specialized operational courses are offered, along with more general theoretical and comparative ones.

Since half of all international business is conducted in English, foreign languages are not a required component of the program; however, students should strongly consider a second or even third language.

For more information about this concentration, contact the [Department of Economics and International Business](#).

## International Business

*Stand-Alone Concentration Option: 24.0 credits*

Students completing the stand-alone concentration in International Business are required to complete six courses in the same language (a language other than the student's native language) at Drexel University. It is recommended that students also take a 351 language course, focusing on the language of business. This requires a minimum of 21 credits of language study at the college level, including proficiency in at least one language.

Students may satisfy the language requirement through foreign language course replacement by studying overseas. All study abroad programs must be approved by the [Study Abroad Office](#).

Required courses	Credits
<a href="#">INTB 440</a> Senior Seminar in International Business	4.0
<b>Students select a minimum of three from following courses:</b>	
<a href="#">ACCT 336</a> Introduction to International Accounting	4.0
<a href="#">BLAW 340</a> International Business Law	4.0
<a href="#">FIN 346</a> Global Financial Management	4.0
<a href="#">MKTG 357 WI</a> International Marketing	4.0
<a href="#">MGMT 452</a> Global Management Strategy and Practices	4.0
<b>Students select a maximum of two from following courses:</b>	
<a href="#">INTB 332 WI</a> Multinational Corporations	4.0
<a href="#">INTB 334</a> International Trade	4.0
<a href="#">INTB 336</a> International Money and Finance	4.0

## International Business

*Co-Concentration Option: 24.0 credits*

This concentration offers two options: Option (A), which includes study for competency in a language other than English (and other than the student's native language); and Option (B), which substitutes further training in a relevant business discipline or functional field instead of the language courses.

**Students select six of the following courses:**

<a href="#">ACCT 336</a>	<b>Introduction to International Accounting</b>	4.0
<a href="#">ANTH 312</a>	<b>Approaches to Intercultural Behavior</b>	3.0
<a href="#">BLAW 340</a>	<b>International Business Law</b>	4.0
<a href="#">ECON 342</a>	<b>Economic Development</b>	4.0
<a href="#">ECON 344</a>	<b>Comparative Economic Systems</b>	4.0
<a href="#">FIN 346</a>	<b>Global Financial Management</b>	4.0
<a href="#">INTB 332 WI</a>	<b>Multinational Corporations</b>	4.0
<a href="#">INTB 334</a>	<b>International Trade</b>	4.0
<a href="#">INTB 336</a>	<b>International Money and Finance</b>	4.0
<a href="#">INTB 338 WI</a>	<b>Regional Studies in International Business and Economic Policy</b>	4.0
<a href="#">INTB 440</a>	<b>Senior Seminar in International Business</b>	4.0
<a href="#">MKTG 357 WI</a>	<b>International Marketing</b>	4.0

**In addition to the courses listed above, students must select to complete the requirements for any one of the following concentrations:**

- [Economics](#)
- [Finance](#)
- [Marketing](#)
- [Management Information Systems \(MIS\)](#)
- [Accounting](#)
- [Operations Management](#)

## Legal Studies

Law is pervasive in all aspects of business and life. Legal Studies provides Drexel University students with the ability to recognize the influence of the law, understand its application and make informed and intelligent decisions regarding the course of action to take.

Students will learn the basics of various areas of the law and the legal environment of business and will learn to identify the factual situation in which to apply that law. They will be able to analyze the facts, determine which aspects of the law are pertinent, apply that to those facts, and draw a conclusion. Clarity of thought, reasoning and expression (both oral and written) are additional results of this process.

Emphasis is on critical thinking as a tool for problem solving, so that whatever the discipline, students will be able to identify and prevent possible problems or seek proper and timely assistance for critical decision making.

For more information about the concentration, contact the [Department of Legal Studies](#).

## Management Information Systems

The Management Information Systems (MIS) concentration prepares students for many opportunities in the information technology field and business. These include careers as managers of computer service units, or applications staff members supporting computer-using organizations. Aimed at producing graduates who bridge the gap between technical knowledge and business functions, the program focuses on a mix of applied computer systems content, interpersonal interaction, and a practical business orientation.

While administered by the [Department of Management](#), the concentration in management information systems is interdisciplinary in nature. The courses may be taken by students in other colleges and departments who wish to complement other computer-related studies with business-oriented information systems subjects.

Drexel is a particularly exciting place to pursue any computer-oriented major. Drexel made history as the first university in the nation to require every student to have access to a personal computer. Today, Drexel's leadership continues with academic software development and major investments in the information infrastructure. Drexel University is a campus where computers are an integral part of all education, not just computer courses.

## Marketing

Marketing is one of the most dynamic areas of business because it focuses on satisfying the ever-changing wants and needs of people. Professional marketers research and identify target audiences, develop products and services, formulate pricing strategies, develop advertising and promotional campaigns, and implement methods of distribution so that customers receive products and services where and when they want them. Perhaps the most basic marketing skill is to be able to see your own organization's activities from the customer's viewpoint.

A concentration in marketing prepares students for the many opportunities that exist in product and brand management, marketing research, advertising, retailing, channel management, logistics and physical distribution, professional personal selling and sales management, purchasing, wholesaling, marketing planning and analysis, public relations, marketing entrepreneurship, and new-product development. In combination with the commerce and engineering curriculum, this concentration prepares students to fill marketing positions that require a technical background.

For more information about the concentration, contact the [Department of Marketing](#).

## Business and Engineering

### About the Program

The [Business and Engineering Degree Program](#) contains a broad-based business and engineering curriculum, enabling graduates to work successfully in technically oriented business positions. Students complete a set of broad functional business core courses along with a firm foundation in science, mathematics, and engineering. Students also study more deeply the areas of operations management, entrepreneurship, finance, and marketing, while also studying the functional areas of engineering. Graduates of this program will be well prepared to participate in innovative technological efforts in business.

The Business and Engineering Degree Program gives students the opportunity to learn important concepts in functional business areas such as accounting, economics, finance, information systems, law, marketing, organizational behavior, operations, and statistics.

### Mission

The Business and Engineering Degree Program gives students the opportunity to:

- Learn important concepts in functional business areas such as accounting, economics, finance, information systems, law, marketing, organizational behavior, operations, and statistics.
- Study in more depth the areas of operations, entrepreneurship, finance, management, marketing and other functional business areas.
- Complete a broad education in engineering disciplines after completing a firm foundation in science and mathematics.
- Develop skills in technical communication and critical reasoning.
- Study ethical issues faced by managers and engineers, and understand technology from a historical perspective.
- Apply acquired skills in two co-op work experiences to further enhance their knowledge base.
- Study entrepreneurship from a management and finance perspective for preparation in innovative technological efforts.
- Learn the operational aspects of business operations to improve the functioning of technically oriented businesses.

### About the Business Concentrations

Although students are not required to complete a [business concentration](#) under the revised curriculum, they will have the ability to complete any of the concentrations that are currently offered to students pursuing a Bachelor of Science in Business Administration. Concentrations in General Business, Entrepreneurship, and Operations Management can be completed within the 185.5 credit requirement; other concentrations will require students to take more than 185.5 credits.

<a href="#">MGMT 365</a>	Business Planning for Entrepreneurs	4.0

<b>Finance</b>	<b>4.0</b>
----------------	------------

#### One of the following courses:

<a href="#">FIN 302</a>	Intermediate Corporate Finance	4.0
<a href="#">FIN 335</a>	Entrepreneurial Finance	4.0

<b>Marketing</b>	<b>4.0</b>
------------------	------------

#### One of the following courses:

<a href="#">MKTG 326</a>	Marketing Research	4.0
<a href="#">MKTG 347</a>	New Product Development and Marketing	4.0

<b>Business electives</b>	<b>12.0</b>
---------------------------	-------------

Three courses selected from one or more [Business Concentrations](#).

<a href="#">ENGR 220</a>	Fundamentals of Materials	4.0
--------------------------	---------------------------	-----

**Engineering Elective A****Three of the following courses:**

<a href="#">CHE 201</a>	Process Material Balances	3.0
<a href="#">ECE 200</a>	Digital Logic Design	3.0
<a href="#">MATE 221</a>	Introduction to Mechanical Behavior of Materials	3.0
<a href="#">MEM 202</a>	Engineering Mechanics: Statics	3.0
<a href="#">CAEE 201</a>	Introduction to Infrastructure Engineering	3.0
<a href="#">BMES 221</a>	Engineering Principles of Living Systems I	4.0

**Engineering Elective B****One of the following courses:**

<a href="#">CHE 202</a>	Process Energy Balances	3.0
<a href="#">ECE 201</a>	Foundations of Electric Circuits	3.0
<a href="#">MEM 201</a>	Fundamentals of Computer Aided Design	3.0
<a href="#">CAEE 210</a>	Measurements in Civil, Arch. & Environmental Engineering 1	3.0
<a href="#">BMES 222</a>	Engineering Principles of Living Systems I	4.0

**One Additional Engineering Elective**

One elective in one of the above engineering disciplines.

*Writing-Intensive Course Requirements*

In order to graduate, all students beginning with the entering class of 2002/01 (fall, 2002) must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog indicates that this course can fulfill a writing-intensive requirement. Departments will designate specific sections of such courses as writing-intensive. Sections of writing-intensive courses are not indicated in this catalog. Students should check the section comments in Banner when registering. Students scheduling their courses in Banner can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term. For more information on writing-intensive courses, see the Drexel University Writing Program's [Writing-Intensive Course](#) page.

## Economics

The economics major is designed to provide students with an understanding of the market system, as well as economic institutions, policies and development. In addition to this deep coverage of economics, the major includes liberal arts and sciences requirements.

The program is flexible, allowing the student to customize the curriculum and choose areas of emphasis ranging from political economy to mathematical economics, as well as to select a coordinating field from other majors and minors at Drexel.

Four-year and five-year co-op programs, as well as a four-year non-co-op option, are available for the economics major. The course content of the non-co-op curriculum is the same as that of the co-op program

For more information about this major, contact the [Department of Economics and International Business](#).

## Minor in Accounting

### Requirements

- A minimum of **24** quarter credits **and** a minimum of **6** courses are required to complete this minor.
- No more than 2 courses or 8 credits (or 3 courses and 9 credits if classes were taken under the “old curriculum”) required by a student’s major may be counted towards this minor.
- A grade of “C” (2.0) or better must be earned for each course in this minor for it to be counted.
- No more than two transfer courses may be used to complete this minor. Transfer credits must be taken before matriculated at Drexel.
- Students in the process of completing a degree granting program out of the Goodwin College of Evening and Professional Studies, (BS or BSCOEPS), may enroll in 700 sections of the courses they choose that meet the minor requirements. All other students in the process of completing a degree granting program from other colleges/schools within Drexel University must enroll in the 500 sections of the courses they choose that meet the minor requirements.
- Students should check the pre-requisites of all classes when selecting electives. It is the responsibility of the student to know pre-requisites
- Business Administration (BSBA) and Business & Engineering (BSCAE) majors may **not** minor in Accounting, Business, Economics, Entrepreneurship, Finance, International Economics, Legal Studies, Management Information Systems, Marketing and/or Operations Management. BSBA and BSCAE majors interested in these areas should consult with their Academic Advisor.

### Plan of Study

All prospective students should meet with an advisor from the College as soon as possible. Call 215-895-2110 to set up an appointment.

Required courses		24.0 Credits
<a href="#">ACCT 115</a>	Financial Accounting Foundations	4.0
<a href="#">ACCT 116</a>	Managerial Accounting Foundations	4.0

### Students select four of the following courses:

## Minor in Business

The minor in business administration is designed to provide some flexibility while at the same time assuring exposure to a number of critical business functional areas.

Matriculated non-business students who have completed at least 30 credit hours and have a cumulative GPA of 2.0 may apply for an academic minor.

### Requirements

- A minimum of **24** quarter credits **and** a minimum of **6** courses are required to complete this minor.
- No more than 2 courses or 8 credits (or 3 courses and 9 credits if classes were taken under the "old curriculum") required by a student's major may be counted towards this minor.
- A grade of "C" (2.0) or better must be earned for each course in this minor for it to be counted.
- No more than two transfer courses may be used to complete this minor. Transfer credits must be taken before matriculated at Drexel.
- Students in the process of completing a degree granting program out of the Goodwin College of Evening and Professional Studies, (BS or BSCOEPS), may enroll in 700 sections of the courses they choose that meet the minor requirements. All other students in the process of completing a degree granting program from other colleges/schools within Drexel University must enroll in the 500 sections of the courses they choose that meet the minor requirements.
- Students should check the pre-requisites of all classes when selecting electives. It is the responsibility of the student to know pre-requisites
- Business Administration (BSBA) and Business & Engineering (BSCAE) majors may **not** minor in Accounting, Business, Economics, Entrepreneurship, Finance, International Economics, Legal Studies, Management Information Systems, Marketing and/or Operations Management. BSBA and BSCAE majors interested in these areas should consult with their Academic Advisor.

### Plan of Study

All prospective students should meet with an advisor from the College as soon as possible. Call 215-895-2110 to set up an appointment.

## Minor in Entrepreneurship

The minor in Entrepreneurship is designed for students from a range of backgrounds who are interested in starting their own ventures, working for start-up companies, or pursuing traditional jobs with large corporations and consulting firms that may involve launching new business units, joint ventures, and creating strategic alliances.

The curriculum draws upon Drexel University's tradition of technological excellence and the offerings of the [Baiada Center for Technology Entrepreneurship](#). Coupled with the student co-op experience, the program provides a distinctive curriculum that may encompass real entrepreneurial issues.

### Requirements

- A minimum of **24** quarter credits **and** a minimum of **6** courses are required to complete this minor.
- No more than 2 courses or 8 credits (or 3 courses and 9 credits if classes were taken under the "old curriculum") required by a student's major may be counted towards this minor.
- A grade of "C" (2.0) or better must be earned for each course in this minor for it to be counted.
- No more than two transfer courses may be used to complete this minor. Transfer credits must be taken before matriculated at Drexel.
- Students in the process of completing a degree granting program out of the Goodwin College of Evening and Professional Studies, (BS or BSCOEPS), may enroll in 700 sections of the courses they choose that meet the minor requirements. All other students in the process of completing a degree granting program from other colleges/schools within Drexel University must enroll in the 500 sections of the courses they choose that meet the minor requirements.
- Students should check the pre-requisites of all classes when selecting electives. It is the responsibility of the student to know pre-requisites
- Business Administration (BSBA) and Business & Engineering (BSCAE) majors may **not** minor in Accounting, Business, Economics, Entrepreneurship, Finance, International Economics, Legal Studies, Management Information Systems, Marketing and/or Operations Management. BSBA and BSCAE majors interested in these areas should consult with their Academic Advisor.

### Plan of Study

All prospective students should meet with an advisor from the College as soon as possible. Call 215-895-2110 to set up an appointment.

**Required courses****24.0 Credits**

<a href="#">ACCT 120</a>	<b>Accounting Essentials for New Ventures</b>	4.0

## Minor in Operations Management

### Requirements

- A minimum of **24** quarter credits **and** a minimum of **6** courses are required to complete this minor.
- No more than 2 courses or 8 credits (or 3 courses and 9 credits if classes were taken under the "old curriculum") required by a student's major may be counted towards this minor.
- A grade of "C" (2.0) or better must be earned for each course in this minor for it to be counted.
- No more than two transfer courses may be used to complete this minor. Transfer credits must be taken before matriculated at Drexel.
- Students in the process of completing a degree granting program out of the Goodwin College of Evening and Professional Studies, (BS or BSCOEPS), may enroll in 700 sections of the courses they choose that meet the minor requirements. All other students in the process of completing a degree granting program from other colleges/schools within Drexel University must enroll in the 500 sections of the courses they choose that meet the minor requirements.
- Students should check the pre-requisites of all classes when selecting electives. It is the responsibility of the student to know pre-requisites
- Business Administration (BSBA) and Business & Engineering (BSCAE) majors may **not** minor in Accounting, Business, Economics, Entrepreneurship, Finance, International Economics, Legal Studies, Management Information Systems, Marketing and/or Operations Management. BSBA and BSCAE majors interested in these areas should consult with their Academic Advisor.

### Plan of Study
