Accounting Courses

ACCT 601 Managerial Accounting

Discusses management accounting as part of the firm's information system, drawing on modern cost accounting and budgeting systems for planning and controlling business operations.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Accounting

ACCT 620 Asset Val Income Recognition

Provides the necessary background to continue advanced study and research. Includes intermediate theory in the areas of asset valuation and revenue and expense determination.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Accounting

ACCT 621 Liability and Equity Valuation

Provides an in-depth study of evaluation of liabilities and owner's equity, related expense recognition, and financial statement preparation and analysis.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Accounting

ACCT 622 Advanced Financial Accounting

Studies concepts and procedures related to business combinations, consolidated financial statements, foreign currency translation, and other selected topics.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Accounting

ACCT 623 Financial Accounting Theory

Provides intensive study of the theoretical concepts underlying the various elements of financial statements.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Accounting

ACCT 631 Advanced Managerial Accounting

Examines recent advances in cost management, applies strategic cost management principles to practical situations, and provides an appreciation of the importance of accounting information in managerial decision-making and planning.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Accounting

ACCT 636 Int'l Acctg & Fin Stmt Analys

Examines the accounting function from an international perspective, focusing on the differences in accounting and reporting practices that exist internationally, reasons for the differences, and their effect on the efficiency of the global capital market.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Accounting

ACCT 640 Auditing Theory & Philosophy

Covers theory and concepts underlying financial audits, including the auditor's role in society, concepts of professional ethics and legal liability, application of underlying concepts to audits of financial

statements, and auditors' reports.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Accounting

ACCT 650 Accounting Information Systems

Examines the relationships and distinctions between accounting information systems (AIS) and the total management information system, with major emphasis on computerized AIS.

Credits: 3.00

College: Bennett S. LeBow Coll. Of Bus.

Department: Accounting

ACCT 698 Special Topics

See department for course description.

Credits: 0.50 to 9.00

College: Bennett S. LeBow Coll. of Bus.

Department: Accounting

ACCT 699 Independent Study Independent Study

Credits: 0.50 to 4.00

College: Bennett S. LeBow Coll. of Bus.

Department: Accounting

ACCT 790 Seminar in Accounting

Examines selected accounting topics from the standpoint of historical background, current theory, and future application to financial reporting. Requires oral and written reports.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Accounting

ACCT 910 Research Methods in Accounting

Provides in-depth analysis of the application of research methodologies in accounting.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Accounting

ACCT 921 Empirical Research in Acct I

An introduction to empirical research concerning financial accounting and the capital markets.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Accounting

ACCT 922 Empirical Research in Acct II

This course builds upon the material in ACCT 921 and examines topics in empirical research in financial accounting and the capital markets.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Accounting

ACCT 931 Behavioral Research in Acct I

Seminar involving an in-depth analysis and critique of the experimental design, conclusions, use and choice of subjects, and statistical techniques of judgment and decision-making in accounting.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Accounting

ACCT 932 Behavioral Research in Acct II

Seminar involving an in-depth coverage of accounting research utilizing experimentation designs to examine issues such as instrument development.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

ACCT 990 Special Topics-PhD Accounting
Credits: 0.50 to 9.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

ACCT 998 Dissertation Research Acct
Credits: 1.00 to 12.00
College: Bennett S. LeBow Coll. of Bus. Department: Accounting

Business Statistics Courses

STAT 601 Business Statistics
This course covers the basic principles and implementation techniques of analysis of variance, simple and multiple regression analysis, and statistical process control.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

STAT 602 Decision Sciences I Concentrates on the application of quantitative decision-making models to significant problem situations in business and government.
Credits: 0.00 to 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

STAT 622 Statistical Decision Theory I Covers philosophy and concepts of Bayesian decision techniques; diagramming decision situations; defining decision strategies; minimax, maximin, and expected value principles; measures of utility; value of additional information; and optimum sample size.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

STAT 624 Statistical Decision Theory II Continues BSTAT 622. Applies principles and techniques of statistical decision theory to case problems.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

STAT 626 Statistical Sampling Covers random processes; sampling frames; properties of estimators; simple random sampling, stratified sampling, cluster sampling, and stratified cluster sampling; ratio estimates; reliability and validity; and construction of survey instruments.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

STAT 628 Regress & Corr Analysis
Covers techniques of simple and multiple linear regression models, including residual analysis, assumption violations, variable selection

techniques, correlated independent variables, qualitative input and output variables, and ridge regression.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

STAT 634 Quality & Six-Sigma
This course covers the current theory and practice in quality, with a focus on Six-Sigma Implementation. Topics will include the dynamic nature of quality and the roles of management in planning and guiding quality efforts.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

STAT 636 Experimental Design
Introduces design of experiments. Covers topics including scientific approach to experimentation, completely randomized designs, randomized complete block designs, Latin square designs, factorial designs, two-factorial designs, and fractional factorials.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

STAT 638 Adv Stat Quality Control
Covers advanced topics in statistical process control. Covers topics including cumulative sum (CUSUM) control charts, exponentially weighted moving average (EWMA) control charts, multivariate control charts, economic design and evaluation of control charts.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

STAT 698 Special Topics
Provides courses in topics of current interest to faculty and students. May be repeated for credit if topics vary.
Credits: 0.50 to 9.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

STAT 699 Independent Study in Quant Mth
Credits: 0.00 to 12.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

STAT 790 Seminar in Management Analysis
Provides independent research on selected management topics. Requires oral presentation and written report of graduate quality.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

STAT 792 Seminar in Quality Science
Provides independent research on selected topics in quality science. Requires oral presentation and written report of graduate quality.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

STAT 901 Quantitative Methods I
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.

Department: Decision Sciences

STAT 902 Quantitative Methods II

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Decision Sciences

STAT 920 Stochastic Processes I

The focus of this course is on the construction of stochastic models for decision problems and the analysis of their properties. The course introduces Markov Chains and the classification of their convergence, and moves on to queuing models.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Decision Sciences

STAT 922 Stat Meths Exper Desgn

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

STAT 924 Multivariate Cont Analysis

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Decision Sciences

STAT 990 Sp Top-PhD-Quant Methods

Credits: 0.50 to 9.00

College: Bennett S. LeBow Coll. of Bus.

Department: Decision Sciences

STAT 998 Dissertation Res in Statistics

Dissertation Research

Credits: 1.00 to 12.00

College: Bennett S. LeBow Coll. of Bus.

Department: Decision Sciences

Economics Courses

ECON 601 Managerial Economics

Covers demand and cost analysis, pricing policies, and selected topics of economic analysis as they relate to business policies.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 610 Microeconomics

Covers consumer and producer behavior, responses to price changes, cost functions, and various market structures, including perfect market competition, monopoly, monopolistic competition, and oligopoly. Applies theories to issues in resource markets.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 614 Macroeconomics

Provides an in-depth analysis of dominant theories behind short-run economic fluctuations and long-run economic growth. Employs both mathematical and graphical tools to discuss determination of output, employment, and price level in the aggregate economy.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 616 Pub Fin Cost Benef Analy

Introduces market failure as a justification for government provision of public goods and regulation. Covers public choice theory and cost-benefit analysis for public expenditure and impact of taxation on efficiency, incidence of taxes.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 630 International Economics

Examines the theoretical principles guiding international trade.

Emphasizes the gains from trade, exchange rates, and balance-of-payments adjustments.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 634 History of Economic Analysis

Traces the development of economic principles and ideas to the present time. Emphasizes the historical changes that have taken place in the frameworks of economic analysis.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 650 Bus Stratgy: Game Thry & Appl

This course discusses business strategy in the context of the "game theory" approach to strategic interaction, with additional tools drawn from industrial organization and economic theory. Alternative approaches to pricing strategy and strategic investment.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 661 Health Economics

Use analytical techniques from microeconomics to analyze the inter-relationship between health care resources, providers, consumers, and markets.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 662 Econ Analysis of Health Sys

Using applies microeconomic models developed in ECON 661, this course analyzes the government's role in health care. Methodology for economic evaluation of health care intervention and analysis of the pharmaceutical industry.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 698 Special Topics Provides courses on topics of current interest

to faculty and students. May be repeated for credit if topics vary.

Credits: 0.00 to 9.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 699 Independent Study - Economics

Credits: 0.50 to 12.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 790 Seminar in Managerial Econ

Requires students to present the results of research on the application of theory to contemporary problems in business economics. Requires oral presentation and written report of graduate quality. Offered alternate years.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 901 Foundations of Econ Analysis

This course covers some of the basic analytical foundations of micro and macro economics. Topics include: constrained optimization, consumer theory, theory of the firm, economic growth, and money and inflation.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 902 Mathematical Economics

The purpose of this course is to provide Ph.D. students with a survey of the basic math tools applied in the study of Microeconomics, Macroeconomics, Econometrics and related areas such as Finance.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 910 Advanced Microeconomics I

This course is intended to introduce the student to a rigorous treatment of Microeconomic Theory. Topics include an introduction to choice theory; the representative consumer's utility maximization problem; and the firm's profit maximization problem.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 911 Advanced Microeconomics II

This course is a continuation of Advanced Microeconomics I. Topics to be covered include competitive markets, oligopoly model, adverse selection, signaling, screening, moral hazard, the principle-agent problem and auctions.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 920 Advanced Macroeconomics I

This course introduces student to the basic tools and structures used in modern macroeconomic research. The course covers basic general equilibrium models of business cycles and growth including two period models: finite horizon models and infinite horizon models.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 921 Advanced Macroeconomics II

This course introduces students to models and techniques used extensively in macroeconomics. While focusing on tools, the course presents and discusses competing theories of monetary aspects of macroeconomic.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 930 Monetary Economics

This course is designed to give students in-depth knowledge of the models used to investigate the interactions between real and monetary factors. Topics covered include short-run real effects of monetary policy, the credit channel of money, and types and

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 940 Econometrics I

This course is an introduction to applied econometric techniques beyond Ordinary Least Squares (OLS). Many of the questions that arise in economics cannot be studied using linear estimation methods.

Nonlinear estimation techniques will be presented with

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 941 Econometrics II

This course examines advanced topics in time-series econometrics and its application to economic/finance research, unit-root tests, bivariate and multivariate co-integration relationships, causality and error correction models, vector autoregression models,

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 950 Industrial Organization I

This course is an introduction to theoretical industrial organization. We will examine how firms interact in markets characterized by imperfect competition.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 951 Industrial Organization II

This course introduces the student to research methods in industrial organization. The primary focus is on the use of empirical analysis, although relevant theoretical papers are discussed.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 952 Health Economics

This course discusses the economics of the health care system including government programs and policies that influence health.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 955 Public Economics

This course discusses the welfare effects of government expenditure programs, taxes, and other policies including their incentive effects on firms and households.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 959 Industrial Organization Sem

This course will be team-taught by Economics faculty members whose research interest lie in the areas of Industrial Organization (theoretical and applied). It will be a continuation of IO-I (theory) and IO-II (applied).

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 960 International Trade

This course provides the student with an understanding of the theory of International Economics and some empirical issues. Topics include: determinants of trade patterns, gains from trade, international factor mobility and factor market distortions.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 961 Empirical International Trade

The purpose of this course is for students to be familiar with a number of important topics and papers in the empirical trade literature.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 962 Open Economy Macroeconomics

This course emphasizes macroeconomic issues and policies in an open-economy setting. Topics covered include: monetary and exchange rate regimes, international capital flows, and current issues in international macroeconomic policy.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 964 Economic Development

This course examines a number of theoretical and empirical issues in economic development of underdeveloped economies, including topics dealing with growth, inequality, human capital, the relationship between international trade and economics development.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 969 International Trade Seminar

This course is the last of a three-course sequence of international trade at the graduate level. The course will be jointly taught by faculty with expertise in theoretical and/or empirical aspects of international trade and public policy.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 979 Open Economy Macro Seminar

The objective of the course is to introduce students to current/relevant topics in open economy macroeconomics (OEM) and international finance (IF) and get them started on their own individual research. The course emphasizes international macroeconomic a

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 980 Game Theory

This course introduces concepts and tools of game theory as they enter into business and economics research. Topics to be covers include Nash equilibrium, games in extensive form and repeated games, together with critical and scholarly controversies about

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 990 Special Topics-PhD-Economics

Credits: 0.50 to 9.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 992 Independent Study

An independent research project conducted under the guidance of a faculty member. May be repeated three times for credit.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

ECON 998 Dissertation Resrch Econ

Credits: 1.00 to 12.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

Finance Courses

FIN 601 Corporate Financial Management

The analysis of corporate investment and financing decisions, including capital budgeting, capital structure, and working capital management.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 602 Advanced Financial Management

Provides an in-depth treatment of long-term financing decisions, including estimation of the cost of capital, financial leverage, dividend policy, and capital structure determination.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 622 Fin Institutions & Markets

Analyzes the economic functions of financial markets and intermediaries. Examines monetary policy formation and its impact on financial markets.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 624 Risk Management

Provides a fundamental understanding of risk and return, modern portfolio theory, asset pricing models, performance evaluation, and the use of derivatives to hedge and manage risk.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 626 Investment Management

Covers theoretical and analytical frameworks used to value securities such as common stocks and bonds.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 635 Entrepreneurial Finance

The purpose of the course is to bring financial management decision, tools and techniques typically applied in corporate contexts into the realm of entrepreneurship.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 640 Mergers and Acquisitions

Covers internal vs. external growth, forces of expansion, analysis of relevant quantitative factors, accounting and tax problems, and forms of expansion.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 642 Bus Conditions & Forecast

Introduces various techniques such as trend analysis, time series analysis, and econometric methods to forecast business fluctuations and financial asset prices.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 648 Intl Financial Mgmt

Uses analytical tools and data to formulate optimal financing and investment strategies in global markets. Analyzes exchange rate determination and international asset price linkages.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 649 Comparative Financial Analysis

The analysis of financial statements for the purposes of valuation and the assessment of creditworthiness and liquidity; financial ratio analysis.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 650 Derivative Securities

The analysis and pricing of derivative securities including futures and options; applications to risk management and portfolio management.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 698 Special Topics

Provides courses in topics of current interest to faculty and students. May be repeated for credit if topics vary.

Credits: 0.50 to 9.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 699 Independent Study in Finance

Credits: 0.00 to 5.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 790 Seminar in Finance

Requires students to present the results of research on the application of financial theory to the establishment of financial policy. Requires oral report and written paper of graduate quality.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 794 Seminar in Investments

Requires students to present the results of research on the application of theory to portfolio management problems.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 920 Doctoral Sem in Asset Pricing

Provides an introduction to techniques used in asset pricing.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 922 Doctoral Sem in Corporate Fin

Covers theoretical and empirical topics in corporate finance.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 924 Doctoral Sem in Financial Mrkt

The course provides a theoretical framework to analyze the behavior of prices in financial markets.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 928 Doc Sem in Fin Econometrics

The course provides econometric techniques for empirical analysis of financial economics.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 990 Special Topics - PhD - Finance

Credits: 0.00 to 9.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

FIN 998 Diss Research: Finance

Credits: 1.00 to 12.00

College: Bennett S. LeBow Coll. of Bus.

Department: Finance

General Business Courses

BUSN 600 1-Year MBA Seminar

Credits: 0.00

College: Bennett S. LeBow Coll. of Bus.

College: Bennett S. LeBow Coll. of Bus.

Department: Management

International Business Courses

INTB 620 Intl Business Mgmt

Examines decision-making in international business operations, including evaluation of role and policies of the multinational firm. Covers topics including community relations, labor relations, and personnel and financial management.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

INTB 632 Econ Anal Multinational Corps

Analysis of MNCs as an economic unit. Explores the determinants of organizational structure expansion strategies, and R&D strategies of multinational corporations. Impact of MNCs on competitiveness, technology transfer, and trade policy.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

INTB 698 Special Topics Intl Business

Credits: 0.00 to 12.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

INTB 699 Independent Study

Credits: 0.50 to 4.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

INTB 790 Seminar in Intl Business

Requires students to present the results of research on the application of theory to contemporary economic, political, and social problems as they affect U.S. business operations abroad. Requires oral presentation and written report of graduate quality.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Economics

Legal Studies Courses

BLAW 620 Legal Aspects of Employment

Examines and analyzes legal aspects of employment as governed by law and judicial decisions, including labor standards, workers' compensation, employment law and employment practices, and employer and employee rights.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Legal Studies

BLAW 624 Social Forces and the Law

Analyzes the social, economic, and moral forces shaping the legal environment of business, including environmental problems, consumer protection, civil rights, and equal opportunity.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Legal Studies

BLAW 630 Government and Business

Examines the constitutional questions regarding the relationship between business and various levels of government in the United States.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Legal Studies

BLAW 646 Legal Issues in New Ventures

This course is intended to address the various legal and ethical issues that confront individuals and companies in starting up new ventures, either within an existing company or a new start-up company.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Legal Studies

BLAW 698 Special Topics

Provides courses in topics of current interest to faculty and students.

May be repeated for credit if topics vary.

Credits: 0.50 to 4.00

College: Bennett S. LeBow Coll. of Bus.

Department: Legal Studies

BLAW 699 Independent Study

Provides independent study in Legal Studies.

Credits: 0.50 to 4.00

College: Bennett S. LeBow Coll. of Bus.

Department: Legal Studies

BLAW 790 Seminar Govt & Business

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Legal Studies

Management Courses

MGMT 602 Managing Technol Innovation

This course focuses on the role of technology and innovation in building, sustaining and leveraging competitive advantage for firms. It examines how industries are transformed by new technologies of technology.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 650 Corporate Venturing

This course will examine how organizations can create and sustain capacity for entrepreneurship and better manage the innovation process.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 652 New Venture Planning

Students draw on their entire business education and practical experience and bring it to bear upon a plan for launching a new venture. Working in small teams, students research a new project or service; prepare marketing, sales and operation plans; and

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 653 Practicum in Entrepreneurship

This course provides student with real experiences in the realm of entrepreneurship under the guidance and direction of the Baiada Center in Technology Entrepreneurship.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 670 Business Ethics

Presents several frameworks by which to view ethics and decision-making. Links theory and practice through the study of business ethics as it relates to a variety of management issues. Focuses on the individual, the organization, and the system. Includes

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 680 Exec Ldrship: Substnc & Style

Focuses on analysis and critique of cases by student teams, the professor, and visiting business and governmental leaders, which in turn opens the way for freewheeling exchanges between visitors and students on experiences and principles of leadership.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 685 Implementing Strategies w/Proj

Implementing Strategies Using Project Teams. Covers the role of the project team manager and the skills necessary to implement projects successfully in a team-based environment.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 699 Independent Study

Credits: 0.00 to 4.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 790 Seminar in Management

Provides independent research on selected management topics.

Requires oral presentation and written report of graduate quality.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 901 Research Desgn & Method I

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 902 Research Desgn & Method II

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 903 Research Analy Behavioral Sci

Research Analysis in Behavioral Science. The objective of this course is to introduce students to methodologies and analytical techniques that are important for carrying out behaviorally-oriented research in business disciplines.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 904 Behavioral Science

This course is a survey doctoral seminar of selected topics in the behavioral sciences that have generated much research interest within business disciplines, such as consumer behavior, behavioral accounting, economics, and finance.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 905 Adv Research in Behavioral Sci

This is a seminar course in advanced research methods. It included attention to philosophical questions, to political and ethical issues, and to practical matters of method and technique.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 910 Readings in Strategic Mgmt

This course introduces students to many of the major theoretical approaches and debates in strategic management. This course supplies a roadmap for students to roam the terrain of organization theory and gear up to generate original research ideas.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 926 Strategy Formulation

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 930 Seminar in HR Management

This Ph.D. seminar is designed to introduce and familiarize students with the HRM research literature. Emphasis is places in the areas of staffing (recruitment, selection, turnover & planning), compensation, and EEO/Affirmative Action/Diversity.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 940 Seminar in Org Behavior

This course provides a critical review of significant concepts within the field of organizational behavior. The course starts with individual behaviors concepts such as work motivation, job design, and work attitudes, and turns to group processes and leaders.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 950 Technology and Strategy

The purpose of this seminar is to introduce Ph.D. students to the disciplines of Technology Management and Strategic Management. Since the two disciplines cover a broad area of various research streams, the focus is on the most essential research streams

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 960 Cognitive Persp on Strategy

This course focuses on the emerging stream of literature on the cognitive aspects of strategy. Specifically, the course deals with theoretical and empirical works of the knowledge-based views of markets, competition, resources and capabilities.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 990 Special Topics-PhD-Management

Credits: 0.50 to 9.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MGMT 998 Dissertation Resrch Mgmt

Credits: 1.00 to 12.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

Management Information Systems

MIS 611 Management Information Sys

Provides students with an understanding of current information technology. Emphasizes the state and application of current technology in addressing business problems and the opportunities now and in the future.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MIS 620 Telecommunications Management

Focuses on the media, topologies, protocols, and devices used in LANs, WANs, and Campus Area Networks. Covers data communications

hardware, software, media, and topologies. Examines how networks are used to support business processes.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MIS 624 E-Commerce Systems I

Examines concepts of the information systems development lifecycle and methods for analyzing user information requirements. Focuses on structured techniques for designing a system, managing its development and testing, and performing feasibility analyses.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MIS 630 Interact Decision Support Sys

Examines the theory of DSS for use in supporting managerial decision making. Also discusses EIS, KBS, data mining, and data warehousing. Describes the benefits of online analytical processing (OLAP) to the organization and how they can be measured.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MIS 632 Database Analy & Dsgn Business

Focuses on database analysis and design for a wide range of business functions. Stresses the fundamentals of sound logical database design using techniques such as entity/relationship modeling.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MIS 641 MIS Policy and Strategy

Ties together concepts from all areas of management and the economic, behavioral, functional, and technical aspects of MIS. Defines overall and context-specific information needs of organizations and focuses on the role of MIS in meeting these needs.

Credits: 0.00 to 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MIS 650 Mgmt of Health Care Info Sys

This course explores the concepts, design, and application of the management of information systems in the modern healthcare environment.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MIS 698 Sp Topics-Mgmt Info Sys

Provides courses in topics of current interest to faculty and students. May be repeated for credit if topics vary.

Credits: 0.50 to 9.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MIS 699 Independent Study Independent Study

Credits: 0.50 to 6.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MIS 901 Research Seminar in MIS

This course provides an introduction to research in the fields of Management Information Systems. It covers classic journal articles in the field, various research methods, and provide a perspective in a major research project during the course.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MIS 910 Qual Research Methods in MIS

This course is designed as an introductory seminar on qualitative research as it is used in the fields of information systems.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MIS 920 MIS Adoption & Internalization

The objective of this course is to provide doctoral students with a solid foundation in information systems research based on readings and in the area of IS adoption and internalization.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MIS 930 MIS Implementation Management

This course reviews key articles about MIS implementation management, identify key theories, appropriate research methodologies, and guide students in writing a research proposal on MIS implementation.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MIS 940 Economics of IT and E-Commerce

This seminar looks at research issues in information technologies and systems through applying relevant theories and methods from economics.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

MIS 990 Sp Topics-PhD-MIS

Credits: 0.50 to 9.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

Marketing Courses

MKTG 601 Marketing Strategy & Planning

Emphasizes application of strategic planning in marketing to achieve competitive advantage. Examines the role of strategic planning in developing effective marketing programs that enhance the overall performance of the firm.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Marketing

MKTG 622 Buyer Behavior Theory

Provides an interdisciplinary study of the theories and research of buyer behavior. Draws on concepts from marketing, anthropology, psychology, sociology, and economics and their application for marketing managers.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.
Department: Marketing

MKTG 624 Channels Distrib Mgmt

Applies marketing channel theory and research to the design of channel systems, selection of intermediaries, administration of interorganizational channels, and evaluation of distribution performance.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.
Department: Marketing

MKTG 628 Logistics & Supply Chain Mgmt

Designed around the shifting characteristics of technology and population movement. Provides the theoretical basis for analyzing freight and passenger demand, facilities, and operations.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.
Department: Marketing

MKTG 630 Global Marketing

Covers concepts, principles, and practices of international marketing management. Studies cross-cultural differences and distribution systems, pricing methods, promotional methods, trade barriers, and current factors influencing international marketing.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.
Department: Marketing

MKTG 634 Integrated Mktg Comm Mgmt

Takes the marketing manager's viewpoint to examine the management and coordination of all marketing communication to customers and stakeholders.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.
Department: Marketing

MKTG 636 Business to Business Marketing

Integrates perspectives and techniques of the industrial marketing manager and the industrial purchasing manager for better decision-making in modern business-to-business marketing and procurement systems.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.
Department: Marketing

MKTG 638 New Prod Plan Strat & Dev

Examines the process of strategic planning for marketing innovation and development of new products in a dynamic business environment. Integrates concepts and techniques from several disciplines to understand new product development.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.
Department: Marketing

MKTG 646 Services Marketing

Covers marketing theory, concepts, strategy, and tactics as applied to the unique characteristics and demands of service organizations and manufacturing firms that use service as a competitive advantage.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.
Department: Marketing

MKTG 650 Mktg Mgmt: Cases & Probs

Applies the case method to the analysis of consumer and industrial product/service marketing situations. Requires students to use systematic techniques to make decisions in product development, communications, distribution, and pricing in an evolving market.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.
Department: Marketing

MKTG 652 Mktg Info: Mgmt & Rsrch

Examines the current tools available to modern marketing decision makers for information management and applies these tools in realistic situations.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.
Department: Marketing

MKTG 698 Special Topics

Provides courses in topics of current interest to faculty and students. May be repeated for credit if topics vary.

Credits: 0.50 to 9.00

College: Bennett S. LeBow Coll. of Bus.
Department: Marketing

MKTG 699 Independent Study

Credits: 0.50 to 3.00

College: Bennett S. LeBow Coll. of Bus.
Department: Marketing

MKTG 790 Seminar In Marketing Mgmt

Examines current developments and contemporary thought in marketing. Requires an in-depth analysis of a special marketing area selected by the student, and oral and written reports of graduate quality.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.
Department: Marketing

MKTG 920 Concept Found Buyer Bhvr

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.
Department: Marketing

Operations Management Courses

OPM 998 Dissertation Res in Oper Mgmt
Dissertation Research
Credits: 1.00 to 12.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

Operations Research Courses

OPR 601 Managerial Dec Models & Sim
Introduces students to the basic modeling tools and techniques for making managerial decisions in a complex and dynamic business environment.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

OPR 620 Operations Research I
Covers theory and applications of linear programming, including convex set, simplex and modified simplex methods, duality theorems, sensitivity analysis, and special linear programming problems.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

OPR 622 Operations Research II
Covers transportation problem; assignment problem; dynamic programming; inventory models; and elements of queuing theory, network theory, and Markov chains.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.

Department: Decision Sciences

OPR 624 Adv Mathematical Program
Covers primal-dual algorithm and its application to transportation problem, decomposition principle, integer programming, binary programming, convex and quadratic programming, and other advanced mathematical programming topics of current interest.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

OPR 626 System Simulation
Covers design and construction of models for simulation of complex operating systems by computers. Covers topics including random number generation, sampling from empirical and theoretical distributions, and statistical validations and interpretation.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

OPR 699 Independent Study
Provides independent study in Operations Research.
Credits: 0.50 to 4.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

OPR 922 Oper Research Methods I
Covers theory and applications of linear programming, including the simplex method, sensitivity analysis and duality, formulation and solution of transportation, and network optimization problems. Extensions include integer programming, quadratic program
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

OPR 924 Oper Research Methods II
Covers modeling under uncertainty; including stochastic processes, queuing theory, inventory theory, forecasting, Markov decision processes, reliability and decision analysis.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

OPR 926 Oper Research Models in Fin I
This course introduces students to the mathematical tools of arbitrage-free valuation. The focus is on the design pricing and risk-management of derivative products to meet desired customer risk-return profiles. May be repeated twice for credit.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

OPR 990 Sp Topics-PhD-Operations Res.
Credits: 0.50 to 9.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

OPR 991 Simulation Theory and Apps
This course focuses on the application of simulation in analyzing complex systems. The corresponding theory is also covered.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.

Department: Decision Sciences

OPR 992 Applied Math Programming

The course addresses topics in nonlinear programming such as constrained and unconstrained optimization, search techniques, penalty methods, and computational methods.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Decision Sciences

OPR 998 Dissertation Res in Oper Res

Credits: 1.00 to 12.00

College: Bennett S. LeBow Coll. of Bus.

Department: Decision Sciences

Organizational Behavior Courses

ORGB 625 Leadership & Prof Development

This course helps students develop knowledge and skills to enhance their professional development and to become effective leaders.

Students will understand trends in contemporary organizations, and enhance their self-awareness.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

ORGB 631 Leading Effective Orgs

Prepares students to make informed decisions as leaders in common institutional and environmental contexts. The focus of the contingency-based perspective of this course is to help leaders understand how best to motivate and coordinate employees.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Management

ORGB 698 Sp Topics-Org Behav

Credits: 0.50 to 9.00

College: Bennett S. LeBow Coll. of Bus.

Production Operations Management Courses

POM 601 Operations Management

Intended as an introduction to the fields of production and operations management (POM). Production and operations activities, such as forecasting, capacity and inventory, scheduling activities, and assuring qualities will be discussed.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Decision Sciences

POM 620 Mgmt Manufacturing Firms

Analyzes manufacturing management, strategic planning, process evaluation and design, capital budgeting, facility location, job design and work measurement, forecasting, production-inventory systems, quality planning and control, and maintenance planning.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Decision Sciences

POM 622 Materials Management

Covers purchasing, production-inventory planning and control, warehousing, and physical distribution.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Decision Sciences

POM 624 Management of Service Firms

Analyzes service firms (e.g., hotels, restaurants, transportation companies, and banking firms), including relevant decision models, such as manpower scheduling, and case studies.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Decision Sciences

POM 625 Adv Supply Chain Management

This course presents the concepts, practical tools, and support systems that are important for the effective management of supply chains. Strategic design, tactical and operational issues will be examined.

Credits: 3.00

College: Bennett S. LeBow Coll. of Bus.

Department: Decision Sciences

POM 698 Sp Topics-Prod Oper Mgmt

Credits: 0.50 to 9.00

College: Bennett S. LeBow Coll. of Bus.

Department: Decision Sciences

POM 699 Independent Study

Provides independent study in Production Operations Management.

Credits: 0.50 to 4.00

College: Bennett S. LeBow Coll. of Bus.

Department: Decision Sciences

POM 900 Decision Processes in Oper Mgt

This course is a broad survey of managerial decision making areas within the operations function of organizations. The focus is on design or strategic, as well as statistical and control issues, with a strong emphasis on mathematical modeling of decision processes.

Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

POM 922 Inventory Models Seminar
Major managerial and economic issues involving inventory management in manufacturing and services firms are examined in detail. The focus is on the development and application of operations research and applied probability based mathematical modeling.

Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

POM 925 Supply Chain Mgmt Seminar
Supply chain management encompasses all the physical and information flows that play a role in satisfying customer demand for goods and services.

Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

POM 930 Scheduling Theory
This course focuses on issues of scheduling resources in organizations. In particular, problems that arise in operations, employee and project scheduling will receive attention.

Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

POM 990 Sp Topics-PhD-POM
Credits: 0.50 to 9.00
College: Bennett S. LeBow Coll. of Bus.
Department: Decision Sciences

Taxation Courses

TAX 611 Tax Research
Uses tax research cases to demonstrate the use and interrelationship of statutory, legislative, and judicial authority. Requires students to have access to a personal computer for assignments.

Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 615 Tax Practice and Procedure
Covers the history and organization of the Internal Revenue Service, audit and conference procedures, administrative and judicial procedures governing tax controversies, and rights and obligations of the taxpayer.

Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 620 Individual Taxation
Covers fundamentals of federal income taxation with respect to individuals, addressing items of income inclusion and exclusion and statutory deductions in arriving at tax liability.

Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 630 Corporate Taxation

Examines the impact of federal income taxes on corporate income and corporate distributions received by shareholders.

Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 631 Advanced Corporate Taxation
Continuation of TAX 630 with emphasis on consolidated tax returns.

Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 640 Partnership Taxation
Examines statutory and administrative authority governing the federal taxation of partnership.

Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 650 Estate and Gift Taxation
Covers taxation of lifetime gifts and decedent's estate, including valuation of property subject to estate and gift taxes.

Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 651 Estate Planning
Covers planning aspects of personal investments and business transactions, with emphasis on the potential impact of federal taxes on the transfer of wealth.

Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 652 Fiduciary Income Taxation
Provides an in-depth analysis of Subchapter J of the Internal Revenue Code, with case studies involving both compliance and planning.

Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 660 Tax Basis for Decision Making
Not open to MST students. Offers an overview of personal financial planning.

Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 675 Taxation Multintl Corps
Examines provisions of the Internal Revenue Code relating to the taxation of income earned by corporations doing business in the United States and one or more other countries.

Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 698 Special Topics in Tax
Credits: 0.50 to 9.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 699 Independent Study

Credits: 0.00 to 12.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 723 Tax Accounting
Covers accounting periods and methods, allocations among taxpayers, timing of income and deductions, relief provisions, and other accounting aspects of federal taxation.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 730 Taxation of Sub S Corporations
Covers federal income taxation of small business electing Subchapter S status.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 740 State and Local Taxation
Covers the various state and local taxes in the tri-state area.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 761 Qualified Retirement Plans
Examines the income from qualified plans, Keoghs, SIMPLEs, 401(k)s, and 403(b)s.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 781 Tax Fraud & White Collar Crime
Covers civil and criminal tax investigations, including administrative summons, document production and constitutional protection, professional responsibilities and ethics for the tax practitioner, and privileged communications.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 790 Tax Policy Seminar
Open to all graduate students. Analyzes the potential influence of tax laws on taxpayers' behavior and their decision-making ability to extract an arbitrage profit. Requires term paper.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting

TAX 791 Tax Seminar
Requires each student to choose a provision of the federal tax law and submit a scholarly paper analyzing the legal attributes and tax planning opportunities of the law.
Credits: 3.00
College: Bennett S. LeBow Coll. of Bus.
Department: Accounting
