Complementary and Integrative Therapies Courses

CIT 501 - Foundations of Phytotherapy

This course serves as a foundation for the safe, effective and rational approach to using some of the most commonly known herbs in clinical practice. Includes a review of primary uses, active constituents, pharmacological actions, known contraindications, drug interactions, potential side effects, and review of the clinical research.

Credits: 3.00

College: Nursing & Health Professions

Department: Health Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

CIT 502 - Foundations of CIT

This course serves as an introduction to the theories and cultural concepts and contexts that underpin complementary and alternative therapies used increasingly by consumers of healthcare worldwide. The CIT world-view will be compared to the traditional medical model. Evidenced based research in these areas will be identified and addressed.

Credits: 3.00

College: Nursing & Health Professions

Department: Health Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

CIT 503 - Holistic Living For The Caregiver

This course is designed to take students on an experiential journey toward a holistic way of living that emphasizes a mind-body-spirit approach. Emphasizes development of healthy, nutritious eating, effective exercise, and guidelines for incorporating basic supplementation. Students stress reduction and management techniques including breathing, walking and music. Integrates spiritual concepts.

Credits: 3.00

College: Nursing & Health Professions

Department: Health Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

CIT 511 - Spirituality, Health & Healing

Spirituality is an essential aspect of one's identity. For some, spirituality is expressed in terms of religious concepts while for others it is less formalized yet no less significant in contributing meaning and purpose to their lives. Health, illness, and healing are three major life experiences impacted upon by one's spirituality.

Credits: 3.00

College: Nursing & Health Professions

Department: Health Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

CIT 512 - Body Movement Therapies

An overview of the history and theory of Dance Movement Therapy, Feldenkrais, Tai Chi, and Pilates will be presented. The clinical application of these movement therapies to specific patient populations will be explored. Students will have the opportunity to "experience" and episode of each of the movement therapies.

Credits: 3.00

College: Nursing & Health Professions

Department: Health Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

CIT 513 - Yoga for Enlight Practitioner

Yoga is an ancient path to self-awareness. This course will guide students on an inward journey using ancient Indian spiritual texts and yogic practices. From a holistic perspective, it becomes the responsibility of the practitioner to foster a deep awareness of self in order to better serve others.

Credits: 3.00

College: Nursing & Health Professions

Department: Health Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

CIT 600 - Clinical Aromatherapy

This course provides the foundation for the safe and effective use of 20 therapeutic essential oils including clinical application, organic chemistry, safety, dosages and contraindications. Essential oil biosynthesis, specific plant morphological structures, extraction methodologies, primary avenues of absorption, and history of aromatherapy. Adheres to standards of National Association for Holistic Aromatherapy.

Credits: 3.00

College: Nursing & Health Professions

Department: Health Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

CIT 601 - Integration of CIT

This course is an overview of the availability, utilization and integration of complementary and integrative therapies in the United States today. Emphasis is placed on the coordination of traditional and non-traditional healing practices and the roles and responsibilities of the provider as the coordinator of the patients' health care.

Credits: 3.00

College: Nursing & Health Professions

Department: Health Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: CIT 501 Minimum Grade: C and CIT 502 Minimum

Grade: C and CIT 503 Minimum Grade: C

CIT 602 - Women Integrative Health

This course presents an Integrative Mindy-Body approach for supporting states of health imbalance specific to women's issues.

Applied integrative strategies highlight the use of dietary and lifestyle changes, nutritional supplementation, botanical medicines and other specific healing modalities. Included are Eastern philosophies of energetics, and the physical, spiritual, psyche and soma.

Credits: 3.00

College: Nursing & Health Professions

Department: Health Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: CIT 501 Minimum Grade: C and CIT 502 Minimum

Grade: C and CIT 503 Minimum Grade: C

Couple and Family Therapy Courses

CFTP 500 - Introduction to Systems Theory

This course will present an overview of systems theory, particularly general systems theory and cybernetics. This course will include a critique of system theory from a feminist and cross-cultural perspective.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

CFTP 501 - Introduction to Family Therapy

The purpose of this course is to introduce the student to major family therapy theories and their relationship to general systems theory and cybernetics.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

CFTP 502 - Introduction to Family Therapy II

This course will include contemporary and evidence based family therapy models. Students must have successfully completed Systems Theory and Introduction to Family Therapy I prior to enrolling in this course.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

Master of Family Therapy GR

PHD CNH for GR

Post Master's Cert CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Family Therapy

Pre-Requisites: CFTP 501 Minimum Grade: C and CFTP 500 Minimum

Grade: C

CFTP 503 - Historical & Sociocultural Influences

This course will introduce students to an examination of the family in a broader social cultural context. This class will explore how sociocultural concepts define and affect social, interpersonal and professional interactions.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

Master of Family Therapy GR

Post Master's Cert CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Family Therapy

CFTP 504 - Sociocultural Influences II

This course will teach students how to develop culturally competent couple and family therapy models. Special attention to issues of power, privilege and oppression will be infused throughout the course.

Students must successfully complete Sociocultural Influences I prior to enrolling in this course.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

Master of Family Therapy GR

Post Master's Cert CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Family Therapy

Pre-Requisites: CFTP 503 Minimum Grade: C

CFTP 505 - Bowen Theory

This course offers a brief review of the history and development of the life work of Murray Bowen, M.D., an overview of the resulting theory of human behavior, Bowen Theory, and use of its interactive components in clinical, research and organizational applications.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

CFTP 506 - Contextual Theory & Therapy

This course introduces students to present the basic tenets of Contextual Therapy and Clinical applications.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

May not be enrolled in one of the following Program(s):

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

May not be enrolled in one of the following Major(s):

CFTP 507 - Collaborative Approaches

This course is designed to introduce students to a variety of postmodern theoretical trends in the family therapy field.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

May not be enrolled in one of the following Program(s):

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

May not be enrolled in one of the following Major(s):

CFTP 508 - Structural Family Therapy

This course is designed to introduce students to the practice and principles of Structural Family Therapy. This course will identify interventions related to structural theory and person of the therapist.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

CFTP 509 - Couples Therapy

This course will introduce students to the theory and practice of couple therapy. Couple theories, research, clinical practice and techniques will be studied and critiqued.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

CFTP 510 - Sex Therapy

This course will introduce students to the theory and practice of sex therapy. Sexual disorders and sexuality will be addressed from the perspective of the individual, couple and family or origin.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

Master of Family Therapy GR

Post Master's Cert CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Family Therapy

Pre-Requisites: CFTP 509 Minimum Grade: C

CFTP 511 - Object Relations Theory

The focus of this course is to understand Object Relations Theory, and its application to the treatment of individuals, couples and families.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

May not be enrolled in one of the following Program(s):

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

May not be enrolled in one of the following Major(s):

CFTP 512 - Behavioral Models of Family Therapy

This course introduces the basic behavioral approaches to Couple and Family Therapy. It includes an exposure to Behavioral Marital, Cognitive-Behavioral, Behavioral Family Therapy applications.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

May not be enrolled in one of the following Program(s):

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

May not be enrolled in one of the following Major(s):

CFTP 513 - DSM I: Adult Psychopathology

This is a survey of the major categories of adult psychopathological disturbance in the DSM-TR classification system. This course emphasizes the dynamics of diagnosis and biological treatment in relational therapy.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Family Therapy

CFTP 514 - DSM II: Child Psychopathology

This is a survey of the major categories of child psychopathological disturbances in the DSM-TR classification system. This course emphasizes the dynamics of diagnosis and biological treatments in relational therapy.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: CFTP 513 Minimum Grade: C

CFTP 515 - Introduction to Psychopharmacology

This course is designed to present a history and the most current trends in biological treatments in psychiatric disorders. While it focuses on biological treatments the students concurrently will be exposed to historical and contemporary trends in the philosophy and practice of psychopharmacology in the profession.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

May not be enrolled in one of the following Program(s):
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
May not be enrolled in one of the following Major(s):

CFTP 516 - Addictions I: The Addictive Process

The process of addiction will be examined in the context of the family and the larger social system. Process addictions such as sex, gambling, food, exercise, spending and shopping will be covered in this course.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter

CFTP 517 - Addictions in The Family

The process of addiction will be examined in the context of the family and the larger social system. A wide exposure to theory and treatment models will be utilized to aid students' assessment and intervention skills in treating families with substance abuse issues.
Credits: 4.00
College: Nursing & Health Professions

Restrictions:
Must be enrolled in one of the following Program(s):
Master of Family Therapy GR
Post Master's Cert CNH for GR
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

CFTP 518 - Medical Family Therapy

This course is designed to prepare family therapists and other health professionals to work collaboratively in addressing the unique psychosocial problems of individuals, couples and families with acute and chronic medically related concerns.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Program(s):
Master of Family Therapy GR
PHD CNH for GR
Post Master's Cert CNH for GR
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

CFTP 519 - Family Violence

This course will introduce students to research and practice of partner violence in the field of couple and family therapy.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

Restrictions:
May not be enrolled in one of the following Program(s):
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
May not be enrolled in one of the following Major(s):

CFTP 520 - Family Life Cycle

This course integrates the interface of individual development with the social structure of coupling and family in family life cycle framework.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Program(s):
Master of Family Therapy GR
PHD CNH for GR
Post Master's Cert CNH for GR
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

CFTP 521 - Human Development

This course will introduce students to the foundations of human development. It is designed to engage students in discussions of both traditional and contemporary human development models.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
May not be enrolled in one of the following Program(s):
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

CFTP 522 - Legal & Ethical Implications in CFT Practice

This course will introduce students to ethical and legal issues that may arise in couple and family therapy treatment including confidentiality and its limits, record keeping, custody cases, abuse, privilege, licensure and informed consent.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Program(s):
Master of Family Therapy GR
PHD CNH for GR
Post Master's Cert CNH for GR
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

CFTP 523 - Legal & Ethical Implications in CFT Practice II

This course is a continuation of Legal and Ethical Implications I. Students must successfully complete Legal and Ethical Implications I prior to enrolling in this course.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

Master of Family Therapy GR

Post Master's Cert CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Family Therapy

Pre-Requisites: CFTP 522 Minimum Grade: C

CFTP 524 - Research I: Family Evaluation

This course focuses on issues in the clinical assessment of individuals, couples, and families. Assessment will be considered through a multi-method approach that includes: qualitative interview, observational, clinician-rated or global rating scales, and self report inventories.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

Master of Family Therapy GR

Post Master's Cert CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Family Therapy

CFTP 525 - Research in Couple and Family Therapy

This course focuses on research methods for couple and family therapy, and is designed to review contemporary family research methods through a multi-method approach. Issues in the clinical assessment of individuals, couples, and families will be explored from diverse contextual variables.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

Master of Family Therapy GR

PHD CNH for GR

Post Master's Cert CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Family Therapy

CFTP 526 - Therapist Experience: POTT I

Students will use the Person of the Therapist Training Model to actively explore self of the therapist development. This course is designed to help students develop an awareness of the self within one's own family of origin.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

Master of Family Therapy GR

Post Master's Cert CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Family Therapy

Pre-Requisites: CFTP 530 Minimum Grade: C

CFTP 527 - Therapist Experience: POTT II

This course is a continuation of Therapist Experience I: Person of the Therapist Training. Students will use the Person of the Therapist Training Model to actively explore self of the therapist development.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

Master of Family Therapy GR

PHD CNH for GR

Post Master's Cert CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Family Therapy

Pre-Requisites: CFTP 526 Minimum Grade: C and CFTP 531 Minimum Grade: C

CFTP 528 - Therapist Experience: POTT III

This course is a continuation of Therapist Experience I & II: Person of the Therapist Training. Students will use the Person of the Therapist Training Model to actively explore self of the therapist development.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

Master of Family Therapy GR

Post Master's Cert CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Family Therapy

Pre-Requisites: CFTP 526 Minimum Grade: C and CFTP 527 Minimum Grade: C and CFTP 532 Minimum Grade: C

CFTP 529 - Family Policy

The purpose of this course is to enhance student's awareness of policies that affect families in society. It will focus on policy development and process, and the role of policy in addressing family problems. Critical issues in family policy, particularly as it relates to diverse family structures and culture will also be explored.

Advanced comparative analysis of historical and contemporary approaches to couple therapy theory and their practical application, with particular reference to social context implications.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Pre-Requisites: CFTP 712 Minimum Grade: C

CFTP 721 - Critical Theory in CFT

Comparative analysis of postmodern critical theories (e.g., critical race theory, feminist theory, queer theory) of family interaction and development.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Pre-Requisites: CFTP 712 Minimum Grade: C

CFTP 722 - Professional Development Seminar III

Self of the therapist and issues in the development of Ph.D.-level professionals. Teaching couple and family therapy.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Pre-Requisites: CFTP 714 Minimum Grade: C and CFTP 718 Minimum Grade: C

CFTP 724 - Multicultural Approach to CFT

Develops cultural awareness and competency in working with families around issues of race and class.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

CFTP 725 - Trauma & Families

Assessment of the impact of both acute and chronic trauma on family members and the response of the family system. Both internal trauma (domestic violence) and external trauma investigated.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

CFTP 726 - Professional Development Seminar IV

Self of the therapist and issues in the development of Ph.D.-level professionals. Understanding academia, and the tenure process.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Pre-Requisites: CFTP 714 Minimum Grade: C and CFTP 718 Minimum Grade: C and CFTP 722 Minimum Grade: C

CFTP 728 - Research V: Advanced Qualitative Data Analysis

Understanding and using software for qualitative data analysis in family studies. Subjects covered related to current or proposed student projects.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Pre-Requisites: CFTP 711 Minimum Grade: C and CFTP 715 Minimum Grade: C and CFTP 719 Minimum Grade: C and RHAB 759 Minimum Grade: C

CFTP 729 - Diverse Family Structures

Examines the family therapy implications for working with various contemporary family structures (e.g., single-parent, multi-generational, divorced, reformed, same sex parents).

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

CFTP 730 - Gender & Sexual Orientation

This course covers gender and sexual orientation with special attention given to the intersection of race, class, culture, ethnicity, religion, age, and ability.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

CFTP 731 - Professional Development Seminar V

Self of the Therapist issues in the development of Ph.D.-level professionals. Understanding the grant writing process.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Pre-Requisites: CFTP 714 Minimum Grade: C and CFTP 718 Minimum Grade: C and CFTP 722 Minimum Grade: C and CFTP 726 Minimum Grade: C

CFTP 732 - Advanced Quantitative Research Design

The development of a research proposal, utilizing principally a quantitative methodology.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Pre-Requisites: CFTP 716 Minimum Grade: C

CFTP 733 - Advanced Qualitative Research Design

The development of a research proposal, utilizing principally a qualitative methodology.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Pre-Requisites: CFTP 719 Minimum Grade: C

CFTP 734 - Supervision in Couple & Family Therapy

Preparation for supervising trainees in couple and family therapy, from a systemic perspective. Exploration of supervision models and modalities; development of a personal model of supervision.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

CFTP 735 - Family Healthcare Policy

Examines historical and contemporary trends in family healthcare policy, and its socio-political implications for families of different social positions. Relation of family therapy to ecosystemic issues investigated.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

CFTP 736 - Professional Development Seminar VI

Self of the therapist issues in the development in Ph.D.-level professionals. Ethics in CFT supervision and teaching.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

Pre-Requisites: CFTP 714 Minimum Grade: C and CFTP 718 Minimum

Grade: C and CFTP 722 Minimum Grade: C and CFTP 726 Minimum

Grade: C and CFTP 731 Minimum Grade: C

CFTP 741 - Religion, Spirituality & CFT

Examines the organizing influence of personal belief system for both the therapist and family. The role of religious practices and differences between therapist and family investigated.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

CFTP 742 - Couples Sexual Therapy

Explores the definition of "normal" sexual functioning, and the assessment and treatment of sexual dysfunction in couples therapy.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

CFTP 751 - Special Topics in CFT

Special topics may be offered when several students share an interest in a particular subject matter related to couple and family therapy. This course may be repeated for a maximum of eight (8) credits.

Credits: 4.00 to 8.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

CFTP 752 - Independent Study in CFT

Independent opportunities for scholarly research may be offered to individual students who wish to pursue a particular subject related to couple and family therapy in greater depth than other courses provide.

Credits: 4.00 to 8.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

CFTP 801 - CFT Internship

Provides an advanced one-year full time supervised placement in a clinical, research, administrative or academic setting, as determined by the program director and student.

Credits: 1.00 to 20.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

CFTP 802 - CFT Dissertation

Supervised research, including establishing a topic directly related to family functioning or family therapy; developing a research question and methodology for investigating it, collecting, processing, and analyzing the data; and writing a scholarly description of the research project.

Credits: 1.00 to 20.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

PHD CNH for GR

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Couple and Family Therapy

CFTP 803 - CFT Dissertation Defense

The student should enroll for this only in the anticipated final quarter of enrollment, after all other credits for the PhD have been satisfied. This course may be repeated for a maximum of six (6) credits.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program(s):

Creative Arts in Therapy Courses

ARTS 501 - Introduction to Creative Arts Therapy I

Foundational theories for the creative arts therapies are discussed. Readings cover psychodynamic and object-relations concepts, symbolism and metaphor, the nature and development of creativity and response to the arts.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

ARTS 502 - Introduction to Creative Arts Therapy II

This course uses experiential and didactic formats to facilitate understanding and integration of processes and principles central to the three creative arts therapy modalities of art, dance/movement and music therapy. Students compare features of the different create arts therapy approaches and explore common themes.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following College(s)/School(s):

Nursing & Health Professions

ARTS 503 - Introduction to Creative Arts Therapy III

Principles and theories of the creative arts therapies are applied to the understanding of several case studies, with the lives of artists, dancers, musicians and writers as exemplars of how the arts impact life and reflect human experience. Clinical mental health implications are discussed.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

ARTS 504 - Human Psychological Development I

An introduction to human development across the lifespan with an emphasis on psychosocial and emotional development. Major theories and models of normal development, from infancy to old age, are discussed. Development of ego functions and personality, as well as deviations from normal development, are also covered in a lifespan framework.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following College(s)/School(s):

Nursing & Health Professions

ARTS 505 - Clinical Diagnosis of Psychopathology I

An overview of the Diagnostic and Statistical Manual, TR-IV, including etiological factors and levels of functioning. Designed to enable the beginning clinician to assess various mental and behavioral disorders in adults and children, with consideration of social, cultural and physiologic aspects.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following College(s)/School(s):

Nursing & Health Professions

ARTS 506 - Professional Orientation and Ethics I

Prepares the beginning student for Clinical Observation in the field and supports the formation of a professional identity as a creative arts therapist. Provides a foundation in ethics and basic clinical mental health skills of observation and interaction, and a theoretical framework for clinical practice that is sensitive to sociocultural differences/diversity.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

ARTS 507 - Group Dynamics and Therapy

Students study basic aspects of group dynamics through experiential and didactic sessions, supported by assigned readings. Major emphasis is on the dynamics of groups, i.e., the group process and ways that basic group psychology plays out in psychotherapy groups. Issues include the impact of personal, socio-economic and cultural factors in response to group membership and therapy.

Credits: 2.00

College: Nursing & Health Professions

Creative Arts in Therapy

ARTS 560 - Dance/Movement Therapy Group Supervision I

This course supports initial integration of clinical experience and academic material. The course facilitates a process in which students examine therapeutic and professional relationships in which they are engaged in the clinical setting in order to enhance their understanding and effectiveness.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

ARTS 561 - Dance/Movement Therapy Group Supervision II

This course supports initial integration of clinical experience and academic material. The course facilitates a process in which students examine therapeutic and professional relationships in which they are engaged in the clinical setting in order to enhance their understanding and effectiveness.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 562 - Dance/Movement Therapy Group Supervision III

This course supports initial integration of clinical experience and academic material. The course facilitates a process in which students examine therapeutic and professional relationships in which they are engaged in the clinical setting in order to enhance their understanding and effectiveness.

Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 563 - Movement Perspectives in Human Development

This course provides the student with an understanding of normal movement development from infancy to adulthood. The course addresses the relationship between movement, emotional, and cognitive development and provides examples of development disturbance. Implications for assessment and clinical application with adult and child populations are examined.

Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter

ARTS 564 - Group Dynamics & Therapy II: Dance/Movement Therapy

Continues Group Dynamics and Therapy I. Group development and group process theory is applied to understanding interaction in the dance/movement therapy group and how this understanding informs group interventions. Course is taught in an experiential classroom lab format which supports lecture and readings and provides opportunity to practice group leadership skills.

Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy
Pre-Requisites: ARTS 552 Minimum Grade: C and ARTS 553 Minimum Grade: C

ARTS 570 - Clinical Musicianship I

Provides methods for learning to accompany self and ensembles within music therapy applications. Additional emphasis is placed on clinical improvisation methods for keyboards.
Credits: 2.00

College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 571 - Clinical Musicianship II

This course, designed for Music Therapy students, will assist students in the development of functional guitar methods within a variety of musical styles for the purpose of facilitating music therapy processes.

Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 572 - Clinical Musicianship III

Provides methods for developing the clinical musical skills needed for internship in piano, guitar, vocal, percussion and major instrument areas. The course also helps to refine skills developed in Clinical Musicianship I and II, and Clinical Musical Improvisation I and II.

Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 573 - Clinical Musical Improvisation I

Highly experiential course designed to introduce the student to: a) musical improvisation in general, and b) techniques used within a music therapy environment to develop therapeutic relationships with groups and individuals through the creative musical process. Readings will be used to increase understanding of improvisation as a clinical application.

Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 574 - Clinical Musical Improvisation II

Designed to further the student's understanding of music therapy improvisation as used in clinical environments with various populations. Established models of clinical musical improvisation will be included in readings and discussed in class, with exploration of the use of verbal processing in conjunction with the musical experience.

Credits: 2.00
College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy
Pre-Requisites: ARTS 573 Minimum Grade: C

ARTS 575 - Theories in Music Therapy I

An overview of clinical and research literature related to psychological theories and musical development for music therapists.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

ARTS 577 - Music Therapy Skills I

This course will teach approaches and methods of music therapy as applied in mental health, mental retardation and physical disability for adult clinical populations.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

ARTS 578 - Music Therapy Skills II: Child Skills

This course will teach the basic approaches and techniques of music therapy for children as applied in mental health, mental retardation and physical disability.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

ARTS 579 - Music Therapy Skills III: Technological Applications

This course will teach the basic music technology approaches and techniques for application with adult and child clinical populations.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

ARTS 580 - Psychology of Music

This course includes the study of acoustics, psychoacoustics, physiological and emotional responses, music cognition, meaning, and the psychosocial processes involved in musical perception.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

ARTS 581 - Music Therapy Group Supervision I

Materials and techniques for dealing with mental, neurological and other disorders in children, adolescents and adults in various settings are related to advanced music clinical practice and research in small group presentations and discussions.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

Co-Requisites: ARTS 510

ARTS 582 - Music Therapy Group Supervision II

This is a continuation of ARTS 581. The objectives and course requirements are continuous in a developmental progression toward increasing sophistication and mastery of music therapy skills and conceptual understandings.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Creative Arts in Therapy

ARTS 662 - Advanced Group Dance/Movement Therapy Skills I

This course provides support for students to advance understanding and practice of group dance/movement therapy through participation in, leadership, and review of classroom lab sessions. Course continues through two quarters.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

Pre-Requisites: ARTS 507 Minimum Grade: C and ARTS 564 Minimum Grade: C

ARTS 663 - Advanced Group Dance/Movement Therapy Skills II

Continuation of ARTS 662: Advanced Group Dance/Movement Therapy Skills I

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

Pre-Requisites: ARTS 507 Minimum Grade: C and ARTS 564 Minimum Grade: C

ARTS 670 - Advanced Music Therapy Skills I

Music and imagery approaches in therapy with individuals and groups are examined through laboratory sessions.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

ARTS 671 - Advanced Music Therapy Skills II

This course will study music therapy within group formats. Students will have the opportunity to participate as leader and member of an on-going group. Group members will use role playing to simulate a variety of clinical populations. Concepts from assigned reading will be employed during group processing and un seminars.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

Pre-Requisites: ARTS 670 Minimum Grade: C

ARTS 672 - Multicultural Perspectives in Music Therapy

Western ethnic and non western uses of music will be explored and adapted for use in music therapy. Also, various cultural understanding of musical behavior, beliefs about music, restricted or prohibited uses of music, and referential influences will be explored through readings and in-class musical experience.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

Pre-Requisites: ARTS 602 Minimum Grade: C

ARTS 673 - Advanced Music Therapy Group Supervision I

Materials and techniques for dealing with mental, neurological and other disorders in children, adolescents and adults in various settings are related to advanced music therapy clinical practice and research in small group presentations and discussions.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

Pre-Requisites: ARTS 610 Minimum Grade: C

ARTS 674 - Advanced Music Therapy Group Supervision II

Materials and techniques for dealing with mental, neurological and other disorders in children, adolescents and adults in various settings are related to advanced music therapy clinical practice and research in small group presentation and discussions.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy
Pre-Requisites: ARTS 611 Minimum Grade: C

ARTS 675 - Advanced Music Therapy Group Supervision III

Materials and techniques for dealing with mental, neurological and other disorders in children, adolescents and adults in various settings are related to advanced music therapy clinical practice and research in small group presentations and discussions.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

Pre-Requisites: ARTS 612 Minimum Grade: C

ARTS 676 - Theories in Music Therapy II

Course designed to provide an introductory overview of two major theoretical models of psychotherapy as they apply to music, creativity and to music therapy. The first half of the course will focus on perspectives from the psychodynamic orientation while the second half will focus on perspectives of the humanistic orientation.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

ARTS 677 - Advanced Music Therapy Skills III - Group

Continuation of ARTS 671 will study music therapy within group formats incorporating wellness and mind/body approaches. Students will participate as leader and member of an on-going group to simulate a variety of clinical, caregiver, and other non-clinical (prevention) populations.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Creative Arts in Therapy

Pre-Requisites: ARTS 671 Minimum Grade: C

ARTS 678 - Clinical Internship Lab: Musical Analysis

This seminar/lab will introduce methods of analysis of client musical expressions.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy
Pre-Requisites: ARTS 612 Minimum Grade: C

ARTS 699 - Independent Study in Creative Arts Therapy

Independent opportunities for study may be offered to individual students who have an interest and an academic rationale to pursue in greater depth than is provided in other CAT courses. This course is structured with a contract and under close advisement.

Credits: 1.00 to 4.00

College: Nursing & Health Professions

Department: CNHP - Creative Arts Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Medical Family Therapy Courses

MFTP 518 - Medical Family Therapy

This course is designed to prepare family therapist and other health professionals to work in a collaborative manner addressing the unique psychosocial problems of individuals, couples, and families with acute and chronic medically related concerns.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

MFTP 537 - Multicultural & Family Systems Approach to Healthcare

This course builds on Introduction to Family Therapy Theory and Concepts by extending foundation knowledge on serving diverse families who are challenged by particular health and developmental problems.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: CFTP 501 Minimum Grade: C

MFTP 538 - Issues and Trends in Health Policy for Families

This course will provide the clinician with an introduction to the history structure and function of health policy. The overall learner objective for clinicians is to analyze health policies that impact children, families, and aging populations. Students need to learn about how health care policies are developed, implemented, evaluated, and changed by policy makers and interest groups and how such policies affect the lives of clients and their families.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter

Graduate Quarter
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

Neuroscience Courses

NEUR 507 - Neuroscience I

This course introduces the student to the structure and function of the nervous system. The neuron and central, peripheral and autonomic nervous systems are considered. The organization and physiological function of the general somatic sensory systems are emphasized. Clinical correlations and problem solving will be introduced.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

Pre-Requisites: PTRS 533 Minimum Grade: C and PTRS 531 Minimum Grade: C and PTRS 535 Minimum Grade: C and PTRS 536 Minimum Grade: C and PTRS 614 Minimum Grade: C

NEUR 508 - Neuroscience II

The special somatic sensory systems are introduced in this course. Emphasis is placed on voluntary movement. Lower and upper motor neurons, cerebellum and basal ganglia are described. Relationships of sensory and motor pathways to each other and to peripheral nerves are introduced in problem solving and clinical correlations.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

Pre-Requisites: PTRS 620 Minimum Grade: C and PTRS 623 Minimum Grade: C and NEUR 507 Minimum Grade: C and PTRS 624 Minimum Grade: C and PTRS 638 Minimum Grade: C and PTRS 615 Minimum Grade: C

NEUR 534 - Neuroscience

This course describes: structure and functions of the human central nervous system; neurons; basic topography of the spinal cord and brain; major sensory and motor pathways; higher cortical functions. Neurological deficits resulting from stroke, brain trauma and other neuropathological processes; as well as implications for rehabilitation and psychotherapy are presented.

Credits: 3.00

College: Nursing & Health Professions

Department: Health Sciences

Restrictions:

Must be enrolled in one of the following Program(s):

Master of Arts CNH for GR

Must be enrolled in one of the following Program Level(s):

Nursing Courses

NURS 500 - Confronting Issues in Contemporary Health Care Environments

Confronting Issues in Contemporary Health Care Environments examines Health care policy and policies in terms of contemporary issues related to advanced practice nursing, health care access, quality and cost. The focus of this course is the critical analysis of health policy and legal issues.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing

NURS 501 - Dimensions of Human Sexuality in Health & Illness

This course explores the multiple dimensions of sexual expression as one of the central elements of human experience. Using a developmental framework, students explore physiological, psychological and social facets of human sexuality in the context of health and illness. The course will assist health care clinicians to address sexuality as an aspect of holistic care of clients. Students should be aware that course materials may be sexually explicit and the course may involve topics that are controversial in nature.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

May not be enrolled in one of the following Program Level(s):

Continuing Education

Must be enrolled in one of the following Major(s):

Nursing

May not have the following Classification(s):

Freshman

Junior

Pre-Junior

Sophomore

NURS 502 - Advanced Ethical Decision Making in Health Care

This is a course for masters students who have already had some experience in ethical decision making, both academically in the classroom and in practice. This course will take an interdisciplinary focus, as ethical decision making at this level rarely ever is the decision of a single discipline. A variety of ethical topics will be analyzed from various perspectives and depths in an effort to more broadly and more profoundly address the moral difficulties that the advanced practice practitioner in an interdisciplinary environment is likely to encounter.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):
Nursing

NURS 503 - Basic Principles of Nurse Anesthesia

This course is designed to provide the theoretical knowledge of basic equipment utilized in the routine care of the surgical patient. The objectives of this course are geared toward immediate application of the acquired anesthesia knowledge in the clinical setting.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 504, NURS 526, NURS 549

NURS 504 - Overview of Nurse Anesthesia

This course is designed to provide an overview of nurse anesthesia principles and basic anesthesia skills utilized in the routine care of the surgical patient. The lecture content is reinforced in the simulation lab experience. The objectives of this course are geared toward immediate application of the acquired knowledge in the simulated laboratory experience and for integration in the clinical setting.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 503, NURS 526, NURS 549

NURS 505 - Chemistry and Physics

Nurse anesthesia students examine physical phenomena relevant to anesthesia and anesthesia equipment. Basic organic chemistry, chemistry of drugs and specific technologies will be discussed.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 507, NURS 508, NURS 520

Pre-Requisites: NURS 503 Minimum Grade: C and NURS 504 Minimum Grade: C and NURS 549 Minimum Grade: C

NURS 506 - Health Policy

The purpose of this course is to enhance the graduate student's ability to examine and evaluate social policy and its impact on health policy, health status and systems, delivery of care and on nursing practice, education and research.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

NURS 507 - Nurse Anesthesia Pharmacology I

This course will provide an overview and in-depth analysis of general principles and concepts related to pharmacology of anesthetic agents used in clinical practice. Perioperative fluid management and blood components, an overview of general pharmacokinetics and pharmacodynamics principles, pharmacologic mechanism of action, effects on organ systems and considerations related to age and pathophysiological conditions will be explored.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 505, NURS 508, NURS 520

Pre-Requisites: NURS 503 Minimum Grade: C and NURS 504 Minimum Grade: C and NURS 549 Minimum Grade: C

NURS 508 - Nurse Anesthesia Clinical Practicum I

Clinical Practicum courses are designed to enable the student to apply and integrate the knowledge gained in pre and co-requisite courses to learn the skills to safely administer anesthesia to patients undergoing a wide variety of surgical or diagnostic procedures. These clinical practicums build on the student's previous anesthesia experiences each quarter.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 505, NURS 507, NURS 520

Pre-Requisites: NURS 503 Minimum Grade: C and NURS 504 Minimum Grade: C and NURS 549 Minimum Grade: C and NURS 526 Minimum Grade: C

NURS 509 - Health Promotion

This course addresses the health of individuals and populations from a systems perspective. Students investigate leading causes of illness and injury, develop and evaluate a multi-level intervention model. Focus is on the Health People 2010. Concepts and tools of continuous improvement are utilized.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

NURS 510 - Advanced Principles of Nurse Anesthesia I

This course builds on the foundation learned in prerequisite courses. Emphasis is on the development of advanced knowledge of the respiratory system and cardiovascular systems. A comprehensive study of the physiology, pathophysiology and the relationship to patient management is the focus of this course.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 511, NURS 512, NURS 521

Pre-Requisites: NURS 520 Minimum Grade: C and NURS 505 Minimum

Grade: C and NURS 507 Minimum Grade: C and NURS 508 Minimum

Grade: C

NURS 511 - Nurse Anesthesia Pharmacology II

This course will provide a continued in-depth analysis of general principles and concepts related to pharmacology of anesthetic agents used in clinical practice. The objective of this course is geared toward immediate application of the acquired knowledge for integration in the clinical setting. Additional drugs will be presented.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 510, NURS 512, NURS 521

Pre-Requisites: NURS 507 Minimum Grade: C

NURS 512 - Nurse Anesthesia Clinical Practicum II

Clinical Practicum II will provide the opportunity for the novice student to participate in the anesthesia management of healthy patients undergoing uncomplicated surgical and/or diagnostic procedures.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 510, NURS 511, NURS 521

Pre-Requisites: NURS 505 Minimum Grade: C and NURS 507 Minimum

Grade: C and NURS 508 Minimum Grade: C and NURS 520 Minimum

Grade: C

NURS 513 - Research and Theory I

The course is designed to provide professional graduate students with the skills necessary to evaluate the relationship between practice and published research. The course content includes an overview of research concepts, ethics in research, literature reviews, quantitative and qualitative research designs, research methods, and data analysis.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

NURS 514 - Leadership in Nursing

This course addresses key concepts and skills required of nurses in today's health care climate, including the ability to analyze situations from a systems perspective, identify and attend to the context in which information is given and perceived, and to enhance interactions by clarifying communication.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

NURS 515 - Advanced Principles of Nurse Anesthesia II

This course extends the knowledge learned in basic principles. During this quarter, students learn anesthetic management principles for regional anesthesia, orthopedic surgery, renal patients, morbidly obese patients and pediatrics. Important concepts include anatomical, physiological and pathophysiological, and pharmacological principles.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 516, NURS 522

Pre-Requisites: NURS 510 Minimum Grade: C and NURS 511 Minimum

Grade: C and NURS 512 Minimum Grade: C and NURS 521 Minimum

Grade: C

NURS 516 - Nurse Anesthesia Clinical Practicum III

Clinical Practicum III will provide the student the opportunity to administer anesthesia to patients scheduled for more complex surgical procedures and who may also exhibit significant pathophysiology. Students will begin to analyze the patient's physiological response to intra-operative surgical events and adjust the anesthetic and regional anesthesia.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 515, NURS 522

Pre-Requisites: NURS 521 Minimum Grade: C and NURS 510 Minimum

Grade: C and NURS 511 Minimum Grade: C and NURS 512 Minimum

Grade: C

NURS 517 - Nurse Anesthesia Clinical Practicum IV

Clinical practicum IV will provide the student the opportunity to administer anesthesia to patients scheduled for more complex surgical procedures and who may also exhibit significant pathophysiology. Students will begin to analyze the patient's physiological response to intra-operative surgical events and adjust the anesthetic and regional anesthesia.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 518, NURS 524, NURS 530

Pre-Requisites: NURS 515 Minimum Grade: C and NURS 516 Minimum Grade: C and NURS 522 Minimum Grade: C

NURS 518 - Advanced Principles of Nurse Anesthesia III

The content presented will enable the student to incorporate previous learned knowledge of physiology, pathophysiology, pharmacology, and patient management into the care of subspecialty populations with more complex medical problems. The anesthesia management of the pregnant, cardiothoracic, neurosurgical and burn patient will be presented.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 517, NURS 524, NURS 530

Pre-Requisites: NURS 515 Minimum Grade: C and NURS 516 Minimum Grade: C and NURS 522 Minimum Grade: C

NURS 520 - Advanced Physiology

This course presents the essentials of organ system function in humans, with an emphasis on the integration of neural and hormonal mechanisms in the control of organ system function. This course is limited to students in the Nursing Anesthesia Program of the College of Nursing and Health Professions

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

NURS 521 - Advanced Pathophysiology I

A detailed discussion of the disturbances of normal function and basic mechanisms involved in the diseases of the major organ systems and the general aspects of the common human pathophysiological conditions and syndromes. This course includes general pathological processes that are specific to the cardiovascular system.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Pre-Requisites: NURS 520

NURS 522 - Advanced Pathophysiology II

A detailed discussion of the disturbances of normal function and basic mechanisms involved in diseases of the major organ systems and the general aspects of the common human pathophysiological conditions and syndromes. This course includes respiratory, renal, digestive, hepatobiliary and pancreatic pathophysiology.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: NURS 521

NURS 523 - Advanced Pathophysiology III

A detailed discussion of the disturbances of normal function and basic mechanisms involved in diseases of the major organ systems and the general aspects of the common human pathophysiological conditions and syndromes. This course includes the endocrine, reproductive, sensory/motor pathways, pain pathways, neuromuscular, neurological, and skeletal pathophysiology.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: NURS 522 Minimum Grade: C

NURS 525 - Advanced Physiology

This course builds on the student's knowledge of anatomy and physiology, emphasizing the complex nature of bodily function from the molecular to the systems level. The focus is on integrating the individual functions of all the body's cells into a total functional whole.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: NURS 339 Minimum Grade: C

NURS 526 - Information, Innovation & Technology in Advanced Nursing Practice

This course is designed to provide an in-depth introduction to information systems and technologies that support practice and improve patient care and outcomes. Students develop an understanding of relationships between patient care and information and data issues involved in clinical practice in addition to examining informatics issues within complex healthcare systems.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):
Nursing

NURS 527 - Evidence Based Approaches to Practice

This course focuses on using research to guide evidence-based practice. Communication, collaboration, and decision making skills from a multidisciplinary approach essential to collect, evaluate, and apply research to practice will be emphasized. During this course the student will learn to (1) conduct efficient, thorough searches of the research literature; (2) evaluate the quality of a body of research through an appraisal of design, methodology, and data analysis; (3) summarize the findings from an overall body of research; and (4) apply research evidence to issues of current nursing practice.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing

Pre-Requisites: RSCH 519 Minimum Grade: C and RSCH 523 Minimum Grade: C

NURS 530 - Anesthesia Seminar

This seminar will integrate the academic and practical knowledge the student has acquired in the nurse anesthesia curriculum. Students will work independently with a faculty advisor to develop a State of the Science Paper on a topic relevant to anesthesia practice. Students are required to perform a comprehensive review of the literature, provide an educational hand-out to their colleagues and present the information using multimedia approaches.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 517, NURS 518, NURS 524

Pre-Requisites: NURS 515 Minimum Grade: C and NURS 516 Minimum Grade: C and NURS 522 Minimum Grade: C

NURS 548 - Advanced Pathophysiology

Building on a foundation of normal physiology, students are exposed to the major disturbances of normal function and the basic mechanisms involved in disease of the major organ systems. The course includes discussion of the general aspects of the common human pathophysiological conditions and syndromes.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

NURS 549 - Advanced Pharmacology

This course is designed to build on prior pharmacologic study of actions and effects of drugs on the human system across the life span. Students will study pharmacologic mechanisms of action, effects on organ systems, routes of administration, pharmacokinetics, therapeutic uses, considerations related to age and physiologic state, adverse reactions, contraindications, and drug interactions.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

NURS 550 - Advanced Physical Assessment & Diagnostic Reasoning

This course is designed to introduce the experienced clinical nurse to advanced clinical history taking and physical assessment for adult and pediatric patients. Course content focuses on concepts, theory and practice obtaining comprehensive health histories for patients of all ages and states of health.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

NURS 554 - Pharmacology for Acute Care Nurse Practitioners

This course is designed to prepare the Acute Care Nurse Practitioner student for the safe managing and prescribing of therapeutic agents utilized in acute care settings. Students will build on prior pharmacologic study of actions and effects of medications on the human system across the adult life span.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing

Pre-Requisites: NURS 549 Minimum Grade: C

NURS 555 - Psychopharmacology

This course presents current scientific knowledge of psychopharmacology and its application to clinical problems commonly seen in a variety of settings. The course addresses advanced concepts in neuroscience, pharmacokinetics, and pharmacodynamics and the clinical management of target psychiatric symptoms related to psychopharmacologic treatment of various psychiatric disorders.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

NURS 556 - Pharmacology for Family Nurse Practitioners

This course is designed to prepare the FNP students for the safe managing and prescribing of therapeutics. Students will study

pharmacologic mechanisms of action, effects on organ systems, routes of administration, pharmacokinetics, therapeutic uses, considerations related to physiologic state, adverse reactions, contraindications and drug interactions.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: NURS 548 Minimum Grade: C and NURS 549 Minimum Grade: C

NURS 557 - Leadership and Stewardship in the Health Professions

Changes in the health care system are demanding practitioners with well-honed leadership skills and with a sense of stewardship. This course explores the concepts of leadership and stewardship from a historical and contemporary perspective with particular application to the health professions.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Must be enrolled in one of the following Major(s):

Nursing Educ & Faculty Role

Co-Requisites: NURS 626, NURS 669

Pre-Requisites: NURS 597 Minimum Grade: C and NURS 626 and NURS

598 Minimum Grade: C and NURS 599 Minimum Grade: C and NURS

600 Minimum Grade: C

NURS 628 - Special Topics in Nursing

This course covers special topics of relevance and significance to the disciplines of nursing. This course may be repeated three times for credit as topics vary from term to term.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing

NURS 629 - Independent Study in Nursing

The Master's nursing student works under the guidance of a faculty member to study in depth a topic related to their Program of Study. Independent study courses can be undertaken when there is no specific formal coursework available to support the student's program of study.

Specific objectives and requirements are negotiated individually and students will sign an Independent Study Contract. This course may be repeated three times for credit as topics vary from term to term.

Credits: 1.00 to 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

NURS 630 - Principles of Nurse Anesthesia Practice VI

This course focuses on gastrointestinal and hepatic dysfunction related to anesthesia planning and intervention in the advanced practice role as a CRNA. Specific attention is given to mechanisms and management of coagulopathies and administration of blood and blood products. Blood borne diseases associated with blood product administration is addressed.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

NURS 633 - Pediatric Health I

The course includes didactic and clinical experiences focused on advanced child health nursing. Areas of focus include the spectrum of pediatric health services, technology, diversity, ethics, political and social dimension of pediatric health care and interdisciplinary collaborative team process skills.

Credits: 7.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: NURS 506 Minimum Grade: C and NURS 509 Minimum

Grade: C and NURS 513 Minimum Grade: C and NURS 525 Minimum

Grade: C and NURS 609 Minimum Grade: C and NURS 611 Minimum

Grade: C

NURS 634 - Pediatric Health II

This course concentrates on the application of advanced nursing skills and knowledge related to pediatric assessment, pediatric and family theories and the economics, viability and availability of pediatric health care delivery systems locally and nationally. Student work with nurses and interdisciplinary collaborative teams.

Credits: 7.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: NURS 633 Minimum Grade: C

NURS 636 - Capstone Project I

The first of a 3 course sequence where under the direction of a nursing faculty mentor with direct expertise in the student's planned project, students will spend 3 quarters developing and producing a capstone project. Researcher, expert and leader are presented and explored.

Interpretation and application, professional issues, practice issues, legislative issues, certification issues, insurance issues, legal and ethical conflict resolution in advanced nursing practice are explored.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following College(s)/School(s):

Nursing & Health Professions

Must be enrolled in one of the following Major(s):

Nursing

NURS 637 - Capstone Project II

The second of a 3 course sequence where under the direction of a nursing faculty mentor with direct expertise in the student's planned project, students will spend 3 quarters developing and producing a capstone project. Researcher, expert and leader are presented and explored. Interpretation and application, professional issues, practice issues, legislative issues, certification issues, insurance issues, legal and ethical conflict resolution in advanced nursing practice are explored.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following College(s)/School(s):

Nursing & Health Professions

Must be enrolled in one of the following Major(s):

Nursing

NURS 638 - Capstone Project III

The third and final course sequence where under the direction of a nursing faculty mentor with direct expertise in the student's planned project, students will spend 3 quarters developing and producing a capstone project. Researcher, expert and leader are presented and explored. Interpretation and application, professional issues, practice issues, legislative issues, certification issues, insurance issues, legal and ethical conflict resolution in advanced nursing practice are explored.

Must be enrolled in one of the following Major(s):

Nursing

NURS 642 - PNPI: Wellness, Health Promotion & Disease Prevention in Infants, Children & Adolescents

This course provides the introduction for the pediatric nurse practitioner students to the conceptual basis for meeting the health needs of diverse pediatric populations. This course will prepare the student to assume the role of primary care provider, and to contribute and support the collaborative responsibility of other health care

members in meeting the health care needs of children from birth through adolescence.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: NURS 548 Minimum Grade: C and NURS 549 Minimum

Grade: C and NURS 550 Minimum Grade: C and NURS 646 Minimum

Grade: C

NURS 643 - PNPII: Episodic Care of Infants, Children & Adolescents

This course provides the introduction of episodic and emergency care of infants, children and adolescents. This course will prepare the student to assume the role of primary care provider, and to support the collaborative responsibility of other health care members in meeting the healthcare needs of children from birth through adolescence.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: NURS 548 Minimum Grade: C and NURS 549 Minimum

Grade: C and NURS 550 Minimum Grade: C and NURS 646 Minimum

Grade: C and NURS 642 Minimum Grade: C

NURS 644 - PNPIII: Primary Care Issues of Children with Chronic Illness

This course is designed to introduce students to the practice of the Primary Care Pediatric Nurse Practitioner in managing the chronically ill children in both an inpatient and outpatient setting. Emphasis is placed on the assessment, diagnosis and management of common chronic health problems in children. Course content focuses on the integration and synthesis of core and support courses content to assess, diagnose and manage patients.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: NURS 548 Minimum Grade: C and NURS 549 Minimum

Grade: C and NURS 550 Minimum Grade: C and NURS 646 Minimum

Grade: C and NURS 642 Minimum Grade: C and NURS 643 Minimum

Grade: C

NURS 645 - PNPIV: Primary Care of Adolescents

This course is designed to introduce students to the practice of the Primary Care Pediatric Nurse Practitioner in assessment, diagnosis and management of common health care problems of adolescents. Gynecological management and anticipatory guidance of adolescents will be included in this course. Course content focuses on the integration and synthesis of core support and practicum course content to assess, diagnose and manage patients in a primary care settings.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: NURS 548 Minimum Grade: C and NURS 549 Minimum

Grade: C and NURS 550 Minimum Grade: C and NURS 646 Minimum

Grade: C and NURS 642 Minimum Grade: C and NURS 643 Minimum

Grade: C and NURS 644 Minimum Grade: C

NURS 646 - Pharmacology for the Pediatric Nurse Practitioner

This course focuses on the appropriate medication regimens that may be employed in pediatric health care. The rationale for using each class of medications is examined and the action of the drugs contributing to their therapeutic effect is discussed. Problems inherent in multiple drug therapy are explored and adverse reactions and potential medication interactions are described. Early toxicity and complications arising from signs of toxicity are reviewed.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Co-Requisites: NURS 548, NURS 549

NURS 659 - Advanced Principles of Nurse Anesthesia IV

As the last of a 4 course sequence in nurse anesthesia specialties, student will incorporate previously learned knowledge of physiology, pathophysiology, pharmacology, and patient management into the care of subspecialty populations and patients with various disease states. Examples of topics include: trauma, shock, endocrine and hepatic disorders, and cancers.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 683

Pre-Requisites: NURS 517 Minimum Grade: C and NURS 518 Minimum

Grade: C and NURS 524 Minimum Grade: C and NURS 530 Minimum

Grade: C

NURS 664 - Professional Seminar for Nurse Practitioners

This required course is the application and integration of the role and competencies of the nurse practitioner. The roles of the nurse practitioner as clinician, educator, researcher, expert, and leader are presented and explored. Interpretation and application of professional issues, practice issues, legislative issues, certification issues, insurance issues, legal issues and ethical conflict resolution in advanced nursing practice are explored and integrated into a model of interdisciplinary collaborative practice.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

NURS 669 - Professional Seminar for Advance Practice Nurses

This required course is the application and integration of the role and competencies of the MSN prepared nurse with advanced nursing knowledge who will seek employment in a diversity of advanced practice roles. The roles of the MSN graduate as clinician, educator, researcher, expert, and leader are presented and explored. Interpretation and application, professional issues, practice issues, legislative issues, certification issues, insurance issues, legal issues and ethical conflict resolution in advanced nursing practice are explored.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

NURS 670 - Interdisciplinary Clinician Perspectives on Health Law

Introduces students to areas of law and legal theory that serve as the basis for the U.S. health care system. Students will examine statutes, regulations, and case law that regulate health care practice. Students will observe a courtroom proceeding, integrate professional knowledge with health law principles, and analyze testimony of a clinical expert witness. Legal underpinnings of provider liability, defenses, health policy access to care, and the patient safety movement are among topics discussed and analyzed.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: NURS 500 Minimum Grade: C

NURS 678 - Health, Wellness, and Primary Care for WHNP I

This course focuses on primary care of women throughout the life cycle. Within the framework of a multicultural viewpoint, students begin by examining strategies for preventive interventions as well as health screening and immunization schedules as women progress from adolescence to maturity.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing

Pre-Requisites: RSCH 519 Minimum Grade: C and RSCH 523 Minimum

Grade: C and NURS 500 Minimum Grade: C and NURS 502 Minimum

Grade: C and NURS 526 Minimum Grade: C and NURS 527 Minimum

Grade: C and NURS 548 Minimum Grade: C and NURS 549 Minimum

Grade: C and NURS 550 Minimum Grade: C and NURS 682 Minimum

Grade: C

NURS 679 - Health, Wellness, and Primary Care for WHNP II

This course follows NURS 678 Health, Wellness, and Primary Care for WHNP I. Students build upon the introductory framework presented in WHNP I with emphasis on disorders which are likely to be encountered in a women's health care setting.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Master's Degree

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing

Pre-Requisites: RSCH 519 Minimum Grade: C and RSCH 523 Minimum

Grade: C and NURS 500 Minimum Grade: C and NURS 502 Minimum

Grade: C and NURS 526 Minimum Grade: C and NURS 527 Minimum

Grade: C

NURS 683 - Nurse Anesthesia Clinical Practicum V

Clinical practicum V provides the student with the opportunity to administer a variety of anesthetics to patients presenting with a history of complex pathophysiological needs who are scheduled for a variety of surgical/diagnostic procedures. Students are provided invasive monitoring and regional anesthesia experiences.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 659

Pre-Requisites: NURS 517 Minimum Grade: C

NURS 684 - Nurse Anesthesia Clinical Practicum VI

Clinical practicum VI provides the student with the opportunity to administer a variety of anesthetics to patients presenting with a history of complex pathophysiological needs who are scheduled for a variety of surgical/diagnostic procedures. Students are provided opportunities to insert invasive monitors and manage regional anesthesia to patients.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 523

Pre-Requisites: NURS 683 Minimum Grade: C

NURS 687 - Clinical Residency I

The Clinical Practicums and Residencies provide opportunities for students to continue their development of critical thinking skills and anesthesia techniques when providing care for all types of surgical patients. Under the guidance of CRNAs and Staff Anesthesiologists, students work more autonomously and collaborate with others when providing comprehensive anesthesia care.

Credits: 6.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 527

Pre-Requisites: NURS 684 Minimum Grade: C

NURS 688 - Clinical Correlative Seminars

This seminar will integrate and review the academic and clinical knowledge the student has acquired in the nurse anesthesia program. The student will receive a weekly assignment of topical questions to research and present to classmates. A faculty member will serve as the course facilitator.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Nurse Anesthesia

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Nursing Anesthesia

Co-Requisites: NURS 689

Pre-Requisites: NURS 687 Minimum Grade: C

NURS 689 - Clinical Residency II

Clinical Residency II continues the students development of their critical thinking skills and anesthesia techniques as well as manage care for patients that they may not have had the opportunity to care for in their previous rotations.

Must be enrolled in one of the following Major(s):
Nursing
Pre-Requisites: NURS 692 Minimum Grade: C

NURS 700 - Phil of Natural and Soc Sci

This introductory course focuses on the logic of inquiry in the natural and social sciences. Concepts for discussion include cause, determination, measurement, error, prediction, reduction, and the roles of theory and experiment.

Credits: 3.00
College: Nursing & Health Professions
Department: Doctoral Nursing
Restrictions:
Must be enrolled in one of the following Program(s):
Doctor of Nursing Practice
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Co-Requisites: NURS 703

NURS 703 - Politics of Health

The purpose of this course is to provide the doctoral nursing student with a conceptual framework for nursing scholars to better understand health and its politics and its relationship for impacting nursing and global health issues.

Credits: 3.00
College: Nursing & Health Professions
Department: Doctoral Nursing
Restrictions:
Must be enrolled in one of the following Program(s):
Doctor of Nursing Practice
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Co-Requisites: NURS 700

NURS 710 - Human Responses - Physiologic

The student explores the critical and seminal health research conducted by nurse scientists that has examined such human responses to altered physiologic function as urinary incontinence, impaired sleep, altered thermoregulation, pain, fatigue, and other physiological nursing phenomena.

Credits: 3.00
College: Nursing & Health Professions
Department: Doctoral Nursing
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Co-Requisites: NURS 715
Pre-Requisites: NURS 700 Minimum Grade: C and NURS 703 Minimum Grade: C

NURS 715 - Human Responses - Psychologic

Psychosocial concepts relevant in the study and evaluation of nursing practice such as stress, anxiety, depression, grief, coping, addiction,

impulse control, uncertainty, violence, spirituality, social support, and self-transcendence are discussed.

Credits: 3.00
College: Nursing & Health Professions

Pre-Requisites: NURS 997 Minimum Grade: CR

NURS 999 - Cont Dissertation Advisement

Students who have not submitted and defended their dissertation after two quarters of NURS 998 register for this course in perpetua until they have defended their dissertation. May be repeated for credit.
Credits: 1.00
College: Nursing & Health Professions
Department: Doctoral Nursing
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Pre-Requisites: NURS 998 Minimum Grade: CR

Physical Therapy Rehabilitation Science Courses

PTRS 501 - Introduction to Research

The course is designed to provide professional graduate students with the skills necessary to evaluate the relationship between practice and published research using an interdisciplinary approach. The content includes an overview of research concepts, research ethics, literature reviews, quantitative and qualitative research methods, including sampling, data collection, and analysis.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter

Must be enrolled in one of the following College(s)/School(s):
Nursing & Health Professions

PTRS 530 - Kinesiology I

This course is part one of a two-part series designed to provide students with basic knowledge of biomechanics and functional aspects of the musculoskeletal system. It involves the study of the anatomical, biomechanical, and physiological fundamentals of human motion as it pertains to the upper extremity.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Physical Therapy
Rehabilitation Sciences

PTRS 531 - Kinesiology II

This course is part two of a two-part series designed to provide students with basic knowledge of biomechanics and functional aspects of the musculoskeletal system. It involves the study of the anatomical, biomechanical, and physiological fundamentals of human motion as it pertains to the spine and lower extremity.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Physical Therapy
Rehabilitation Sciences
Pre-Requisites: PTRS 530 Minimum Grade: C and PTRS 534 Minimum Grade: C and PTRS 532 Minimum Grade: C and PTRS 537 Minimum Grade: C and PTRS 633 Minimum Grade: C and PTRS 613 Minimum Grade: C

PTRS 532 - Human Gross Anatomy I

This course is part one of a two-part series designed to introduce students to the structure and function of the back, neck, face, and upper extremity with particular emphasis on the nervous and musculoskeletal systems. Special emphasis is places on clinical relevance and functional interrelationships of the anatomic structures.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Physical Therapy
Rehabilitation Sciences

PTRS 533 - Human Gross Anatomy II

This course is part two of a two-part series designed to introduce students to the structure and function of the cranium, thorax, abdomen, and lower extremity with particular emphasis on the nervous

and musculoskeletal systems. Special emphasis is placed on clinical relevance and functional interrelationships of the anatomic structures.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

Pre-Requisites: PTRS 530 Minimum Grade: C and PTRS 534 Minimum

Grade: C and PTRS 532 Minimum Grade: C and PTRS 537 Minimum

Grade: C and PTRS 633 Minimum Grade: C and PTRS 613 Minimum

Grade: C

PTRS 534 - PT Exam & Intervention I

This course prepares a student to perform a basic musculoskeletal examination of the cervical spine and upper extremity. The entire patient management process from history taking to prescription of interventions is introduced and applied. Basic skills needed in the examination are described and practiced.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

PTRS 535 - PT Exam & Intervention II

This course prepares a student to perform a basic musculoskeletal examination of the lumbar spine and lower extremity. The patient management process from history taking to prescription of interventions is applied. Basic skills needed in the examination are described and practiced.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

Pre-Requisites: PTRS 534 Minimum Grade: C

PTRS 536 - Topics in Pathophysiology

Topics in Pathophysiology is a lecture format course that introduces the physical therapy students to physiology and pathophysiology of organ systems, disease states and conditions. This course provides basic information to understand the interaction of pathology between bodily systems and the medical management of specific disease states.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

Pre-Requisites: PTRS 530 Minimum Grade: C and PTRS 534 Minimum

Grade: C and PTRS 537 Minimum Grade: C and PTRS 633 Minimum

Grade: C and PTRS 532 Minimum Grade: C and PTRS 613 Minimum

Grade: C

PTRS 537 - Clinical Correlations I

Utilizing a case-based format, this course assists students with clinical decision-making strategies as outlined in the Guide to Physical Therapist Practice. Students apply concepts of patient-client management including examination, evaluation, diagnosis, prognosis, and intervention. Through small group discussion, students develop their group skills and are introduced to the team approach.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

PTRS 538 - Clinical Correlations II

This course emphasizes decision-making strategies for patients with multiple co-morbidities. Meta-cognitive strategies are used during clinical decision making to assist with student transitions from novice to entry-level clinicians.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

Co-Requisites: PTRS 632, PTRS 635, PTRS 643, PTRS 753

Pre-Requisites: PTRS 776 Minimum Grade: C and PTRS 610 Minimum

Grade: C

PTRS 590 - Clinical Anatomy

Exposes clinicians to the structure and function of the body with particular emphasis on the nervous and musculoskeletal systems. The format consists of online presentations and an optional onsite lecture session that includes prosections/dissections. Special emphasis is placed on clinical relevance and functional interrelationships of the anatomic structures.

Credits: 3.00 or 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

PTRS 604 - Induction Inquiry Integration

This course provides an introduction to the learning philosophy of the program, introducing models of adult learning, learning styles and experiential learning. Different forms of knowledge are explored. Methods of creating knowledge from experimentation, observation and experience are studied.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

PTRS 609 - Experiential Accreditation

Provides an opportunity for bachelors prepared students to gain credit for their professional experiential learning. With guidance from the course director, students compile a portfolio, reflecting on evidence that demonstrates their ability to perform higher-level academic functions in a clinical context: analysis and decision making.

Credits: 6.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

PTRS 610 - Issues in Pharmacotherapy

Issues in Pharmacotherapy is a lecture-format course that focuses on providing foundational information about pharmacotherapy, pharmacokinetics, and pharmacodynamics that is applicable in physical therapy. Drug classifications are described. Examples are provided of various drug categories. This is a required course taken by all entry-level DPT students.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

PTRS 612 - Pharmacotherapeutics

Pharmacotherapeutics is a lecture-format course that focuses on providing foundational information about pharmacotherapeutics, pharmacology, pharmacokinetics, and pharmacodynamics that is applicable in physical therapy. Drug classifications are described. Examples are provided of various drug categories.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

PTRS 613 - Clinical Practice I

Clinical Practice I is an opportunity for students to practice skills learned in Musculoskeletal Examination & Intervention I and Clinical Correlations I. Practice will be related to orthopedic diagnoses and

reading and interpreting patient data. Students will have the opportunity to practice skills under direct supervision of faculty instructors.

Credits: .50

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

PTRS 614 - Clinical Practice II

Clinical Practice II is the second opportunity for students to practice skills learned in Musculoskeletal Examination and Intervention I and II and Clinical Correlations I. Practice will be related to orthopedic diagnoses and reading and interpreting patient data. Students will have the opportunity to practice skills under direct supervision of faculty instructors.

Credits: .50

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

Pre-Requisites: PTRS 530 Minimum Grade: C and PTRS 534 Minimum

Grade: C and PTRS 532 Minimum Grade: C and PTRS 537 Minimum

Grade: C and PTRS 633 Minimum Grade: C and PTRS 613 Minimum

Grade: C

PTRS 615 - Clinical Practice III

This is the third in a series of four clinical practice courses. Students will apply concepts and skills learned in Functional Mobility in working with patients and residents in various hospital-based settings, including an acute care hospital, a rehabilitation hospital, and a nursing home.

Credits: .50

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

Pre-Requisites: PTRS 533 Minimum Grade: C and PTRS 531 Minimum

Grade: C and PTRS 535 Minimum Grade: C and PTRS 536 Minimum

Grade: C and PTRS 614 Minimum Grade: C

PTRS 616 - Clinical Practice IV

This is the fourth in a series of four clinical practice courses. Students will apply concepts and skills learned in Cardiopulmonary PT I in working with patients and clients in various settings, including an acute care hospital and healthcare center (11th Street Family Health Services).

Credits: .50

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

PTRS 620 - Ortho PT: Upper Extremity

This is the first in a series of three courses on orthopedic physical therapy. This course emphasizes differential diagnosis, clinical decision making, and development and implementation of a plan of care for conservative and post-operative management of patients demonstrating musculoskeletal dysfunction of the upper extremity. Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

Pre-Requisites: PTRS 533 Minimum Grade: C and PTRS 531 Minimum Grade: C and PTRS 535 Minimum Grade: C and PTRS 536 Minimum Grade: C and PTRS 614 Minimum Grade: C

PTRS 621 - Ortho PT: Lower Extremity

This is the second in a series of three courses on Orthopedic Physical Therapy. This course emphasizes differential diagnosis, clinical decision making, and development and implementation of a plan of care for conservative and post-operative management of patients demonstrating musculoskeletal dysfunction of the lower extremity. Credits: 3.00

College: Nursing & Health Professions

Rehabilitation Sciences

Pre-Requisites: PTRS 776 Minimum Grade: C

PTRS 633 - Professional Development

This is the first in a series of five professional development courses.

This focus of this course is to provide students with the opportunity to enhance self-awareness as learners and to familiarize the student with the concept of professionalism for the practice of physical therapy.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

PTRS 634 - Health Professional Roles

This is the second in a series of five professional development courses.

This course focuses on professional issues and behaviors that are necessary to prepare physical therapy students for their clinical experiences. The course is structured modules with focus on cultural competency, health administration and organization, and developing roles as a health care professional.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

PTRS 641 - Neuro Exam and Intervention I

This course introduces the student to examination, evaluation, diagnosis and comprehensive interventions for the adult with neurological dysfunction. It focuses on examination skills and common interventions used with this patient population. Clinical decision making will be utilized to develop appropriate intervention strategies, application techniques, and neuromuscular strengthening and conditioning principles.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

Pre-Requisites: PTRS 620 Minimum Grade: C and PTRS 623 Minimum Grade: C and NEUR 507 Minimum Grade: C and PTRS 624 Minimum Grade: C and PTRS 638 Minimum Grade: C and PTRS 615 Minimum Grade: C

PTRS 642 - Neuro Exam and Intervention II

This course focuses on adults with central nervous system dysfunction where vestibular, sensory, perceptual, cognitive, and communication deficits result in more complex movement dysfunction and limited capacity for learning. Students will learn to integrate neuromuscular, sensory-perceptual, cognitive, behavioral and functional mobility strategies into a comprehensive plan of care.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Pre-Requisites: PTRS 777 Minimum Grade: C and PTRS 636 Minimum Grade: C

PTRS 650 - Motor Control and Learning Rehab

Students examine topics in movement science in motor control and motor learning throughout the lifespan and the application of these principles to varied patient populations. This course also allows students to review the movement science literature as it applies to select patient populations.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

PTRS 651 - Applied Tissue Biomechanics

This course is designed to provide the information necessary for the understanding and evaluation of the effects of immobilization, increased stress and strain, injury, disease, healing and aging on biological tissues. Emphasis is placed upon the integration of tissue biomechanics into the rationale and basis for therapeutic interventions.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

PTRS 720 - Rehabilitation Management

This course focuses the student on the organization and administrative aspects of health care delivery. Students knowledge of managerial and service-related business concepts are enhanced in order to increase the efficiency and effectiveness of their and others' practice in today's health care environment.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

PTRS 721 - Teaching Concepts in Rehab

The course provides information on the means of teaching/learning theory, teaching and learning styles, planning of learning experiences, clinical teaching tools and strategies, teaching objectives, effective feedback, and performance evaluation, all within the context of adult education and with the acknowledgment of the clinical experience of the participants.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

PTRS 750 - Differential Diagnosis

This course uses published evidence to explore the process of differential diagnosis and explain how it is an essential piece of all physical therapy examinations. The recognition of significant medical

conditions that fall out of the scope of physical therapy practice is emphasized.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

PTRS 751 - Evidence-Based Practice

The objective of this course is development of skills for finding, analyzing, communicating and applying knowledge and research to physical therapy practice. Students will develop competencies in evidence-based clinical decision making.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

Pre-Requisites: PTRS 621 Minimum Grade: C and PTRS 627 Minimum

Grade: C and NEUR 508 Minimum Grade: C and PTRS 639 Minimum

Grade: C and PTRS 641 Minimum Grade: C and PTRS 646 Minimum

Grade: C and PTRS 616 Minimum Grade: C

PTRS 752 - Research and Measurement in PT

This course introduces stages of research processes including research theory, formulating the research question, literature review, sampling, and experimental controls. Areas of psychometric measurement theory including reliability and validity issues will be examined. This information is applied to common clinical and research tests and measurements related to physical therapy.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

Pre-Requisites: PTRS 621 Minimum Grade: C and PTRS 627 Minimum

Grade: C and NEUR 508 Minimum Grade: C and PTRS 639 Minimum

Grade: C and PTRS 641 Minimum Grade: C and PTRS 646 Minimum

Grade: C and PTRS 616 Minimum Grade: C

PTRS 753 - Evaluation of Research in PT

This course introduces experimental, quasi-experimental, exploratory, descriptive, and other research designs and the statistical analyses most often used in biomedical and rehabilitation research. Emphasis is on determining the appropriate design for the research question, integrating the research design with data analysis, synthesizing information, and understanding and critically appraising scientific literature.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

Pre-Requisites: PTRS 776 Minimum Grade: C

PTRS 758 - Evidence-Based Rehabilitation

The focus of this web-based course is on analysis of the evidence for physical (occupational) therapy practice including models and guidelines for practice. Participants development competencies in transfer of knowledge and research into practice, clinical reasoning, and evidence based decision making.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

PTRS 760 - Pediatric Decision Making

The course focuses on evidence-based examination and intervention of children with disabilities within the context of child, family, and environmental factors. The course highlights the role of physical therapists in promoting the status of the neuromuscular and musculoskeletal systems. The importance of family-centered care, parent-child interactions, and play are explored.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

PTRS 761 - Pediatric Clinical Application

This course emphasizes clinical decision making related to the components of physical therapy management. The course uses a problem-based format with complex patient cases serving as the basis for the development of student learning issues. Students explore community and professional resources and apply course material to pediatric physical therapy practice.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

PTRS 762 - Women's Health PT

Provides a review of female anatomy and physiology. Emphasis on aspects of examination, evaluation and intervention for selected topics related to women's health across the lifespan, especially during reproductive and menopausal years. Students are encouraged to explore the unique niche physical therapists have in providing health care services for women.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

PTRS 763 - Decision Making in Rehab

This course is designed to provide students with the opportunity to integrate basic and clinical science research in the design of intervention paradigms for patients being served in rehabilitation settings.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

PTRS 764 - Geriatric Rehabilitation

This course examines the implications of an aging population, effects of age on physiological, kinesiological, social, and psychological function, using evidence as a framework for examination, intervention and clinical decision making, advocacy for patients and caregivers, health promotion and wellness, the impact of Medicare, and pharmacological issues in the elderly.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

PTRS 765 - Spinal Rehabilitation

This course applies an evidence-based approach to answering clinical questions about examination, diagnosis, prevention, and management of spinal and pelvic disorders. Goals are to foster independent, critical thinking based on interpretation of scientific literature and its integration into PT theory and practice and to enhance clinical examination and intervention skills.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

PTRS 766 - Extremity Rehabilitation

This elective, on-line course explores advanced examination and intervention strategies for the upper and lower extremities. Clinical examination procedures (including clinical imaging), outcome measures, prevention and treatment interventions will be critically analyzed using an evidence-based approach.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

PTRS 767 - Foundations in Hand Therapy

This course introduces the student to the specialized field of hand therapy. The principles of hand therapy included are musculoskeletal tissues and pathology, clinical reasoning, hand examination, splinting principles, physical agents, and therapeutic exercise. Common elbow, wrist, and hand disorders are discussed to integrate the foundation topics into clinical practice.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

PTRS 768 - Upper Quarter Joint Pathology

This course reviews the common pathologies that effect the articulations and surrounding soft tissues, especially tendons and ligaments. Anatomy, biomechanics, and examination principles for each region, shoulder, elbow, wrist, and hand are discussed. Conservative and post-operative therapeutic management for fractures, dislocations, tendon repairs, ligament injuries, and degenerative disorders are presented.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: PTRS 767 Minimum Grade: C

PTRS 769 - Nerve Injuries of the Upper Quarter

This course emphasizes the anatomy and basic science principles for the cervical spine and major peripheral nerves of the upper quarter. Age-related changes and pathophysiology of nerve lacerations and entrapment neuropathies are discussed. Advanced examination skills and interventions, conservative and post-operative, for the peripheral nervous system are presented.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: PTRS 767 Minimum Grade: C

PTRS 770 - Diseases That Affect the Hand

Course content emphasizes the impact of disease on hand function, especially with activities of daily living, vocational activities, and recreational activities. The overview includes pathology, clinical presentation, examination techniques and clinical interventions specific to the hand. Additionally, multisystem involvement associated with mutilated hand injuries and pain syndromes is discussed.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: PTRS 767 Minimum Grade: C

PTRS 771 - Work Injury Management

This course emphasizes management of clients with work-related musculoskeletal injuries with focus on identifying and defining the therapists' involvement in the return to work process. Topics such as ergonomic assessment, onsite programs, safety and wellness programs, and government regulations will be presented with a global view of the industrial setting.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

PTRS 772 - Selected Topics in Pediatrics

This course is designed to provide the opportunity for advanced content and discussion regarding issues facing the pediatric practitioner. This course is designed to address current issues related to practice in various pediatric settings. Topics are introduced and content delivered, but the emphasis will be on student/instructor interaction and discussion. May not be repeated for credit.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

PTRS 773 - Seminar in Pediatrics

This seminar exposes students to current standards, guidelines, and evidence related to pediatric community-based physical therapy practice. The seminar emphasizes the role of the therapist in early intervention and school-based practice. Advocacy for self-determination, inclusion and services in a child's natural environment is explored.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

PTRS 774 - Clinical Education Seminar

This seminar-based course precedes the student's first full-time clinical education experience and assists the student in transitioning from the classroom to the clinical setting. Through simulated cases and role-playing exercises, the student will develop knowledge and behavioral skills for effective practice as a student physical therapist in the clinical environment.

Credits: .50

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):

PTRS 775 - Clinical Education I

This course is the first of four required full-time supervised clinical education experiences. This course is the student's opportunity to begin to apply classroom knowledge and laboratory skills to patients and clients. The student also begins to develop as a professional through role modeling by the clinical instructor.

Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):

PTRS 778 - Clinical Internship

This course is the final and capstone full-time supervised clinical education experience. The student attains mastery of knowledge, skills, and attitudes to effectively and safely practice in today's healthcare environment. The student will experience the multiple roles of the physical therapist, such as those related to administration and health promotion.

Physician Assistant Courses

PA 541 - Advanced Anatomy

This lecture and laboratory course provides a regional approach to human anatomy for clinical applications through the linking of anatomical structure to physiology and pathophysiology. The anatomy of seven bodily regions is reviewed and anatomical variations are discussed. Laboratories utilizing pro-sected cadavers, clinical specimens, radiographs and interactive websites complement lecture material.

Credits: 4.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

PA 542 - Patient Communication

This lecture and seminar course provides instruction in communication skills for the effective exchange of information with patients. Addressed in the course are patient-provider collaboration, health literacy, and communication techniques for patients across cultural and generational groups, and counseling techniques for patient education, treatment adherence, and health promotion.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

PA 543 - Ethical Issues in Physician Assistant Practice

This is a lecture and seminar course addressing ethical and professional issues in Physician Assistant practice. Topics include medical ethics, ethical decision-making, professional responsibility, and commitment to patients' welfare. The link between health as a human right and medical ethics is explored.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

PA 544 - Clinical Assessment

This course provides the PA student with the knowledge, demeanor, and motor skills required to professional and proficiently elicit thorough medical histories and perform precise physical examination techniques for each body system. Accurate, organized recordings of clinical findings from patient encounters in the hospital setting are required.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 542 Minimum Grade: C and PA 543 Minimum Grade: C

PA 545 - Physician Assistant Practice

This course introduces the history, education, and professional organizations in the Physician Assistant profession and discusses professional practice issues in the context of leadership and stewardship theories while utilizing PAs as role models. Completion of a service learning project is required for course completion.

Credits: 2.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

PA 546 - Health Policy for Physician Assistant Practice

This course explores the UD health care system and health policy issues related to the costs of health care, inequities in quality and access to care, and current US policies. The role of Physician Assistants in the health care system is examined along with issues related to malpractice, reimbursement, and quality assurance.

Credits: 2.00

PA 571 - Competency for Clinical Training

Competency for Clinical Training is a required course for any PA student who experiences an interruption in the usual sequence of didactic and clinical training after the second quarter in the program. The course provides the forum for the student to demonstrate competencies requisite for continued didactic and/or clinical training.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 544 Minimum Grade: C and PA 551 Minimum Grade:

C and PA 556 Minimum Grade: C and PA 559 Minimum Grade: C

PA 581 - Research Methods and Designs

The course introduces the knowledge and skills necessary to evaluate published research for clinical practice. Topics in this web-based course are research concepts, hypotheses and questions; literature searches and reviews; ethics in research; qualitative and quantitative research methods and designs including sampling, data collection and interpretation; and levels of scientific evidence.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

PA 582 - Principles of Evidence-Based Practice

With an emphasis on developing skills for clinicians to critically appraise the validity of medical literature, this online course offers a critical analysis of several types of research studies for use in clinical practice.

The course requires knowledge and application of basic research and statistical concepts, and online searching skills.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 581 Minimum Grade: C

PA 583 - Clinical Application of Epidemiology

This online course introduces basic terminology and concepts in epidemiology and develops knowledge for application of evidence-based health promotion strategies to clinical practice. The leading causes of morbidity and mortality in the United States are discussed in conjunction with recommendations for health promotion across the lifespan and population groups.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

PA 584 - Health Policy

This web-based course explores health policy issues relating to the cost of health care and disparities in access and quality of care, and strategies to address the deficiencies in the US health care system.

Each student critiques a health policy imperative and proposes solutions to remedy the issues identified in the critique.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

PA 585 - Leadership and Stewardship

Key concepts of leadership with a focus on servant and visionary leadership are discussed in this online course. Stewardship and strategies for effecting change as a leader are explored through cases applicable to professional settings. Synthesis of course content is evidenced in the compilation of a professional leadership portfolio.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

PA 629 - Medicine Rotation

The Medicine Rotation is a clinical course that provides the PA student with adult patient care experience under the supervision of a licensed medical practitioner. Students apply knowledge and skills learned in the didactic year to patient evaluation, and begin to apply patient management strategies to patients in an assigned clinical setting.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 545 Minimum Grade: C and PA 546 Minimum Grade: C and PA 547 Minimum Grade: C and PA 550 Minimum Grade: C and PA 553 Minimum Grade: C and PA 554 Minimum Grade: C and PA 558 Minimum Grade: C and PA 561 Minimum Grade: C

PA 630 - Pediatrics Rotation

The Pediatrics Rotation is a clinical course that provides the PA student with pediatric patient care experience under the supervision of a licensed medical practitioner. Students apply knowledge and skills learned in the didactic year to patient evaluation, and begin to apply patient management strategies to patients in an assigned clinical setting.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

PA 633 - Surgery Rotation

The Surgery Rotation is a clinical course that provides the PA student with surgical patient care experience under the supervision of a licensed medical practitioner. Students apply knowledge and skills learned in the didactic year to patient evaluation, and begin to apply patient management strategies to patients in an assigned clinical setting.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 545 Minimum Grade: C and PA 546 Minimum Grade: C and PA 547 Minimum Grade: C and PA 550 Minimum Grade: C and PA 553 Minimum Grade: C and PA 554 Minimum Grade: C and PA 558 Minimum Grade: C and PA 561 Minimum Grade: C

PA 634 - Emergency Medicine Rotation

The Emergency Medicine Rotation is a clinical course that provides the PA student with patient care experience in an emergency department setting under the supervision of a licensed medical practitioner. Students apply knowledge and skills learned in the didactic year to patient evaluation, and begin to apply patient management strategies to patients in an assigned clinical setting.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 545 Minimum Grade: C and PA 546 Minimum Grade: C and PA 547 Minimum Grade: C and PA 550 Minimum Grade: C and PA 553 Minimum Grade: C and PA 554 Minimum Grade: C and PA 558 Minimum Grade: C and PA 561 Minimum Grade: C

PA 635 - Primary Care Practicum I

The Primary Care Practicum I is a clinical course that provides the PA student with patient care experience in an ambulatory medicine setting under the supervision of a licensed medical practitioner. Students refine clinical skills learned in preparation for practice and increase knowledge of disease mechanisms and patient management for common primary care disorders.

Credits: 10.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 629 Minimum Grade: C and PA 630 Minimum Grade: C and PA 631 Minimum Grade: C and PA 632 Minimum Grade: C and PA 633 Minimum Grade: C and PA 634 Minimum Grade: C

PA 636 - Graduate Project I

Graduate Project I is a variable credit course, 3-6 quarter credits, intended to prepare the PA student for the development of a project related to the candidate's research interests. The Graduate Project I course provides the PA student an opportunity to creatively address a proven deficiency in the realms of clinical medicine such as patient or medical provider educational material.

Credits: 3.00 to 6.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 547 Minimum Grade: C

PA 637 - Primary Care Practicum II

The Primary Care Practicum II is a clinical course in which PA students continue to progress to higher levels of clinical responsibility for patient evaluation and management as clinical skills, medical knowledge, and professional confidence coalesce under the supervision of licensed medical providers. This course is the final clinical experience in the PA professional training program.

Credits: 10.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 635 Minimum Grade: C and PA 629 Minimum Grade: C and PA 630 Minimum Grade: C and PA 631 Minimum Grade: C and PA 632 Minimum Grade: C and PA 633 Minimum Grade: C and PA 634 Minimum Grade: C

PA 638 - Graduate Project II

Graduate Project II is a supervised independent study course of variable credit, 3-6 quarter credits, in which the PA student further develops, implements, and evaluates the project proposed in the Graduate Project I course. Continued review and critique of the literature related to the project are required. The PA student works with an assigned faculty advisor for guidance and feedback

Credits: 3.00 to 6.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 547 Minimum Grade: C and PA 636 Minimum Grade: C

PA 640 - Clinical Practicum

Clinical Practicum is an elective clinical course that provides a forum for a PA student to acquire knowledge and clinical experience in a clinical specialty after completion of the required entry-level Physician Assistant Program curriculum. Through supervised clinical practice and review of current related literature, the PA student will develop foundational clinical skills and knowledge in the subspecialty studied.

Credits: 5.00 to 10.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Pre-Requisites: PA 637 Minimum Grade: C and PA 638 Minimum Grade: C

PA 641 - Clinical Update

This web-based course explores recent advances in clinical knowledge and recommendations for clinical practice, and develops the student's lifelong learning skills. The student undertakes a broad review of clinical medicine and identifies areas for enhancement of clinical knowledge and skills through the use of reputable electronic information sources.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 582 Minimum Grade: C

PA 642 - Clinical Colloquium

In this online didactic course the student explores a clinical specialty through use of current, reputable information sources. The student identifies a clinical topic for in-depth study, and with faculty guidance uses critical appraisal of current literature for enhancement of knowledge in the topic, and application to the capstone project.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 641 Minimum Grade: C

PA 643 - Clinical Practice Project Research

Working with an assigned advisor, the student reviews and catalogues the published literature related to the clinical practice project topic. The student composes a literature review and gap analysis, and critically appraises articles as the foundation for the design and outline of the capstone project proposal within this course.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 642 Minimum Grade: C

PA 661 - Tenets of Health Promotion

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 583 Minimum Grade: C

PA 662 - Health Promotion Materials

In this online course, knowledge from the Health Promotion course is applied to the review of national health promotion campaigns, and the design of a theory-driven, audience-centered health promotion proposal. Topics essential to the design of effective health promotion campaigns such as health literacy, cultural competency, and the challenges presented by special population groups are explored.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 661 Minimum Grade: C

PA 663 - Health Promotion Project Research

Working with an assigned advisor, the student reviews and catalogues the published literature related to the health promotion project topic.

The student composes a literature review and gap analysis, and critically appraises articles as the foundation for the design and outline of the capstone project proposal within this course.

Credits: 5.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 582 Minimum Grade: C and PA 662 Minimum Grade: C

PA 680 - Summative Remediation

Summative Remediation is one credit course which provides an intensive review of major topics covered in the didactic and clinical phases of the PA program for any PA student who has not achieved minimum passing grades on two administrations of the Summative Examination /OSCE.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 637 Minimum Grade: C

PA 695 - Portfolio Preparation

Working with an assigned advisor, this course assists the student document significant professional experience as a clinician, researcher, leader, and/or advocate in the preparation of a professional portfolio. Approval of the Program Director is required for course registration.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Co-Requisites: PA 696

Pre-Requisites: PA 581 Minimum Grade: C and PA 582 Minimum Grade: C and PA 583 Minimum Grade: C and PA 584 Minimum Grade: C and PA 585 Minimum Grade: C

PA 696 - Portfolio Review

The Portfolio Review is conducted by a multi-disciplinary Portfolio Review Committee to award 5-10 academic credits for learning substantiated in the professional portfolio and matched to the educational competencies and outcomes of the Program. The portfolio must demonstrate analysis, synthesis, and interpretation of the professional experiential learning and be substantiated by documentation.

Credits: 5.00 to 10.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Co-Requisites: PA 695

PA 697 - Independent Study

Independent Study is a variable (3-6) credit course in which the student works with in assigned advisor to review and catalogue the published literature related to the cognate topic of interest. The student composes a literature review and gap analysis, and critically appraises articles as the basis for the design and outline of the capstone project proposal within this course.

Credits: 3.00 to 6.00

College: Nursing & Health Professions

Department: CNHP - Physicians Assistant

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physician Assistant

Pre-Requisites: PA 582 Minimum Grade: C

PA 698 - Capstone Project

Working with an assigned advisor, the student develops, implements, and evaluates the literature-based capstone project designed within the cognate courses. Continued critical analysis of the literature related to the project is required to fulfill the goals of the project to advance dissemination of medical knowledge and quality of care.

Credits: 5.00

Rehabilitation Sciences Courses

RHAB 759 - Introduction to Biostatistics

This is an introductory course which focuses on the fundamentals of biostatistics for nursing and health sciences graduate students. Excel-based and SPSS assignments are used to supplement the content. May be repeated once for credit.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following College(s)/School(s):

Nursing & Health Professions

RHAB 760 - Academia for Rehab Scientists

Students are introduced to the organizational structures and functions commonly found in universities and colleges. Internal and external environmental issues of higher education and professional development are discussed. Familiarity with the context of academic environments enables the students to understand their roles and responsibilities as faculty members.

Credits: 1.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Graduate Quarter

Must be enrolled in one of the following Major(s):

Physical Therapy

Rehabilitation Sciences

RHAB 761 - Foundations of Rehab Research

Provides exposure to theories and models related to rehabilitation sciences research. Theories that may be applied to various phases of the enabling-disabling process are examined. Students discuss how these theories are tied to development of research questions in line with the mission, goals and research priorities of funding sources.

Credits: 3.00

College: Nursing & Health Professions

Department: CNHP - Rehabilitation Sciences

Restrictions:

Must be enrolled in one of the following Program Level(s):

Must be enrolled in one of the following Major(s):

Nursing

RSCH 523 - Methods for Health Research

The course is designed to provide professional graduate students with the skills necessary to evaluate the relationship between practice and published research. The course content includes an overview of research concepts, ethics in research, literature searches and reviews, quantitative and qualitative research methods and designs, and data collection, analysis and interpretation techniques. An interdisciplinary team of faculty teaches the course using a problem solving approach. When feasible, concepts and problems are addressed by students in interdisciplinary teams. Through evaluation of published research in an interdisciplinary context, the skills of evidence-based practice are developed.
