About the College of Nursing and Health Professions: Undergraduate

By anticipating and meeting the challenges presented by the nation's health care system, Drexel's College of Nursing and Health Professions is doing its part to guarantee a lasting legacy for current and future health professionals.

The College of Nursing and Health Professions offers a wide range of undergraduate programs. Many offer flexible scheduling, making it possible for students to continue their education through part-time, online, night, or weekend study.

Majors

- Behavioral Health Counseling (p. 5)
- Health Sciences (Pathway to Health Professions) (p. 9)
 - ACE - 3+1 BSN (p. 12)
 - ACE - 3+3 BS/DPT (p. 13)
 - ACE - BS/MHS (p. 14)
- Health Services Administration (p. 15)
- Invasive Cardiovascular Technology (p. 19)
- Nursing (BSN) (p. 21)
 - Accelerated Career Entry (ACE) (p. 24)
 - RN/BSN Completion Program (p. 25)
 - Dual/Accelerated Degree (p. 26)
- Nutrition and Foods (p. 27)
- Radiologic Technology (AS) (p. 32)

Minors

- Addictions Counseling (p. 35)
- Health Services Administration (p. 19)
- Nutrition and Foods (p. 31)
- Psychiatric Rehabilitation (p. 35)

Certificates

- Medical Billing and Coding (p. 35)

About the College

As the practice of medicine has become more complex with the advent of technology and new drug therapies, so has the provision of health services. An increasingly diverse, aging US population experiencing higher rates of chronic illness is demanding more service and culturally competent care. While technology improvements help provide the means to deliver safer, high-quality care, our society is facing shortages in health professionals such as nurses, mental health workers, nurse anesthetists, physician assistants, and rehabilitation science professionals. The demand for these and other skilled professionals continues to increase and is expected to remain steady well into the 21st century. There is no more vibrant a place to prepare for these kinds of meaningful, rewarding

careers than at Drexel University's College of Nursing and Health Professions (<http://www.drexel.edu/cnhp>). The College offers associate's, bachelor's, master's, and doctoral degrees in more than a dozen health care fields.

Just as the health profession disciplines have come of age, so has the College of Nursing and Health Professions. Founded in 1969 as the College of Allied Health Professions with just three degree programs and a faculty of five, the college has undergone a remarkable evolution. Today it serves over 3,000 students, with a broad array of contemporary program offerings. Along the way, it has earned widespread recognition and accreditation for the education of health professionals.

Mission and Approach

The College believes that the health care needs of today and tomorrow can best be met by professionals who have expertise in their own fields and a concurrent understanding of other health disciplines. In addition to providing a broad-based education that balances academic learning with clinical training, the University promotes collaboration among students in our College of Nursing and Health Professions, our School of Public Health, and the College of Medicine, which draws from the rich traditions of predecessors Hahnemann University and the Medical College of Pennsylvania.

Teamwork is as important in academics as it is in health care. The College of Nursing and Health Professions' dedicated and knowledgeable faculty members work closely with students, providing a supportive and creative learning environment. Graduates from the College possess a wide range of experiences and the knowledge, compassion, and lifelong learning skills needed to become accomplished health care professionals.

The student body, which is diverse in age and culture, reflects Drexel University's commitment to provide qualified students with an opportunity for advanced education. Drexel welcomes nontraditional applicants and especially encourages applications from underrepresented minorities and those interested in practicing in underserved areas.

Many of Drexel's College of Nursing and Health Professions programs offer flexible scheduling, making it possible for students to continue their education through part-time, online, night, or weekend study.

Accreditation

Nursing programs are accredited by the CCNE (Commission on Collegiate Nursing Education), and the PA State Board of Nursing.

The Couple and Family Therapy MFT degree and Post-Master's Certificates are accredited by COAMFTE (Commission on Accreditation of Marriage and Family Therapy Education).

The Creative Arts in Therapy MA degrees in Dance/Movement Therapy, Music Therapy, and Art Therapy are approved by the ADTA (American Dance Therapy Association), the AMTA (American Music Therapy Association), and the AATA (American Art Therapy Association), respectively.

The Didactic Program in Nutrition is accredited by ACEND (Accreditation Council for Education in Nutrition and Dietetics).

The Health Services Administration program is certified by AUPHA (Association of University Programs in Health Administration).

The Nurse Anesthesia program is accredited by the Council on Accreditation of Nurse Anesthesia Educational Programs.

The Professional Physical Therapy (DPT) program is accredited by CAPTE (Commission on Accreditation in Physical Therapy Education).

The Physician Assistant program is accredited by ARC-PA (Accreditation Review Commission on Education for the Physician Assistant).

Behavioral Health Counseling

Bachelor of Science Degree: 180.0 quarter credits

About the Program

The Behavioral Health Counseling program focuses on developing competencies needed to engage in clinical services and support for people experiencing mental illnesses and substance use disorders. Students create a plan of study and select courses based on their career interests. Our students go on to work in areas such as psychiatric rehabilitation, prevention and treatment of substance use disorders, child and adolescent services, and forensic behavioral health.

During the freshman and sophomore years, students develop a foundation for clinical practice by studying humanities, social sciences, writing, biological sciences, math and research methods. Behavioral Health Counseling (BHC) courses build on this foundation by demonstrating that biological, psychological, and social perspectives are needed to deliver today's evidence-based practices and to develop the next generation of innovative interventions. BHC courses offer a comprehensive selection of essential subjects and advanced practice electives that focus on establishing therapeutic relationships with people from diverse backgrounds and needs.

The major also offers a co-op experience in a clinical setting that greatly enhances the student's preparation for employment after graduation and for graduate study in professional counseling, social work, or psychology. For students interested in certification as addictions counselors, all program courses are accredited by the Pennsylvania Certification Board. Students may also pursue certification in psychiatric rehabilitation.

For additional information about this major, visit the Behavioral Health Counseling (<http://www.drexel.edu/behavioralHealth>) Department on the College of Nursing and Health Profession's site.

Degree Requirements

General Education Requirements

| | | |
|------------|-----------------------|-----|
| UNIV NH101 | The Drexel Experience | 2.0 |
|------------|-----------------------|-----|

Computing Requirement

| | | |
|--------|---------------------------|-----|
| CS 161 | Introduction to Computing | 3.0 |
|--------|---------------------------|-----|

English Sequence

| | | |
|----------|--|-----|

Required Behavioral Health Counseling Courses

| | | |
|----------|---|-----|
| BACS 100 | Life Span Human Development | 3.0 |
| BACS 200 | Foundation of Behavioral Health Care | 3.0 |
| BACS 220 | Counseling Theory and Practice | 3.0 |
| BACS 230 | Genetics and Mental Health | 3.0 |
| BACS 232 | Ethics and Professional Responsibility | 3.0 |
| BACS 234 | Introduction to Addictive Disorders | 3.0 |
| BACS 236 | Psychiatric Rehabilitation Principles and Practices | 3.0 |
| BACS 255 | Multicultural Counseling | 3.0 |
| BACS 301 | Group Counseling I | 3.0 |
| BACS 304 | Cognitive and Behavioral Counseling I | 3.0 |
| BACS 310 | Recovery and Relapse Prevention | 3.0 |
| BACS 312 | Case Management Methods | 3.0 |
| BACS 320 | Crisis and Brief Intervention | 3.0 |
| BACS 325 | Psychopharmacology for Counselors | 3.0 |
| BACS 401 | Assessment and Treatment Planning | 3.0 |
| BACS 405 | Family-Focused Interventions | 3.0 |
| BACS 490 | Senior Research Project | 3.0 |
| BACS 499 | Readings in Behavioral Health | 1.0 |

Advanced Program Electives

| | |
|-------------------------------|------|
| Select from the following: ** | 18.0 |
|-------------------------------|------|

| | |
|----------|--|
| BACS 250 | Behavioral Health Informatics |
| BACS 350 | Child Psychopathology |
| BACS 360 | Preventing Substance Abuse |
| BACS 367 | Advanced Counseling Intervention |
| BACS 368 | Addictions Counseling with Special Populations |
| BACS 370 | Problem Gambling Interventions |
| BACS 404 | Cognitive and Behavioral Counseling II |
| BACS 410 | Child and Adolescent Support |
| BACS 411 | Forensic Behavior Health Service |
| BACS 412 | Group Counseling II |
| BACS 414 | Co-Occurring Disorders |
| BACS 420 | Psychiatric Rehabilitation Competencies |

| | |
|----------------------|--------------|
| Total Credits | 180.0 |
|----------------------|--------------|

* Students enrolled in the Saturday Scholars program have slightly different general elective requirements. Saturday Scholar students must have 33.0 credits of Social Science and Humanities electives (11-13 courses) and 39.0 credits of free electives (12-18 courses). Often these courses are transfer credits. Saturday Scholars do not take UNIV 101. The Saturday Scholars curriculum still requires 180.0 credits to graduate. See the plan of study for more details.

** Students select a minimum of 18.0 credits, and up to 33.0 credits of advanced program electives (as needed).

Sample Plans of Study

BS Behavioral Health Counseling: 4-Year Co-op Option

(View below for a sample plan for the 4-Year Non-Co-op Option, and for sample plans for both the Saturday Scholars - Fall and Winter Cohort Options.)

Term B

BACS 490 Senior Research Project 3.0

BACS 414 Co-Occurring Disorders 3.0

Term Credits 12.0**Term 8**

Fall

Term A

BACS 370 Problem Gambling Interventions 3.0

BACS 499 Readings in Behavioral Health 3.0

Note*

Term Credits 6.0

Total Credit: 90.0

* Students either transfer or take at Drexel an additional 90.0 quarter credits of General Education courses for 180.0 quarter credits total to complete the degree requirements.

Co-op/Career Opportunities

Drexel University has long been known for its co-operative education program, through which students mix periods of full-time, career related employment with their studies. The Behavioral Health Counseling curriculum includes one co-op option that exposes students to the varied work environments of behavioral health professionals. Co-op provides students with an opportunity to assess their personal strengths and interests for a career in behavioral health by observing successful mental health and addictions professionals in action. Co-op students work for six months in paid or unpaid positions consistent with their interests, abilities, and aptitudes.

After Graduation

Graduates of the Behavioral Health Counseling program are widely acknowledged by regional employers as being among their best prepared new employees. This reputation helps graduates easily find preferred employment in a variety of behavioral health care settings. Many graduates elect to continue their education in graduate and doctoral programs at Drexel or leading universities across the nation. Within Drexel, students may select excellent graduate programs preparing them for licensure as behavioral health clinicians and/or administrative, research, and behavioral health policy-making positions.

Career Opportunities

Behavioral health counseling professionals are employed in a wide range of venues. Counselors are needed in social service agencies, schools, health care facilities, and inpatient and residential treatment settings. Counselors work with children, adolescents, adults, and elderly individuals who experience disability due to mental illnesses or substance use disorders. Graduates who choose to enter the behavioral health workforce find immediate employment in areas such as psychiatric rehabilitation; family and child support services; addictions counseling; case management and services coordination; forensic mental health services; individual and group counseling; and crisis intervention.

The behavioral health care field is tremendously diverse and encompasses far more career opportunities than are listed here. There are career choices to be made at all levels of service — from direct care to administration and policy making. In this regard, students will find tremendous benefit both in the listings and outreach offered by Drexel's Steinbright Career Development Center and in the diverse professional career experience our faculty bring to our students.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on post-graduate opportunities.

Facilities

The College of Nursing and Health Professions is located at Drexel University's Health Sciences Campus located in Center City. A Clinical Learning Resource Center (<http://www.drexel.edu/cnhp/cicsp/default.asp>) offers a simulation lab where students practices skills needed in their chosen behavioral health professions careers. Sessions are video captured to allow students the opportunity to observe and critique their performance.

Pathway to Health Professions: Health Sciences

Bachelor of Science Degree in Health Sciences: 180.0 quarter credits

About the Program

The Pathway to Health Professions curriculum is a four-year course of study with one co-op experience, leading to a BS degree in Health Sciences. Health sciences and clinical sciences courses are combined with mathematics, humanities, and social sciences electives into a fully-integrated curriculum that prepares students for the pursuit of careers in the health professions.

The College of Nursing and Health Professions' Pathway to Health Professions program provides a four-year course of study, leading to the BS degree, for students who wish to study toward health professions careers. Health sciences and clinical sciences courses are combined with mathematics, humanities, and social sciences electives into a fully integrated curriculum that prepares students for the pursuit of health professions careers in the fields of nursing, physician assistant studies, exercise physiology, cardiac rehabilitation therapy, occupational therapy, and physical therapy.

Courses in clinical research (protocol design, research methods, data management, and governmental and regulatory issues) are also included in the curriculum. These courses are designed to give students a strong foundation in clinical research and to prepare them for possible employment in clinical research settings. The clinical research content of the curriculum is also very appropriate for the preparation of students for post-baccalaureate and graduate studies in the health professions.

Co-Op Opportunities

Drexel University has long been known for its co-operative education programs, through which students mix periods of full-time, career related employment with their studies. Some co-op employers of previous Pathway to Health Professions students have included Children's Hospital of Philadelphia, McGee Rehabilitation Hospital, Bryn Mawr Rehabilitation

Hospital, Hahnemann, Good Shepherd Penn Partners and NovaCare, as well as many other health care facilities in the region.

After Graduation

Some graduates of the Pathway to Health Professions program will choose to pursue employment opportunities in clinical research settings, and some will choose to continue their education by enrolling in post-baccalaureate and graduate programs leading to a variety of health professions careers.

Career Opportunities

Graduates of the Pathway to Health Professions program may choose to enter the workforce in the field of clinical research. Clinical research is a rapidly expanding enterprise. There is a great need for trained individuals to fill positions on clinical research teams that are performing the research necessary to obtain FDA approval of new drugs, new medical devices, and new medical procedures. Clinical research is performed in clinics, hospital wards, pharmaceutical companies, medical device firms, doctors' offices, operating rooms, and other health care settings. In those settings, graduates of the program can fill positions in which they are responsible for interacting with physicians whose patients are participating in the research study, interviewing participants, taking medical histories, obtaining informed consent, collecting, entering and compiling data, and manipulating data for publication of research results. These activities require individuals with advanced training in the policies and procedures of clinical research. Graduates of the program will have that knowledge, and they will understand the procedures for designing and implementing clinical research protocols and the governmental regulations governing clinical research projects.

Post-Baccalaureate and Graduate Studies

The curriculum of the Pathway to Health Professions program is designed to provide a strong foundation for those students who will proceed after graduation to post-baccalaureate and graduate programs in the health professions. The curriculum enables students to fulfill all of the prerequisites for these post-baccalaureate and graduate programs. The co-op experiences that students of the program undertake will serve to fulfill the requirement of the post baccalaureate and graduate programs that their applicants have personal exposure to the profession before they apply.

The Pathway to Health Professions program serves as a feeder program for the Second Degree Fast-Track Nursing program, the Physician Assistant Studies program, and the Doctor of Physical Therapy program of the College of Nursing and Health Professions. Graduates of the Pathway to Health Professions program may also continue their education in the biomedical graduate programs of the Drexel University College of Medicine (such as the MS in Clinical Research Organization and Management and the MS in Pathologist's Assistant programs).

For more information, visit the Pathway to Health Professions Program (<http://www.drexel.edu/healthSciences/programs/healthProfessions>) page at the College of Nursing and Health Professions web site.

Degree Requirements

General Requirements

| | | |
|------------|-----------------------|-----|
| UNIV NH101 | The Drexel Experience | 2.0 |
|------------|-----------------------|-----|

English Sequence

| | | |
|----------|---|-----|
| ENGL 101 | Composition and Rhetoric I: Inquiry and Exploratory Research | 3.0 |
| ENGL 102 | Composition and Rhetoric II: The Craft of Persuasion | 3.0 |
| ENGL 103 | Composition and Rhetoric III: Thematic Analysis Across Genres | 3.0 |

Biology Sequence

| | | |
|---------|---------------------------------------|-----|
| BIO 122 | Cells and Genetics | 4.5 |
| BIO 124 | Evolution & Organismal Diversity | 4.5 |
| BIO 126 | Physiology and Ecology | 4.5 |
| BIO 226 | Microbiology for Health Professionals | 5.0 |

Chemistry Sequence

| | | |
|----------|-----------------------|-----|
| CHEM 101 | General Chemistry I | 3.5 |
| CHEM 102 | General Chemistry II | 4.5 |
| CHEM 103 | General Chemistry III | 5.0 |

Mathematics Sequence

| | | |
|----------|-----------------------------|-----|
| MATH 101 | Introduction to Analysis I | 4.0 |
| MATH 102 | Introduction to Analysis II | 4.0 |

Computer Science Course

| | | |
|--------|---------------------------|-----|
| CS 161 | Introduction to Computing | 3.0 |
|--------|---------------------------|-----|

Other Humanities and Social Sciences Courses

| | | |
|--|----------------------------------|-----|
| COM 310 [WI] | Technical Communication | 3.0 |
| COM 320 [WI] | Science Writing | 3.0 |
| ECON 240 | Economics of Health Care Systems | 4.0 |
| HSAD 210 | Health-Care Ethics I | 3.0 |
| HSAD 309 | Advanced Health-Care Ethics | 3.0 |
| PSY 101 | General Psychology I | 3.0 |
| PSY 120 | Developmental Psychology | 3.0 |
| PSY 240 [WI] | Abnormal Psychology | 3.0 |
| SOC 101 | Introduction to Sociology | 3.0 |
| SOC 120 | Sociology of the Family | 3.0 |
| SOC 125 | Sociology of Aging | 3.0 |
| Three Humanities and Social Sciences electives | | 9.0 |

Pathway to Health Professions Courses

Anatomy & Physiology Courses

| | | |
|----------|--------------------------|-----|
| ANAT 101 | Anatomy & Physiology I | 5.0 |
| ANAT 102 | Anatomy & Physiology II | 5.0 |
| ANAT 103 | Anatomy & Physiology III | 5.0 |

Clinical Research Courses

| | | |
|----------|-------------------------------------|-----|
| HSCI 310 | Introduction to Clinical Research | 3.0 |
| HSCI 313 | Clinical Trials Protocols | 4.0 |
| HSCI 315 | Current Issues in Clinical Research | 3.0 |

Other Health Sciences Courses

| | | |
|----------|--|-----|
| HSCI 201 | Health Assessment through the Lifespan | 4.0 |
| HSCI 301 | Pharmacology I | 3.0 |
| HSCI 302 | Pharmacology II | 3.0 |
| HSCI 337 | Genetics and Health | 3.0 |
| STS 345 | Statistics for the Health Sciences | 4.0 |
| STS 350 | Advanced Statistics for Clinical Science | 4.0 |

| | |
|--------------------------------|------|
| Six Health Science electives * | 22.0 |
|--------------------------------|------|

| | |
|-----------------------|------|
| Free Electives | 16.5 |
|-----------------------|------|

| | |
|---------------|-------|
| Total Credits | 181.0 |
|---------------|-------|

* Health Science electives include Advanced Anatomy I & II; Developmental Anatomy (WI); Physiology; Pathophysiology (WI); Exercise Physiology; Applied Anatomy & Kinesiology; and Sectional Anatomy or NEUR 410 Neurosciences. Certain Health Services Administration courses may also be taken as Health Science electives.

Accelerated Career Entry 3+1 BSN option

Bachelor of Science in Nursing Degree 219.5 quarter credits

About the Program

The Pathway to Health Professions and the Accelerated Career Entry (ACE) to Nursing program have created a new undergraduate program, entitled "Health Sciences - ACE 3+1 BSN" for the College of Nursing and Health Professions of Drexel University.

The program is based on the 4-year, one co-op curricular model. The program combines the first three years of the Pathway to Health Professions program (Health Sciences major) with the one-year Accelerated Career Entry (ACE) to Nursing program. Students can only enter this accelerated program as freshmen. The accelerated HSCI-ACE program is not available to transfer students.

For additional information, including a sample plan of study, visit the College's Accelerated Career Entry to Nursing (<http://www.drexel.edu/healthSciences/programs/healthProfessions/acceleratedPrograms/acceleratedEntrytoNursing>) web page.

Accelerated 3+3 BS /DPT: Physical Therapy Option

Bachelor of Science Degree in Health Sciences: 184.0 quarter credits

About the Program

The Pathway to Health Professions (Health Sciences) Program and the Programs in Rehabilitation Sciences of the College of Nursing and Health Professions offer an accelerated dual degree program. Participants can earn both a BS degree in Health Sciences and a Doctor of Physical Therapy (DPT) degree in only six years after graduation from high school. Graduates of this innovative program are able to function in a variety of health care settings and are well-prepared to seek licensure by state board examination. Drexel's DPT program – the new standard in physical therapy education – is the successor to the former MCP Hahnemann University's Master of Physical Therapy (MPT) Program, which was accredited by the American Physical Therapy Association's Commission on Accreditation in Physical Therapy Education (CAPTE) beginning in 1981. The current DPT program is fully accredited by CAPTE.

This is a six-year program in which students earn both a BS with a major in Health Sciences (HSCI) and a Doctor of Physical Therapy (DPT). The program is available to Health Science majors (HSCI, 4-year, one co-op program) only. Transfer students are not eligible for this program.

For additional information visit the Pathway to Health Professions Program: Accelerated Dual Degree Programs (<http://www.drexel.edu/healthSciences/programs/healthProfessions/acceleratedPrograms/drOfPhysicalTherapy>) page.

General Requirements

| | | |
|------------|-----------------------|-----|
| UNIV NH101 | The Drexel Experience | 2.0 |
|------------|-----------------------|-----|

English Sequence

| | | |

| 1st Year DPT Courses | | |
| NEUR 507 | Neuroscience I | 3.0 |
| PTRS 530 | Kinesiology I | 4.0 |
| PTRS 531 | Kinesiology II | 3.0 |
| PTRS 532 | Human Gross Anatomy I | 4.0 |

| | | |
|----------------------|--|--------------|
| PTRS 533 | Human Gross Anatomy II | 3.5 |
| PTRS 534 | Physical Therapy Exam & Intervention I | 3.0 |
| PTRS 537 | Clinical Correlations I | 3.0 |
| PTRS 539 | Topics in Pathophysiology I | 3.5 |
| PTRS 540 | Topics in Pathophysiology II | 2.0 |
| PTRS 620 | Orthopedic Physical Therapy: Upper Extremity | 4.0 |
| PTRS 623 | Physical Agents | 4.0 |
| PTRS 656 | Motor Control and Rehabilitation | 2.0 |
| Total Credits | | 185.0 |

* Health Science electives include: Advanced Anatomy I & II; Developmental Anatomy (WI); Physiology; Pathophysiology (WI); Exercise Physiology; Applied Anatomy & Kinesiology; and Sectional Anatomy or NEUR 410 Neurosciences. Certain Health Services Administration courses may also be taken as Health Science electives.

Accelerated 4+1 BS/MHS: Physician Assistant Studies Option

Bachelor of Science Degree in Health Sciences: 184.5 quarter credits

About the Program

The Pathway to Health Professions (Health Sciences) program and the Hahnemann Physician Assistant (PA) program of the College of Nursing and Health Professions have created an accelerated dual degree option which offers its students valuable early advising and mentoring from PA faculty to help them plan their studies and meet their goals while they are still undergraduate students. Drexel's highly regarded Hahnemann Physician Assistant program, which was founded at the former Hahnemann Medical College and Hospital, is the oldest physician assistant program in Pennsylvania and one of the largest PA programs in the country. The Hahnemann PA program is known for attracting a diverse student body, with more than a quarter of the trainees coming from minority backgrounds and from the medically-underserved areas in which PAs are critically important.

This program allows students to enter the master's-level Physician Assistant program as undergraduates after completing a predetermined number of undergraduate credits. The program is only available to students enrolled in the Pathway to Health Professions major.

For additional information and a sample curriculum, visit the College's Pathway to Health Professions BS/MHS (<http://www.drexel.edu/healthSciences/programs/healthProfessions/acceleratedPrograms/physicianAssistant>) page.

| Total Credits | | 185.5 |

* Health Science electives include: Advanced Anatomy I & II; Developmental Anatomy (WI); Physiology; Pathophysiology (WI); Exercise Physiology; Applied Anatomy & Kinesiology; and Sectional Anatomy or NEUR 410 (<https://nextcatalog.drexel.edu/undergraduate/collegeofnursingandhealthprofessions/healthsciences>) Neurosciences. Certain Health Services Administration courses may also be taken as Health Science electives.

Facilities

The College of Nursing and Health Professions is located at Drexel University's Center City Hahnemann Campus, adjacent to Tenet Healthcare's Hahnemann University Hospital.

The proximity of this major medical center provides a rich environment for students to study toward health professions careers. The Clinical Learning Resource Center provides students with state-of-the-art educational resources (including the Sim-Man Simulated Patient System) to enable them to develop the skills that are needed in their chosen health professions careers. Through the Eleventh Street Corridor Partnership for Community Based Care, the College of Nursing and Health Professions maintains a comprehensive, community-based health center, Eleventh Street Family Health Services Center of Drexel University, where students have unique opportunities to observe health care delivery.

Health Services Administration

Bachelor of Science Degree: 180.0 quarter credits

About the Program

The Health-Services Administration program provides students with a foundation in general management and economic principles related to health care, as well as an understanding of the administrative structure, operations, and policies of the health-care industry.

Additional options are available for students wishing to complete an accelerated BS degree immediately prior to pursuing graduate study.

The Health Services Administration (HSA) curriculum is a four-year full-time course of study consisting of 180 quarter credits and including one cooperative (co-op) experience comprised of two consecutive quarter terms during the first half or the second half of the junior year. (Non-co-op full-time and part-time options are also available. Transfer students are eligible for the full-time curriculum with or without co-op depending on the number of approved transfer credits.) The curriculum is designed to give students a foundation in general management and economic principles and policies related to the health care, as well as to expose students to the quantitative and qualitative aspects of the health-care industry by means of courses in health care related to policy, law, economics, management, marketing, and informatics. At the same time, the curriculum provides interdisciplinary courses dealing with religious, ethical, psychosocial, political, legal, literary, and historical perspectives regarding health-care practices and populations in need of health care. In addition, the curriculum can prepare students wishing to pursue graduate

studies in health services administration, business administration, public health, law, and health communication.

The program also provides a concentration and a minor in HSA and an online certificate in Medical Billing and Coding (p. 35) for Drexel University bachelor's degree-seeking students.

Courses are available online (<http://www.drexel.com/online-degrees/healthcare-degrees/bs-hsa>). A maximum of 90.0 semester credits can be transferred.

Additional Information The contact for this program is:

Susan Feinstein, BS
Administrative Coordinator, Health Services Administration
College of Nursing and Health Professions
1501 Cherry Street
Philadelphia PA, 19102
215.571.4236

For more information, visit the Health-Services Administration (<http://www.drexel.edu/healthAdmin/programs/healthServicesAdmin>) page on the College's website.

Degree Requirements

English Sequence

| | | |
|----------|---|-----|
| ENGL 101 | Composition and Rhetoric I: Inquiry and Exploratory Research | 3.0 |
| ENGL 102 | Composition and Rhetoric II: The Craft of Persuasion | 3.0 |
| ENGL 103 | Composition and Rhetoric III: Thematic Analysis Across Genres | 3.0 |

Natural Sciences 8.0-10.0

Students may select from Biology (BIO), Chemistry (CHEM) or Anatomy (ANAT) courses. However, any course selected must include a laboratory component. Additional natural science subject options may be considered with the approval of the student's advisor.

Mathematics

| | | |
|-------------|-----------------------------|---------|

| Free elective | 4.0 |
| Term Credits | 13.0 |

Total Credit: 180.0-184.0

* Students may select from Biology (BIO), Chemistry (CHEM) or Anatomy (ANAT) courses. However, any course selected must include a laboratory component. Additional natural science subject options may be considered with the approval of the student's advisor.

Dual/Accelerated Degree**Accelerated Dual Degree BS/MPH in Health Services Administration/Masters of Public Health**

The Health Services Administration program and the Master of Public Health program in the School of Public Health offer an accelerated dual degree option. Participants can earn both a BS degree in Health Services Administration and a Master of Public Health (MPH) degree in five years.

In this accelerated dual degree program, students participate in the Health Services Administration program for three years (nine academic quarters and one co-operative experience). After three years of undergraduate study students begin their graduate studies in the Master of Public Health program. Nineteen (19.0) quarter credits from the first year of graduate study will be credited toward completion of the students' Bachelor of Science degrees. After the successful completion of the first year of graduate study, students receive their BS. When students successfully complete the remainder of their graduate studies (typically one additional year), they will receive the MPH degree.

Students in this accelerated, dual degree program apply to the graduate Masters of Public Health Program (<http://catalog.drexel.edu/graduate/schoolofpublichealth/publichealth>) during the fall quarter of their junior year. They then follow the same application procedures as other applicants, including being interviewed by the graduate faculty. (Any student who does not meet the entrance requirements of the graduate program will be able to complete the fourth year of the Health Services Administration program and receive a BS degree.)

Students in the Master of Public Health program complete 64.0 graduate quarter credits to meet the requirements of the master's program. The accelerated, dual degree program represents an acceleration of only the undergraduate portion of the student's curriculum.

For additional information, visit the College of Nursing and Health Professions Accelerated Dual Degree Programs (http://www.drexel.edu/cnhp/health_sciences/pathway_dual.asp) page.

HSAD BS/MPH 3 + 2 Program Degree Requirements

(Sample plan of study is listed below requirements)

English Sequence

| | | |
|----------|--------------------------------|-----|
| ENGL 101 | Expository Writing and Reading | 3.0 |

** HSAD 325 Issues in Health Care System is a recommended elective.

*** HSAD 320 Managed Health Care Managed Health Care is a recommended elective.

Minor in Health Services Administration

The minor in health services administration is designed for students interested in preparing for careers in health services administration while pursuing a major in another area. In addition, the curriculum can prepare students wishing to pursue graduate studies in health-services administration, business administration, public health, and law.

Required Courses

| | | |
|----------------------|---|-------------|
| ECON 240 | Economics of Health Care Systems | 4.0 |
| HSAD 310 | Introduction to Health-Systems Administration | 3.0 |
| HSAD 321 | Health-Care Human Resources | 3.0 |

| HSAD 330 | Financial Management in Health Care | 3.0 |
| HSAD 335 | Health-Care Policy | 3.0 |
| HSAD 340 | Leadership in Health Services Administration | 3.0 |
| HSAD 345 | Ethics in Health Care Management | 3.0 |
| or HSAD 210 | Health-Care Ethics I | |
| Total Credits | | 25.0 |

Invasive Cardiovascular Technology

Bachelor of Science Degree: 185.0 quarter credits

About the Program

The focus of the Invasive Cardiovascular Technology program is to educate students in the applied science of invasive cardiovascular technology with experience in all aspects of diagnostic and interventional cardiovascular procedures. The BS in Invasive Cardiovascular Technology is a two-year bachelor completion program, designed for radiology students wishing to advance their careers and skills within the field of radiology.

Mission Statement

The faculty and staff of the Bachelor of Science in Invasive Cardiovascular Technology program strive to provide educational opportunities for students to develop knowledge, skills and attitudes conducive to the challenges within the advanced fields of radiology. The over-all mission is to provide men and women with quality training for careers as advanced radiology health care professionals. In addition the Program provides appropriate educational experiences that encompass academic standards that reflect cognitive, physical and behavioral abilities that are necessary in preparing graduates for career success.

The program provides many opportunities for working in small groups with other healthcare professionals. These group communications and activities give the student chances to share their own experiences and learn from the experiences of others. Within the stimulating college environment, the student will be afforded the opportunity to achieve educational and personal growth goals while developing the technical skills necessary for success as cardiovascular professional.

Program Goals

The aims of the Bachelor of Science in Invasive Cardiovascular Technology program are to develop a graduate who is able to:

- Function as a competent entry-level invasive cardiovascular technologist in the cognitive (knowledge), psychomotor (skills) and affective (behavior) learning domains of invasive cardiology.
- Demonstrate proficiency in all aspects of diagnostic and therapeutic procedures.
- Develop an understanding of the biological effects of radiation on humans and utilize the appropriate radiation protection equipment, measures, and recording instruments for specific invasive cardiovascular and vascular procedures.
- Develop the skills and/or the proper handling and processing of digital recording materials.
- Demonstrate knowledge of the composition and appropriate utilization of radiographic contrast media and cardiology medicines.
- Demonstrate a basic knowledge of the pathological process and the common pathology demonstrated by cardiovascular procedures and imaging.

For more information, visit the Radiologic Technology (<http://www.drexel.edu/radtech>) page on the College of Nursing and Health Professions' website.

Admission Requirements

Acceptance into the program is contingent upon completion of an accredited associate degree program (or equivalent) in medical radiography. Students who have completed a hospital training program in radiology are allowed 50 quarter units of academic credit on the basis of their registry and must complete additional courses to obtain an associate degree before acceptance.

Requirements for admission to the program include:

- Official copy of current ARRT (American Registry of Radiologic Technologist) certification.
- Official copy of Associate Degree completion in Radiologic Technology and/or Science with with Radiologic Technology.
- Official copy of college transcripts.
- Completion of the following courses with a minimum grade of "C"
 - Anatomy & Physiology I, II, III
 - Introduction to Computing
 - Clinical Health Informatics
 - English I, II, III
 - College-level Math
 - Introduction to Psychology
 - Abnormal Psychology
- Overall GPA of 2.50 or higher
- Compliance with the program technical standards and immunization requirements
- Current cardiopulmonary resuscitation (CPR/BLS) skills at the health care provider level.

- Demonstration of competency in English reading comprehension and spoken English fluency (by the TOEFL and TSE if not born in the U.S.)

For more information, contact the College of Nursing and Health Professions (<http://www.drexel.edu/cnhp>) about the program.

| ICVT 432 | Clinical Practicum IV | 8.0 |
| Term Credits | | 16.0 |
| Total Credit: | | 95.0 |

Career Opportunities

Cardiovascular technologists work directly with physicians in hospitals, medical centers, clinics, physician offices, mobile diagnostic units, sales, training, and education. Employment of invasive cardiovascular technologists is expected to grow through the year 2014. This growth is expected as the population ages, because heart conditions tend to develop in the older population.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on post-graduate opportunities.

Nursing

Bachelor of Science Degree in Nursing (BSN): 182.0 credits

About the Program

The BS in Nursing (BSN) is a full-time, five year program. This program offers three paid, six-month cooperative education experiences. There is also a full-time, four-year option with one, 6 month co-op experience in the 3rd year of study. Students graduate with a bachelor of science in nursing and eligibility to sit for the RN licensure examination.

The BS in nursing degree is approved by the Pennsylvania State Board of Nursing, the National League for Nursing Accreditation Commission, and the American Association of Colleges of Nursing.

Drexel's nursing curriculum is built to respond to the rapidly changing health care system, as well as to student's needs. Graduates of the baccalaureate program will be prepared to:

- Utilize the growing compendium of knowledge and information sources from nursing and other disciplines to learn, teach, heal the sick, and conserve health.
- Contribute to the profession by sharing knowledge and skills with clients, peers, and other professionals in a variety of methods.
- Utilize multiple technologies that access and manage information to guide professional practice.
- Participate in culturally sensitive health promotion activities that contribute to the community's health and wellness.
- Participate in ongoing educational activities related to personal growth, professional practice, and community service.
- Apply knowledge and skills appropriate to their selected areas of career clinical practice.
- Develop personal potential for leadership in a changing health care environment.
- Integrate ethical concepts and principles, The Code of Ethics for Nurses, and professional standards into practice within professional, academic, and community settings.
- Utilize critical-thinking skills to improve the health outcomes of patients, families, and communities across the continuum of care.

A BSN is awarded at the completion of the program.

For more information about the BSN with Co-Op option at Drexel, visit the Nursing Co-Op Program (<http://www.drexel.edu/bsnnursing/studies/BSNcoop>) page.

About the Co-op

Co-operative education was designed to provide students with real-world experience in a variety of professional settings before graduation. Co-op integrates full-time work experience in the student's field of study

Co-op Descriptions

First Experience

Co-op I: Nursing in Contemporary Health Networks

Students will have co-operative education experiences in managed care settings, pharmaceutical companies, and other non-traditional healthcare work environments where nurses and nursing can effect change. Students will either work under the direction of a professional nurse or another health care professional with a minimum of a baccalaureate degree. Students will not perform any basic nursing skills in this role.

Second Experience

Co-op II: Acute and Chronic Health and Illness

Students on the 4-year track participate in Co-Op II, an education experience in the traditional health care environment that emphasize the delivery of nursing care to adults and adolescents with acute and chronic illnesses. The majority of placements will be in general and specialty medical-surgical units. Students will function in the role as an unlicensed assistive person and their job description will be modeled similarly to unlicensed assistive personnel or nursing externs.

Third Experience

Co-op III: Specialty Nursing Concentration

Students will have co-operative education experiences in a specialty area of their choice which will build upon their previous clinical courses and work experiences. For example, students may elect to specialize in labor and delivery, critical care, or return to work for a pharmaceutical or managed care company. Selection of content area for the Co-op III site will be made by each student in consultation with the student's faculty advisor. Students will be given a suggested reading list and texts to be used for supplemental reading and learning for the specialty co-op area. Students will function in the role as an unlicensed assistive person and their job description will be modeled similarly to the role of unlicensed assistive personnel or nursing externs.

Accelerated Career Entry (ACE) BSN

About the Program

Drexel University offers the Accelerated Career Entry Option (<http://www.drexel.edu/bsnnursing/studies/acceleratedCareer>), a one-year intensive nursing program for students who already have bachelor's or graduate degrees. The program is ideal for working adults or college graduates who want to change careers and earn a new degree in one year. This innovative program is geared to students who will benefit from intense education in nursing science rather than the traditional program, which takes three or four years.

Like their counterparts in the traditional baccalaureate nursing program, graduates of the accelerated program emerge with a set of skills that will serve them well in their chosen profession. Our graduates:

- Utilize the growing compendium of knowledge and information sources from nursing and other disciplines to learn, teach, heal the sick, and conserve health.
- Contribute to the profession by sharing knowledge and skills with clients, peers, and other professionals in a variety of methods.
- Utilize multiple technologies that access and manage information to guide professional practice.
- Participate in culturally sensitive health promotion activities that contribute to the community's health and wellness.
- Participate in ongoing educational activities related to personal growth, professional practice, and community service.
- Apply knowledge and skills appropriate to their selected areas of career clinical practice.
- Develop personal potential for leadership in a changing health care environment.
- Integrate ethical concepts and principles, The Code of Ethics for Nurses, and professional standards into practice within professional, academic, and community settings.
- Utilize critical-thinking skills to improve the health outcomes of patients, families, and communities across the continuum of care.

Admission requirements/Prerequisites

Candidates for admission must be college graduates with a 3.0 overall GPA or a 3.0 GPA in their most-recent 60 semester hours of coursework completed. Admitted students must complete all prerequisites before continuing with the program. Applicants whose native language is not English and/or were born outside of the United States are required to take both the TOEFL (Test of English as a Foreign Language) and the TSE (Test of Spoken English) and achieve a passing score in each.

Prerequisites

Effective for the academic term 201335 and beyond, the following 8 courses, in semester terms, are prerequisites for the ACE program:

| | |
|--------------------------|-----|
| Chemistry with lab | 4.0 |
| Developmental Psychology | 3.0 |
| Anatomy with lab * | 4.0 |
| Physiology with lab * | 4.0 |
| Microbiology with lab * | 4.0 |
| Human Nutrition | 3.0 |
| Statistics | 3.0 |
| English | 3.0 |

* The anatomy, physiology, and microbiology courses must have been taken within five years of beginning the program.

Degree Requirements

Required Courses

| | | |
|----------|--|-----|
| NURS 110 | Essentials of Relationship-Based Professional Nursing Practice | 4.0 |
| NURS 112 | Relationship-Based Health Assessment & Promotion | 5.0 |

| | | |
|---------------|---|------|
| NURS 200 | Principles of Nursing Practice | 6.0 |
| NURS 204 | Nursing Informatics | 3.0 |
| NURS 300 | Comprehensive Adult Nursing I | 6.0 |
| NURS 301 | Pharmacology for Nursing I | 3.0 |
| NURS 303 | Women's Health Nursing | 6.0 |
| NURS 304 | Nursing of Children | 6.0 |
| NURS 305 | Comprehensive Adult Nursing II | 6.0 |
| NURS 306 | Pharmacology for Nursing II | 3.0 |
| NURS 308 | Mental Health Nursing | 6.0 |
| NURS 330 [WI] | Research Basis of Nursing | 4.0 |
| NURS 337 [WI] | Genetics in Nursing and Health | 3.0 |
| NURS 339 | Pathophysiology | 3.0 |
| NURS 400 [WI] | Leadership, Management, and Entrepreneurship in Nursing | 3.0 |
| NURS 401 | Comprehensive Adult Nursing III | 6.0 |
| NURS 403 | Community Public Health Nursing | 6.0 |
| NURS 450 | Contemporary Gerontological Nursing | 6.0 |
| NURS 492 | Senior Seminar in Nursing | 3.0 |
| Total Credits | | 88.0 |

RN/BSN Completion Program

Bachelor of Science Degree in Nursing (BSN): 180.0 quarter credits (for Registered Nurses)

The RN/BSN Completion program is an option for nurses from associate degree and diploma nursing programs looking to complete the bachelor of science degree in nursing.

About the Program

The Bachelor of Science in Nursing program continues the education of registered nurses to prepare them for the rapidly changing health care environment. Core courses prepare the graduate for population-based cases and the managed care environment. Support courses, electives, and study in an area of the student's choosing build on foundational educational experiences to facilitate the examination of critical issues from a variety of perspectives.

A BSN is awarded at the completion of the program. Qualified students are encouraged to submatriculate in the MSN program (RN/BSN/MSN pathway) while enrolled in the BSN program.

For more information about this completion program at Drexel, visit the RN/BSN Completion Program (<http://www.drexel.edu/bsnnursing/studies/RN-BSN>) page.

Admission Requirements/Prerequisites

Admission Requirements

- RN licensure (provisional acceptance will generally be offered pending successful completion of the NCLEX-RN examination)
- Official college transcripts
- College grade point average of 2.0 or better
- High school degree or equivalent

To be eligible for admission to the Bachelor of Science in nursing program, students must have completed 60.0 semester hours (90.0 quarter credits) of college prerequisites, as follows, with a grade of C or

better. Students may transfer in up to 90.0 credits. Remaining credits will be evaluated on an individual basis. To graduate, students must have completed 180.0 credits.

The require 60.0 semester hours include:

| | |
|--|-------------|
| English (includes one semester of composition) | 6.0 |
| Humanities (studio courses not acceptable) | 3.0 |
| Anatomy and Physiology | 8.0 |
| Microbiology | 4.0 |
| Sociology | 3.0 |
| Growth and Development | 3.0 |
| Psychology | 3.0 |
| Nursing | 30.0 |
| Total Credits | 60.0 |

Graduates of National League for Nursing (<http://www.nln.org>) (NLN)-accredited associate or diploma nursing programs who meet the criteria of the Pennsylvania Nursing Articulation Model will receive credit for 30 semester hours of nursing, which may be applied toward the program entrance requirements.

Degree Requirements

The College of Nursing and Health Professions faculty uses a variety of teaching and learning methods to facilitate the achievement of a student's personal objectives. Most courses incorporate e-mail and Internet assignments as well as a variety of innovative, active learning assignments. Courses are offered in several stimulating educational formats, including in an online format.

First Tier

| | | |
|--|---|------|
| ENGL 101 | Composition and Rhetoric I: Inquiry and Exploratory Research | 3.0 |
| ENGL 102 | Composition and Rhetoric II: The Craft of Persuasion | 3.0 |
| ENGL 103 | Composition and Rhetoric III: Thematic Analysis Across Genres | 3.0 |
| Humanities | | 3.0 |
| Sociology | | 3.0 |
| Psychology | | 3.0 |
| Growth and Development | | 3.0 |
| Anatomy | | 6.0 |
| Physiology | | 6.0 |
| Microbiology | | 6.0 |
| Free electives | | 6.0 |
| Nursing (validated quarter transfer credits) | | 45.0 |

Second Tier

| | |
|---|------|
| Computer Science or Communications elective (Public Speaking) | 3.0 |
| Statistics | 4.0 |
| Economics | 4.0 |
| Ethics | 4.0 |
| Social Science elective | 3.0 |
| Science elective | 6.0 |
| Advanced Physiology or Pharmacology or Pathophysiology | 5.0 |
| Free electives | 12.0 |

Level One Courses

| | | |
|---------------|---|-----|
| INFO 404 | Nursing Informatics for the Bachelor of Science in Nursing Completion | 3.0 |
| NURS 324 | Intro to Online Learning:Tools for Success | 3.0 |
| NURS 325 [WI] | Critical Issues in Nursing | 3.0 |
| NURS 340 | Transformational Leadership | 3.0 |
| NURS 346 | Health Assessment | 6.0 |

Level Two Courses

| | | |
|---------------|-------------------------------------|-----|
| NURS 330 [WI] | Research Basis of Nursing | 4.0 |
| NURS 337 [WI] | Genetics in Nursing and Health | 3.0 |
| NURS 370 | Issues in Aging and Longevity | 4.0 |
| NURS 375 | Nurses Building a Healthy Community | 6.0 |

Level Three Courses

| | | |
|----------|--------------------------------|-----|
| NURS 460 | Global Health & Policy Issues | 6.0 |
| NURS 462 | Science, Technology and Health | 3.0 |
| NURS 465 | Senior Thesis in Nursing | 3.0 |

* RN/BSN Online Distance-Learning students will have clinical placements at sites convenient to them.

Accelerated RN/BSN/MSN

The RN-BSN-MSN Option is a pathway for students who are currently in the Drexel RN to BSN completion program and are interested in continuing their studies to pursue the MSN.

Admission

For the following tracks, students submit an application to the MSN program in the final term of BSN study:

- MSN in Nursing Education and Faculty Role
- MSN in Clinical Trials
- MSN in Clinical Nurse Leader
- MSN in Leadership in Health Systems Management
- MSN in Innovation & Intra/Entrepreneurship for Advanced Practice Nursing.

Students interested in either the Nurse Anesthesia program or Nurse Practitioner programs may opt for an accelerated option. The following Nurse Practitioner tracks are available:

- Adult-Gerontology Acute Care Nurse Practitioner (online track)
- Family Nurse Practitioner (online track) (<http://www.catalog.drexel.edu/graduate/collegeofnursingandhealthprofessions/familynursepractitionercon>)
- Pediatric Primary Care Nurse Practitioner (online track) (<http://www.catalog.drexel.edu/graduate/collegeofnursingandhealthprofessions/pediatricprimarycarepractitionercon>)
- Psychiatric Mental Health Nurse Practitioner (online track) (<http://www.catalog.drexel.edu/graduate/collegeofnursingandhealthprofessions/psychiatricmentalhealthpractitionercon>)
- Women's Health/Gender Related Nurse Practitioner (online track) (<http://www.catalog.drexel.edu/graduate/collegeofnursingandhealthprofessions/womensnursepractitionercon>)

For both the Nurse Anesthesia and the Nurse Practitioner programs, students submit an application when close to completing their BSN

degrees. The BSN students must meet the admission requirements for the MSN program. Specific admission criteria are outlined on the Admission Requirements RN to BSN to MSN Option (<http://www.drexel.edu/gradnursing/msn/fastTrack/RN-BSN-MSN-Option/admissions>) page.

Students may not register for graduate courses until they are accepted in the program. Additional information is available on the RN-BSN-MSN (<http://drexel.edu/gradnursing/msn/fastTrack/RN-BSN-MSN-Option>) program page.

Student in any of the MSN Nurse practitioner tracks may be admitted from any state, except New York. In addition, students taking an online course with a clinical component or practicum cannot do the clinical or practicum portion of the course within the state of Maryland at this time. If a student is a licensed registered nurse in Maryland, the student may complete a clinical or practicum in Virginia and/or Delaware, which share a nurse compact licensure with Maryland. Drexel University is in the process of applying for a certificate of approval to operate in Maryland.

Clinical Affiliations

Clinical Placement Sites

The Undergraduate Nursing Programs have an extensive network of clinical placement sites, including:

11th Street Family Health Services
 Abington Memorial Hospital
 Albert Einstein Medical Center
 Belmont Center
 Bryn Mawr Hospital
 Paoli Hospital
 Camden County Department of Health and Human Services
 Camden County Health Services Center
 Cooper University Hospital
 Chandler Hall
 Chestnut Hill Hospital
 CHOP (Children's Hospital of Philadelphia)
 Christiana Care (Wilmington Hospital)
 Crozer-Chester Medical Center
 Deer Meadows
 Delaware County Memorial Hospital
 Devereaux Children's Behavioral Health Center
 Doylestown Hospital
 Evangelical Manor
 Fairmount Behavioral Health
 Fox Chase Cancer Center
 Frankford Health Care System
 Friends Hospital
 Gray Manor
 Grandview Hospital
 Girard Medical Center
 Hahnemann University Hospital
 Heritage Church
 Holy Redeemer Hospital and Medical Center
 Horizon House
 Hospital of the University of Pennsylvania
 Temple Children's Hospital
 Thomas Jefferson University Hospital
 Kennedy Memorial Hospital
 Kirkbride Center

Landsdale Hospital (Abington Health)
 Lankenau Hospital
 Livengrin Foundation, Inc. Lourdes Medical Center
 Methodist Hospital
 Moss Rehab - AEMC
 Mother Bachman Maternity Center
 Nazareth Hospital
 NJ Monroe Township Schools
 NJ Winslow Township Schools
 NJ Black Horse School District
 North City Congress (N. Broad Senior Center)
 Northeastern Hospital
 Our Brother's Place
 Our Lady of Lourdes
 Pennsylvania Hospital
 Paul's Run
 Peter Becker Community
 Philadelphia School District
 Presbyterian Medical Center
 Riddle Memorial Hospital
 Riverside Care
 St. Christopher's Hospital for Children
 St. Francis Hospital
 St. John's Hospice
 St. Joseph's Manor
 Shriners Hospital for Children
 SPIN, Inc. Temple University Hospital
 Thomas Jefferson University Hospital
 Underwood Memorial Hospital
 Veteran's Haven
 Village of Arts and Humanities
 Virtua health (Vorhees, Marlton, Memorial)
 Watermark

* RN/BSN Online Distance-Learning students will have clinical placements at sites convenient to them.

Nutrition and Foods

Bachelor of Science: 181.5 quarter credits

About the Program

The nutrition and foods curriculum emphasizes the relationship between food, food processing, food choices, nutrient metabolism, and medical nutrition therapy to meet health and nutrient needs of individuals. The major prepares students to pursue career opportunities in dietetics and research.

The BS in Nutrition and Foods program requires four years of study and the completion of at least 180.0 credits. The curriculum is designed to provide a sound basis for careers in dietetics and the application of the principles of nutrition and food science to the nutritional care of individuals and groups—such as in school food service or community nutrition—or to provide a sound basis for careers in the food and pharmaceutical industries.

The study of the biochemical nature of nutrients and foods, their interaction with the environment, and their eventual metabolic fate is a strong career path for more research-minded students and provides a unique base for graduate study.

About the Nutrition Program

Dietetics is the practical application of nutrition in the prevention and treatment of disease. Dietetics is an exciting and challenging profession because there are many diseases that are related to nutrition, such as heart disease, high blood pressure, stroke, cancer, diabetes and obesity. The nutrition program at Drexel University is referred to as a Didactic Program in Dietetics (DPD) because we provide classroom training for students who want to become Registered Dietitians/Nutritionists (RD/RDN). Our Didactic Program in Dietetics is currently granted accreditation by the Accreditation Council For Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics:

Academy of Nutrition and Dietetics
120 S. Riverside Plaza
Suite 2000
Chicago, IL 60606
800-877-1600 x5400
www.eatright.org

The Academy of Nutrition and Dietetics (AND) is the nation's largest organization of food and nutrition professionals, most of whom are Registered Dietitians (RD) or Registered Dietitian Nutritionists (RDN).

To become an RD/RDN, students must complete a:

- Minimum of a bachelor's degree with course work approved by ACEND. Coursework typically includes food and nutrition sciences, chemistry, biochemistry, physiology, microbiology, community nutrition, nutrition education, foodservice systems management and business.
- An accredited, supervised practice program, also called a dietetic internship, at a health-care facility, community agency or foodservice corporation. The internship provides at least 1200 hours of hands-on training.
- Pass a national examination administered by the Commission on Dietetic Registration.

After successfully completing the BS program in Nutrition and all DPD-required courses with a C or better, students will receive a BS degree and also a Verification Statement. The Verification Statement is a certificate documenting completion of an approved/accredited Didactic Program in Dietetics. Students need both a minimum of Bachelor's degree and a Verification Statement to be eligible for a supervised practice program or internship.

During the senior year, most students will apply for admission into a dietetic internship. Most dietetic internships last 8 to 9 months. To have a good chance of getting accepted into a dietetic internship, students should do the following:

- Maintain a cumulative GPA greater than 3.0 (this includes college courses regardless of where taken).
- Work several hundred hours in dietetics-related work and volunteer experience (especially in the food and nutrition departments at hospitals and nursing homes and in community programs such as WIC).
- Participate in activities that demonstrate leadership.

Mission, Goals, and Outcome Measures

The mission of the Drexel University Didactic Program in Dietetics is to integrate a foundation in the nutrition sciences with courses in the humanities to provide the knowledge, skills, and professional values

(such as ethics) needed for successful entry into dietetic internships, graduate school, and/or dietetics employment. The learning environment is structured to allow students opportunities for experiential learning, including co-operative education, participation in research, and use of current technologies.

GOAL 1

To provide quality didactic instruction and learning experiences to prepare graduates to be accepted into dietetic internships and graduate schools, and/or work in the field of dietetics.

- 75% of graduating BS students and 90% of graduating MS students will apply to an accredited dietetic internship
- 80% of students who apply to dietetic internships are accepted
- 75% of students who apply to graduate school are accepted.
- Of those graduates seeking employment in nutrition and food-related careers, 80% will be employed within 6 months of program completion.
- On surveys to internship directors, graduate school advisors, and employers, the mean rating of each of 10 learning outcomes will exceed the rating of "3" (satisfactory).
- On surveys to students one year after graduation, the mean rating of each of 10 learning outcomes will meet or exceed the rating of "3" (satisfactory) or better.
- On course evaluation responses, 90% of the knowledge and skill statements identified in the course syllabi will be rated as competent.

GOAL 2

To prepare graduates who are accepted into accredited internship programs to become competent entry-level dietitians.

- The program's first time pass rate on the entry level exam is 80% or above.

GOAL 3

Through recruitment efforts, encouragement, motivation, and support, faculty and staff will increase the number of students and the diversity of students who enter and complete the didactic program in dietetics.

- At least 10% of DPD students will be from underrepresented groups.
- At least 90% of students will complete the program within 150% of the expected time frame for the program (BS full-time = 4 years; BS part-time = 5-7 years).

For more information, visit the College's Nutrition and Sciences (<http://www.drexel.edu/nutrition>) web page.

Admission/Graduation Requirements

Admission Requirements

Drexel takes into consideration a number of criteria when determining admission, including the applicant's application, transcripts, courses in progress, two recommendations, standardized test scores, essay, and special interests (list of extracurricular activities, employment, etc.). Applicants to the Nutrition and Foods program must have completed four years of high school mathematics (algebra I and II, geometry, and trigonometry) and two years of a laboratory science (biology, chemistry, or physics). To be considered as a transfer student, candidates should have completed a minimum of 24 college credits. Drexel operates on a rolling admission basis, which means that students will be notified about the admission decision as soon as possible after their files are complete.

Visit the Admissions (<http://drexel.edu/undergrad/academics/majors>) web site for more information and to apply online.

Graduation Requirements

To receive a BS in Nutrition and Foods, students in the program must complete a plan of study of all required courses and enough elective courses to total at least 180.0 credits. An overall GPA of 2.0 or higher for all coursework undertaken at Drexel University must be earned to receive a BS. A "C" or better is necessary in all courses required by the Didactic Program in Nutrition in order to receive a verification statement.

For the current academic calendar, visit Drexel University Academic Calendars (<http://drexel.edu/drexelcentral/courses/calendars>).

Minor in Nutrition and Foods

The minor in nutrition is designed for students interested in enhancing their major with an application in human nutrition. The nutrition minor should be especially attractive to students in the premedical, biological,

and behavioral neurological sciences, as it provides a background for enhanced employment and post-baccalaureate study opportunities in areas closely allied to their basic disciplines.

The minor consists of 25.0 credits. Interested students should consult with a nutrition and food science faculty member to schedule courses appropriate for their background and goals.

Required courses

| | | |
|---------------------------------------|--|------------------|
| NFS 200 | Nutrition I: Principles of Nutrition | 4.0 |
| or NFS 230 | Intermediate Nutrition | |
| NFS 203 | Nutrition II: Nutrition in the Lifecycle | 4.0 |
| NFS 315 | Nutrition in Chronic Disease | 4.0 |
| Select four of the following courses: | | 12.0-14.0 |
| NFS 320 | Pediatric Nutrition | |
| NFS 325 | Nutrition & Exercise Physiology | |
| NFS 415 | Advanced Nutrition I: Macronutrition | |
| NFS 416 | Advanced Nutrition II: Micronutrients | |
| NFS 446 | Perspectives in World Nutrition | |
| NFS 480 | Special Studies in Nutrition and Food | |
| Total Credits | | 24.0-26.0 |

Career Opportunities

Possible career opportunities in dietetics include the following:

- *Clinical Dietitians* are specialists in food nutrition services in hospitals, outpatient clinics, and private practices. They assess patient nutrition, develop dietary plans, provide patient counseling, and monitor patient progress.
- *Community Dietitians* work in public health agencies, health and fitness clubs, and day care centers. They counsel people on food choices and direct programs in nutrition awareness and disease prevention.
- *Management Dietitians* specialize in food service systems or clinical management. They work in hospitals, nursing homes, school food service, cafeterias, and restaurants. They manage personnel, plan and conduct employee training programs, design food systems, and plan budgets.
- *Business Dietitians* work in the food industry in product development and marketing, public relations, food styling, and menu design.
- *Consultant Dietitians* are independent business people who work as consultants to nursing homes, sports team, and other clients.

Facilities

The Center for Integrated Nutrition and Performance (CINP), located in the Daskalakis Athletic Center, provides a variety of nutrition services to the Drexel community, including workshops, lectures, support for athletic teams, and individual counseling. An employee weight loss program is available through CINP.

Food preparation laboratories feature state-of-the-art equipment for both experimental and quantity food production.

Bioscience teaching laboratories are available with networked computers and advanced digital image analysis capabilities. Both teaching and research laboratories contain a range of equipment including

microscopes, centrifuges, chromatographs, spectrophotometers, scintillation counters, culture chambers, and densitometers.

Radiologic Technology

Associate of Science Degree: 104.0 quarter credits

About the Program

The major in radiologic technology prepares students to perform actual diagnostic X-ray examinations vital to the diagnosis and treatment of patients.

The Associate in Science Degree Radiology is the branch of medicine that uses various forms of radiation, such as X-rays, to provide information for the prevention, diagnosis, and treatment of disease. Radiologic technologists aid physicians by performing radiologic examinations necessary to diagnose conditions and treat patients.

Mission Statement

The mission of the radiologic technology program is to provide:

- a progressive academic and clinical educational environment for qualified students to prepare them as competent and compassionate radiologic health care providers;
- the knowledge and skills needed to meet and/or exceed minimum entry level requirements to perform radiologic technology.

Program Goals

- Recruit and select qualified individuals with potential for success
- Students/graduates will demonstrate the knowledge and skills of a clinically competent radiographer
- Students/graduates will demonstrate effective communication, critical thinking and problem solving skills
- Students/graduates will recognize the significance of professional growth and development.

Accreditation

The program is accredited by:

The Joint Review Committee on Education in Radiologic Technology (JRCERT)
20 North Wacker Drive
Suite 2850
Chicago, IL. 60606
312-704-5300

Options for Study

The program was established to prepare specialist trained in the art and science of medical imaging who participate in the care of other human beings and do so as competent, sensitive, caring individuals who carry out their charge in such a way so as to maintain the dignity of human life. The program is committed to providing a quality educational opportunity that prepares individuals to be competent for entry-level staff radiographic employment. A quality and comprehensive curriculum is maintained through competent faculty who utilize quality facilities. Instruction begins with classroom exercises, leading to laboratory experiences and clinical applications.

The Radiology Technology Program of the College of Nursing and Health Professions is a 21-month program leading to an Associate of Science (AS) Degree.

For more information, visit the Radiologic Technology (<http://www.drexel.edu/radtech>) page on the College of Nursing and Health Professions web site.

For information on tuition and fees, please visit the billing page for 2013-2014 Full-Time Undergraduate Programs (<http://drexel.edu/drexelcentral/billing/billing/tuition-and-fee-rates/full-time-undergraduate-programs>).

Total Credit: 104.0

Clinical Rotations

Students in the Radiologic Technology program must attend all of the clinical rotation sites. Clinical practicum times can vary from 8:30 a.m. to 8:30 p.m. depending on the quarter. Every Radiology student participates in an evening trauma rotation within their summer quarter (1:00 p.m. to 8:30 p.m.).

Career Opportunities

Upon completion of the program the graduates may continue their education in the area of radiation therapy, nuclear medicine, ultrasound, MRI, CAT scan, interventional radiation, mammography, or education and management.

Employment opportunities abound in hospitals, doctors' offices, mobile radiography, agencies, sales, application specialists and research.

Visit the Drexel Steinbright Career Development Center (<http://www.drexel.edu/scdc>) page for more detailed information on post-graduate opportunities.

Minor in Addictions Counseling

The minor in addictions counseling is designed to provide students with an understanding of current best-practice approaches in counseling interventions aimed at assisting people in recovery from substance use disorders. This minor appeals to students in a wide range of Drexel majors, including psychology, criminal justice, health services administration, sociology, the Pathways to Health Professions program, education, general humanities and social science, nutrition and foods, as well as other fields of study.

Academic Requirements

The minor requirements includes 15.0 credits in five required courses and 9.0 credits in three courses selected from a list of ten electives. Students may elect to begin coursework in this minor at any point in their undergraduate education. It is strongly suggested that students pursuing this minor consult with faculty in the Behavioral Health Counseling program for advice in selecting electives that will best meet their goals in this minor.

Required Courses

| | | |
|--------------------------------|--|------|
| BACS 220 | Counseling Theory and Practice | 3.0 |
| BACS 234 | Introduction to Addictive Disorders | 3.0 |
| BACS 304 | Cognitive and Behavioral Counseling I | 3.0 |
| BACS 310 | Recovery and Relapse Prevention | 3.0 |
| BACS 367 | Advanced Counseling Intervention | 3.0 |
| Select three of the following: | | 9.0 |
| BACS 232 | Ethics and Professional Responsibility | |
| BACS 255 | Multicultural Counseling | |
| BACS 301 | Group Counseling I | |
| BACS 312 | Case Management Methods | |
| BACS 325 | Psychopharmacology for Counselors | |
| BACS 368 | Addictions Counseling with Special Populations | |
| BACS 370 | Problem Gambling Interventions | |
| BACS 401 | Assessment and Treatment Planning | |
| BACS 412 | Group Counseling II | |
| BACS 414 | Co-Occurring Disorders | |
| Total Credits | | 24.0 |

Minor in Psychiatric Rehabilitation

The minor in psychiatric rehabilitation is designed to provide students with an understanding of clinical competencies in implementing evidence-based rehabilitation services to people with serious mental illness. This minor appeals to students in a wide range of Drexel majors, including psychology, criminal justice, health services administration, sociology, the Pathways to Health Professions program, education, general humanities and social science, nutrition and foods, as well as other fields of study.

Academic Requirements

The minor requires completion of 24.0 credits, comprised of 15.0 credits in five required courses and 9.0 credits in three courses selected from a list of twelve electives. Students may elect to begin coursework in this minor at any point in their undergraduate education. It is strongly suggested that students pursuing this minor consult with faculty in the Behavioral Health Counseling program for advice in selecting electives that will best meet their goals in this minor.

Required Courses

| | | |
|--------------------------------|---|------|
| BACS 220 | Counseling Theory and Practice | 3.0 |
| BACS 236 | Psychiatric Rehabilitation Principles and Practices | 3.0 |
| BACS 320 | Crisis and Brief Intervention | 3.0 |
| BACS 325 | Psychopharmacology for Counselors | 3.0 |
| BACS 420 | Psychiatric Rehabilitation Competencies | 3.0 |
| Select three of the following: | | 9.0 |
| BACS 200 | Foundation of Behavioral Health Care | |
| BACS 230 | Genetics and Mental Health | |
| BACS 234 | Introduction to Addictive Disorders | |
| BACS 255 | Multicultural Counseling | |
| BACS 301 | Group Counseling I | |
| BACS 304 | Cognitive and Behavioral Counseling I | |
| BACS 401 | Assessment and Treatment Planning | |
| BACS 404 | Cognitive and Behavioral Counseling II | |
| BACS 405 | Family-Focused Interventions | |
| BACS 411 | Forensic Behavior Health Service | |
| BACS 412 | Group Counseling II | |
| BACS 414 | Co-Occurring Disorders | |
| Total Credits | | 24.0 |

Certificate in Medical Billing and Coding

This online certificate program is designed for those who want to begin medical billing and coding careers or prepare for certification exams in these areas. Students will learn principles of medical coding related to the three main coding manuals: CPT, ICD-9-CM, and HCPCS. The curriculum covers principles of medical billing and coding for in-patient and outpatient hospitals.

Required Courses

| | | |
|---|--|------|
| MBC 201 | Medical Billing I | 3.0 |
| MBC 202 | Medical Billing II | 3.0 |
| MBC 301 | Physician-Based Medical Coding I | 3.0 |
| MBC 302 | Physician-Based Medical Coding II | 3.0 |
| MBC 303 | Hospital-Based Medical Coding I | 3.0 |
| MBC 304 | Hospital-Based Medical Coding II | 3.0 |
| If a student has placed out of any of the above courses, he or she can substitute any of the following courses (provided that the prerequisites are met): | | |
| MBC 101 | Medical Terminology for Billers and Coders | |
| MBC 250 | Medical Billing Software | |
| MBC 350 | Physician-Based Chart Auditing | |
| MBC 360 | Hospital-Based Case Studies | |
| Total Credits | | 18.0 |

About the College of Nursing and Health Professions: Graduate

The College of Nursing and Health Professions offers a wide range of graduate programs. Many programs offer flexible scheduling, making it possible for students to continue their education with night and weekend courses. Others are web-based programs available online.

Majors

- Couple and Family Therapy (PhD) (p. 37)
- Family Therapy (MFT) (p. 38)
- Creative Arts in Therapy (MA, PhD) (p. 39)
 - Art Therapy (p. 39)
 - Dance/Movement Therapy (p. 40)
 - Music Therapy (p. 41)
- Nurse Anesthesia (MSN) (p. 45)
- Nursing Practice (DNP) (p. 46)
- Nursing (MSN)
 - Adult-Gerontology Acute Care Nurse Practitioner
 - Clinical Nurse Leader (p. 53)
 - Clinical Trials Research (p. 54)
 - Family Nurse Practitioner (p. 55)
 - Nursing Education and Faculty Role (p. 56)
 - Nursing Innovation and Intra/Entrepreneurship (p. 56)
 - Nursing Leadership and Health Systems Management (p. 57)
 - MSN-Bridge Program (p. 58)
 - Women's Health/Gender Related Nurse Practitioner (p. 60)
 - Pediatric Primary Care Nurse Practitioner (p. 58)
 - Psychiatric Mental Health Nurse Practitioner (p. 59)
- Human Nutrition (MS) (p. 44)
- Physical Therapy (DPT) (p. 48)
- Rehabilitation Sciences
 - Rehabilitation Sciences (DHSc) (<http://catalog.drexel.edu/graduate/collegeofnursingandhealthprofessions/doctorofhealthscience>)
 - Rehabilitation Sciences (MHS, PhD) (p. 49)
- Physician Assistant (MHS)
 - MHS with PA Certificate Program (p. 61)
 - Post-Professional Master's Program (p. 63)

Certificates

- Art Therapy (p. 65)
- Complementary and Integrative Therapies (p. 66)
- Couple and Family Therapy (p. 66)
- Dance/Movement Therapy (p. 67)
- Forensic Trends and Issues in Contemporary Healthcare (p. 68)
- Holistic Hospice and Palliative Care (p. 69)
- Hand and Upper Quarter Rehabilitation (p. 68)
- Integrated Nursing Care of Autism Spectrum Disorder (<http://catalog.drexel.edu/graduate/collegeofnursingandhealthprofessions/nursingcareautismcert>)

- Integrative Addiction Therapies (p. 69)
- Medical Family Therapy (p. 69)
- Music Therapy (p. 70)
- Nurse Anesthesia (p. 70)
- Nursing Certificates
 - Adult-Gerontology Acute Care Nurse Practitioner
 - Clinical Trials Research (p. 72)
 - Nursing Education and Faculty Role (p. 72)
 - Nursing Innovation and Intra/Entrepreneurship (p. 73)
 - Nursing Leadership and Health Systems Management (p. 73)
 - Psychiatric Mental Health Practitioner (p. 74)
 - Family Nurse Practitioner (p. 74)
 - Pediatric Primary Care Nurse Practitioner (p. 75)
 - Women's Health/Gender Related Nurse Practitioner (<http://catalog.drexel.edu/graduate/collegeofnursingandhealthprofessions/womenshealthgender-npcert>)
- Pediatric Rehabilitation (p. 71)

About the College

As the practice of medicine has become more complex with the advent of technology and new drug therapies, so has the provision of health services. An increasingly diverse, aging US population experiencing higher rates of chronic illness is demanding more service and culturally competent care. While technology improvements help provide the means to deliver safer, high-quality care, our society is facing shortages in health professionals such as nurses, mental health workers, nurse anesthetists, physician assistants, and rehabilitation science professionals. The demand for these and other skilled professionals continues to increase and is expected to remain steady well into the 21st century. There is no more vibrant a place to prepare for these kinds of meaningful, rewarding careers than at Drexel University's College of Nursing and Health Professions (<http://www.drexel.edu/cnhp>). The College offers associate's, bachelor's, master's, and doctoral degrees in more than a dozen health care fields.

Just as the health profession disciplines have come of age, so has the College of Nursing and Health Professions. Founded in 1969 as the College of Allied Health Professions with just three degree programs and a faculty of five, the college has undergone a remarkable evolution. Today it serves over 3,000 students, with a broad array of contemporary program offerings. Along the way, it has earned widespread recognition and accreditation for the education of health professionals.

Mission and Approach

The College believes that the health care needs of today and tomorrow can best be met by professionals who have expertise in their own fields and a concurrent understanding of other health disciplines. In addition to providing a broad-based education that balances academic learning with clinical training, the University promotes collaboration among students in our College of Nursing and Health Professions, our School of Public Health, and the College of Medicine, which draws from the rich traditions of predecessors Hahnemann University and the Medical College of Pennsylvania.

Teamwork is as important in academics as it is in health care. The College of Nursing and Health Professions' dedicated and knowledgeable faculty members work closely with students, providing a supportive and creative learning environment. Graduates from the College possess a

wide range of experiences and the knowledge, compassion, and lifelong learning skills needed to become accomplished health care professionals.

The student body, which is diverse in age and culture, reflects Drexel University's commitment to provide qualified students with an opportunity for advanced education. Drexel welcomes nontraditional applicants and especially encourages applications from underrepresented minorities and those interested in practicing in underserved areas.

Many of Drexel's College of Nursing and Health Professions programs offer flexible scheduling, making it possible for students to continue their education through part-time, online, night, or weekend study.

Accreditation

Nursing programs are accredited by the CCNE (Commission on Collegiate Nursing Education), and the PA State Board of Nursing.

The Couple and Family Therapy MFT degree and Post-Master's Certificates are accredited by COAMFTE (Commission on Accreditation of Marriage and Family Therapy Education).

The Creative Arts in Therapy MA degrees in Dance/Movement Therapy, Music Therapy, and Art Therapy are approved by the ADTA (American Dance Therapy Association), the AMTA (American Music Therapy Association), and the AATA (American Art Therapy Association), respectively.

The Didactic Program in Nutrition is accredited by ACEND (Accreditation Council for Education in Nutrition and Dietetics).

The Health Services Administration program is certified by AUPHA (Association of University Programs in Health Administration).

The Nurse Anesthesia program is accredited by the Council on Accreditation of Nurse Anesthesia Educational Programs.

The Professional Physical Therapy (DPT) program is accredited by CAPTE (Commission on Accreditation in Physical Therapy Education).

The Physician Assistant program is accredited by ARC-PA (Accreditation Review Commission on Education for the Physician Assistant).

Couple and Family Therapy

Doctor of Philosophy: 82.0 quarter credits

About the Program

The PhD Program in Couple and Family Therapy (CFT) prepares educators researchers and practitioners. Students are trained to advance the knowledge base of couple and family therapy through education research and clinical services.

Graduates of the Couple and Family Therapy PhD program will serve as faculty in graduate programs of couple and family therapy, psychology, social work or medical schools, and as clinicians in mental health agencies or private practice.

The PhD Program in Couple and Family Therapy is rooted in systems theory and therapy. Emphasis is on specialized training in couple and family therapy theory and technique. Students are expected to demonstrate critical and analytical thinking with respect to the broad areas of systems theory and therapy, and to articulate their own theoretical approach to couple and family therapy. The program is committed to training students to be aware of and sensitive to such contextual issues as

race, class, gender, spirituality and sexual orientation as well as person of the therapist.

For additional information about the PhD in Couple and Family Therapy, visit the program's Couple and Family Therapy (<http://www.drexel.edu/familyTherapy>) web site.

Degree Requirements

Students are required to complete the standard curriculum in couple and family therapy before pursuing the doctoral curriculum. The standard curriculum is offered in the COAMFTE-accredited Master of Family Therapy (p. 38) program at the University. A minimum of 82.0 post-master's quarter hours are required for the PhD program.

The curriculum includes study in the following areas:

- Theory and research in couple and family therapy
- Research methodology, including statistics, research design, and computer applications
- Specialized instruction in couple and family therapy
- Domestic violence, school-based settings, diverse family structures, and forensic family therapy
- Supervised clinical experience
- Supervision of supervision

Required Courses

Clinical Knowledge

| | | |
|----------|--|-----|
| CFTP 724 | Multicultural Approach to Couple and Family Therapy | 4.0 |
| CFTP 725 | Trauma and Families | 4.0 |
| CFTP 730 | Gender and Sexual Orientation | 4.0 |
| CFTP 741 | Religion, Spirituality and Couple and Family Therapy | 4.0 |

Individual Development and Family Relations

| | | |
|----------|--------------------------|-----|
| CFTP 735 | Family Healthcare Policy | 4.0 |
|----------|--------------------------|-----|

Clinical Supervision

| | | |
|----------|--|-----|
| CFTP 734 | Supervision in Couple and Family Therapy | 4.0 |
|----------|--|-----|

Research

| | | |
|-------------|--|-----|
| CFTP 713 | Couple and Family Therapy Research and Practice Literature | 4.0 |
| CFTP 715 | Quantitative Methods | 4.0 |
| CFTP 719 | Qualitative Methods | 4.0 |
| CFTP 732 | Advanced Quantitative Research Design | 4.0 |
| or CFTP 733 | Advanced Qualitative Research Design | |
| RSCH 519 | Introduction to Biostatistics | 3.0 |

Professional Development

| | | |
|----------|--------------------------------------|-----|
| CFTP 714 | Professional Development Seminar I | 2.0 |
| CFTP 718 | Professional Development Seminar II | 2.0 |
| CFTP 722 | Professional Development Seminar III | 2.0 |
| CFTP 726 | Professional Development Seminar IV | 2.0 |
| CFTP 731 | Professional Development Seminar V | 2.0 |
| CFTP 736 | Professional Development Seminar VI | 2.0 |

Internship

| | | |
|----------|--|------|
| CFTP 801 | Couple and Family Therapy Internship * | 12.0 |
|----------|--|------|

Dissertation

| | | |
|---|--|------|
| CFTP 802 | Couple and Family Therapy Dissertation * | 12.0 |
| Additional Course (Elective) | | 3.0 |
| Students select an additional elective courses (Students may choose to go outside of the program to meet this requirement, provided each course is at least 4.0 credits and at the doctoral level of sophistication or they may select one of the following courses.) | | |
| CFTP 751 | Special Topics in Couple and Family Therapy | |
| CFTP 752 | Independent Study in Couple and Family Therapy | |
| Total Credits | | 82.0 |

* This course is repeated for credit to meet minimum requirements, and can be repeated for credit up to five times.

Clinical Training

Students must be actively engaged in clinical practice throughout the program. Before graduating from the Doctoral program, all students must have completed 1,000 hours of direct client contact equivalent to that which is offered in a COAMFTE accredited program. Any student who can document that her/his previous supervised clinical practice is comparable to that which would be received in a COAMFTE accredited program may petition the program to waive some or all of the required 1,000 direct client contact hours.

Internship

All students are required to do an internship. Internship supervisors must be clearly senior in experience to the student intern. The purpose of the internship is to provide students with a supervised full-time clinical, research, academic or administrative experience of at least nine months duration. Clinical and alternate internships must emphasize relationally focused practice and research. For the clinical internship it is to insure that students meet the 1,000 direct client contact hour standard of COAMFTE. If a student has already accumulated 1,000 direct client contact hours, and/or is already licensed as an MFT and/or a clinical member of AAMFT in good standing, s/he may replace the clinical internship with a supervised research, academic, or administrative internship. The internship follows completion of a majority of all coursework. Students with up to two remaining courses are eligible to begin the internship. Students with three to four remaining courses must petition the program for approval to begin the internship.

Students should contact the Couple and Family Therapy Department (http://www.drexel.edu/cnhp/couple_family/phd_about.asp) for additional information about the qualifying exam and the dissertation.

Master of Family Therapy

Master of Family Therapy (MFT): 91.0 quarter credits

About the Program

The Master of Family Therapy Program prepares couple and family therapy practitioners. It is a two-year degree program accredited by the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE).

The program prepares students for the profession of couple and family therapy through academic and clinical training. It exposes students to broad areas of theory and practice and provides an intensive, supervised clinical experience. The program emphasizes the interdependence of individual experience and the relational context, extending from family of origin (including traditional and nontraditional families) to the global

community. The program is committed to training students to be aware of and sensitive to cultural diversity. In addition, the person of the therapist, including the student's own culture, is a major aspect of the clinical training.

For more information, visit Drexel's College of Nursing and Health Professions Couple and Family Therapy (<http://www.drexel.edu/familyTherapy>) web page.

Degree Requirements

The MFT curriculum assists students in integrating theory and practice. Issues of race, class, gender, sexual orientation, and ethnicity are addressed throughout the program. Students are fully trained to assume clinical practice in couple and family therapy and are prepared for associate membership in the AAMFT.

Required Courses

Theoretical Foundations

| | | |
|----------|---|-----|
| CFTP 500 | Introduction to Systems Theory | 4.0 |
| CFTP 501 | Introduction to Family Therapy | 4.0 |
| CFTP 503 | Historical and Sociocultural Influences | 4.0 |

Clinical Practice

| | | |
|----------|---|-----|
| CFTP 505 | Bowen Theory | 4.0 |
| CFTP 506 | Contextual Theory and Therapy | 4.0 |
| CFTP 507 | Collaborative Approaches | 4.0 |
| CFTP 508 | Structural Family Therapy | 4.0 |
| CFTP 509 | Couples Therapy | 4.0 |
| CFTP 510 | Sex Therapy | 4.0 |
| CFTP 511 | Object Relations Theory | 4.0 |
| CFTP 512 | Behavioral Models of Family Therapy | 4.0 |
| CFTP 517 | Addictions in The Family | 4.0 |
| CFTP 518 | Medical Family Therapy | 4.0 |
| CFTP 519 | Family Violence | 4.0 |
| CFTP 537 | Nosology & Couple and Family Therapy Practice | 4.0 |

Individual Development and Family Relations

| | | |
|----------|-------------------|-----|
| CFTP 520 | Family Life Cycle | 4.0 |
|----------|-------------------|-----|

Professional Identity and Ethics

| | | |
|----------|--|-----|
| CFTP 522 | Legal and Ethical Implications in Couple and Family Therapy Practice | 4.0 |
|----------|--|-----|

Research

| | | |
|----------|---------------------------------------|-----|
| CFTP 525 | Research in Couple and Family Therapy | 4.0 |
|----------|---------------------------------------|-----|

Additional Learning

| | | |
|----------|--|-----|
| CFTP 526 | Person of the Therapist Experience I | 2.0 |
| CFTP 527 | Person of the Therapist Experience II | 2.0 |
| CFTP 528 | Person of the Therapist Experience III | 2.0 |

Electives

| | | |
|----------|------------------------------------|--|
| CFTP 515 | Introduction to Psychopharmacology | |
| CFTP 521 | Human Development | |
| CFTP 529 | Family Policy | |

Practicum

| | | |
|----------|---------------|-----|
| CFTP 530 | Practicum I | 2.0 |
| CFTP 531 | Practicum II | 2.0 |
| CFTP 532 | Practicum III | 2.0 |
| CFTP 533 | Practicum IV | 1.0 |

| | | |
|---------------|---------------|------|
| CFTP 534 | Practicum V | 2.0 |
| CFTP 535 | Practicum VI | 2.0 |
| CFTP 536 | Practicum VII | 2.0 |
| Total Credits | | 91.0 |

Clinical Practicum Experience

All interns must complete a continuous 12-month calendar year at one practicum site prior to graduation. Interns will be expected to spend 16-20 hours per week working at the approved program practicum site. Scheduling of specific times will be negotiated by the intern and the on-site supervisor. The practicum schedule must not conflict with class schedule.

Clinical practicum sites are located primarily in Philadelphia, Delaware, and New Jersey. Settings include schools, forensic family therapy treatment programs, juvenile justice treatment systems, community health centers, family court, mental health agencies, outpatient psychiatry, and substance abuse facilities.

For additional information, students should contact the Couple and Family Therapy Department (http://www.drexel.edu/cnhp/couple_family/mft_about.asp).

Creative Arts in Therapy

Master Arts: 90.0 quarter credits

Doctor of Philosophy: 66.0 quarter credits

About the Program

The Creative Arts Therapies programs are based on specialized didactic and clinical education in art therapy, dance/movement therapy or music therapy. Admission criteria are specific to each of the three areas of concentration

The curriculum contains core courses for all students in areas related to mental health sciences, creative arts in therapy theory and specialized courses for students of each arts therapy modality. The Department of Creative Arts Therapies offers both an MA degree with specialization as well as a PhD degree in Creative Arts Therapy.

The Creative Arts in Therapy programs integrate knowledge of the creative arts therapies with current theoretical and practical approaches to assessment and treatment in mental health, medical, and educational contexts. Academic, clinical, and supervisory aspects are balanced and integrated, with an emphasis on developing competent and compassionate professionals who will contribute to our multicultural society in meaningful and creative ways. The programs are unique in that the faculty includes both creative arts therapists and mental health professionals with an interest in the arts who help students integrate the specialized creative arts therapy knowledge with trends and discoveries in the social and health sciences.

Admission criteria are specific to each of the three areas of concentration. For information about how to apply to the MA program, visit the Drexel University Admissions MA in Creative Arts Therapies page.

Master of Arts in Creative Arts Therapy: Art Therapy Specialization

The graduate art therapy program offers a progressive curriculum that integrates, didactic, experiential, supervisory, and clinical experiences

to prepare students for providing art therapy services in a broad range of settings. Student learn psychodynamic theories and contemporary approaches that support their understanding of the healing aspects of the creative process and the complex interactions among the client, the therapist, and the art process that promote therapeutic change. Students apply this knowledge in their practicum and internship experiences that are offered in a variety of behavioral health settings, hospitals and medical facilities, schools, and community settings.

We provide educational experiences designed to promote professional development and multicultural competence conducive to the ethical, reflective, and socially-aware practice of art therapy. Our aim is to prepare professional art therapists capable of critical thinking with regard to the therapeutic use of art and the creative process while promoting respect for the diversity of human experiences.

For additional information about the program, visit the College of Nursing and Health Professions' Art Therapy (<http://www.drexel.edu/artsTherapies/programs/artTherapy>) web site.

* ARTS 604 Career Counseling can be taken as an elective.

Master of Arts in Creative Arts Therapy: Dance/Movement Therapy Specialization

Dance/movement therapy (DMT) is a body/mind-integrated approach to mental health counseling, in which movement is an essential medium. In this two-year curriculum, student learn to effectively engage in therapy relationships that support the emotional, cognitive, social and physical integration and functioning of the clients with whom they will work.

The curriculum engages students in experiential and reflective learning processes as well as more traditional discussion, lecture, tutorial, and clinical education formats. Through a balance of classroom education and clinically supervised practicum and internship experiences, students develop a strong foundation for skilled DMT practice. Program coursework supports an understanding of human development, multicultural diversity, psychopathology, therapeutic change processes, and social systems. Students apply this understanding and observational skills based in Laban Movement Analysis (LMA) to assess client functioning and formulate therapy goals. Improvisational processes support the design of relevant movement and verbal therapy interventions in both individual and group therapy forms. The curriculum includes specialized approaches with adult and child clinical populations.

For additional information about the program, visit the College of Nursing and Health Professions' Dance/Movement Therapy (<http://www.drexel.edu/artsTherapies/programs/danceMovementTherapy>) web site.

Total Credits 90.0

Master of Arts in Creative Arts Therapy: Music Therapy Specialization

The two-year music therapy program is designed to help students develop advanced music therapy clinical skills. The program is the only music therapy training model housed in an academic health center. It is unique in that faculty members include mental health and medical professionals who assist students in integrating music therapy with current developmental, neuroscience, mental health, and medical foundations. Didactic and clinical aspects are balanced to provide a foundation of theoretical knowledge and practical application. The evidence-informed curriculum integrates knowledge of music therapy with current theoretical approaches to assessment and treatment. Experiential core and music therapy modality courses are designed to help students develop the use of the self within the music therapy relationship.

For additional information about program, visit the College of Nursing and Health Professions' Music Therapy (<http://www.drexel.edu/artsTherapies/programs/musicTherapy>) web site.

| ARTS 699 | Independent Study in Creative Arts Therapy | 1.0-4.0 |

Total Credits 90.0

PhD in Creative Arts Therapies

The PhD in Creative Arts Therapies program is a research degree for art therapists, dance/ movement therapists, and music therapists who are interested in focusing their careers on scholarly pursuits and academic leadership in their specific discipline. The primary mission of the program is the cultivation of scholars and academic leaders for the purpose of generating and disseminating substantive, quality research that ultimately contributes to the bodies of knowledge, best clinical practices, and the efficacy of the arts therapies fields.

The mission of the PhD in Creative Arts Therapies program is to cultivate stewards of the professions who can preserve the traditions of the disciplines, promote scholarly and clinical advancement, and contribute to the legitimization of the fields.

In pursuit of the program mission, the innovative curriculum includes four interactive learning modules that comprise a three-year full-time degree program:

- Interdisciplinary module
- Research module
- Self/other artistic module
- Practicum module

The learning culture, curriculum, and pedagogy of the PhD in Creative Arts Therapies are the primary components contributing to the comprehensiveness of this advanced research degree. The learning culture is one of creativity, innovation, initiative and support. The curriculum and pedagogy emphasize the interaction between intellectual, emotional, inter-subjective and artistic learning for the purpose of generating knowledge in the arts therapies.

The learning culture, curriculum and pedagogy are elaborated in the following constructs:

- A learning culture that supports the exploration and integration of intellectual, emotional, artistic, and self/other knowledge as parallel to the psychotherapeutic and creative processes.
- An educational philosophy, curricular structure, and innovative pedagogy which supports dynamic and creative inquiry into interdisciplinary and discipline specific bodies of knowledge.
- A comprehensive approach to traditional and innovative research methods that best support the ontological, epistemological, theoretical, and applied practice in the arts therapies.
- The integration of theoretical, experiential, and pragmatic knowledge.
- A dialectic between didactic, intrinsic, and practical learning experiences.
- The cultivation of aptitudes and competencies in intellectual, subjective, intersubjective and artistic inquiry for each student.

For additional information about the program, visit the College of Nursing and Health Professions' PhD in Creative Arts Therapy (<http://www.drexel.edu/artsTherapies/programs/PhDRResearch>) web site.

General Requirements

The following general requirements must be satisfied in order to complete the PhD in Creative Arts Therapies:

- 66.0 quarter credits of required courses
- Candidacy/Qualifying exam (administered after the completion of one year or 45 quarter credits)

- Approval of dissertation proposal
- Practicum in one of the following: teaching, research, clinical supervision or advanced clinical practice
- Completion of dissertation
- Final oral exam/oral defense of dissertation

The required courses in the curriculum are organized into four essential learning modules: 1) interdisciplinary; 2) research; 3) self/other and artistic knowledge; and 4) practical application. These courses comprise the key components of the doctoral program, along with the dissertation.

Interdisciplinary Seminars

| | | |
|----------|-------------------------------|-----|
| ARTS 703 | Interdisciplinary Seminar I | 3.0 |
| ARTS 704 | Interdisciplinary Seminar II | 3.0 |
| ARTS 705 | Interdisciplinary Seminar III | 3.0 |
| ARTS 706 | Interdisciplinary Seminar IV | 3.0 |

Research Courses

| | | |
|----------|---|-----|
| ARTS 712 | Research I: Philosophy & Theory | 3.0 |
| ARTS 713 | Research Methods II: Quantitative Methods | 3.0 |
| ARTS 714 | Research Methods III: Qualitative Methods | 3.0 |
| ARTS 715 | Innovative and Emergent Research Methods (RSCH 770 is eliminated because it is not yet an approved course. This course will be active next year.) | 3.0 |
| RSCH 759 | Foundations of Biostatistics | 3.0 |

Research Specialization

| | | |
|------------------------------|---|-----|
| Select one of the following: | | 3.0 |
| ARTS 732 | Quantitative Research Methods II | |
| ARTS 733 | Qualitative Research Methods II | |
| ARTS 734 | Innovative and Emergent Research Methods II | |

Self/Other Artistic Knowledge Studio Labs

| | | |
|----------|-----------------------------------|-----|
| ARTS 716 | Studio Based Artistic Inquiry I | 3.0 |
| ARTS 717 | Studio Based Artistic Inquiry II | 3.0 |
| ARTS 718 | Studio Based Artistic Inquiry III | 3.0 |
| ARTS 719 | Studio Based Artistic Inquiry IV | 3.0 |

Practical Application Courses

Practica in either research, teaching, clinical supervision, or advanced clinical practice.

| | | |
|----------|---------------|-----|
| ARTS 808 | Practicum I | 3.0 |
| ARTS 809 | Practicum II | 3.0 |
| ARTS 810 | Practicum III | 3.0 |

Dissertation Courses *

| | | |
|--|---------------------------|-----|
| Select 9 credits from the following variable credit courses: | | 9.0 |
| ARTS 804 | Dissertation Research I | |
| ARTS 805 | Dissertation Research II | |
| ARTS 806 | Dissertation Research III | |
| ARTS 807 | Dissertation Research IV | |

Electives

Students, with advisement and in accordance with their educational plan, can choose to take two electives in the same content area, or may choose to take one elective each in two different content areas.

| | | |
|---------------|--|------|
| Total Credits | | 66.0 |
|---------------|--|------|

- * The dissertation is an original research project, the content of which directly relates to the epistemology, theory, and/or practice of the student's creative arts therapy specialization.

All electives must be graduate courses and can be selected from those courses offered at Drexel University. In particular, doctoral level courses in the College of Nursing and Health Professions, School of Public Health, College of Arts and Sciences, and/or the School of Education may be the most relevant to students in this program. (The Creative Arts Therapies PhD program director will obtain permission for the student to take the elective from the relevant Dean of the College or School, and the relevant program director and course instructor.)

Content areas that are acceptable for electives include the following: anthropology, biology, creativity, culture and communication, ethics, health psychology, literature, neuroanatomy, neuropsychology, philosophy, psychology, psychoanalysis, sociology, advanced statistics. Additional content areas may be added by special request as approved by the supervising faculty advisor and program director.

PhD in Creative Arts Therapies Admission Requirements

Applicants for the Doctor of Philosophy (PhD) program in Creative Arts in Therapy are screened based upon the required application documents plus a personal interview by the faculty. The application documents and interview are designed to assess the applicant's aptitudes and commitment to advanced academic achievement and the development of scholarship. Admission into the PhD program includes both firm and malleable requirements. The firm requirements include a Master's degree in Art, Dance/Movement, Music or Expressive Therapy, a minimum of three years post master's clinical experience, certification in the creative arts therapies field, and at least one research course. We encourage prospective students to inquire about applying to the PhD Program even if they are uncertain if they meet the all of the admission requirements. In many cases applicants are considered on a very individual basis and assessment. For this reason we look forward to speaking with you about your eligibility and your questions.

Degree

Masters Degree in Art Therapy, Dance/Movement Therapy, Music Therapy, or Expressive Therapies.

Pre-Requisites (in addition to or included in Master's degree)

- 6.0 semester (9.0 quarter) credits equivalent in graduate level research coursework.
- 3.0 semester (4.0 quarter) credits equivalent of graduate coursework in multiculturalism, anthropology, or sociology.

Research Education and Training

The PhD in Creative Arts Therapies is a research degree. Consequently it is essential that those entering the program demonstrate foundational education and experience in research.

- Documented research courses with a grade of no less than a 'B'.
- Documentation of having conducted one research project. This can be a master's thesis project or post-master's research.

Scores and GPA

- Graduate Record Examination (GRE) with minimum scores of 300 combined (150 Quantitative and 150 Verbal Reasoning) and 4.0 in analytic writing, or
- Miller Analogies Test (MAT) with scores of 396 or above.
- MGPA of 3.5 or above from the master's degree education.

Clinical Experience and Credentials

- A minimum of 3 years full-time equivalent post-master's degree creative arts therapies clinical practice.
- Professional credentials including board certification and/or registration in the applicant's Creative Arts Therapies discipline. A professional license is preferred but not required.

Academic Writing Proficiency

Central to success in the PhD program is the ability to write at a professional scholarly level. Even though this ability will develop as a result of being a doctoral student, it is essential that the applicant demonstrate an interest in, commitment to, and aptitude for scholarly writing. Academic Writing Proficiency is evaluated based upon the following criteria and documentation:

- **Academic Writing Sample:** Demonstration of scholarly writing proficiency from an academic writing sample. This could be a graded graduate writing sample or an independently authored publication. Applicants are also invited to generate a new writing sample specifically for this application. All scholarly writing samples should be selected to best represent the applicant's scholarly accomplishments and potential.
- **Publication or manuscript for submission:** Documentation of having submitted an article for a peer reviewed publication. The documentation should be in the form of a manuscript that was submitted to a journal or as a chapter in an edited book. This manuscript can also be used for the academic writing sample if it was authored solely by the applicant. If it was co-authored an additional independently authored sample is required to fulfill the requirement for demonstration of scholarly writing proficiency.
- **Admissions Essay:** The admissions essay is an important part of the application and writing proficiency assessment process. Since the PhD is the highest level of scholarly education the expectation is for incoming students to possess and demonstrate competency in in this area as reflected in their writing. The scholarly writing not only requires writing skill but also represents a thought process—the ability to review, organize, select and synthesize ideas of self and other. In addition, scholarly competence requires familiarity with acceptable writing styles. For those reasons we require an admissions essay which is in three parts. These parts are:
 - **Reasons for Application:** In this section briefly describe your professional background, your clinical practice and interests and how these experiences coalesced in your decision to apply to the Ph.D Program (1 page)
 - **Research Interests:** In this section describe 1) two areas of interest for your own research; 2) a summary of current research in these areas; and, 3) the direction you hope to take your research (3 pages).
 - **Academic and Career Goals:** Conclude your essay with a summary of your academic and career goals (1 page)
- **All writing samples should be submitted in APA format.**

Letters of Recommendation

Three letters of recommendation are required as a part of the application process. The letters should be from individuals who can knowledgeably address the applicant's aptitudes for scholarship and teaching. Recommenders should also address the applicant's maturity, initiative, self-directed motivation, and commitment to higher education.

Interview

When the application is completed it will be reviewed by the faculty admissions committee to determine if the applicant meets the admission criteria. Following the initial screening, a determination is made of whether or not the applicant meets the admission criteria. If the determination is made that the applicant does meet the admission criteria, the applicant is scheduled for an interview with the faculty in the PhD Program in Creative Arts Therapies. The interview protocol includes:

- Review of application materials and associated questions to address scholarly competencies for the program.
- Discussion regarding the theory and practice of the creative arts therapies and the applicant's specific discipline.
- Discussion of the applicant's research interests, competencies, and ideas.
- Discussion of the applicant's reasons and motivation for applying for doctoral education.

Please contact Ms. Rachel Ward, Admissions Coordinator, for additional information about the admission requirements and the application process. (215) 762-6921 or rsw24@drexel.edu.

Note: Admissions Schedule

The early priority deadline is January 15th, with rolling admissions through July 1st.

For additional information about how to apply, visit the Drexel Admissions page on PhD in Creative Arts in Therapy (http://www.drexel.edu/grad/programs/cnhp/apply/requirements/p_phd_cartx).

Master of Science in Human Nutrition

Master of Science: 45.0 quarter credits

About the Program

The human nutrition major is concerned with normal and therapeutic nutrition for individuals and groups. This major also encompasses nutrition science, the application of the principles of biochemistry, physiology, and biology to human nutritional needs. Current research in human nutrition includes food preference and nutrition, nutrition assessment, and effectiveness of nutrition education (particularly by the use of multimedia) on health and eating habits. Current research in nutrition science includes physiological and genetic determinants of obesity, lipid metabolism, nutraceuticals, and diet-endocrine interrelationships.

Graduate study in human nutrition is offered on both a full-time and part-time basis. Soon after matriculation students consult with their advisors and complete a plan of study. All students are expected to file a plan of study with the graduate advisor before the end of their third term of matriculation. In addition to the core curriculum students select specialty courses relating to their major, as well as electives.

Visit the College's MS in Human Nutrition web page (<http://www.drexel.edu/nutrition/programs/humanNutrition>) for more information.

Program Prerequisites

The program's approach to graduate study in Human Nutrition is quantitative; therefore, applicants should have demonstrated competency in the coursework or its equivalent listed below.

Applying to the MS in Human Nutrition with Didactic Program in Dietetics (DPD) program requires special planning. Students are admitted only in the Fall or Winter terms. The first consideration before submitting an application is whether all prerequisites have been met with a minimum grade of B. Students are encouraged to apply as early as possible so that transcripts can be reviewed and prerequisites determined. Students may be required to retake courses to earn a grade of B or better before they may enroll in the program.

- 1 year English composition and/or literature
- 1 semester general biology with lab to include cells and genetics
- 2 semesters general chemistry with lab, OR, 1 semester general chemistry with lab AND 1 semester organic chemistry with lab
- 1 semester upper-level (300-400 level) biochemistry with lab
- 1 semester human physiology with lab, OR, 2 semesters anatomy & physiology with lab
- 1 semester general psychology
- 1 semester statistics
- 1 semester nutrition

In addition, students completing the DPD track will be required to complete the following 2 courses either before entry to the program or while completing the MS in Human Nutrition.

- 1 semester basic food preparation (DPD track only)
- 1 semester quantity foods (DPD track only)

Degree Requirements

Students are required to complete 21.0 credits of CORE courses and then select 24.0 credits of electives chosen from courses currently offered in Biology, Nutrition, Food Science, Environmental Science or Public Health after consulting with their advisor. Those students choosing the thesis option substitute 6 credits of research for two elective courses. Those students choosing the non-thesis option are required to pass a comprehensive exam before being granted their MS

Required Courses

| | | |
|---------|-------------------------------|-----|
| BIO 610 | Biochemistry of Metabolism | 3.0 |
| BIO 641 | Data Analysis in Biosciences | 3.0 |
| NFS 530 | Macronutrient Metabolism | 3.0 |
| NFS 531 | Micronutrient Metabolism | 3.0 |
| NFS 601 | Research Methods | 3.0 |
| NFS 629 | Readings in Nutrition Science | 3.0 |
| BIO 679 | Issues in Scientific Research | 3.0 |

Nutrition Science Electives

Select three of the following:

| | | |
|---------|----------------------------|--|
| NFS 525 | Nutritional Assessment | |
| NFS 545 | Nutrition in Critical Care | |

| | | |
|------------------|--|------|
| NFS 630 | Nutrition Counseling | |
| NFS 634 | Women's Issues in Nutrition | |
| NFS 640 | Nutrition of the Schoolchild | |
| NFS 641 | Nutrition in Later Maturity | |
| NFS 690 | Community Nutrition | |
| NFS 696 | Methods of Teaching Dietetics | |
| NFS 732 | Weight Management and Eating Disorders | |
| Electives | | 15.0 |

In consultation with their graduate advisory committee or graduate advisor, students select electives from departmental or related course offerings. Some examples include the following:

Select five of the following:

| | | |
|----------|----------------------------|--|
| BIO 670 | Medical Microbiology | |
| BIO 680 | Special Topics | |
| BMES 604 | Pharmacogenomics | |
| FDSC 560 | Food Chemistry | |
| ENVS 621 | Epidemiology | |
| ENVS 636 | Principles of Toxicology I | |

Thesis Option

Students selecting the thesis option may include up to 6 credits of NFS 997 Research in Nutrition and Food Sciences among their electives.

Non-thesis Option

Students selecting the non-thesis option are required to pass a written comprehensive examination. Students electing the non-thesis option may include up to 3 credits of NFS 997 Research in Nutritional and Food Sciences among their electives.

Total Credits 45.0

MS in Human Nutrition with Didactic Program in Dietetics (DPD)

The Didactic Program in Dietetics (DPD) (<http://www.drexel.edu/nutrition/programs/humanNutrition>) provides the coursework that is required to become a Registered Dietitian/Nutritionist (RD/RDN). Students who want to become a RD/RDN must successfully complete coursework approved by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND). Drexel University was one of the first universities in the country to offer the DPD program on the graduate level. In 2022, all newly credentialed RD/RDN will be required to have a graduate degree.

The MS in Human Nutrition with the DPD option is a full- or part-time program with courses offered in the evening. The program is 45 credits with a written comprehensive exam and may be completed in 18 months to two years with full-time study. Students who enroll part time typically complete the program in three to four years. After completing the MS in Human Nutrition, students participating in this program will also receive a Verification Statement which shows successful completion of the DPD and allows them to apply for an accredited supervised practice experience (dietetic internship).

Required Courses

| | | |
|----------|---|-----|
| FDSC 506 | Food Composition & Behavior | 3.0 |
| NFS 510 | Profession of Dietetics | 3.0 |
| NFS 525 | Nutritional Assessment Through the Life Cycle | 3.0 |

| | | |
|---------------|-----------------------------------|------|
| NFS 530 | Macronutrient Metabolism | 3.0 |
| NFS 531 | Micronutrient Metabolism | 3.0 |
| NFS 543 | Medical Nutrition Therapy I | 3.0 |
| NFS 544 | Medical Nutrition Therapy II | 3.0 |
| NFS 545 | Nutrition in Critical Care | 3.0 |
| NFS 546 | World Nutrition | 3.0 |
| NFS 601 | Research Methods | 3.0 |
| NFS 630 | Nutrition Counseling | 3.0 |
| NFS 550 | Foodservice Systems Management | 3.0 |
| NFS 690 | Community Nutrition | 3.0 |
| NFS 849 | Readings in Therapeutic Nutrition | 3.0 |
| Elective | | 3.0 |
| Total Credits | | 45.0 |

MSN in Nurse Anesthesia

Master of Science in Nursing (MSN): 89.0 quarter credits

About the Program

The Master of Science in Nursing in nurse anesthesia is a 28-month, 89.0 quarter credit, full-time program. The program offers 18 theoretical nursing and research credits, a 15.0 quarter credit basic science component, a 31.0 quarter credits didactic anesthesia component and a 25.0 credit clinical component. Upon successful completion of the program's outcomes the student is awarded an MSN in nurse anesthesia and is eligible to take the national certification examination offered by the NBCRNA Council on Certification of Nurse Anesthetists.

The Nurse Anesthesia Program is accredited by the: Council on Accreditation of Nurse Anesthesia Educational Programs, 222 South Prospect Avenue, Suite 304 Park Ridge, IL 60068 847.692.7050

PMC in Nurse Anesthesia

The College of Nursing and Health Professions also offers a post-master's certificate in nurse anesthesia (p. 70) option. Upon successful completion of the program's outcomes the student is awarded a certificate in nurse anesthesia and is eligible to take the national certification examination offered by the NBCRNA Council on Certification of Nurse Anesthetists.

Additional Information

For more information, contact the Academic Advisor of the Nurse Anesthesia Program:

MSN Programs Academic Advisor
1505 Race St.
215.762.8548

Additional information is also available on Drexel's College of Nursing and Health Professions Nurse Anesthesia Program (<http://www.drexel.edu/gradnursing/msn/nurseAnesthesia>) web page.

Admission Requirements

The nurse anesthesia program begins annually in January. Applications are reviewed continually. Applications should be made 12-18 months in advance of the anticipated January start date. Interviews are conducted throughout the year.

Prospective applicants must demonstrate their ability to pursue graduate work, as exemplified by high scholastic achievement, high aptitude-test scores, and letters of recommendation. Applicants for the nurse anesthesia programs may submit scores from the Miller Analogies Test (MAT) in lieu of the GRE.

For detailed admission requirements, visit the College's MSN in Nurse Anesthesia Admission Requirements (<http://www.drexel.edu/gradnursing/msn/nurseAnesthesia/admissions>) web page.

An application form and additional requirements and deadline information is available on the the Nurse Anesthesia (<http://www.drexel.edu/grad/programs/cnhp/nurse-anesthesia>) page of Drexel Admissions website.

Degree Requirements

MSN Core Courses

| | | |
|----------|---|-----|
| NURS 500 | Confronting Issues in Contemporary Health Care Environments | 3.0 |
| NURS 502 | Advanced Ethical Decision Making in Health Care | 3.0 |
| NURS 526 | Information, Innovation & Technology in Advanced Nursing Practice | 3.0 |
| NURS 527 | Evidence Based Approaches to Practice | 3.0 |
| NURS 549 | Advanced Pharmacology | 3.0 |
| RSCH 519 | Introduction to Biostatistics | 3.0 |
| RSCH 523 | Methods for Health Research | 3.0 |

Nurse Anesthesia Core

| | | |
|----------|---|-----|
| NURS 503 | Basic Principles of Nurse Anesthesia | 3.0 |
| NURS 504 | Overview of Nurse Anesthesia | 3.0 |
| NURS 505 | Chemistry and Physics | 3.0 |
| NURS 507 | Nurse Anesthesia Pharmacology I | 3.0 |
| NURS 510 | Advanced Principles of Nurse Anesthesia I | 3.0 |
| NURS 511 | Nurse Anesthesia Pharmacology II | 3.0 |
| NURS 515 | Advanced Principles of Nurse Anesthesia II | 3.0 |
| NURS 518 | Advanced Principles of Nurse Anesthesia III | 3.0 |
| NURS 530 | Anesthesia Seminar | 1.0 |
| NURS 659 | Advanced Principles of Nurse Anesthesia IV | 3.0 |
| NURS 688 | Clinical Correlative Seminars | 3.0 |
| NURS 508 | Nurse Anesthesia Clinical Practicum I | 1.0 |
| NURS 512 | Nurse Anesthesia Clinical Practicum II | 1.0 |
| NURS 516 | Nurse Anesthesia Clinical Practicum III | 2.0 |
| NURS 517 | Nurse Anesthesia Clinical Practicum IV | 3.0 |
| NURS 683 | Nurse Anesthesia Clinical Practicum V | 3.0 |
| NURS 684 | Nurse Anesthesia Clinical Practicum VI | 3.0 |
| NURS 687 | Clinical Residency I | 6.0 |
| NURS 689 | Clinical Residency II | 6.0 |

Physiological Science Courses

| | | |
|----------|-----------------------------|-----|
| NURS 520 | Advanced Physiology | 3.0 |
| NURS 521 | Advanced Pathophysiology I | 3.0 |
| NURS 522 | Advanced Pathophysiology II | 3.0 |

| | | |
|---------------|------------------------------|------|
| NURS 523 | Advanced Pathophysiology III | 3.0 |
| Total Credits | | 89.0 |

Doctor of Nursing Practice

Doctor of Nursing Practice (DNP): 46.0 quarter credits

About the Program

The Doctor of Nursing Practice (DNP) at Drexel University is designed for nurses seeking a terminal degree in nursing practice and offers an alternative to research-focused doctoral programs. The mission of the DNP program is to prepare individuals to assume leadership roles as executives or practitioners and to apply evidence-based practice to improve individual, family, and community health outcomes.

Nurses graduating in Drexel's DNP program are well-equipped to fully implement the science developed by nurse researchers in PhD, DNSc, and other research-focused nursing doctorates.

Program Objectives

The objectives are focused in two areas: leadership in an executive role and a practitioner role. Graduates of the DNP degree will be prepared to:

1. Evaluate patient care delivery approaches to meet the current and anticipated needs of patient populations based on outcomes and scientific findings.
2. Translate research into clinical practice and policy to improve care and outcomes.
3. Use advanced communication skills - to lead quality improvement and patient safety.
4. Use principles of business, finance, economics, and health policy to develop and implement plans to improve the quality of healthcare delivery.
5. Demonstrate sensitivity to diversity in patients and providers.
6. Evaluate effective strategies for the management of ethical dilemmas that can occur in the course of healthcare delivery.

Admission Requirements

Applicants must have a bachelor of science in nursing or advanced practice masters' degree in nursing. In addition, applicants must have a current, active US license to practice nursing. Applicants would complete a standard graduate application including submission of the following:

- Copy of professional license, advanced certificate(s) and advanced practice license(s)
- University/college transcripts (except for graduates of Drexel)
- Two letters of recommendation from advisors, supervisors, professors or mentors
- CV
- Personal statement on reasons for their interest in the DNP and career plan

Degree Requirements

Curriculum

The sequence of the doctoral program of study is organized to integrate the core courses while at the same time prepare students for immersion in research courses. The clinical and role practica provide students with

opportunity to enhance their leadership skills in clinical practice and executive roles in service delivery.

The program offers two tracks:

- **The Practitioner Track:** for the student who wants to remain in clinical practice post-graduation.
- **The Executive Track:** for graduates who want careers in executive nursing and health care management, but who still prefer a nursing doctorate with a connection to clinical practice.

Required Courses

| | | |
|---------------|--|------|
| NURS 703 | Health Policy and Economics | 3.0 |
| NURS 706 | Applied Epidemiology | 3.0 |
| NURS 713 | Human Responses to Altered Function in Health and Illness | 3.0 |
| NURS 716 | Scientific Foundation of Nursing Knowledge Development | 3.0 |
| NURS 718 | Quantitative Methods in Clinical Nursing | 3.0 |
| NURS 719 | Leadership in Organizations and Systems | 3.0 |
| NURS 720 | Health Information Technology and Information Systems | 3.0 |
| NURS 819 | Qualitative Methods in Clinical Nursing | 3.0 |
| NURS 830 | Doctoral Nursing Practice Clinical Practicum | 3.0 |
| NURS 835 | Doctoral Nursing Practice Role Practicum | 3.0 |
| NURS 836 | Clinical and Applied Nursing Ethics | 3.0 |
| NURS 837 | Translating Evidence into Clinical Practice | 3.0 |
| NURS 840 | Capstone Seminar | 3.0 |
| NURS 841 | Capstone Advisement | 1.0 |
| NURS 891 | Doctoral Nursing Special Topics for the Nurse Executive | 3.0 |
| or NURS 892 | Doctoral Nursing Special Topics for the Nurse Practitioner | |
| RSCH 519 | Introduction to Biostatistics | 3.0 |
| Total Credits | | 46.0 |

Program Delivery

The DNP program is an online program that includes 2 residency requirements. The first residency requirement occurs in the first year summer before the fall session that includes program orientation and didactic instructions on information and technology linked to statistical application course. The first residency program proved effective in establishing relationships among faculty and students. Additionally, the first onsite visit ensures that students have the necessary resources and instruction to guide them through the program.

The second residency requirement occurs during the first year summer session when the student is enrolled in 2 didactic courses on campus. The student may defend his/her capstone proposal online. During the defense, the student will demonstrate effective verbal communication skills and knowledge in the area of interest to the academic committee (3 faculty selected by the student in collaboration with his/her advisor) and finalize plans for implementation of the capstone project. The last on-site visit will be the oral defense of the capstone project that denotes the culmination of the degree program.

Sample Plan of Study

First Year

| Fall | | Credits |
|---------------------|--|------------|
| RSCH 519 | Introduction to Biostatistics | 3.0 |
| NURS 716 | Scientific Foundation of Nursing Knowledge Development | 3.0 |
| Term Credits | | 6.0 |

Winter

| | | |
|---------------------|---|------------|
| NURS 706 | Applied Epidemiology | 3.0 |
| NURS 713 | Human Responses to Altered Function in Health and Illness | 3.0 |
| Term Credits | | 6.0 |

Spring

| | | |
|---------------------|--|------------|
| NURS 719 | Leadership in Organizations and Systems | 3.0 |
| NURS 718 | Quantitative Methods in Clinical Nursing | 3.0 |
| Term Credits | | 6.0 |

Summer

| | | |
|---------------------|---|------------|
| NURS 720 | Health Information Technology and Information Systems | 3.0 |
| NURS 703 | Health Policy and Economics | 3.0 |
| Term Credits | | 6.0 |

Second Year

| Fall | | Credits |
|---------------------|--|------------|
| NURS 819 | Qualitative Methods in Clinical Nursing | 3.0 |
| NURS 830 | Doctoral Nursing Practice Clinical Practicum | 3.0 |
| Term Credits | | 6.0 |

Winter

| | | |
|---------------------|--|------------|
| NURS 835 | Doctoral Nursing Practice Role Practicum | 3.0 |
| NURS 836 | Clinical and Applied Nursing Ethics | 3.0 |
| Term Credits | | 6.0 |

Spring

| | | |
|---------------------|---|------------|
| NURS 837 | Translating Evidence into Clinical Practice | 3.0 |
| NURS 891 or 892 | Doctoral Nursing Special Topics for the Nurse Executive Doctoral Nursing Special Topics for the Nurse Practitioner | 3.0 |
| Term Credits | | 6.0 |

Summer

| | | |
|---------------------|------------------|------------|
| NURS 840 | Capstone Seminar | 3.0 |
| Term Credits | | 3.0 |

Third Year

| Fall | | Credits |
|---------------------|---|------------|
| NURS 841 | Capstone Advisement (Continue as necessary) | 1.0 |
| Term Credits | | 1.0 |

Total Credit: 46.0

Doctor of Physical Therapy

Doctor of Physical Therapy (DPT): 128.0 quarter credits

About the Program

The Doctor of Physical Therapy (DPT) curriculum is directed toward producing broadly educated physical therapists, yet is sensitive to the needs of the health care community and the students' interests. The program strives to foster both intellectual and professional growth in students and is reflective of contemporary practice to prepare graduates for the ongoing changes in health care delivery.

The curriculum is directed toward producing broadly educated physical therapists, yet is sensitive to the needs of the health care community and the students' interests. The program strives to foster both intellectual and professional growth in students and is reflective of contemporary practice to prepare graduates for the ongoing changes in health care delivery.

The Doctor of Physical Therapy (DPT) program prepares students for autonomous practice in physical therapy. As a science, physical therapy examines human motion at the tissue, organ, and systems levels. In the clinical environment, physical therapists (PTs) examine and evaluate patients/clients and implement procedural interventions that restore physical function for all people across the life span. As essential practitioners in the health care delivery system, PTs assume roles in rehabilitation services, prevention and health maintenance programs, and professional and community programs. As professional members of the health care team, PTs supervise support personnel, serve as consultants to other health care personnel; serve as consultants to families and caregivers; participate in administrative services; and conduct clinical research. PTs also serve as advocates for health policy and standards of care that help ensure optimum care for their patients/clients.

Graduates of the Doctor of Physical Therapy program are prepared to fulfill their professional obligations, provide leadership to the profession, and use their knowledge and skills to contribute to the health care of society.

The 31-month curriculum spans ten academic quarters and consists of integrated didactic and clinical study with an emphasis on adult learning methodology. The curriculum consists of foundational courses during the first year, with subsequent quarters sequenced to progress through the hierarchy of educational objectives from simple to complex. All didactic material is organized for synthesis and application to professional practice.

The program strives to foster both intellectual and professional growth in students and is reflective of contemporary practice. An overarching goal is to prepare graduates for practice in the changing health care delivery environment.

For more information visit the Physical Therapy and Rehabilitation Science (<http://www.drexel.edu/physicalTherapy/programs/dpt>) page on the College of Nursing and Health Professions website.

For application instructions, visit the Drexel's Graduate Admission web page for the Doctor of Physical Therapy (http://www.drexel.edu/grad/programs/cnhp/apply/requirements/p_dpt_pt).

Degree Requirements

The DPT curriculum occurs in a 10-week quarter format over ten quarters: fall, winter, spring, and summer I; fall, winter, spring, and summer II; and fall and winter III. Classes begin in late September for first-year students. The curriculum is subject to modification.

First Year

| Fall | | Credits |
|---------------------|--|-------------|
| PTRS 530 | Kinesiology I | 4.0 |
| PTRS 534 | Physical Therapy Exam & Intervention I | 3.0 |
| PTRS 532 | Human Gross Anatomy I | 4.0 |
| PTRS 537 | Clinical Correlations I | 3.0 |
| PTRS 633 | Professional Development | 1.0 |
| PTRS 613 | Clinical Practice I | 0.5 |
| Term Credits | | 15.5 |

Winter

| | | |
|---------------------|---|-------------|
| PTRS 533 | Human Gross Anatomy II | 3.5 |
| PTRS 531 | Kinesiology II | 3.0 |
| PTRS 535 | Physical Therapy Exam & Intervention II | 3.0 |
| PTRS 539 | Topics in Pathophysiology I | 3.5 |
| PTRS 624 | Functional Modality | 2.5 |
| PTRS 614 | Clinical Practice II | 0.5 |
| PTRS 751 | Evidence-Based Practice | 2.0 |
| Term Credits | | 18.0 |

Spring

| | | |
|---------------------|--|-------------|
| NEUR 507 | Neuroscience I | 3.0 |
| PTRS 620 | Orthopedic Physical Therapy: Upper Extremity | 4.0 |
| PTRS 623 | Physical Agents | 4.0 |
| PTRS 540 | Topics in Pathophysiology II | 2.0 |
| PTRS 639 | Motor Learning | 2.5 |
| PTRS 615 | Clinical Practice III | 0.5 |
| Term Credits | | 16.0 |

Summer

| | | |
|---------------------|--|-------------|
| NEUR 508 | Neuroscience II | 2.0 |
| PTRS 621 | Orthopedic Physical Therapy: Lower Extremity | 4.0 |
| PTRS 627 | Cardiopulmonary Physical Therapy I | 4.0 |
| PTRS 641 | Neurological Exam and Intervention I | 4.0 |
| PTRS 646 | Orthosis Management | 1.5 |
| PTRS 616 | Clinical Practice IV | 0.5 |
| Term Credits | | 16.0 |

Second Year

| Fall | | |
|---------------------|--|-------------|
| PTRS 652 | Life Span Development I | 3.0 |
| PTRS 634 | Health Professional Roles | 3.0 |
| PTRS 644 | Wound Care Management | 1.5 |
| PTRS 645 | Prosthesis Management | 1.5 |
| PTRS 752 | Research and Measurement in Physical Therapy | 2.0 |
| PTRS 774 | Clinical Education Seminar | 0.5 |
| PTRS 775 | Clinical Education I | 1.0 |
| Term Credits | | 12.5 |

Winter

| | | |
|----------|-------------------------------------|-----|
| PTRS 622 | Orthopedic Physical Therapy: Spine | 4.0 |
| PTRS 628 | Cardiopulmonary Physical Therapy II | 4.0 |

| | | |
|---------------------|--|-------------|
| PTRS 637 | Professional Project I | 1.0 |
| PTRS 642 | Neurological Exam and Intervention II | 5.0 |
| PTRS 656 | Motor Control and Rehabilitation | 2.0 |
| Term Credits | | 16.0 |
| Spring | | |
| PTRS 776 | Clinical Education II | 2.0 |
| PTRS 610* | Issues in Pharmacotherapy | 3.0 |
| Term Credits | | 5.0 |
| Summer | | |
| PTRS 538 | Clinical Correlations II | 3.0 |
| PTRS 632 | Pediatric Physical Therapy | 5.5 |
| PTRS 643 | Applied Biomechanics | 3.0 |
| PTRS 653 | Life Span Development II | 2.0 |
| PTRS 654 | Topics in Health Policy & Services | 2.0 |
| PTRS 753 | Evaluation of Research in Physical Therapy | 4.0 |
| Term Credits | | 19.5 |
| Third Year | | |
| Fall | | |
| PTRS 777 | Clinical Education III | 2.0 |
| PTRS 655* | Health Administration | 2.5 |
| Term Credits | | 4.5 |
| Winter | | |
| PTRS 778 | Clinical Internship | 3.0 |
| PTRS 647 | Professional Project II | 2.0 |
| Term Credits | | 5.0 |

Total Credit: 128.0

* Conducted online.

Clinical Education

A strong history of comprehensive clinical education exists for our professional students. The clinical education for the DPT program is integrated into the didactic portions of the curriculum so that knowledge obtained in the classroom is readily put into practice. The DPT program has contracts with hundreds of clinical sites across the nation, representing all facets of professional practice. Students are required to complete four clinical education experiences that offer various levels of acuity in different clinical environments. The first clinical education experience is 6 weeks in length, clinical education II and III are 10 weeks long, and the fourth experience, the clinical internship, is 12 weeks.

Students may select from clinical sites that offer experiences in pediatrics, adult rehabilitation, geriatrics, orthopedics, sports medicine, and industrial and occupational rehabilitation.

For more information visit the Physical Therapy and Rehabilitation Sciences Overview (<http://www.drexel.edu/physicalTherapy>) page on the College of Nursing and Health Professions web site.

Facilities

Teaching Facilities

Most classes are held in lecture halls, classrooms, or laboratories on the Center City (Health Sciences) Campus of Drexel University. The entire campus has wireless capability for easy internet access. The Department of Physical Therapy and Rehabilitation Sciences has two state-of-the-art dedicated laboratories where the clinical components of the professional curriculum are taught. In these laboratories equipment reflects current physical therapy practice and is part of a multi-disciplinary clinical learning and resource center. Included as part of the resource center is a standardized patient lab that utilizes paid actors to simulate various clinical situations while students' interactions with those "patients" are monitored by supervising faculty. This center provides a rich environment for student learning.

Our teaching resources also include supported distance learning technology. Instructional materials are provided through text, graphics, audio and video formats and are available online through a course management system 24 hours a day. Our online courses are highly interactive through the use of web discussion boards and audio chat tools.

Additionally, the Professional DPT program uses various clinical sites in the area to enhance the educational experience of the student.

Some teaching sessions, including the the content taught in the Clinical Practice series, are conducted at places like Bryn Mawr Rehabilitation Hospital, Hahnemann University Hospital, Magee Rehabilitation Hospital, Philadelphia Nursing Home, United Cerebral Palsy of Philadelphia, 11th Street Family Health Services, and in the Department of Athletics at Drexel University. These experiences are in addition to the 38 weeks of clinical education the student will experience throughout the curriculum.

Research Facilities

The department supports and maintains over 2,000 square feet of research laboratories. The gait and motion analysis lab contains a video-based motion analysis system with integrated EMG and in-floor force plates. The neuromuscular performance lab is equipped with custom-built force measuring systems, 16-channel EMG system and electromagnetic tracking systems. The osteoporosis lab is equipped with an integrated human performance measurement system. The pediatric research lab houses a conference room and data-entry computers.

The Department of Physical Therapy and Rehabilitation also values community partners as a central part of the research resources. Many faculty and students are involved in community-based research through collaborations with CanChild Centre, Shriners Hospital, 11th Street Family Health Center, and early intervention providers. Faculty are collaborating on research projects with nationally and internationally known researchers on several multi-site funded projects.

Professional DPT students have the opportunity to work with faculty and PhD students on ongoing laboratory projects through optional research practica or as part of the final project, a capstone experience for the curriculum.

Rehabilitation Sciences

Students with post-baccalaureate degrees (for example, MS, DPT) = 48.0 quarter credits

Students with baccalaureate degrees = 93.0 quarter credits

About the Program

The Doctor of Philosophy (PhD) in Rehabilitation Sciences program is designed to prepare physical therapists and other professionals to take leadership roles as researchers and educators in rehabilitation sciences, and to conduct research that will ultimately impact the quality of life for individuals with limitations in motor function. Concentrations are offered in three areas:

Program Objectives

The PhD program prepares individuals for leadership, teaching and research roles in the profession. On completing the Doctor of Philosophy degree, graduates will be prepared to:

- Analyze the impact of movement dysfunction from multiple perspectives, including body function, activity, and participation.
- Analyze theory, research, and health care policy relevant to health promotion and rehabilitation to translate knowledge into clinical practice.
- Develop and evaluate innovative mechanisms, methods, interventions, and models of service delivery for health promotion and rehabilitation.
- Effectively communicate information orally through professional presentations and in writing through grant proposals and publications in peer-reviewed journals.
- Develop an ongoing area of research that is competitive for grant funding.
- Apply innovative teaching methods to a wide variety of situations, including the education of physical therapists and physical therapy students.

Concentrations

Pediatrics

The focus of the pediatric concentration is on understanding the multiple factors that affect motor function, health, and participation of children with disabilities or chronic conditions. This includes implications of health care policy and federal laws on service delivery, models of service delivery, outcomes measurement, and evaluation of interventions for children and their families.

Orthopedics

The focus of the orthopedic concentration is on understanding the anatomy, physiology, and biomechanics of the musculoskeletal system as it relates to human performance and clinical practice. This includes impairments of muscle, connective tissue, and bone; relationships between the musculoskeletal and neuromuscular systems in the control of movement; and movement dysfunction.

Degree Requirements

The core curriculum includes coursework in research and teaching. Concentration courses in clinical and basic science are selected based on the student's area of interest, objective for doctoral study, and dissertation research. Students work individually with a faculty mentor to complete the required research and teaching practica.

Requirements vary according to the student's previous degree. Students with master's degrees must successfully complete 48.0 credits; students with baccalaureate degrees must complete 93.0 credits. A comprehensive examination and a dissertation research project are required. The PhD

degree can be completed in 3.5 to 4 years of full-time study for students who enter with a master's or DPT degree.

Additional Information

For more information, visit the Department of Physical Therapy and Rehabilitation Sciences web page.

Core Courses

| | | |
|----------|--|----------|
| NHP 762 | Health Professional Education | 3.0 |
| RHAB 760 | Academia for Rehabilitation Scientists | 1.0 |
| RHAB 761 | Foundations of Rehabilitation Research | 3.0 |
| RHAB 812 | Interpretation of Data | 3.0 |
| RHAB 813 | Measurement Theory in Rehabilitation | 3.0 |
| RHAB 814 | Research Designs in Rehabilitation | 3.0 |
| RHAB 815 | Scientific Inquiry and Writing | 3.0 |
| RHAB 830 | Dissertation Research | 1.0-12.0 |
| RSCH 519 | Introduction to Biostatistics | 3.0 |
| RSCH 811 | Intermediate Biostatistics | 3.0 |

Concentration/Elective Course Options 8.0-12.0

A minimum of 8 to 12 additional credits of courses are selected based on the student's concentration area and objectives for graduate study. Students may take courses from any concentration with the approval of their advisor and permission of the course instructor.

| | | |
|----------|--|--|
| RHAB 763 | Biomechanics in Rehabilitation | |
| RHAB 764 | Biomechanics in Human Movement | |
| RHAB 765 | Introduction to Movement Science | |
| RHAB 817 | Sensors & Transducers in Rehabilitation | |
| PTRS 650 | Motor Control and Learning Rehabilitation | |
| PTRS 651 | Applied Tissue Biomechanics | |
| PTRS 740 | Issues in Pediatric Health & Rehabilitation | |
| PTRS 758 | Evidence-Based Rehabilitation | |
| PTRS 760 | Pediatric Decision Making | |
| PTRS 761 | Pediatric Clinical Application | |
| PTRS 772 | Selected Topics in Pediatrics | |
| PTRS 764 | Geriatric Rehabilitation | |
| PTRS 766 | Extremity Rehabilitation | |
| PTRS 765 | Spinal Rehabilitation | |
| PTRS 767 | Foundations in Hand Therapy | |
| PTRS 768 | Upper Quarter Joint Pathology | |
| PTRS 769 | Nerve Injuries of the Upper Quarter | |
| PTRS 770 | Diseases That Affect the Hand | |
| PTRS 771 | Work Injury Management | |
| PTRS 780 | Foundations of School-based Practice | |
| PTRS 781 | Advanced Competencies in School-based Practice | |

Additional courses (as approved) *

| | | |
|---------------------------------------|------------------------|-------------|
| Practica and Independent Study | | |
| RHAB 820 | Independent Study | 1.0-4.0 |
| RHAB 823 | Research Practicum | 1.0-6.0 |
| RHAB 824 | Teaching Practicum I | 1.0 |
| RHAB 825 | Teaching Practicum II | 2.0 |
| RHAB 826 | Teaching Practicum III | 3.0 |
| Total Credits | | 48.0 |

- * Students also may take courses from other departments and schools in the University with approval of their advisor and permission of the course instructor.

Master of Health Sciences (MHS): 45.0 quarter credits

Master of Health Sciences

Individuals cannot enroll directly in the Master of Health Sciences in Rehabilitation Sciences program. Requirements for the degree completion include successful completion of 45.0 credit hours concluding with a case study or a clinical project.

Upon completion of the MHS program, graduates will be prepared to:

- Analyze the impact of injury or disease process on musculoskeletal or neuromuscular function within a specific population, including orthopedics, pediatrics, and hand rehabilitation.
- Improve their practice through clinical decision-making that is consistent with concepts of health promotion, client-centered care and current best evidence.
- Facilitate the transfer of health care policy and research findings into clinical practice.
- Evaluate methods of service delivery and intervention strategies and procedures at individual and program levels.
- Serve effectively as clinical educators and consultants to consumers and colleagues.
- Engage in professional life-long learning and contribute to the field of rehabilitation.

Additional Information

For more information, visit the Department of Physical Therapy and Rehabilitation Sciences (http://www.drexel.edu/cnhp/rehab_sciences/default.asp) web page.

Master of Health Sciences (MHS): 45.0 quarter credits

| Core Requirements | | 16.0-18.0 |
|--------------------------|---|-----------|
| RSCH 519 | Introduction to Biostatistics | 3.0 |
| RSCH 523 | Methods for Health Research | 3.0 |
| PTRS 721 | Teaching Concepts in Rehabilitation | 3.0 |
| PTRS 651 | Applied Tissue Biomechanics | 3.0 |
| PTRS 758 | Evidence-Based Rehabilitation | 4.0 |
| PTRS 650 | Motor Control and Learning Rehabilitation | 3.0 |

Concentration

Students select a minimum of 16-18 credits in one of the following concentrations.

Hand and Upper Quarter Rehabilitation Concentration Options

| | |
|----------|-------------------------------------|
| PTRS 767 | Foundations in Hand Therapy |
| PTRS 768 | Upper Quarter Joint Pathology |
| PTRS 769 | Nerve Injuries of the Upper Quarter |
| PTRS 770 | Diseases That Affect the Hand |
| PTRS 771 | Work Injury Management |

Pediatrics Concentration Options *

| | |
|----------|---|
| PTRS 740 | Issues in Pediatric Health & Rehabilitation |
| PTRS 760 | Pediatric Decision Making |
| PTRS 761 | Pediatric Clinical Application |

| | |
|----------|-------------------------------|
| PTRS 772 | Selected Topics in Pediatrics |
|----------|-------------------------------|

Orthopedics Concentration Options *

| | |
|----------|-------------------------------------|
| PTRS 765 | Spinal Rehabilitation |
| PTRS 766 | Extremity Rehabilitation |
| RHAB 763 | Biomechanics in Rehabilitation |
| RHAB 764 | Biomechanics in Human Movement |
| RHAB 765 | Introduction to Movement Science |
| PTRS 590 | Clinical Anatomy |
| PTRS 767 | Foundations in Hand Therapy |
| PTRS 768 | Upper Quarter Joint Pathology |
| PTRS 769 | Nerve Injuries of the Upper Quarter |
| PTRS 770 | Diseases That Affect the Hand |
| PTRS 771 | Work Injury Management |

Electives *

| | | |
|---------------------------------------|------------------------|---------|
| Select at least two of the following: | | 3.0-5.0 |
| PTRS 612 | Pharmacotherapeutics | |
| RHAB 824 | Teaching Practicum I | |
| RHAB 825 | Teaching Practicum II | |
| RHAB 826 | Teaching Practicum III | |
| RHAB 816 | Special Topics | |
| RHAB 820 | Independent Study | |

Final Project

| | | |
|---------------|----------------------|---------|
| PTRS 786 | MHS Final Project I | 1.0-2.0 |
| PTRS 787 | MHS Final Project II | 1.0-2.0 |
| Total Credits | | 45.0 |

- * Additional courses (as approved). Contact the Rehabilitation Sciences Master of Health Science Program (<http://www.drexel.edu/physicalTherapy>) for more details.

For more information, visit the Department of Physical Therapy and Rehabilitation Sciences (http://www.drexel.edu/cnhp/rehab_sciences/default.asp) web page.

Facilities

Teaching Facilities and Resources

Most classes are held in lecture halls, classrooms, or laboratories on the Center City (Health Sciences) Campus of Drexel University. The entire campus has wireless capability for easy internet access. The Department of Physical Therapy and Rehabilitation Sciences has two state-of-the-art dedicated laboratories. Our teaching resources also include supported distance learning technology. Instructional materials are provided through text, graphics, audio and video formats and are available online through a course management system 24 hours a day. Our online courses are highly interactive through the use of web discussion boards, audio chat tools, and video conferencing.

Research Facilities

The department's research facilities include over 9,000 square feet of well-equipped research laboratory space (Biomechanics, Gait, Pediatrics, and Neuromuscular Performance Labs), with equipment including force plates, EMG, motion analysis and human performance measurement equipment. This space includes conference rooms, PhD and post doc

offices and is located next door to the Colleges 14,000 square feet, multi-disciplinary clinical practice.

The Department of Physical Therapy and Rehabilitation also values community partners as a central part of the research resources. Many faculty and students are involved in community-based research through collaborations with CanChild Centre, 11th Street Family Health Center, and numerous pediatric hospitals, out-patient facilities, and early intervention providers. Faculty are collaborating on research projects with nationally and internationally known researchers on several multi-site funded projects.

MSN: Adult-Gerontology Acute Care Nurse Practitioner Concentration

About the Program

The online Adult-Gerontology Acute Care Nurse Practitioner (AG-ACNP) program is designed to prepare practitioners for professional practice in the management of medical, surgical, and critical-care adult patient populations. Concurrent theory and clinical courses provide a knowledge base for the management of adult complex acute, critical, and chronic health care conditions. Clinical practicum rotations allow students to put the principles they have learned into practice in medical, surgical, and critical care settings. Upon completing the program, graduates pursue practice roles across the continuum of acute care services ranging from high-acuity hospital based emergency or intensive care settings to specialty based practices. Graduates are eligible to sit for the ANCC's Adult Gerontology Acute Care Nurse Practitioner Certification Examination.

The nurse practitioner faculty is committed to quality and excellence in the nurse practitioner (NP) programs. Mandatory on-campus visits are essential to students transitioning into the NP role. The NP programs provide two on-campus clinical orientations to prepare students for clinical practice rotation. Following clinical orientation, these mandatory on-campus visits occur during the following times:

- *2nd Year, Spring Term* – students come in during the N550: Advanced Clinical Assessment and Diagnostic Reasoning course for midterm and final check-out.
- *2nd Year, Summer Term* – students come in during the first clinical course for the Residency Week.
- *3rd Year, Fall Term* – students come in during the second clinical course for 2-3 days for a standardized patient lab experience (SPL) and/or human patient simulation experience, depending on the program.
- *3rd Year, Winter Term* – students come in during the third clinical course for 2-3 days for a second standardized patient lab experience (SPL) and/or human patient simulation experience, depending on the program.
- *3rd Year, Spring Term* – students come in during the fourth clinical course for the second Residency Week.

For more information about this program, visit Drexel's MSN Nurse Practitioner Programs (<http://www.drexel.edu/gradnursing/msn/nursePractitioner>) web page

Master of Science in Nursing (MSN): 57.0 quarter credits; 800 clinical hours

MSN: Clinical Nurse Leader Concentration

About the Program

Master of Science in Nursing (MSN): 49.0 quarter credits

The MSN Clinical Nurse Leader track is designed to prepare nurses for an evolving advanced generalist role which incorporates advanced knowledge and skill, clinical expertise in an evidence-and-quality-driven context, accountability for outcomes of care, integration of health care services, and clinical leadership for the care of clients, who may be individuals or clinical populations such as those found on a clinical unit or in other settings. The program emphasizes the development of competencies related to the use of technology, evidence-based practice, customization of care, health team and interdisciplinary leadership, and outcome and risk assessment.

This online masters program prepares nurses for advanced clinical roles in a quickly-changing, increasingly complex clinical care environment. Students have the opportunity to develop advanced competencies and depth of knowledge as clinical nurse leaders in adult health. The program emphasizes evidence-based approaches to the solution of clinical problems, assessment of nursing and health care outcomes, clinical decision-making and the design of nursing care for clinical populations at the clinical unit or similar small system level, lateral care integration, and clinically-based leadership.

Clinical practicum experiences provide opportunities for students to deepen clinical skills and develop additional competencies for the management of clients' health care needs at the point-of-care. Precepted clinical experiences will include activities such as modeling of care,

assessment and evaluation of aggregate patient outcomes, case management and service integration, unit and interdisciplinary team leadership, teaching and mentoring of staff.

In this as well as other MSN tracks, students build upon the MSN core courses and then move into support courses and specialized coursework. The curriculum also permits students to enroll part-time by spreading the required clinical hours over three terms.

The program is accredited by the Commission on Collegiate Nursing Education.

MSN: Clinical Trials Research Concentration

Master of Science in Nursing (MSN): 45.0 quarter credits

About the Program

The Online Clinical Trials Research Program is designed for nurses who wish to be involved in clinical trials and research in a variety of roles and settings. Graduates of this program will be qualified to assume roles such as research coordinator, clinical scientist, developer and clinical trials manager or coordinator.

The program provides knowledge and skills in several critical areas:

- applying Federal Drug Administration rules and regulations
- phases of clinical research investigation
- new drug-approval processes
- drug protocol development
- budgeting for clinical trials
- informed consent
- patient and family issues
- business management and marketing for clinical trials.

Many potential employers exist outside the hospital environment — in the community or private practices and with the pharmaceutical and other scientific companies that produce, test, and market new products. The clinical trials field is a hot field for nursing employment—especially seasoned nurses who have expertise in one or more clinical areas.

Additional Information

For more information about this program, contact:

Mr. Redian Furxhiu
rf53@drexel.edu
215.762.3999

Additional information is also available on Drexel's College of Nursing and Health Professions MSN in Clinical Trials (<http://www.drexel.edu/gradnursing/msn/advancedRoleMSN/clinicalTrialsResearch>) web page.

Degree Requirements

The Online Clinical Trials Research program is designed for nurses who wish to be involved in clinical trials and research in a variety of roles and settings. As a graduate of this program, you will be qualified to assume roles such as research coordinator, clinical scientist, developer, and clinical trials manager or coordinator. Many potential employers exist outside the hospital environment — in the community or private practices and with the pharmaceutical and other scientific companies that produce, test, and market new products.

The program provides knowledge and skills in several critical areas:

- Applying Federal Drug Administration rules and regulations.
- Phases of clinical research investigation.
- New drug-approval processes.
- Drug protocol development.
- Budgeting for clinical trials.
- Informed consent.
- Patient and family issues.
- Business management and marketing for clinical trials.

The curriculum is based on the following principles:

- All areas of specialization have in common a core of advanced nursing knowledge.
- Every graduate must have knowledge and skill in research and the ability to evaluate and apply research findings.
- The nursing profession anticipates and responds to changing societal, health care and professional needs.
- The foundation for specialization in professional nursing practice is graduate-level education that builds on undergraduate education.

MSN: Family Nurse Practitioner Concentration

Master of Science in Nursing (MSN): 56.0 quarter credits; 720 clinical hours

About the Program

The Family Nurse Practitioner (FNP) program focuses on the application of advanced-practice nursing knowledge—including physical, psychosocial, and environmental assessment skills—to manage common health and illness problems of clients of all ages. It emphasizes health promotion and disease prevention. Family nurse practitioners primarily practice in ambulatory-care settings, such as primary care clinics, physician offices, HMOs, outpatient clinics, schools, nursing centers, emergency departments, long-term care facilities, industry, the armed services, public health departments, correctional institutions, and home health agencies.

Students in this Track take online core and support courses with the exception of NURS 550: Advanced Clinical Assessment and Diagnostic Reasoning and NURS 556: Pharmacology for Family Nurse Practitioners. Subsequent clinical courses are taken on-campus. **Students admitted in Fall 2013 have been admitted to a fully online cohort. The core courses, the support courses, and the clinical courses will be completed in an online format.** Graduates of the program are eligible to sit for the ANCC's Family Nurse Practitioner Examination and/or the AANP's Family Nurse Practitioner Examination.

The nurse practitioner faculty is committed to quality and excellence in the nurse practitioner (NP) programs. Mandatory on-campus visits are essential to students transitioning into the NP role. The NP programs provide two on-campus clinical orientations to prepare students for clinical practice rotation. Following clinical orientation, these mandatory on-campus visits occur during the following times:

- *2nd Year, Spring Term* – students come in during the N550: Advanced Clinical Assessment and Diagnostic Reasoning course for midterm and final check-out.
- *2nd Year, Summer Term* – students come in during the first clinical course for the Residency Week.
- *3rd Year, Fall Term* – students come in during the second clinical course for 2-3 days for a standardized patient lab experience (SPL) and/or human patient simulation experience, depending on the program.
- *3rd Year, Winter Term* – students come in during the third clinical course for 2-3 days for a second standardized patient lab experience (SPL) and/or human patient simulation experience, depending on the program.
- *3rd Year, Spring Term* – students come in during the fourth clinical course for the second Residency Week.
- *3rd Year, Summer Term* – students come in for a one-day simulation experience.

For more information about this program, visit Drexel's MSN Nurse Practitioner Programs (<http://www.drexel.edu/gradnursing/msn/nursePractitioner>) web page.

MSN: Nursing Education & Faculty Role Concentration

Master of Science in Nursing (MSN): 46.0 quarter credits

About the Program

The MSN: Nursing Education & Faculty Role program prepares students to work as nursing educators, nursing faculty, or nursing professors in all types of programs, at all levels, in a variety of settings. This program has a special focus on preparing students with the required competencies to be successful on the new certified nursing educator exam. With such a severe and critical nursing faculty shortage in the United States (and even globally)—this program provides students with cutting-edge content essential for today's contemporary nurse educator.

The program integrates theories specific to adult learning, curriculum design and evaluation of courses and programs, critical thinking, both clinical and classroom techniques, and the preparation for the role of the nursing professor. The program also includes opportunities to explore contemporary and leading-edge educational modalities. Knowledge and skills gained through this program are applicable in a variety of settings.

This unique program even instructs students on how to teach online and use technology to teach nursing in innovative ways. The two culminating practica provide students with opportunities to put what has been learned into practice. Participants complete two role practicum experiences in teaching, providing ample opportunity to apply theory to practice. In addition, students are required to attend an immersive on-campus simulation residency when taking Practicum I and II. The residency hours will count as part of the required 160 total practicum hours (24 practicum hours earned). The residency is offered biannually in January or July.

MSN in Innovation and Intra/Entrepreneurship in Advanced Nursing Practice Concentration

Master of Science in Nursing (MSN): 46.0 quarter credits

About the Program

The MSN in Innovation and Intra/Entrepreneurship in Advanced Nursing Practice is designed for the graduate nursing student who seeks to reinvent and innovate nursing practice in a variety of roles: as clinician, educator, administrator, clinical scientist, or in the business of healthcare.

The program offers an entrepreneurial focus and curriculum flexibility to support completion of a substantive capstone project that demonstrates

innovation and the extension of the creative boundaries in nursing education, nursing administration, nursing practice or entrepreneurial business.

MSN in Nursing Leadership in Health Systems Management Concentration

Master of Science: 46.0 quarter credits

About the Program

The Nursing Leadership in Health Systems Management program, designed for part-time attendance by working nurses, prepares students to become nursing leaders in today's rapidly changing health care environment. The program focuses on development of a leadership style

and skills set essential for individuals in or seeking administrative roles, including: fiscal and organizational management, strategic planning, integrated quality outcomes measurement, organizational structures, marketing, and management of human resources within organizations.

The program provides the student with information and strategies to problem solve, make decisions, resolve conflict, address legal/ethical issues and operationalize the mission and goals of the health care delivery organization.

This program prepares nurses for supervisory and management responsibilities, building the necessary skills for leadership career tracks. Coursework for the MSN program, as well as for the certificate in Nursing Leadership and Management, can be completed online. The MSN also requires two terms of practicum.

The program is fully accredited by the Commission on Collegiate Nursing Education (CCNE).

Additional Information

For more information about this program, contact:

Ms. Amy Pelak
ajp347@drexel.ed
215.762.7168

Additional information is also available on the College's Nursing Leadership in Health Systems Management (<http://www.drexel.edu/gradnursing/msn/advancedRoleMSN/healthSystemsMgmt>) web page.

Degree Requirements

The content addresses the four key areas of organizations: leading the human side of the enterprise, managing resources, managing operations, and managing information. Two threads are incorporated throughout all courses: the importance of professional image in written and live presentations and the use of technology to support and enhance management and care delivery outcomes.

| Elective (chosen with the advisement of the track coordinator) | | 6.0 |
| Total Credits | | 46.0 |

* Must be taken with either NURS 568 or NURS 569, whichever course is taken second.

MSN "Bridge" Program

Bridge to the Master of Science in Nursing (MSN): 4.0 - 13.0 quarter credits (no degree awarded at this time)

MSN for Nurses with a Non-Nursing BA or BS

About the Program

An RN/MSN "bridge" program is available for nurses who hold a non-nursing BA or a BS. Applicants to this program must complete the admission process to the MSN program and seek initial advisement from the MSN program academic advisors. The graduate program admissions committee and department chair reviews the applicant's file for program eligibility and prerequisites are established on an individual basis.

For applicants to the nurse practitioner program, the "bridge" consists of three undergraduate courses. Classes are available entirely online and are delivered in 10-week, quarter term sessions. Several bridge courses are offered in any given term and include mandatory online synchronous class meetings.

Students who completed a community/public health nursing course with a clinical component (6.0 quarter credits) in their initial nursing program may, with prior approval, be permitted to take: Global Health and Policy Issues (6.0 quarter credits).

For applicants to the MSN Advance Roles Track, the "bridge" consists of one undergraduate course or submission of a portfolio to request approval to waive the bridge course. Contact Mr. Redian Furxhiu for more information. The required "bridge course" in the MSN Advance Role Track is Issues in *NURS 370 Aging and Longevity* (4.0 quarter credits). This class is available entirely online, is delivered in 10-week, quarter term session and includes a required field experience. This course is offered in any given term, and includes mandatory synchronous class meetings.

If a student wishes to change their degree of study from MSN Advance Role Track to nurse practitioner tracks, it is important to note that the student will need to complete a minimum of three undergraduate courses in order to meet the bridge requirements of this degree.

After successfully completing all requirements and admission to the MSN program, students progress directly into graduate-level courses. (Note: The BSN is not awarded in this program.)

Bridge to MSN NP Requirements

MSN: Pediatric Primary Care Practitioner Concentration

Master of Science in Nursing (MSN): 52.0 quarter credits; 640 clinical hours

About the Program

The online Pediatric Primary Care Nurse Practitioner (PNP) program is directed toward preparing nurse practitioners who will take advanced nursing roles as clinicians, educators, researchers, and leaders in the rapidly changing, evidence-driven health care environment. The program emphasizes evidence-based practice, interdisciplinary collaboration, and critical use of evolving technology in the care of children and their families. While most pediatric nurse practitioners practice in primary care settings, the continuum of child healthcare spans the geographic settings of home care, ambulatory care, specialty care, urgent care, and rehabilitative care.

Pediatric primary care nurse practitioners provide advanced nursing care across the continuum of healthcare services to meet the specialized physiologic and psychological needs of patients from infancy through adolescence, and have competencies to manage well-child care as well as complex, acute, and chronic healthcare conditions within a family-centered healthcare model. Graduates are eligible to sit for the ANCC's

Pediatric Primary Care Nurse Practitioner Examination and/or the PNCB's Pediatric Primary Care Nurse Practitioner Examination.

The nurse practitioner faculty is committed to quality and excellence in the nurse practitioner (NP) programs. Mandatory on-campus visits are essential to students transitioning into the NP role. The NP programs provide two on-campus clinical orientations to prepare students for clinical practice rotation. Following clinical orientation, these mandatory on-campus visits occur during the following times:

- *2nd Year, Spring Term* – students come in during the N550: Advanced Health Assessment and Diagnostic Reasoning course for midterm and final check-out.
- *2nd Year, Summer Term* – students come in during the first clinical course for the Residency Week.
- *3rd Year, Fall Term* – students come in during the second clinical course for 2-3 days for a standardized patient lab experience (SPL) and/or human patient simulation experience, depending on the program.
- *3rd Year, Winter Term* – students come in during the third clinical course for 2-3 days for a second standardized patient lab experience (SPL) and/or human patient simulation experience, depending on the program.
- *3rd Year, Spring Term* – students come in during the fourth clinical course for the second Residency Week.

For more information about this program, visit Drexel's MSN Nurse Practitioner Programs (<http://www.drexel.edu/gradnursing/msn/nursePractitioner>) web page.

MSN: Psychiatric Mental Health Practitioner Concentration

Master of Science in Nursing (MSN): 52.0 quarter credits; 640 clinical hours

About the Program

The online Psychiatric Mental Health Nurse Practitioner (PMHNP) program prepares practitioners to provide a wide range of services to patients across the lifespan and their families. The program of study is based on a biopsychosocial model of care. It includes the study and application of diagnostic and treatment modalities, and theories and approaches to practice. Graduates practice in a wide variety of settings as this program enables them to provide direct (assessment, intervention) and indirect (consultation, case management, and supervision) advanced practice services to individuals who are at risk and those who need mental health services. They are eligible to sit for the ANCC's Psychiatric Mental Health Certification Examination.

The nurse practitioner faculty is committed to quality and excellence in the nurse practitioner (NP) programs. Mandatory on-campus visits each quarter are essential to students transitioning into the NP role. The NP programs provide two on-campus clinical orientations to prepare students for clinical practice rotation. Following clinical orientation, these mandatory on-campus visits occur during the following times:

- *2nd Year, Spring Term* – students come in during the N550: Advanced Health Assessment and Diagnostic Reasoning course for midterm and final check-out.
- *2nd Year, Summer Term* – students come in during the first clinical course for the Residency Week.

MSN: Women's Health/Gender Related Nurse Practitioner Concentration

Master of Science in Nursing (MSN): 55.0 quarter credits; 640 clinical hours minimum

About the Program

The online women's health/gender related nurse practitioner track offers didactic and clinical education is via distance learning and concurrent clinical preceptorships. The courses offered throughout the track reflect the competencies and skill sets required for today's women's health nurse practitioner as knowledge expands, health care systems evolve, technology advances and practice changes in response to current needs and evidence-based research. Additionally, this track offers the opportunity for students to work in transdisciplinary simulated scenarios to promote a better understanding and respect of discipline-specific roles, improve existing communication and collaboration within disciplines, and initiate teamwork development in order to promote patient safety and high-quality patient care. Graduates are eligible to sit for the NCC's Women's Health/Gender Related Nurse Practitioner Examination.

The nurse practitioner faculty is committed to quality and excellence in the nurse practitioner (NP) programs. Mandatory on-campus visits are essential to students transitioning into the NP role. The NP programs provide two on-campus clinical orientations to prepare students for clinical

practice rotation. Following clinical orientation, these mandatory on-campus visits occur during the following times:

- *2nd Year, Spring Term* – students come in during the N550: Advanced Health Assessment and Diagnostic Reasoning course for midterm and final check-out.

Master of Health Science with Physician Assistant (PA) Certificate

Master of Health Sciences (MHS): 117.0 quarter credits

About the Program

The Drexel University Physician Assistant Program provides graduates with a Master of Health Science degree with Physician Assistant Certificate, and eligibility to sit for the PANCE (Physician Assistant National Certifying Examination).

The physician assistant (PA) is a primary health care provider who, when graduated from an accredited program and national certified and state-licensed, is eligible to practice medicine with the legal supervision of a physician.

PAs perform many duties including, but not limited to, physical examinations, diagnosis and treatment of illnesses, ordering and interpretation of lab tests, assist in surgery, perform procedures, perform hospital rounds, prescribe medicines and provide patient education.

The mission of this program is to:

- Educate qualified primary care physician assistants
- Improve health care delivery in rural and urban medically underserved areas
- Promote the physician assistant profession

Additional Information

For more information about this program, contact:
paadmissions@drexel.edu

For more details about the program, visit the College of Nursing and Health Professions Physician Assistant (<http://www.drexel.edu/physAsst>) page.

Degree Requirements

The intensive curriculum consists of professionally related coursework taken during a continuous period (the part-time option requires an additional calendar year) and gives students an understanding of both the health care system within which they will work and the functions appropriate to the role of the physician assistant. The curriculum is divided into a full year of didactic courses followed by an additional 15 months of supervised clinical practice.

Training begins with four quarters of didactic education which integrates patient interaction throughout. The clinical training phase consists of six (6) five-credit, five week clinical rotations in medicine, surgery, women's health, pediatrics, emergency medicine, and psychiatry. The clinical phase of the curriculum is completed on a full-time basis for both full and part-time students.

The final portion of the curriculum consists of two, 10-credit quarter-long, primary care practica (preceptorships). During the preceptorship phase, each student is assigned to two primary care sites for individualized clinical training with physician preceptors. Training sites during the clinical year are located throughout Pennsylvania and in other states. Students

are expected to relocate during the clinical phase and are responsible for all associated financial costs, including transportation and living expenses.

The program is intensely challenging, both intellectually and physically, and requires stamina as well as personal and financial sacrifice on the part of the students. The program demands a high degree of integrity, self-sufficiency, motivation, and self-discipline, and highly developed study skills.

The Physician Assistant program utilizes electronic documentation and communications. Therefore, all students are required to have laptop computers with Web access capability.

Contact the Physician Assistant Program (<http://www.drexel.edu/physAsst>) for more information on the sequencing for the part-time option.

| PA 633 | Surgery Rotation | 5.0 |
| PA 634 | Emergency Medicine Rotation | 5.0 |

Admission Requirements

The Drexel University Hahnemann Physician Assistant Program utilizes the Central Application Service for Physician Assistants (CASPA). All applicants must complete the CASPA application process no later than October 1st of the year prior to expected date of matriculation. Applications must be e-submitted, complete (including the receipt by CASPA of all transcripts, reference forms, and other supporting documentation such as foreign transcript evaluations and TOEFL score) and verified by CASPA by the October 1st deadline. Applicants may not apply directly to the Drexel University Hahnemann Physician Assistant Program. Applications made directly to the Office of Enrollment Management (Admissions) of Drexel University will not be processed.

- For the 2013-2014 admissions cycle, applications must be verified by CASPA no later than October 1st, 2013.
- Applications remaining unverified by CASPA for any reason after the October 1st deadline will not be processed.

For additional details about the application process, visit the Physician Assistant Program's Admissions (<http://www.drexel.edu/physAsst/programs/physicianAssistant/admissions>) web page.

Application Prerequisites

- A minimum grade point average of 3.0 on a 4.0 grading scale from all colleges and universities attended is required for the following three (3) categories: non-science courses, natural science courses, and combined overall courses. Applications will not be reviewed unless the applicant has attained these minimum requirements at time of application.
- Meet the technical standards for admission, progression, and graduation from the Physician Assistant Program. Each applicant is expected to review completely the "Technical Standards for PA Program" PDF at the end of this page. Individuals unable to meet these technical standards, with or without reasonable accommodation, are counseled to pursue alternate careers.
- Official transcripts from all colleges and universities attended sent directly to CASPA.
- Non-United States-based educational institutional transcripts must be evaluated by an approved agency (see the listing of acceptable agencies on the CASPA website at https://portal.caspaonline.org/faq/foreign_transcripts.htm). Evaluation fees are the responsibility of the applicant. Evaluations must be sent directly to CASPA.
- Three completed reference forms with accompanying letters of recommendation attached and submitted as part of the official CASPA application. Preferred references are from individuals who have interacted with the applicant in a supervisory capacity or academic instructors who have personal knowledge of the applicant. Submission of references from friends, relatives, personal physicians, or instructors who do not possess a personal, supervisory knowledge of the applicants is discouraged.
- A personal statement recorded as part of the CASPA application.
- An applicant whose native language is not English must submit scores from the TOEFL iBT examination unless the applicant has graduated with a bachelor's degree from a U.S. college or university. The minimum required score for the iBT (Internet Based Testing) is 79 and a minimum score of 26 is required for the speaking component. Find more detailed information at <http://www.toeflgoanywhere.org/>. Scores must be submitted directly to CASPA.
- Meet the minimum prerequisite coursework as detailed in the "Admission Requirements and Process" PDF below.

A minimum of 500 hours of clearly documented volunteer/paid direct hands-on patient contact accrued by the time of application and recorded as part of the official CASPA application is strongly recommended. Ensure that all hours are accurately reported. Applicants may list the same position in multiple sections in order to account for multiple experiences (patient contact, related health care, research, shadowing, etc.) accrued in the same position as long as each hour is not reported in more than one experience category. Please review the "Patient Contact" PDF below for more information regarding acceptable forms of patient contact.

- Graduate Record Examination (GRE) scores are not required.
- The Physician Assistant Program does not grant advanced standing.

Physician Assistant Post-Professional Master's Program

Master of Health Sciences (MHS): 45.0 quarter credits

About the Program

The Master of Health Science (MHS) degree is awarded by the University through the College of Nursing and Health Professions' Physician Assistant Post-Professional Master's program. This program builds upon knowledge and skills learned in the PA professional training programs in areas of health policy, evidence-based practice, and leadership. The program is available totally online, and it may be completed on a full-time or part-time basis.

The Physician Assistant Post-Professional Master's program provides graduate education courses as a basis for personalized, professional development within the student's selected area of study. The goal of the program is to enhance basic physician assistant skills and to mentor students in areas of study beyond what is offered by entry-level physician assistant programs. The individually selected study concentration is augmented by the expertise of seasoned faculty and the vast resources of the University.

Specifically, the Physician Assistant Post-Professional Master's program seeks to:

- Broaden the base and depth of analytical thinking by providing a foundation for scholarly inquiry
- Mentor physician assistants in personalized, professional development to enhance the P.A. profession, its members, and the communities they serve

Additional Information

For more information about this program, contact the the Business Manager:

Denise Mielechowski
PA Post-Professional Master's Program
College of Nursing and Health Professions
dmm58@drexel.edu

For more details, visit Drexel's College of Nursing and Health Professions Physician Assistant Post-Professional Master's (<http://www.drexel.edu/physAsst/programs/postProfPhysicianAssistant>) web page.

Degree Requirements

All students in this program complete a total of 45.0 quarter credits for graduation. The program requires completion of 5 core courses (25.0 quarter credits). The cognate courses, 15.0 quarter credits, are courses in a student's area of interest, and 5.0 quarter credits for the capstone experience that deepens a student's understanding of chosen areas.

For the exceptional graduate student with significant professional credentials achieved as a physician assistant, preparation and presentation of the professional portfolio to a university-based multidisciplinary committee may substitute for all or portions of the credits required for the two graduate project courses.

Required Core Courses

| | | |
|--------|------------------------------|-----|
| PA 581 | Research Methods and Designs | 5.0 |
|--------|------------------------------|-----|

| | | |
|--------|---------------------------------------|-----|
| PA 582 | Principles of Evidence-Based Practice | 5.0 |
| PA 583 | Clinical Application of Epidemiology | 5.0 |
| PA 584 | Health Policy | 5.0 |
| PA 585 | Leadership and Stewardship | 5.0 |

Study Concentration Courses

| | | |
|---------------|------------------|------|
| Cognate 1 * | | 5.0 |
| Cognate 2 * | | 5.0 |
| Cognate 3 * | | 5.0 |
| PA 698 | Capstone Project | 5.0 |
| Total Credits | | 45.0 |

* Students may select Cognate courses related to their areas of interest from one of the Study Tracks (<http://www.drexel.edu/catalog/masters/adv-pa.htm#Studytracks>) listed below.

Study Tracks

Clinical Practice

| | | |
|-----------|------------------------------------|-----|

| Total Credits | | 16.0-21.0 |

Post-Master's Certificate in Art Therapy

About the Program

The post-master's degree in art therapy is for those individuals who hold a master's degree in a related mental health field such as counseling, social work, psychology, dance/movement therapy, music therapy, psychiatric nursing, or couple and family therapy. It consists of 57.0 quarter credits of art therapy course work and 1200 hours of supervised clinical art therapy practica and internship. Completion of the post-master's degree program in art therapy and fulfillment of post-graduation supervised clinical hours will allow the individual to be eligible for registration and certification as an art therapist by the Art Therapy Credentials Board.

Admission Requirements

Candidates for the post-professional master's degree program in art therapy must meet the following admission requirements:

- Documentation of a 48.0 semester credit or 72.0 quarter credit master's degree completed from an accredited institution in the United States (or equivalent degree from an international institution) in a related field such as counseling, psychology, social work, dance/movement therapy, music therapy, psychiatric nursing and couple and family therapy.
- A 3.0 or above GPA in their graduate school studies as reflected in the submission of official transcript(s).
- An autobiography/personal statement, as described in the application materials.
- Documentation on the transcript of completion of coursework in the following content areas during their related master's degree education: (a) psychopathology; (b) human growth and development; (c) counseling and psychological theories; (d) cultural and social diversity; (e) assessment; and (f) research.
- Documentation of the completion of 18.0 semester or 27.0 quarter credits in studio art. The studio art courses should reflect experience and facility with multiple art media such as drawing, painting, clay, sculpture, photography, etc. The credits must be completed either prior to admission, which is preferable, or within 12 months of enrollment.
- Applicant interview with the faculty of the graduate art therapy program.
- Review of applicant's art portfolio during the interview. The portfolio should include art work reflecting proficiency with a range of two- and three-dimensional art media.
- Candidates with a graduate degree from a non-U.S. institution must submit their graduate academic records for evaluation by an agency such as World Education Service (WES). The Test of English as a Foreign Language (TOEFL) is required if English is a second language (minimum expected score: 600 paper/250 computer). International candidates should request instructions about all of these requirements with their admission materials and are advised to begin the admission process early.

Curriculum and Sample Plan of Study

First Year Courses

| | | |
|----------|---|-----|
| ARTS 501 | Introduction to Creative Arts Therapy I | 2.0 |
| ARTS 502 | Introduction to Creative Arts Therapy II | 2.0 |
| ARTS 503 | Introduction to Creative Arts Therapy III | 2.0 |
| ARTS 506 | Professional Orientation and Ethics I | 1.0 |

| | | |
|----------|--|-----|
| ARTS 511 | Clinical Practicum II | 1.0 |
| ARTS 511 | Clinical Practicum II | 1.0 |
| ARTS 512 | Clinical Practicum III | 1.0 |
| ARTS 531 | Art Therapy Assessment and Treatment for Adults I | 2.0 |

| ARTS 639 | Advanced Art Therapy Group Supervision III | 1.5 |
| Elective course* | | |
| Term Credits | | 5.0 |

Total Credit: 57.0

* Students must take one 1-credit elective course in their second year. ARTS 640, ARTS 642, and ARTS 643 are offered in Fall term, and ARTS 641 is offered in Spring term.

Additional Information

For additional information about the program, visit the College of Nursing and Health Professions Creative Arts in Therapy (<http://www.drexel.edu/artsTherapies>) web site.

Certificate of Advanced Study in Complementary and Integrative Therapies

The Certificate of Advanced Study in Complementary and Integrative Therapies (CIT) program is designed to provide practicing healthcare professionals with an "evidence-based program" in complementary and

integrative therapies. This knowledge will allow them to assess, guide and evaluate patient use and to integrate CIT into their professional practice. The program provides students with the cultural and theoretical basis for applying complementary and integrative therapies while focusing on the skills and techniques of specific therapies.

This program is applicable to a wide range of healthcare professionals including nurses, nurse practitioners, physician's assistants, creative arts therapists, couple and family therapists, women's health practitioners, members of oncology organizations, members of AHNA and more. Admission requires a minimum of a bachelor's degree from an accredited college or university.

The program content is congruent with the educational standards set forth by the American Association of Holistic Nurses (AHNA) and the Foundations in Clinical Aromatherapy course adheres to the educational standards (level one) set forth by the National Association for Holistic Aromatherapy (NAHA).

For additional information about this online certificate program visit the College of Nursing's Certificate of Advanced Study in Complementary and Integrative Therapies (<http://drexel.edu/healthSciences/programs/complementaryIntegrativeTherapies>) web page.

Required Courses

| | | |
|------------------------------|---|-------------|
| CIT 501 | Foundations of Phytotherapy | 3.0 |
| CIT 502 | Foundations of Complementary and Integrative Therapies | 3.0 |
| CIT 503 | Holistic Living For The Caregiver | 3.0 |
| Select one of the following: | | 3.0 |
| CIT 511 | Spirituality, Health and Healing | |
| CIT 512 | Body Movement Therapies | |
| CIT 513 | Yoga for Enlight Practitioner | |
| CIT 600 | Clinical Aromatherapy | |
| CIT 601 | Integration of Complementary and Integrative Therapies | |
| CIT 602 | Women Integrative Health | |
| CIT 628 | Special Topics in Complementary and Integrative Therapies | |
| Total Credits | | 12.0 |

Certificate in Couple and Family Therapy

About the Program

Drexel University offers a post-master's program leading to a certificate in couple and family therapy. The program is accredited by the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE) of the American Association for Marriage and Family Therapy (AAMFT). The post-master's certificate in couple and family therapy can be expected to lead towards licensure as a Marriage and Family Therapist and AAMFT Clinical Membership.

Clinical Practicum Experience

Full-time PMC students are enrolled in practicum for 4 consecutive quarters. Interns generally participate in one practicum site during their tenure in the PMC. All interns must complete a continuous 12-month calendar year at one practicum site prior to graduation. Interns will be expected to spend 20 hours per week working at the approved program

practicum site. Scheduling of specific times will be negotiated by the intern and the on-site supervisor. The practicum schedule must not conflict with class schedule. Interns are expected to average 13-15 client contact hours per week in order to achieve the 500 clinical hour requirement by the end of the program. Case loads usually consist of more than 14 clients to ensure that the intern will average 13-15 client contact hours per week.

Curriculum

The curriculum assists students in integrating theory and practice. Issues of race, ethnicity, culture, class, gender, sexual orientation, spirituality, religion, age, ability, power, and privilege are addressed throughout the program. Students are fully trained to assume clinical practice in couple and family therapy and are prepared for AAMFT Associate Membership.

Required Courses

| Theoretical Foundations | | |
|---|--|------|
| CFTP 501 | Introduction to Family Therapy | 4.0 |
| CFTP 503 | Historical and Sociocultural Influences | 4.0 |
| Clinical Practice | | |
| CFTP 505 | Bowen Theory | 4.0 |
| CFTP 508 | Structural Family Therapy | 4.0 |
| CFTP 517 | Addictions in The Family | 4.0 |
| Individual Development and Family Relations | | |
| CFTP 520 | Family Life Cycle | 4.0 |
| Professional Identity and Ethics | | |
| CFTP 522 | Legal and Ethical Implications in Couple and Family Therapy Practice | 4.0 |
| Research | | |
| CFTP 525 | Research in Couple and Family Therapy | 4.0 |
| Required Additional Learning | | |
| CFTP 526 | Person of the Therapist Experience I | 2.0 |
| CFTP 527 | Person of the Therapist Experience II | 2.0 |
| Electives | | |
| CFTP 506 | Contextual Theory and Therapy | |
| CFTP 507 | Collaborative Approaches | |

| CFTP 531 | Practicum II | 2.0 |
| CFTP 532 | Practicum III | 2.0 |
| CFTP 533 | Practicum IV | 1.0 |
| Total Credits | | 43.0 |

Post-Master's Certificate in Dance Movement Therapy

About the Program

Dance/movement therapy is a body/mind-integrated approach to psychotherapy that uses expressive dance and movement processes to encourage the integration of emotional, cognitive, social, and physical functioning. Dance/movement therapy emphasizes the non-verbal realm of movement, touch, rhythm, and spatial interactions, as well as the congruence and connections between verbal and nonverbal modes of expression.

In this program, students build a strong foundation of theoretical knowledge and clinical application in dance/movement therapy (DMT). The program teaches and balances the art of DMT with the science that supports it. Using diagnostic knowledge, developmental and systems theories, and observational skills based in Laban Movement Analysis, our students learn to assess client functioning and formulate treatment goals. Using their expertise in the dance/movement modality and interactive, improvisational processes, students learn to address the patient's needs in both group and individual therapy formats. They may design creative group tasks for fostering interaction and cohesion, or to guide an individual through a personal conflict or challenge.

Admissions

Admission requirements for the certificate program are similar to those for the MA program in Dance/Movement Therapy.

Curriculum

The Post-Master's Certificate in Dance/Movement Therapy consists of specialized coursework and supervised clinical experience. For those already holding a master's degree in a clinical mental health field, this certificate program will help prepare the learner for the Dance Therapist Registered credential (R-DMT) from the Dance/Movement (<http://www.adta.org>) Therapy Certification Board through the "Alternate Route".

Courses in the certificate program address categories delineated by the ADTA for Alternate Route Training in DMT:

- theory and practice in the field of dance/movement therapy
- movement observation and analysis

For the categories delineated by the Dance/Movement Therapy Certification Board in general mental health topics, the Department of Creative Arts Therapies offers courses for additional fees. Because the certificate courses are offered in the context of a masters' DMT program that is approved by the American Dance Therapy Association, the courses qualify as approved for Alternate Route training in DMT.

Certificate courses can be taken on a part time basis over two or more years. The certificate program offers the requisite fieldwork and internship components on an optional basis for additional fees.

For additional information about admission to the program, visit the College of Nursing and Health Professions Creative Arts in Therapy (<http://www.drexel.edu/artsTherapies>) web site.

Certificate in Forensic Trends and Issues in Contemporary Healthcare

The certificate program examines contemporary trends and issues related to the wide range of interpersonal violence, crime and sudden violent death that may be encountered in a variety of healthcare settings. Theoretical tenets, methods for assessment and related implications for intervention and/or referral will be examined from a multifaceted perspective—including that of the offender, crime victim, families, and the healthcare community-at-large.

Program Goals

- Examine social attitudes and perceptions toward victimization and offending behavior;
- Identify the psychological, physical and legal aspects of victimization;
- Assess victim trauma and identify appropriate interventions for victimized clients;
- Assess the motivational intent and behavior patterns of offenders who commit aggressive crimes;
- Analyze institutional approaches and subsequent response patterns to victims and offenders in a variety of settings (e.g., inpatient, outpatient, primary care settings, academic, etc);
- Assess ethical dimensions of healthcare issues relative to the role and scope of practice and healthcare providers;
- Examine healthcare policy assessment, development and/or modification to enhance health promotion of offenders and victims across the lifespan.

Admission

Admission to this program requires completion of a BS degree. The program is intended for providers and educators in the healthcare sciences, as well as professionals who have direct contact with victims and/or offenders across disciplines and areas of practice. The program is open to practitioners, graduate student and healthcare educators across the continuum of specialties and agencies.

For more information, visit Drexel's College of Nursing and Health Profession's Certificates (<http://www.drexel.edu/cnhp/academics/certificates>) website.

Requirements

| | | |
|---------------|--|------|
| NURS 519 | Forensic Science Foundations | 3.0 |
| NURS 524 | Analysis and Application of Forensic Trends and Issues | 3.0 |
| NURS 528 | Victimology – Contemporary Trend | 3.0 |
| NURS 533 | Forensic Mental Health | 3.0 |
| Total Credits | | 12.0 |

Certificate in Hand and Upper Quarter Rehabilitation

The Certificate in Hand and Upper Quarter Rehabilitation program is designed for practicing clinicians in physical therapy and occupational therapy who wish to gain advanced understanding of the upper quarter, including the cervical spine, shoulder, elbow, wrist, and hand. This program consists of four courses offered in an online and weekend format.

The curriculum is based on the most recent hand therapy practice analysis conducted by the Hand Therapy Certification Commission (HTCC). The HTCC oversees the certification process for qualifying occupational and physical therapists as "certified hand therapists" or CHTs. This Certificate of Advanced Practice in Hand and Upper Quarter Rehabilitation is recognized by HTCC as a resource to assist with preparation for the CHT examination.

After successfully completing the four required courses, students receive a post-professional certificate of completion.

Foundations of Practice Requirements

| | | |
|---------------|-------------------------------------|------|
| PTRS 767 | Foundations in Hand Therapy | 4.0 |
| PTRS 768 | Upper Quarter Joint Pathology | 4.0 |
| PTRS 769 | Nerve Injuries of the Upper Quarter | 4.0 |
| PTRS 770 | Diseases That Affect the Hand | 4.0 |
| Total Credits | | 16.0 |

For more information, visit the Department of Physical Therapy and Rehabilitation Sciences (<http://www.drexel.edu/physicalTherapy/programs/handRehab>) web page.

Certificate of Advanced Study in Holistic Hospice and Palliative Care

Clinical studies have found that complementary and integrative therapies (CIT) are associated with abatement of symptoms, including anxiety and pain, and the improvement in mood and sense of control. The use of complementary and integrative therapies is relatively common in end-of-life care, with at least one half of hospices offering CIT, and approximately one third to one half of hospice patients report having used a form of CIT as part of their care. This program will provide practitioners the tools needed to treat the holistic spectrum of the dying patient and their family, while integrating an effective and efficient delivery of care.

Drexel's new certificate of advanced study in holistic hospice and palliative care program consists of 4 courses, all delivered in an online format. Courses may be taken in any sequence, which allows a student to begin the certificate in any quarter. The certificate is designed to attract a wide range of health care students and professionals from a variety of disciplines who are interested in a delivery of care and services that not only focus on the traditional aspects of end-of-life care, but also integrate complementary and integrative therapies modalities.

Required Courses

| | | |
|---------------|---|------|
| CIT 503 | Holistic Living For The Caregiver | 3.0 |
| CIT 621 | Spirituality in Hospice and Palliative Care | 3.0 |
| CIT 622 | Holistic Therapies in Hospice and Palliative Care | 3.0 |
| CIT 623 | Cross Cultural Issues | 3.0 |
| Total Credits | | 12.0 |

Certificate of Advanced Study in Integrative Addiction Therapies

Substance use disorders are among this country's most ubiquitous health and social issues. The use of complementary and integrative therapies (CIT) within the scope of conventional healthcare practice for the treatment of substance use disorder will provide practitioners the tools needed to treat the substance use disorder patient (and their family) within the holistic spectrum, healing body, mind and spirit.

A holistic, integrative treatment program for addiction requires combining biochemical nutritional treatment for the brain (nutrition neuroscience) along with all other aspects (bio, psycho, social, economic), including counseling and education to support lifestyle change.

This certificate program is designed for the wide range of health care students and professionals from a variety of disciplines who are interested

in a delivery of care and services that focus on integrating complementary and integrative therapies into their conventionally based healthcare backgrounds, offering an innovative, caring and holistic transition to an underserved population. The program is offered in an online format, thereby making it more accessible to working health care practitioners.

For additional information about this online certificate program visit the College of Nursing's Health Sciences Programs (<http://drexel.edu/healthSciences/programs>) web page.

Required courses

| | | |
|---------------|---|------|
| CIT 503 | Holistic Living For The Caregiver | 3.0 |
| CIT 624 | Foundations of Integrative Addiction Therapy | 3.0 |
| CIT 625 | Spirituality, Empowerment, and Transformation | 3.0 |
| CIT 631 | Introduction to Nutritional Neuroscience | 3.0 |
| Total Credits | | 12.0 |

Certificate Program in Medical Family Therapy

This certificate program is offered to those individuals who have earned a master's degree and seek further education. The program, offered online, is designed to introduce a variety of currently practicing health care professionals to the ways acute and chronic medical illnesses and conditions influence and are influenced by psychosocial, relational, and family conditions and environments. Additionally, couple and family therapists and other professionals trained in the subspecialty of medical family therapy (or collaborative healthcare) will learn to work cooperatively to bridge gaps in the health care systems, and provide comprehensive and culturally congruent family focused services.

For additional information about the Certificate in Medical Family Therapy, students should visit the Online Certificate Program in Medical Family Therapy (<http://www.drexel.com/online-degrees/nursing-degrees/cert-pm-mft>) page.

Required Courses

| | | |
|------------------------------|---|------|
| MFTP 518 | Medical Family Therapy | 3.0 |
| MFTP 537 | Multicultural & Family Systems Approach to Healthcare | 4.0 |
| MFTP 538 | Issues and Trends in Health Policy for Families | 3.0 |
| Select one of the following: | | 4.0 |
| CFTP 500 | Introduction to Systems Theory | |
| CFTP 501 | Introduction to Family Therapy | |
| CFTP 503 | Historical and Sociocultural Influences | |
| CFTP 505 | Bowen Theory | |
| CFTP 508 | Structural Family Therapy | |
| CFTP 510 | Sex Therapy | |
| CFTP 517 | Addictions in The Family | |
| CFTP 519 | Family Violence | |
| CFTP 520 | Family Life Cycle | |
| CFTP 537 | Nosology & Couple and Family Therapy Practice | |
| Total Credits | | 14.0 |

Post-Master's Certificate in Music Therapy

About the Program

The Post-Master's Certificate in Music Therapy program is designed to help students develop advanced music therapy clinical skills in an academic health center setting. The program is the only music therapy training model housed in an academic health center. It is unique in that faculty members include mental health and medical professionals who assist students in integrating music therapy with current developmental, neuroscience, mental health, and medical foundations.

Didactic and clinical aspects are balanced to provide a foundation of theoretical knowledge and practical application. The evidence-informed curriculum integrates knowledge of music therapy with current theoretical approaches to assessment and treatment. Experiential core and music therapy modality courses are designed to help students develop the use of the self within the music therapy relationship.

About the Certificate

The certificate program is a 52.0 quarter credit course of study designed to meet the needs of qualified individuals who seek to become eligible to sit for the Board Certification Exam from the Certification Board for Music Therapists (<http://www.cbmt.org>) (CBMT). The certificate program is designed for those with a master's degree in another clinical mental health specialty who wish to add a specialization in music therapy. Each of the following courses addresses one or more competency areas delineated by the American Music Therapy Association. All are taught at the graduate level.

Admissions

Admission requirements for the certificate program are similar to those for the MA program in Music Therapy (p. 41). For additional information about admission to the program, visit the College of Nursing and Health Professions' Creative Arts in Therapy (<http://www.drexel.edu/artsTherapies>) web site.

Required Courses

| | | |
|----------|--|-----|
| ARTS 501 | Introduction to Creative Arts Therapy I | 2.0 |
| ARTS 502 | Introduction to Creative Arts Therapy II | 2.0 |
| ARTS 503 | Introduction to Creative Arts Therapy III | 2.0 |
| ARTS 510 | Clinical Practicum I: Observation | 1.0 |
| ARTS 511 | Clinical Practicum II | 1.0 |
| ARTS 512 | Clinical Practicum III | 1.0 |

Post-Master's Certificate in Nurse Anesthesia

The Post Master's Certificate (PMC) in Nurse Anesthesia program is a 72.0 quarter credit full-time program. The program offers 7.0 theoretical nursing and research credits, 9.0 quarter credit basic science component, 31.0 quarter credits of a didactic anesthesia component and a 25.0 credits in a clinical component. Upon successful completion program outcomes student is awarded a post master's certificate in nurse anesthesia and is eligible to take the national certification examination offered by the NBCRNA - Council on Certification of Nurse Anesthetists.

The nurse anesthesia program is accredited by the:

Council on Accreditation of Nurse Anesthesia Educational Programs,
222 S. Prospect Ave, Suite 304,
Park Ridge, IL 60068,
847-692-7050.

Admission Requirements

This certificate program is offered to those individuals who have earned a master's degree in nursing and seek further preparation in nurse anesthesia. Transcripts are reviewed and course work is determined on an individual basis. Contact the College of Nursing for more specific admission requirements (<http://www.drexel.edu/gradnursing/msn/nurseAnesthesia/admissions>).

Curriculum/Requirements

First Year

| Term 1 | | Credits |
|---------------------|---|-------------|
| Winter | | |
| NURS 503 | Basic Principles of Nurse Anesthesia | 3.0 |
| NURS 504 | Overview of Nurse Anesthesia | 3.0 |
| NURS 550* | Advanced Physical Assessment & Diagnostic Reasoning Across the Lifespan | 4.0 |
| Term Credits | | 10.0 |

| Spring | | |
| NURS 508 | Nurse Anesthesia Clinical Practicum I | 1.0 |
| NURS 505 | Chemistry and Physics | 3.0 |
| NURS 507 | Nurse Anesthesia Pharmacology I | 3.0 |
| Term Credits | | 7.0 |

Certificate in Pediatric Rehabilitation

This program is for licensed physical and occupational therapists who work or aspire to work in early intervention, school-based therapy or other pediatric services and who seek to develop expertise in this field.

Graduates of the program will be prepared to enhance activity, participation and measurable outcomes for children and their families through the application of research, theory, and emergent knowledge to practice. Issues across the spectrum of care, for ages from birth to 21, are addressed and practitioners have the opportunity to enhance their comprehension of family and client-centered practice in a diversity of settings. The program incorporates philosophies of practice, issues of advanced clinical decision making, intervention and service delivery approaches, advocacy, and clinical leadership.

Students can tailor their studies and assignments to meet personal needs. Individualized assignments allow them to apply key themes and issues to practice. The program also offers physical therapists the opportunity and resources to prepare for specialty certification through the American Physical Therapy Association.

After successfully completing the required credits, students receive a post-professional certificate of completion. The credits may be transferred into degree programs within Physical Therapy and Rehabilitation Sciences.

Certificate in Clinicals Trials Research

The certificate program is designed for individuals who have earned an undergraduate degree in nursing and seek further preparation in clinical trials research. This online program is designed for nurses who wish to be involved in clinical trials and research in a variety of roles and settings. Graduates of this program assume roles such as:

- Research Coordinator
- Clinical Scientist
- Clinical Trials Manager
- Coordinator
- Developer

Many potential employers exist outside the hospital environment—in the community or private practices and with pharmaceutical and other scientific companies that produce, test, and market new products. The clinical trials field is a hot field for nursing employment—especially seasoned nurses who have expertise in one or more clinical areas.

Required Courses

| | | |
|---------------|---|------|
| NURS 582 | Foundation of Good Clinical Practice in Clinical Trials Mngmt | 3.0 |
| NURS 583 | Operational Leadership in Clinical Trials Management | 3.0 |
| NURS 584 | Current Topics in Clinical Trials | 3.0 |
| NURS 585 | Clinical Trials Research Practicum | 5.0 |
| Total Credits | | 14.0 |

Certificate in Nursing Education & Faculty Role

Certificate in Nursing Education and Faculty Role

This program provides a four-course grouping of classes that focus on knowledge and skills required for healthcare provider education roles. Courses are chosen from the MSN in Nursing Education and Faculty Role curriculum. Upon completion of this certificate program, the student will have 12.0 graduate credits from an NLN/CCNE-approved master's in nursing program.

Required Courses

| | | |
|------------------------------|--|-----|
| NURS 597 | Clinical & Didactic Teaching Methods | 3.0 |
| NURS 598 | Teaching Critical Thinking & Clinical Decision-Making in Nursing | 3.0 |
| NURS 599 | Curriculum Design in Nursing Education | 3.0 |
| Select one of the following: | | 3.0 |
| NURS 600 | Measurement & Evaluation in Nursing Education | |

Graduate Certificate in Nursing Education and Faculty Role

The Graduate Certificate in Nursing Education & Faculty Role program is offered to those individuals who have already earned a master's degree in nursing and seek further preparation in nursing education. The program can be completed through part-time study. Transcripts will be reviewed and course work will be determined on an individual basis.

The program prepares students to work as nursing educators, nursing faculty, or nursing professors in all types of programs, at all levels, in a variety of settings. This program has a special focus on preparing students with the required competencies to be successful on the new certified nursing educator exam. With such a severe and critical nursing faculty shortage in the United States (and even globally)—this program provides students with cutting-edge content essential for today's contemporary nurse educator.

The program integrates theories specific to adult learning, curriculum design and evaluation of courses and programs, critical thinking, both clinical and classroom techniques, and the preparation for the role of the nursing professor. This unique program even instructs students on how to teach online and use technology to teach nursing in innovative ways. The two culminating practica provide students with opportunities to put what has been learned into practice. Participants complete two role practicum experiences in teaching, providing ample opportunity to apply theory to practice. In addition, students are required to attend an immersive on-campus simulation residency when taking Practicum I and II. The residency hours will count as part of the required 160 total practicum hours (24 practicum hours earned). The residency is offered biannually in January or July.

Required Courses

| | | |
|------------------------------|--|------|
| NURS 597 | Clinical & Didactic Teaching Methods | 3.0 |
| NURS 598 | Teaching Critical Thinking & Clinical Decision-Making in Nursing | 3.0 |

Certificate in Innovation and Intra/Entrepreneurship in Advanced Nursing Practice

Innovation and Intra/Entrepreneurship in Advanced Nursing Certificate

12.0 quarter credits

This Innovation and Intra/Entrepreneurship in Advanced Nursing Practice Certificate program is for individuals who want to understand the theories of innovation, examine some successful and failed innovations, as well as learn what it takes to be a successful intra/entrepreneur.

Admission to this program requires a bachelor's degree from an accredited college or university.

The certificate requires students to take the three primary courses in Innovation and Intra/Entrepreneurship. Students also complete the first Capstone course, designing an Innovation Project proposal.

Required Courses

| | | |
|---------------|--|------|
| NURS 586 | Innovation in Advanced Nursing Practice: Theory and Application | 3.0 |
| NURS 587 | Case Studies in Intra/Entrepreneurship and Innovation in Nursing | 3.0 |
| NURS 588 | The Nurse as Intra/Entrepreneur and Consultant | 3.0 |
| NURS 636 | Capstone Project I | 3.0 |
| Total Credits | | 12.0 |

Innovation and Intra/Entrepreneurship in Advanced Nursing Graduate Certificate

19.0 quarter credits

This graduate certificate is offered to those individuals who have already earned a master's degree in nursing and seek further preparation in another area of nursing. The program can be completed through part-time study. Transcripts will be reviewed and course work will be determined on an individual basis.

Program of Study

The program is designed for students who in addition to wanting to understand the theories of innovation and learn what it takes to be a successful intra/entrepreneur, as described above, also wish to have guided experience in the implementation, evaluation of a proposed innovation. At the conclusion of this program, students complete an "Innovation Project."

Required Courses

| | | |
|----------|--|-----|
| NURS 586 | Innovation in Advanced Nursing Practice: Theory and Application | 3.0 |
| NURS 587 | Case Studies in Intra/Entrepreneurship and Innovation in Nursing | 3.0 |

Certificate in Nursing Leadership in Health Systems Management

This certificate program focuses on development of a leadership style and skills set essential for individuals in or seeking administrative roles. The program provides a four-course grouping of classes from the MSN in Nursing Leadership in Health Systems Management curriculum. Selected classes provide essential skills for supervisory and management positions that help professionals perform in their expanded roles and grow as emerging leaders.

Emphasis will be placed on fiscal and organizational management, strategic planning, integrated quality outcomes measurement, organizational structures, marketing, and management of human resources within organizations. The program provides the student with information and strategies to problem solve, make decisions, resolve conflict and operationalize the mission and goals of the healthcare delivery organization.

Required Courses

| | | |
|------------------------------|---|-----|
| NURS 557 | Leadership and Stewardship in the Health Professions | 3.0 |
| NURS 558 | Economics of Healthcare Management & Policy | 3.0 |
| NURS 559 | Operations Management in Contemporary Healthcare Organizations | 3.0 |
| Select one of the following: | | 3.0 |
| NURS 563 | Building and Leading High Performance Healthcare Organizations | |
| NURS 564 | The Business of Healthcare | |
| NURS 567 | Strategic Management: Power, Politics and Influence in Healthcare Systems | |

Total Credits 12.0

Certificate in Adult-Gerontology Acute Care Nurse Practitioner

This certificate is offered to those individuals who have earned a master's degree in nursing and seek further preparation as an Adult Gerontology Acute Care Nurse Practitioner (AG-ACNP). Transcripts will be reviewed and course work will be determined on an individual basis. Students meet on campus for a mandatory on-campus Residency at the

beginning of the clinical practicum rotations and at the end of the clinical practicum rotations. Graduates will be eligible to sit for the ANCC's Adult Gerontology Acute Care Certification Examination.

Program of Study

All post-master's students in nurse practitioner tracks must transfer in three credits (quarter or semester) of master's-level advanced pathophysiology or advanced physiology, advanced pharmacology, and advanced physical assessment. If these courses are not transferred in they must be taken at Drexel prior to the first clinical course. Students should check with the MSN Program Coordinator for the exact schedule. Acute care pharmacology is required prior to beginning the clinical courses.

Required Courses

| Support Courses | | |
|-----------------------|--|------|
| NURS 548 | Advanced Pathophysiology | 3.0 |
| NURS 549 | Advanced Pharmacology | 3.0 |
| NURS 550 | Advanced Physical Assessment & Diagnostic Reasoning Across the Lifespan | 4.0 |
| Concentration Courses | | |
| NURS 554 | Pharmacology for Adult-Gerontology Acute Care Nurse Practitioners | 3.0 |
| NURS 570 | Adult Gerontology Acute Care NP I: Introduction to Adult Gerontology Acute Care Medicine | 5.0 |
| NURS 571 | Adult Gerontology Acute Care Nurse Practitioner II: Mgmt/Care of Patients in Acute/Crit Care Med Set | 5.0 |
| NURS 572 | Adult Gerontology Acute Care Nurse Practitioner III: Mgmt/Care of Patients in Acute Surgical Setting | 5.0 |
| NURS 573 | Adult-Gerontology Acute Care NP IV: Management of Care of Patients in Critical Care Settings | 5.0 |
| NURS 580 | Adult Gero Acute Care NP V: Mgmt/Care of Clients in Acute, Critical Care, Med or Surg Settings | 5.0 |
| NURS 664 | Professional Issues for Nurse Practitioners | 1.0 |
| Total Credits | | 39.0 |

Certificate in Psychiatric Mental Health Nurse Practitioner

This certificate is offered to those individuals who have earned a master's degree in nursing and seek further preparation as a Psychiatric Mental Health Nurse Practitioner (PMHNP). Transcripts will be reviewed and course work will be determined on an individual basis. Students meet on campus for a mandatory on-campus Residency at the beginning of the clinical practicum rotations and at the end of the clinical practicum rotations.

Program of Study

All post-master's students in nurse practitioner tracks must transfer in three credits (quarter or semester) of master's-level advanced pathophysiology or advanced physiology, advanced pharmacology, and advanced physical assessment. If these courses are not transferred in they must be taken at Drexel prior to the first clinical course. Students should check with the MSN Program Coordinator for the exact schedule. Psychopharmacology is required prior to beginning the clinical courses. Once the certificate program is successfully completed, students will be eligible to sit for the ANCC's Psychiatric and Mental Health Certification Examination.

Required Courses

| Support Courses | | |

Certificate in Family Nurse Practitioner

This certificate is offered to those individuals who have earned a master's degree in nursing and seek further preparation to become a Family Nurse Practitioner (FNP). Transcripts will be reviewed and course work will be determined on an individual basis. Students meet on campus for a mandatory on-campus Residency at the beginning of the clinical practicum rotations and at the end of the clinical practicum rotations. Graduates will be eligible to sit for the AANP's Family Nurse Practitioner Certification Examination and/or the ANCC's Family Nurse Practitioner Certification Examination.

Program of Study

All post-master's students in nurse practitioner tracks must transfer in three credits (quarter or semester) of master's-level advanced pathophysiology (or advanced physiology), and advanced pharmacology. If these courses are not transferred in they must be taken at Drexel prior to the first clinical course. Pharmacology for family nurse practitioners is required prior to beginning the clinical courses. Students should check with the program coordinator for the exact schedule.

Required Courses

| Support Courses | | |
|-----------------------|--|-----|
| NURS 548 | Advanced Pathophysiology | 3.0 |
| NURS 549 | Advanced Pharmacology | 3.0 |
| NURS 550 | Advanced Physical Assessment & Diagnostic Reasoning Across the Lifespan | 4.0 |
| Concentration Courses | | |
| NURS 556 | Pharmacology for Family Nurse Practitioners | 3.0 |
| NURS 534 | FNPI: Primary Care of the Emerging Family | 5.0 |
| NURS 535 | FNP II: Primary and Episodic Care of Infants, Children and Adolescents | 5.0 |
| NURS 536 | FNP III: Primary Care of Adults and Older Adults Across the Adult Age Spectrum I | 5.0 |

| | | |
|---------------|---|------|
| NURS 537 | FNP IV: Primary Care of Adults and Older Adults Across the Adult Age Spectrum II | 5.0 |
| NURS 538 | FNP V: Integrative Practicum in Family Practice Across the Lifespan | 4.0 |
| NURS 664 | Professional Issues for Nurse Practitioners | 1.0 |
| Total Credits | | 38.0 |

Certificate in Pediatric Primary Care Practitioner

This certificate is offered to those individuals who have earned a master's degree in nursing and seek further preparation to become a Pediatric Primary Care Nurse Practitioner (PNP). Transcripts will be reviewed and course work will be determined on an individual basis. Students meet on campus for a mandatory on-campus Residency at the beginning of the clinical practicum rotations and at the end of the clinical practicum rotations. Graduates will be eligible to sit for the ANCC's Pediatric Primary Care Nurse Practitioner Certification Examination and/or for the PNCB's Pediatric Primary Care Certification Examination.

Program of Study

All students in nurse practitioner certificate tracks must transfer in three credits (quarter or semester) of master's-level advanced pathophysiology or advanced physiology, advanced pharmacology, and advanced physical assessment. If these courses are not transferred in they must be taken at Drexel prior to the first clinical course. Students should check with the MSN Program Coordinator for the exact schedule. Pediatric pharmacology is required prior to beginning the clinical courses.

Required Courses

| | | |
|-----------------------|--|------|
| Support Courses | | |
| NURS 548 | Advanced Pathophysiology | 3.0 |
| NURS 549 | Advanced Pharmacology | 3.0 |
| NURS 550 | Advanced Physical Assessment & Diagnostic Reasoning Across the Lifespan | 4.0 |
| Concentration Courses | | |
| NURS 646 | Pharmacology for the Pediatric Nurse Practitioner | 3.0 |
| NURS 642 | PNP I: Primary Care of Infants, Children and Adolescents | 5.0 |
| NURS 643 | PNP II: Episodic Care of Infants, Children and Adolescents in Primary Care | 5.0 |
| NURS 647 | PNP III: Management and Care of Adolescents in the Primary Care Setting | 5.0 |
| NURS 648 | PNP IV: Primary Care of Children with Special Health Care Needs | 5.0 |
| NURS 664 | Professional Issues for Nurse Practitioners | 1.0 |
| Total Credits | | 34.0 |

Undergraduate Course Descriptions

Anatomy

Courses

ANAT 101 Anatomy & Physiology I 5.0 Credits

This course is a general study of the structures and physiology of the human body. Fundamental concepts of microscopic tissue structure, gross structures of organs and body system organization are taught. The course consists of both lecture and lab material. The lecture portion deals with the general principles. In the lab, the student participates with practical examination of microscopic sections, tissues and organs, and the anatomical layout of human cadavers. The cell, tissues and musculoskeletal system will be covered in this course, as well as muscle and nerve physiology.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

ANAT 102 Anatomy & Physiology II 5.0 Credits

This course is a continuation of ANAT 101. This course is a general study of the structures & physiology of the human body. Fundamental concepts of microscopic tissue structure, gross structures of organs and body system organization are taught. The course consists of both lab and lecture material. The lecture deals with the general principles. In the lab, the student participates with practical examination of microscopic sections, tissues and organs, and the anatomical layout of various animal cadavers. The nervous, endocrine and digestive system will be covered in this course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 101 [Min Grade: C]

ANAT 103 Anatomy & Physiology III 5.0 Credits

This course is a continuation of ANAT 101 & 102. This course is a general study of the structures and physiology of the human body. Fundamental concepts of microscopic tissue structure, gross structures of organs and body system organization are taught. The course consists of both lab and lecture material. The lecture deals with the general principles. While in the lab, the student participates with practical examination of microscopic sections, tissues, organs and the anatomical layout of various animal cadavers. The cardiovascular, lymphatic, respiratory, urinary and reproductive systems will be covered.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 102 [Min Grade: C]

ANAT 202 Sectional Anatomy 3.0 Credits

This course is designed to bridge the gap between Anatomy & Physiology and Advanced Anatomy. Anatomy of the head, neck, thorax, abdomen and pelvis is reviewed. Relationships of surface and internal structures from different bodily systems are emphasized. The analysis is supported by illustrations, CT scans, and MRI images.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 103 [Min Grade: C]

ANAT 420 Advanced Anatomy I 4.0 Credits

This course introduces the fundamentals of gross anatomy. Emphasis is placed on the regional study of the head, neck, back and upper extremity. Special attention is directed to study of the brain and spinal cord. Laboratory materials include human cadavers, models, radiographs, CT scans, MRI images and relevant web sites.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 103 [Min Grade: C]

ANAT 421 Advanced Anatomy II 4.0 Credits

This course is a continuation of ANAT 420. Emphasis is placed on the regional study of the thorax, abdomen, pelvis and lower extremity. Laboratory material include human cadavers, models, radiographs, CT scans, MRI images and relevant web sites.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 420 [Min Grade: C]

Behavioral & Addictions Couns

Courses

BACS 100 Life Span Human Development 3.0 Credits

This course introduces students to the physical, cognitive and psychological aspects of human development from birth through advanced old age. Topics include: environmental influences, perception, gender roles and sexuality, spirituality, motivation, life styles, and psychiatric disorders.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 200 Foundation of Behavioral Health Care 3.0 Credits

This course introduces the students to the historical and current contexts of program components that comprise community-based behavioral health systems. Topics include: work-force roles; regulatory policies and program practices; federal, state, and county program organizations; advocacy issues; and managed care systems issues.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 210 Behavioral Disorders 3.0 Credits

Clinical characteristics and diagnostic features of major psychiatric disorders are reviewed within the contexts of community-based treatment approaches. Topics include: etiological models, differential symptoms, diagnostic/functional assessment and treatment interventions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 220 Counseling Theory and Practice 3.0 Credits

Surveys major counseling theories with emphasis upon study and practice of basic counseling competencies. Topics include: relationship building, effective communication and helping skills, common stages in counseling process, and helping skills with special populations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 230 Genetics and Mental Health 3.0 Credits

This course explores genetic concepts and principles as they pertain to human variation in behavioral and general health disorders. Students obtain a firm grounding in the basic science and the tools used by researchers to explore the contribution of the genes (and their essential counterpart, the environment) to behavior.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 232 Ethics and Professional Responsibility 3.0 Credits

This course discusses the philosophical, legal and moral responsibilities of professionals in behavioral health and human services setting with a strong emphasis on counseling relationships. A wide array of ethical issues are presented and discussed. Moral dilemmas comprised of competing moral obligations are examined.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 234 Introduction to Addictive Disorders 3.0 Credits

This course introduces the nature of addictions and the impairment in individuals who suffer from addictions. It includes a review of theories on substance disorders and approaches to identification, prevention and treatment. Topics include: historical perspectives, diagnosis, types of addictive behaviors, treatment, and current research.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 236 Psychiatric Rehabilitation Principles and Practices 3.0 Credits

This is an introductory survey courses which acquaints the student with the principles and practices of Psychiatric (or Psychosocial) Rehabilitation. It provides the student with an understanding of the manner in which Psychiatric Rehabilitation approaches, understands and assists the person with serious and persistent mental illness.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 250 Behavioral Health Informatics 3.0 Credits

This course introduces students to the uses and importance of computer technologies in transforming behavioral health care practice. Course sections cover both the science and practice applications of emerging technologies from psychotherapies, to medication management, and to quality care management.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 255 Multicultural Counseling 3.0 Credits

This course provides didactic information for use in the development of awareness and skills necessary for effective therapeutic relationships with clients of diverse cultural backgrounds.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 301 Group Counseling I 3.0 Credits

This course is an introduction to the theoretical base and skills used in conducting group counseling. Included are theories of group work, facilitation techniques, types and styles of groups and models of group functioning. Students participate in a group as a group member and to act as a group co-leader in order to practice leadership skills.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 304 Cognitive and Behavioral Counseling I 3.0 Credits

This course familiarizes the student with key cognitive-behavioral models used in therapy today. Differences and similarities are explored. Students are exposed to the philosophical models and the related techniques stemming from these models. Skills on how to conceptualize and work with a client are taught.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 310 Recovery and Relapse Prevention 3.0 Credits

The goal of recovery and relapse preventions is the development personal strategies that will help the person restructure their life in a way that will prevent a return to active addiction. This course helps define the role of professional counselor in understanding the dynamic of recovery from a clinical perspective.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 312 Case Management Methods 3.0 Credits

This course is an in-depth explorations of the definitions and methodologies of case management services. The course is designed to provide students with the most up to date research and clinical applications of services management in the practice of addictions counseling.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 320 Crisis and Brief Intervention 3.0 Credits

This course introduces student to the fundamental concepts, theories, strategies, and skills needed to understand and conduct effective crisis and brief intervention counseling. Particular attention is given to several types of crises commonly encountered in working within settings serving people who have long-term disabling psychiatric disorders.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 325 Psychopharmacology for Counselors 3.0 Credits

This course focuses on the mechanisms of action of psychiatric medications, and uses and limitations of psychopharmacology in the overall management of serious mental illness. The student will learn to work collaboratively with the consumer, and others, and the importance of integrating the use of medications with psychiatric rehabilitation approaches.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 350 Child Psychopathology 3.0 Credits

This course provides an understanding of childhood-onset behavioral, emotional, developmental, and learning disorders. Review of theories on the development of child psychopathology and approaches to identification, prevention and treatment of disorders. Students learn about assessment and ethical treatment of children.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 360 Preventing Substance Abuse 3.0 Credits

This course provides a comprehensive overview of prevention theories and prevention programming applications as regards substance use disorders. Course topics include: theories and models basic to prevention, science-based prevention strategies and model programs, strategic planning and outcome evaluation.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 367 Advanced Counseling Intervention 3.0 Credits

This course introduces students to current best practices when counseling clients with behavioral health disorders. Students are provided with training in the advanced counseling skills of Motivational Interviewing and Solution-Focused Therapy as well as introduced to experimental approaches to counseling this population.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: BACS 220 [Min Grade: C]

BACS 368 Addictions Counseling with Special Populations 3.0 Credits

This course involves the student in examinations of challenges for addictions counselors in working with frequently underserved populations represented by adolescents and elderly persons. Effective approaches to assessing and treating both youthful and older adult individuals with addiction disorders are explored and defined.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 370 Problem Gambling Interventions 3.0 Credits

This course covers basic areas of treatment knowledge and counseling skills necessary to effectively diagnose and assess the pathological gambler and define the necessary components for effective counseling interventions with problem gamblers.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 390 Special Topics in Mental Health 3.0 Credits

This course covers topics of particular interest to students in health sciences. In different terms, a variety of topics will be presented to the students. May be repeated twice for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 6 credits

BACS 401 Assessment and Treatment Planning 3.0 Credits

The focus of this course is learning the systematic, multi-disciplinary approach for gathering, interpreting, applying and recording data regarding clients in addictions and other behavioral health treatment settings. The most current screening, assessment, treatment planning and documentation approaches are covered.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 404 Cognitive and Behavioral Counseling II 3.0 Credits

This course extends BACS 304 by deepening the exploration of cognitive-behavioral therapy theory and methods. More emphasis and developing skills in conceptualization and treatment. Some focus on how clients can manage anger better and how therapists can take care of themselves appropriately.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: BACS 304 [Min Grade: C]

BACS 405 Family-Focused Interventions 3.0 Credits

This course gives students the knowledge, skills and attitudes to: identify and overcome the barriers that prevent family members from being full partners in the mental health treatment of their family member; define family from a culturally competent perspective; and provide mental health intervention in full partnership with families.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 410 Child and Adolescent Support 3.0 Credits

This course is based on the principles of Child and Adolescent Service System Program (CASSP). The course gives students the knowledge, skills important to implementing a comprehensive care system for families and their children endorsed by the Commonwealth of Pennsylvania.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 411 Forensic Behavior Health Service 3.0 Credits

The intersection between law and behavioral health services in the focus of this course. Topics include: the criminal justice system, criminal thinking, community and ethical barriers, biopsychosocial models that are specific to the forensic client and the growing base of knowledge about community corrections.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 412 Group Counseling II 3.0 Credits

This is an advanced course in the facilitation of group processes, with an emphasis on group counseling. The course provide skills in group facilitation including application of theory, tracking process and initiating interventions, working with special populations, incident management, treatment planning processes, and recording progress.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 414 Co-Occurring Disorders 3.0 Credits

This course introduces an integrated treatment approach for working with individuals who have both mental illness and substance use disorders. Topics include: assessment and treatment planning, strategies for coordinating dual interventions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 420 Psychiatric Rehabilitation Competencies 3.0 Credits

The purpose of this advanced course is to help students develop the competencies necessary to implement the principles and practices of Psychiatric Rehabilitation. This is accomplished by engaging the student in an in-depth analysis of the tools and processes used to bring about outcomes related to community integration and the life quality.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

BACS 490 Senior Research Project 3.0 Credits

The students, with faculty supervision, plan and execute a term project that will integrate the academic and practical knowledge the students have acquired in their curriculum. The students develop objectives relevant to the project, critique the literature, present a plan for implementation, and complete the term project. May be repeated twice for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 6 credits

BACS 499 Readings in Behavioral Health 1.0-6.0 Credit

This course is designed to allow upper-class students to pursue specialized interest in specific topics in behavioral health science. May be repeated three times for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 9 credits

Cardiovascular Perfusion

Courses

CVPT 101 Perfusion Technology I 3.0 Credits

In Perfusion Technology I, the student is introduced to the various components that comprise the perfusion hardware, such as perfusion pumps, oxygenators, tubing packs and ancillary equipment used in CPB circuits. In this course, students receive extensive wet-lab experience and should be able to demonstrate a pump set-up.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CVPT 289 Cardiac Anatomy and Physiology 4.0 Credits

Cardiac Anatomy and Physiology expands knowledge learned in basic anatomy and physiology coursework. Explores the structure and mechanisms by which the cardiovascular system functions in relation to other organ systems, with an emphasis on how cardiopulmonary bypass alters normal function.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CVPT 293 Basic Surgery and Monitoring 3.0 Credits

Basic Surgery and Monitoring introduces basic surgical aspects, including sterile and aseptic techniques, interrelationships of various personnel in the operating room and various surgical techniques as they relate to perfusion. Explores all facets of patient monitoring, with an emphasis on changes associated with the conduct of perfusion.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CVPT 295 Clinical Practicum I 4.0 Credits

Clinical Practicum I exposes students to the operating room, where their primary responsibilities are observing and assisting senior students and staff perfusionists. Provides experience including pump set-up, handling case records, gathering lab data, and limited perfusion management.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CVPT 300 Clinical Practicum II 6.0 Credits

Clinical Practicum II is a course focused entirely on clinical perfusion. Includes responsibility for pump set-up and cardiopulmonary bypass case management. Includes close supervision for each individual case.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CVPT 295 [Min Grade: D]

CVPT 305 Pediatric Clinical Practicum 2.0 Credits

Pediatric Clinical Practicum examines the differences among adult, infant and neonate perfusion methods during a one-month rotation to Children's Hospital of Philadelphia. Emphasizes circuit preparation, priming volumes, flow rates and hemodynamic changes, pharmacological agents, direct visualization of various congenital anomalies and surgical corrections.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CVPT 307 [Min Grade: D] and CVPT 330 [Min Grade: D]

CVPT 307 Clinical Practicum III 6.0 Credits

Clinical Practicum III provides clinical work aimed at increasing the level of proficiency in the conduct of patient perfusion. Under supervision, students are responsible for all aspects of clinical perfusion and are exposed to specialized techniques and adjunctive technology used for cardiopulmonary bypass.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CVPT 300 [Min Grade: D]

CVPT 310 Perfusion Technology II 4.0 Credits

Perfusion Technology II reinforces the operating room techniques observed in CVPT 295 in a classroom setting. Examines ancillary and perfusion support systems, including ventricular-assist devices, extracorporeal membrane oxygenation, CPS, intra-aorta Balloon pumps and others.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CVPT 101 [Min Grade: D]

CVPT 320 Physiologic Management of Bypass 4.0 Credits

Physiologic Management of Bypass provides an understanding of the many physiologic changes that occur during bypass and a method for safely and effectively addressing these changes. Emphasis is placed on hemodynamics, fluid balance, blood coagulation and electrocardiographic activity as they apply to perfusion.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CVPT 330 Cardiovascular Pathology 4.0 Credits

Cardiovascular Pathology provides an understanding of pathological conditions that exist in all organ systems, with special emphasis on the cardiovascular system. Discusses both acquired and congenital defects, with attention given to pathological conditions requiring cardiopulmonary bypass.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CVPT 320 [Min Grade: D]

CVPT 340 Cardiovascular Pharmacology 4.0 Credits

Cardiovascular Pharmacology details the various pharmacologic interventions used for cardiovascular patients, highlighting their classification, dosage, site of action, duration of action, interactions with other drugs, precautions and side effects.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CVPT 289 [Min Grade: D]

CVPT 350 Clinical Practicum IV 12.0 Credits

Clinical Practicum IV is designed to complete the students' clinical experience. Expects students, under staff supervision at all times, to act as though unsupervised in all routine cardiovascular procedures. Allows the operation of complex devices as well as student participation in emergency procedures.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CVPT 307 [Min Grade: D]

CVPT 360 Cardiac Surgical Practicum 2.0 Credits

A multi-faceted course incorporating many of the disciplines found in an acute care setting. Rotations include the following observational areas: catheterization lab, recovery room, anesthesia, intra-aortic balloon pumps, surgical assisting and ventricular assist devices.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CVPT 365 [Min Grade: D]

CVPT 365 Clinical Practicum V 12.0 Credits

Clinical Practicum V is an advanced course designed to focus on the initiation and discontinuation of cardiopulmonary bypass. Interaction with the surgeon and anesthesiologist is essential and proper communication skills are developed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CVPT 350 [Min Grade: D]

CVPT 370 Clinical Practicum VI 10.0 Credits

Clinical Practicum VI is an advanced course designed to focus on the patient's hemodynamic status during the preoperative, perioperative, and post operative time periods. The student is educated in proper drug and fluid administration. EKG rhythms are assessed in conjunction with post operative expectations and heart function.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CVPT 365 [Min Grade: D]

CVPT 375 Clinical Practicum VII 10.0 Credits

Clinical Practicum VII is an advanced course designed to prepare the student for handling complications which may occur during an open heart procedure. Senior students are involved in simulations which mimic actual clinical situations/problems. The students utilize their clinical experience and knowledge base to assess the operating room situations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CVPT 370 [Min Grade: D]

Health & Society

Courses

HLSO 101 Intro to Health & Society 1.0 Credit

Designed as an introduction to health and health care beyond the clinical environment, this course introduces students to the intersection of health and society by means of weekly lectures on various aspects of health and health care in relation to societal concerns and needs.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

HLSO 301 Rhetoric and Reality of Health Care 3.0 Credits

The dissemination of information on health care and the language involved in the information are key factors in determining how the individual responds to health-care issues and treatment. This course will examine the nature of rhetoric as it influences health-care decisions at a societal and at an individual level.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HLSO 302 Consumer-Driven Health Care 3.0 Credits

This course focuses on how market economics and personal responsibility combine to drastically change health-care insurance saving, utilization, and satisfaction. Effects on employers, health-care providers, hospitals, and insurers are examined.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HLSO 303 Urban Health Care 3.0 Credits

Using an ecological model to analyze the special needs and issues in urban health care, students will examine the people, place, and politics of an urban area to assess the delivery and quality of health care and will complete an analysis of a real and current urban health care delivery problem, including solutions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HLSO 304 Health Care and Quality Improvement 3.0 Credits

Quality Improvement (QI) is a critical component of the health-care delivery system in the United States. Because errors and reliability issues have major implications, standards and measures are imperative to ensure consistency and safety. As such, this course examines existing program in place and best-industry practices.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HLSO 305 Health Promotion and Wellness 3.0 Credits

Students will study the seminal international and U.S. documents that founded the health-promotion and wellness movement and will examine the use of health promotion in improving the health of individuals, groups, communities, and populations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HLSO 306 Human Services & Health Systems 3.0 Credits

This course introduces existing health-care systems in the United States and globally in terms of the human services that support and are supported by those systems and the effect of human services on those systems and vice versa.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HLSO 307 Disaster Planning and Health Care 3.0 Credits

This course examines the unique challenges to managers of health-care institutions, in-patient populations, providers of care, and the public health and safety systems during a disaster, as well as the complex relationships between and among government officials, first responders, and the public regarding disaster planning and during a crisis.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HLSO 308 Concepts of Injury Prevention 3.0 Credits

This course focuses on the epidemiology of injury prevention and control in the public sector. Mechanisms of injury and risk factors for accidental injury and death are examined. Various prevention strategies are reviewed, as is a look to the future of injury prevention.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HLSO 309 Health Fads, Trends & Myths 3.0 Credits

We are part of a society bombarded with fads, trends, and myths of all types, and health care is no exception. Distinguishing one from the other is a tricky business. This course will help separate fads from both trends and myths and all three from evidence-based therapies.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HLSO 310 Children & Health Care 3.0 Credits

This course will focus on a range of issues facing the health-services industry in providing care to children with the goal of better understanding and meeting the special needs and challenges from both a direct care and systematic point of view.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HLSO 313 AIDS, Society & Health Care 3.0 Credits

This course will look at the impact of HIV/AIDS on health care from a patient, provider, societal, and systems perspective. We will address how this local and national global pandemic affects societies and health services throughout the world.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

HLSO 314 Human Sexuality & Health Care 3.0 Credits

This course explores human sexuality in relation to individual and societal attitudes and examines the role of health care in effectively dealing with and treating issues arising from human sexual dysfunctions, diseases, myths, phobias, and other concerns.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HLSO 319 Health Care Legislation 3.0 Credits

This course will examine the major roles played by local, state, and federal governments in the funding, delivery, oversight, and evaluation of health care services. The rationale, history, and current examples of how localities protect the public health are given.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HLSO 320 Individual and Health Care Politics 3.0 Credits

Health care policy can easily become questions of statistics and spreadsheets that obscure their origins in individual experience. Drawing upon a series of personal essays, this course will discuss the power of first-hand experience in shaping health care discourse.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HLSO 321 Health Issues and the Environment 3.0 Credits

This course provides a general review of the leading environmental health issues of today by identifying historical, political, societal, and medical approaches to safeguarding population health from the environmental, while protecting and preserving the environment.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HLSO 322 Ideologies & Health Care 3.0 Credits

This course will examine the role of political, religious, cultural, and philosophical ideologies on societies -- past and present -- in terms of the nature and delivery of health care, as well as the effects of these ideologies on the health and well-being of the societies as a whole and of the individuals comprising the societies.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HLSO 327 Health & Illness in Film 3.0 Credits

This course analyzes various films with themes and stories related to health and illness in view of conceptual theories on health and illness and copetual elements of film as a representational medium.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HLSO 329 Grief & the Healing Arts 3.0 Credits

Grief is a typical response to loss as, for example, in the loss of a human life, a body part, a former state of existence, or a valued pet. This course will examine grief and the role of the arts as a therapeutic means of dealing with grief and loss both in terms of professional health care giver and the grieving individual.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D] and ENGL 102 [Min Grade: D] and ENGL 103 [Min Grade: D]

HLSO 370 Spec Topics in Health & Society 3.0 Credits

This course covers topics of particular interest in health and society. In different terms, a variety of topics will be presented to the students. Students may repeat the same course, but not the same topic. Students majoring in health and society will have first preference.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated multiple times for credit

Restrictions: Can enroll if classification is Junior or Sophomore or Senior.

Prerequisites: ENGL 101 [Min Grade: D] and ENGL 102 [Min Grade: D]

HLSO 470 Readings in Health & Society 1.0-6.0 Credit

This course is designed to allow approved junior and senior students with cumulative GPA's of at least 3.0 to pursue specialized interests in specific topics in health and society under the supervision of an appropriate faculty member. This course, but not the same topic, may be repeated for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 12 credits

Restrictions: Can enroll if classification is Junior or Senior.

Prerequisites: ENGL 101 [Min Grade: D] and ENGL 102 [Min Grade: D] and ENGL 103 [Min Grade: D]

HLSO 490 Senior Research Project 3.0 Credits

Designed for seniors in Health and Society, the student, in conjunction with a faculty member, selects a topic for a term project integrating knowledge acquired in the curriculum. The student develops objectives relevant to the project, critiques the literature, presents a plan for implementation, and completes the project.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is HLSC and classification is Senior.

Prerequisites: ENGL 101 [Min Grade: D] and ENGL 102 [Min Grade: D] and ENGL 103 [Min Grade: D]

Health Services Administration

Courses

HSAD 125 Medical Terminology 3.0 Credits

This course introduces the language of medicine through an analysis of medical prefixes, suffixes, and root words.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

HSAD 210 Health-Care Ethics I 3.0 Credits

This course addresses introductory concepts and basic issues in health-care ethics. The topics include but are not limited to decision-making, professionalism and advocacy, confidentiality, truth-telling and informed consent.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: C] or ENGL 102 [Min Grade: C] or ENGL 103 [Min Grade: C]

HSAD 309 Advanced Health-Care Ethics 3.0 Credits

This course builds on the foundation provided in Health Care Ethics and discusses such issues as chronic care, end of life, beginning of life, distributive justice and the right to health care.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: HSAD 210 [Min Grade: C]

HSAD 310 Introduction to Health-Systems Administration 3.0 Credits

The course is designed to assist the student in understanding and preparing for the unique challenges presented to managers in a health services administration career. History and current milieu of U.S. health care are considered, as well as the ever changing infrastructure of the health-services industry.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: C] or ENGL 102 [Min Grade: C] or ENGL 103 [Min Grade: C]

HSAD 312 Development of World Health Care 3.0 Credits

This course examines a broad overview of the ongoing development of health-care policies, availability, and philosophy in a cross-section of countries by means of detailed case studies to examine both common and unique challenges and solutions, as well as global responses, to crises, such as plagues, epidemics, and natural disasters.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D] or ENGL 105 [Min Grade: D] or HUM 106 [Min Grade: D]

HSAD 313 Evolution of Health Care in the United States 3.0 Credits

This course will cover the evolution of health care in the U.S. from pre-colonial times to the present by discussing improvements in treatment institutions, modalities, philosophies and access to care, as well as the impact of major events in history on health-care discoveries on the delivery and administration of health services in the United States.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HSAD 315 Interdisciplinary Health Services 3.0 Credits

This course focuses on the role, responsibilities, scope of practice, and special concerns of health-care providers and their disciplines. The concept of interdisciplinary health-care practice is examined, along with basic concepts of teamwork and team formation.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D] or ENGL 105 [Min Grade: D] or HUM 106 [Min Grade: D]

HSAD 316 Health Care across Cultures 3.0 Credits

Living in a pluralistic society poses many challenges and opportunities. This course examines the impact of cultural upon health-care decision. Concepts such as "health," "illness," "culture," "ethnicity," will be analyzed. Traditional and alternative approaches to the delivery of health care will be addressed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D] or ENGL 105 [Min Grade: D] or HUM 106 [Min Grade: D]

HSAD 317 Religious Views on Health Care 3.0 Credits

Addresses the impact of a person's religious beliefs on the need for and delivery of health care. Specific issues will be discussed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D] or HUM 101 [Min Grade: D]

HSAD 318 Health and Vulnerable Populations 3.0 Credits

Vulnerable populations, those with special needs for or barriers to care, have a significant impact upon health care, both in terms of meaning and delivery. This course looks at the meaning of health through the eyes of various distinct vulnerable populations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D] or ENGL 105 [Min Grade: D] or HUM 106 [Min Grade: D]

HSAD 319 Women and the Health Professions 3.0 Credits

This course explores women's early and controversial roles as health-care providers, the influence of government and the church on women, and key contributions by women in the health professions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D] or HUM 101 [Min Grade: D]

HSAD 320 Managed Health Care 3.0 Credits

This course provides the student an opportunity to survey the major concepts and operational considerations of the provision of health-care services in a managed-care environment. The regulatory landscape as well as the physician/patient relationship is considered as a key to understanding the managed health care environment.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D] or ENGL 105 [Min Grade: D] or HUM 106 [Min Grade: D]

HSAD 321 Health-Care Human Resources 3.0 Credits

An introduction to the basic principles of human-resource management and their practical application in today's complex health-care organization. This course examines the role of human resources as a strategic partner within the organization.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: HSAD 310 [Min Grade: C] and HSAD 334 [Min Grade: C]

HSAD 322 Health-Care Law 3.0 Credits

Provides an overview of the major laws affecting health-care professionals and examines the current legal climate in health care.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: C] or ENGL 102 [Min Grade: C] or ENGL 103 [Min Grade: C]

HSAD 323 Health Services and the Elderly 3.0 Credits

This course covers a broad spectrum of health-care issues and concerns facing today's elderly, such as health-care coverage, living arrangements, acute and long-term-illness management, enhanced quality of life issues, and gender-specific health concerns.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D] or ENGL 105 [Min Grade: D] or HUM 106 [Min Grade: D]

HSAD 324 Health Technology and Ethical Responsibility 3.0 Credits

Developments in health care technology challenge many of our common assumptions about basic concepts such as health, disease, and normality. This course encourages students to consider some of the issues raised by changing health technology.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman

Prerequisites: HSAD 210 [Min Grade: C] or PHIL 321 [Min Grade: C]

HSAD 325 Issues in Health Care System 3.0 Credits

This course provides the student with the opportunity to analyze management problems that are of current importance in today's health-care industry on a national and international level.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D] or ENGL 105 [Min Grade: D] or HUM 106 [Min Grade: D]

HSAD 326 Holism and Health Care 3.0 Credits

Details the development of medicine from the late nineteenth century to the present in view of the corresponding rise of interest in a holistic approach to health care by means of alternative and complementary medicine in relation to traditional medical practices.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D] or ENGL 105 [Min Grade: D] or HUM 106 [Min Grade: D]

HSAD 327 Partnerships in Health Care 3.0 Credits

Addresses health service as a collaborative venture identifying the primary stakeholders and partners in the administration of health care including clinicians, administrators, institutions, industry, private and governmental agencies, and the patient. In addition, practical strategies for developing effective partnerships are explored.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D] or ENGL 105 [Min Grade: D] or HUM 106 [Min Grade: D]

HSAD 328 Health Care for Diverse Groups 3.0 Credits

Examines the administration of health services and special needs to different subpopulations classified according to gender, ethnicity, race, weight (the obese), and sexual orientation.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D] or ENGL 105 [Min Grade: D] or HUM 106 [Min Grade: D]

HSAD 329 Health Care and the Media 3.0 Credits

Much of the public's perception of issues in health care comes from the media (newspapers, magazines, television, film, advertising, the internet). The course explores the interactive relationship between health care and the media in presenting information to the public.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 103 [Min Grade: D] or ENGL 105 [Min Grade: A] or HUM 108 [Min Grade: D]

HSAD 330 Financial Management in Health Care 3.0 Credits

Emphasizes basic financial management theory related to the health-care industry, as well as accounting practices for health-care organizations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ACCT 115 [Min Grade: C]

HSAD 331 Non-profits and Health Care 3.0 Credits

Provides an overview of the not-for-profit and advocacy sector of health care, explores business fundamentals and current models, selects a health topic, assesses the market, and assists students in developing their own not-for-profit and/or advocacy business.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: HSAD 310 [Min Grade: C]

HSAD 332 Health-Care Marketing 3.0 Credits

Provides a comprehensive review of marketing's role in the health-care field by examining the history of health-care marketing, the contributions of marketing to the strategic objectives of health-care organizations, and the effects of marketing on public relations and the consumer.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: HSAD 310 [Min Grade: C]

HSAD 333 Health, Illness, and the Arts 3.0 Credits

This course provides the opportunity to examine topics relevant to health and illness as depicted in the arts - primarily literature, film, and painting as well as other arts forms where appropriate.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D] and ENGL 102 [Min Grade: D] and ENGL 103 [Min Grade: D]

HSAD 334 Management of Health Services 3.0 Credits

In this course, students will learn forms and uses of traditional management functions - plan, direct, monitor, evaluate - as well as contemporary functions that are used in an array of health care services organizations. Students match skills and competencies within the respective domains of health services management.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: HSAD 310 [Min Grade: C]

HSAD 335 Health-Care Policy 3.0 Credits

This course provides an introduction to the development and implications of U.S. health-care policy, including key governmental and non-governmental participants and the political process.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: HSAD 310 [Min Grade: C] and PSCI 110 [Min Grade: C]

HSAD 336 Urban Health Care 3.0 Credits

Using an ecological model to analyze the special needs and issues in urban health care, students will examine the people, place, and politics of an urban area to assess the delivery and quality of health care and will complete an analysis of a real and current urban health-care-delivery problem, including solutions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HSAD 337 Health Care/Quality Improvement 3.0 Credits

Quality Improvement (QI) is a critical component of the health-care-delivery system in the United States. Because errors and reliability issues have major implications, standards and measures are imperative to ensure consistency and safety. As such, this course examines existing programs in place and best-industry practices.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HSAD 338 Human Services & Health Systems 3.0 Credits

This course introduces existing health-care systems in the United States and globally in terms of the human services that support and are supported by those systems and the effect of human services on those systems and vice versa.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HSAD 339 Health Care Legislation 3.0 Credits

This course will examine the major roles played by local, state, and federal governments in the funding, delivery, oversight, and evaluation of health-care services. The rationale, history, and current examples of how localities protect the public health are given.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HSAD 340 Leadership in Health Services Administration 3.0 Credits

This course discusses issues in management and leadership in a health-care-administration setting by focusing on alternative organizational structures and the managerial role in these structures, as well as exploring managerial and leadership roles in specific health organizations and project management.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: HSAD 310 [Min Grade: C] and HSAD 334 [Min Grade: C]

HSAD 341 Risk Management in Healthcare Organizations 3.0 Credits

This course is an introduction to risk management in health care. It describes the roles of a risk manager and the risks associated with various health care settings. Regulatory, contractual and medical malpractice exposures are discussed and techniques for controlling and preventing loss are evaluated. Students prepare a risk management plan for a healthcare organization.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

HSAD 342 Children and Health Care 3.0 Credits

This course will focus on a range of issue facing the health-services industry in providing care to children with the goal of better understanding and meeting the special needs and challenges from both a direct care and systematic point of view.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HSAD 343 Health and Illness in Film 3.0 Credits

This course analyzes various films with themes and stories related to health and illness in view of conceptual theories on health and illness and conceptual elements of film as a representational medium.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D] and ENGL 102 [Min Grade: D]

HSAD 344 The Individual and Health Care Politics 3.0 Credits

Health-care policy can easily become questions of statistics and spreadsheets that obscure their origins in individual experience. Drawing upon a series of personal essays published in the journal *Health Affairs* and collected into the volume *Narrative Matters*, this course will discuss the power of first-hand experience in shaping health-care discourse.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ENGL 101 [Min Grade: D]

HSAD 345 Ethics in Health Care Management 3.0 Credits

This course focuses on one aspect of the role of health care management professionals: the ethical dimension. The course combines an understanding of ethical theory with the practical application of ethical principles to management issues that arise in the health care arena. Discussions will be guided by cases drawn from real work experiences.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman

Prerequisites: HSAD 210 [Min Grade: C] or PHIL 321 [Min Grade: C]

HSAD 351 Ethical Issues in Reproduction 3.0 Credits

This course discusses ethical issues concerning human reproduction. The issues span contraception, abortion, assisted reproductive technologies, parenthood, and balancing fetal and maternal interests. Focus is placed on the variety of perspectives on these issues and underlying values.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman

Prerequisites: HSAD 210 [Min Grade: C] or PHIL 321 [Min Grade: C]

HSAD 352 Ethics in Health Care Research 3.0 Credits

This course is designed to familiarize students with some of the ethical issues involved in health-care research. These issues include, but are not limited to, responsible authorship, use of human subjects, use of animals, defining and handling scientific misconduct, confidentiality, and conflicts of interest.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman

Prerequisites: HSAD 210 [Min Grade: C] or PHIL 321 [Min Grade: C]

HSAD 353 Public Health Ethics 3.0 Credits

This course will address ethical issues in public health. Students will be exposed to a variety of views on topics including, but not limited to, human rights, the balancing of individual rights with public interests, managing disasters, epidemics, risky behaviors, and the meaning of health from a population standpoint.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman

Prerequisites: HSAD 210 [Min Grade: C] or PHIL 321 [Min Grade: C]

HSAD 470 Readings in Health-Services Administration 1.0-6.0 Credit

This course is designed to allow juniors and seniors majoring in health-services administration and carrying minimum cum GPAs of 3.0 to pursue specialized interests in specific topics in health-services administration on an independent basis, yet under the direction of program faculty members. Faculty permission is required. May be repeated twice for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 12 credits

Restrictions: Can enroll if classification is Junior or Senior.

Prerequisites: ENGL 103 [Min Grade: D] or ENGL 105 [Min Grade: A] or HUM 108 [Min Grade: D]

HSAD 480 Special Topics in Health-Services Administration 3.0 Credits

This course covers topics of particular interest to students majoring in health-services administration. In different terms, a variety of topics are presented to the students. May be repeated for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated multiple times for credit

Prerequisites: ENGL 103 [Min Grade: D] or ENGL 105 [Min Grade: A] or HUM 108 [Min Grade: D]

HSAD 490 Senior Research Project 3.0 Credits

Designed for the senior in health-services administration, the student, in conjunction with a faculty member, selects a topic for a term project integrating knowledge acquired in the curriculum. The student develops objectives relevant to the project, critiques the literature, presents a plan for implementation, and completes the project.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if classification is Senior.

Prerequisites: ENGL 103 [Min Grade: D] or ENGL 105 [Min Grade: A] or HUM 108 [Min Grade: D]

Health Sciences

Courses

HSCI 201 Health Assessment through the Lifespan 4.0 Credits

Course focuses on health assessment across the lifespan. The focus is on the development of interviewing skills, assessment of health status, and physical examination skills for the beginning health professional student.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 103 [Min Grade: C]

HSCI 204 Clinical Health Informatics 3.0 Credits

This course examines technology and the tools of the Internet, with a focus on the use of cyber-technology and select computer applications. The automation of data management through information systems, expert systems, and telecommunication, and the impact of technology on health care education and research are addressed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CS 161 [Min Grade: C]

HSCI 301 Pharmacology I 3.0 Credits

This course introduces health professional students to the principles of pharmacology and drug therapies, pharmacologic-therapeutic classes of drugs and important drug information resources.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 101 [Min Grade: C] and ANAT 102 [Min Grade: C] and ANAT 103 [Min Grade: C]

HSCI 302 Pharmacology II 3.0 Credits

This course focuses on common drugs used in the treatment of disorders of cardiovascular, renal, respiratory and gastrointestinal systems, anti-infective and anti-inflammatory agents, immune and biologic modifiers and chemotherapeutic agents, and miscellaneous hematologic, dermatologic, ophthalmic, and otic agents.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: HSCI 301 [Min Grade: C]

HSCI 310 Introduction to Clinical Research 4.0 Credits

This course provides a comprehensive introduction to the principals and practices underlying clinical research. Topics to be covered include: the protection of human subjects, scientific misconduct, asking clinical research questions, conducting literature searches, critical appraisal of the health literature, and evidence based practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

HSCI 313 Clinical Trials Protocols 4.0 Credits

Students learn to design and implement a clinical trial protocol. Topics include experimental design, research team member roles and management of clinical trials. Special research techniques for special populations are considered. Means of preventing scientific misconduct through proper monitoring are discussed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: HSCI 310 [Min Grade: C]

HSCI 315 Current Issues in Clinical Research 3.0 Credits

This course is designed to discuss current issues impacting clinical research practice. Topics include ethical issues, scientific issues and operational issues. There is also an opportunity to learn strategies for obtaining a position in clinical research and identify organizations that support clinical research practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: HSCI 313 [Min Grade: C]

HSCI 325 Exercise Physiology 4.0 Credits

This course examines the acute and chronic effects of exercise on human physiology. Topical areas include neuromuscular physiology, cardiopulmonary, energy metabolism, nutrition, exercise evaluation, body composition, exercise prescription, and influence of environmental factors and clinical conditions on response to exercise.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 101 [Min Grade: C] and ANAT 102 [Min Grade: C] and ANAT 103 [Min Grade: C]

HSCI 326 Applied Anatomy and Kinesiology 4.0 Credits

This course applies the foundations of anatomy and physiology to the study of human movement, with emphasis on normal motions of the musculoskeletal system. Topical areas include musculoskeletal anatomy, neuroanatomy, biomechanics, lever systems, and the influence of musculoskeletal disease and injury in normal movement.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 101 [Min Grade: C] and ANAT 102 [Min Grade: C] and ANAT 103 [Min Grade: C]

HSCI 337 Genetics and Health 3.0 Credits

This course discusses the Human Genome Project and how to apply genetic knowledge to patient knowledge and patient care in the following ways: identifying the need for genetic testing, obtaining and recording information, and supporting choice by patients about genetic issues.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: BIO 122 [Min Grade: C] and BIO 124 [Min Grade: C] and BIO 126 [Min Grade: C]

HSCI 415 Musculoskeletal Pathophysiology 4.0 Credits

Introduction to the study of diseases, disorders and injuries of the musculoskeletal system. The biomechanics of connective tissue and basic science of inflammation, repair, regeneration and fibrosis are discussed. Students learn the pathogenesis, pathophysiology and clinical presentation of selected musculoskeletal disorders. The concepts of epidemiology and risk factors are considered.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 101 [Min Grade: C] and ANAT 102 [Min Grade: C] and ANAT 103 [Min Grade: C]

HSCI 430 Developmental Anatomy 4.0 Credits

This course expands upon the student's knowledge of anatomy by describing the events involved in the formation of organ systems in the developing human. The laboratory portion of the course examines congenital defects of the systems and discusses possible causes and treatments from a clinical perspective.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 101 [Min Grade: C] and ANAT 102 [Min Grade: C] and ANAT 103 [Min Grade: C]

HSCI 470 Readings in Health Sciences 1.0-6.0 Credit

This course is designed to allow upper-class student to pursue specialized interests in specific topics in the health sciences. May be repeated twice for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 12 credits

Restrictions: Can enroll if classification is Junior or Senior.

HSCI 480 Special Topics in Health Sciences 1.0-12.0 Credit

This course covers topics of a particular interest to students in health sciences. In different terms, a variety of topics are presented to the students.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 4 times for 24 credits

HSCI 490 Senior Research Project 3.0 Credits

In this course, the student, with faculty supervision, selects a topic for a term project that integrates the academic and practical knowledge the student has acquired in his/her curriculum. The student develops objectives relevant to the project, critiques the literature, presents a plan for implementation, and completes the term project.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if classification is Senior.

Invasive Cardiovascular Technology

Courses

ICVT 300 Introduction to Cardiology 3.0 Credits

This course is designed to provide an introduction to the cardiology environment. It includes medical terminology, confidentiality, professionalism, patient's rights, medical ethics, universal precautions, and communications skills in cardiology.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

ICVT 302 Cardiovascular System 2.0 Credits

This course will review basic information about the functioning of the heart and lungs as it is applied to clinical practice. A complete description of the cardiovascular system to include blood circulations, embryological development and the pulmonary system will be discussed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 103 [Min Grade: C]

ICVT 303 Patient Assessment I 3.0 Credits

This course will allow the student to gain experience in recognizing and evaluating laboratory blood gases, hematology, coagulation and acid base disturbance as they relate to the needs of the cardiovascular patient. It will focus on "normal" and "abnormal" values associated with the diagnosis, treatment and prevention of cardiac episodes.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ICVT 302 [Min Grade: C]

ICVT 304 Cardiac Laboratory Procedures 3.0 Credits

Introduction to the diagnostic procedures used in the Cardiac Catheterization Laboratory. Prior didactic instruction in cardiac anatomy and physiology and medical instrumentation will be applied.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ICVT 302 [Min Grade: C]

ICVT 305 Coronary Anatomy & Imaging 2.0 Credits

Discusses the anatomy of coronary arteries. It will review radiation production, x-ray beam characteristics, film-screen characteristics, film processing and imaging system performance.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ICVT 302 [Min Grade: C]

ICVT 306 ECG & Special Topics 4.0 Credits

This course presents the electrocardiography theory and principles necessary to recognize and evaluate ECG data from a real-time monitor, 12 lead electrocardiogram. Included is a detailed examination of the hearts cellular mechanisms, conduction pathology and the disease process responsible for irregularities of heart rhythm.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ICVT 302 [Min Grade: C]

ICVT 308 Cardiovascular Angiography 3.0 Credits

This course will expand on information learned in Cardiac Laboratory Procedures. It will emphasize advanced cardiovascular diagnostic and therapeutic procedures to include injection techniques, Intra-aortic balloon pumping, and Percutaneous Transluminal Coronary Angioplasty (PTCA) and patient closure devices.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ICVT 304 [Min Grade: C] and ICVT 305 [Min Grade: C] and ICVT 306 [Min Grade: C]

ICVT 309 Hemodynamic Data I 4.0 Credits

Students are introduced to the primary hemodynamic formula's associate with monitoring and evaluation of the cardiovascular patient. Hemodynamic monitoring skills, basic hemodynamic calculations, arrhythmia recognition and reports generated on a variety of physiological monitoring systems are presented in detail.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ICVT 306 [Min Grade: C] and ICVT 304 [Min Grade: C]

ICVT 310 Radiation Safety & Equipment 3.0 Credits

This course enables student radiographers to strengthen their competencies with issues related to radiation protection. The student will continue to evaluate such topics as radiobiology, radiation quantities, units and standards for radiation protection.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

ICVT 311 Patient Assessment II 2.0 Credits

A continuation of patient assessments I, providing a solid theory base for the delivery of safe patient care in potentially unstable or unpredictable situations is the focus of this course. Documentation within the catheterization laboratory will be revisited along with continued discussion of procedures, protocols and patient education.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ICVT 303 [Min Grade: C]

ICVT 312 Clinical Practicum I 8.0 Credits

This clinical course is designed to allow the student to gradually gain experience in assisting the cardiologist to perform diagnostic cardiac catheterization procedures and hemodynamic calculations. Some or all pre-requisites may be taken as either a pre-requisite or co-requisite. Please see the department for more information.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ICVT 309 [Min Grade: C] (Can be taken Concurrently)ICVT 303 [Min Grade: C] and ICVT 304 [Min Grade: C] and ICVT 305 [Min Grade: C] and ICVT 306 [Min Grade: C]

ICVT 406 Disease & Medical Emergencies 3.0 Credits

This course explains etiology, pathophysiology, and clinical findings associate with myocardial infarction, coronary artery, valvular and aortic diseases, and presents a detailed examination of congenital heart defects and hereditary disease process.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ICVT 412 [Min Grade: C] and HSCI 301 [Min Grade: C]

ICVT 407 Cardiovascular Review I 4.0 Credits

In this course, students will evaluate and review certification requirements. Student's will gain insight into their strengths and weaknesses associated with the certification requirement. Students will also form a directed plan of study to prepare for the CCI/RCIS or ARRT/CI examination.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ICVT 409 [Min Grade: C] and ICVT 412 [Min Grade: C] and HSCI 301 [Min Grade: C]

ICVT 409 Hemodynamic Data II 3.0 Credits

This is a continuation of hemodynamic data I. The student will have further development in hemodynamics monitoring and calculations. This course will expand on student's knowledge of ventricular function, thermodilution methods, ejection fraction, regurgitant fraction and other formulas utilized within the catheterization.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ICVT 309 [Min Grade: C] and ICVT 312 [Min Grade: C]

ICVT 410 Cardiovascular Review II 5.0 Credits

This course is a continuation of ICVT 407 with emphasis on additional evaluate and review certification requirements.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Corequisites: HSCI 302, ICVT 432

ICVT 411 Special Topics in Cardiology 2.0 Credits

This course covers topics of particular interest to students in cardiovascular health science. In different terms, a variety of topics will be presented to the students.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

ICVT 412 Clinical Practicum II 8.0 Credits

A continuation of Clinical Practicum I, with emphasis and understanding of all clinical duties involved within the cardiovascular area to include additional knowledge of aseptic techniques.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ICVT 309 [Min Grade: C] and ICVT 312 [Min Grade: C]

ICVT 422 Clinical Practicum III 10.0 Credits

A continuation of Clinical Practicum II, with emphasis and understanding of all clinical duties involved within the cardiovascular area to include additional knowledge of aseptic techniques.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ICVT 412 [Min Grade: C] and ICVT 409 [Min Grade: C]

ICVT 432 Clinical Practicum IV 8.0 Credits

A continuation of Clinical Practicum III, students will continue to develop skill by active participation in a cardiac catheterization laboratory.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ICVT 407 [Min Grade: C] and ICVT 422 [Min Grade: C]

Corequisites: HSCI 302, ICVT 410

Medical Billing & Coding

Courses

MBC 101 Medical Terminology for Billers and Coders 3.0 Credits

This course covers medical terminology and anatomy from a biller's and coder's perspective and provides a foundation for courses in medical billing and coding.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

MBC 201 Medical Billing I 3.0 Credits

Designed as part one of a two-part sequence, this course is intended for those who have no experience or minimal experience with medical billing. The student will learn principles of medical billing related to proper claim form preparation, submission, and payment processing.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

MBC 202 Medical Billing II 3.0 Credits

Designed as part two of a two part sequence, this course is intended for those who have completed MBC 201 and who are seeking further knowledge of medical billing.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: MBC 201 [Min Grade: D] or HSAD 201 [Min Grade: D]

MBC 250 Medical Billing Software 3.0 Credits

This course takes the theory learned in Medical Billing I and II and applies it to billing software applications. Charge entry, payment posting, report design, and generation are covered.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: MBC 202 [Min Grade: D] or HSAD 202 [Min Grade: D]

MBC 301 Physician-Based Medical Coding I 3.0 Credits

Designed as part one of a two-part sequence, this course teaches the principles of medical coding related to the three main coding manuals and can prepare the student to sit for one of the two national board exams in medical coding.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: MBC 202 [Min Grade: D] or HSAD 202 [Min Grade: D]

MBC 302 Physician-Based Medical Coding II 3.0 Credits

Designed as part two of a two-part sequence, this course continues instruction in the principles of medical coding related to the three main coding manuals, as well as preparing the students to sit for one of the two national board exams in medical coding.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: MBC 301 [Min Grade: D] or HSAD 301 [Min Grade: D]

MBC 303 Hospital-Based Medical Coding I 3.0 Credits

Designed as part one of a two-part sequence, this course teaches the principles of hospital-based medical coding related to the coding for in-patient hospital cases by means of the main coding manuals, as well as helping to prepare the student to sit for one of the two national board exams in medical coding.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: MBC 301 [Min Grade: D] or HSAD 301 [Min Grade: D]

MBC 304 Hospital-Based Medical Coding II 3.0 Credits

Designed as part two of a two-part sequence, this course continues instruction in the principles of hospital-based medical coding related to the coding for in-patient and out-patient hospital cases by means of the main coding manuals, as well as helping to prepare the students to sit for one of the two national board exams in medical coding.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: MBC 303 [Min Grade: D] or HSAD 303 [Min Grade: D]

MBC 350 Physician-Based Chart Auditing 3.0 Credits

This course applies knowledge learned in Physician-Based Medical Coding I and II to auditing patient-visit documentation. Use of various audit tools and software will be explored in addition to preparing a presentation of audit results to physician and staff.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: MBC 302 [Min Grade: D] or HSAD 302 [Min Grade: D]

MBC 360 Hospital-Based Case Studies 3.0 Credits

This course applies knowledge learned in Hospital Based Medical coding I and II and applies it to actual coding of case studies for the hospital in-patient and out-patient setting, as well as providing additional preparation for hospital-based coding certification credentials.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: MBC 304 [Min Grade: D] or HSAD 304 [Min Grade: D]

Neuroscience

Courses

NEUR 410 Neuroscience 4.0 Credits

This course is designed to provide the student with a strong foundation in the structure and function of the nervous system. Clinical correlations are provided throughout the course to underscore the necessity for understanding the material for effective clinical practice and to provide a neurophysiological basis for various pathological conditions commonly encountered in the practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 103 [Min Grade: D]

Nutrition & Food Science

Courses

NFS 100 Nutrition, Foods, and Health 2.0 Credits

Covers the six nutrient categories and how they function in the body. Includes nutritional implications of major diseases, food safety issues, and current food and nutrition controversies with an emphasis on personal health.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 101 Introduction to Nutrition & Food 3.0 Credits

Provides basic understanding of required nutrients and how they are used in the body. Students complete a computerized nutrient analysis and apply the science of nutrition and food to food choices to improve their personal health.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 111 Introduction to Dietetics 2.0 Credits

A survey of the dietetics field with emphasis on the role of the Registered Dietetics in practice. Discussion of current professional issues including evidence-based practice and the nutrition care process.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is DIET or major is HNUT.

NFS 200 Nutrition I: Principles of Nutrition 4.0 Credits

Covers principles of human nutrition, including energy metabolism. Covers physiological mechanisms and food sources of carbohydrates, lipids, proteins, vitamins, and minerals in relation to optimal human health.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: CHEM 103 [Min Grade: D]

NFS 203 Nutrition II: Nutrition in the Lifecycle 4.0 Credits

Covers nutrition in human life cycles with emphasis on prenatal, maternal, infant, childhood, adolescent, adulthood and later maturity. Also covers nutrient requirements and typical health and disease problems of each stage of the life span. Laboratory activities provide application of nutrition topics in preventive health activities related to the life span, with emphasis on diet-evaluation techniques.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman

Prerequisites: NFS 200 [Min Grade: D] or BIO 121 [Min Grade: D] or NFS 101 [Min Grade: D] or NFS 230 [Min Grade: D]

NFS 205 Introduction to Human Lactation 3.0 Credits

This course will provide a foundation in breastfeeding and human lactation, including breastfeeding education and promotion during the prenatal period, successful initiation of breastfeeding, prevention of many common pitfalls, and ongoing breastfeeding support. This course covers the fifteen specific areas required by Baby Friendly USA for all nurses working in prenatal and perinatal areas in Baby-Friendly Hospitals.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 215 Nutritional Chemistry 3.0 Credits

Covers the chemistry of carbohydrates, lipids, proteins, and nucleic acids and their behavior in the body's major metabolic mechanisms, including the role of vitamins and minerals in enzyme systems critical to normal human nutrient metabolism.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman

Prerequisites: CHEM 103 [Min Grade: D]

NFS 216 Nutrition and the Schoolchild 3.0 Credits

A course designed for future elementary school teachers to increase their knowledge of childhood nutrition as it relates to health promotion, health maintenance, and the prevention and treatment of nutritionally relevant health abnormalities in elementary school students. The scientific basis of nutrition and principles of education are emphasized. Some or all pre-requisites may be taken as either a pre-requisite or co-requisite. Please see the department for more information.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: BIO 102 [Min Grade: D] (Can be taken Concurrently)

NFS 217 Nutrient Quality & Composition 1.0 Credit

Applications of principles of nutritional chemistry involving macronutrients and micronutrients.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman

Prerequisites: CHEM 103 [Min Grade: D]

Corequisite: NFS 215

NFS 220 Normal & Lifespan Nutrition 4.0 Credits

Builds on basic nutrition principles to include nutrient metabolism and chemical and biological aspects of nutrition. Addresses special nutrient needs of people through the life cycle.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 230 Intermediate Nutrition 4.0 Credits

The role of nutrients in body structure and function. Factors involved in the availability, digestion, absorption, and utilization of nutrients. Identification of the normal nutritional needs of individuals, and sources of nutrients.

The interpretation of current research in nutritional studies.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if major is NURS

Prerequisites: BIO 121 [Min Grade: D] or NFS 101 [Min Grade: D]

NFS 265 Professional Issues in Nutrition and Foods 3.0 Credits

Introduces professional issues in dietetics, food science, and nutrition science. Covers issues affecting current and future practice, and resources available to professionals in these fields.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman

Prerequisites: BIO 121 [Min Grade: D] or BIO 115 [Min Grade: D]

NFS 310 Nutrition and Sports 3.0 Credits

After reviewing the fundamental processes of nutrition and human development, the course applies principles of nutrition to athletic conditioning, performance, and rehabilitation from sports-related injuries. Identifies evidence based recommendations for nutritional needs of today's athlete and explores the validity of sport diet fads. Development cycle of the recreational, amateur, and competitive athlete.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if classification is Senior.

NFS 315 Nutrition in Chronic Disease 4.0 Credits

This course provides a basic understanding of nutrition therapy and its role in the prevention and treatment of medical conditions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NFS 200 [Min Grade: D] or NFS 230 [Min Grade: D] or BIO 121 [Min Grade: D] or NFS 100 [Min Grade: D] or NFS 101 [Min Grade: D]

NFS 320 Pediatric Nutrition 4.0 Credits

This course provides an overview of pediatric nutrition assessment, as well as nutrition therapy and its role in the prevention and treatment of medical conditions found in the newborn through adolescent.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NFS 200 [Min Grade: D] or NFS 230 [Min Grade: D] or BIO 121 [Min Grade: D] or NFS 100 [Min Grade: D] or NFS 101 [Min Grade: D]

NFS 325 Nutrition & Exercise Physiology 3.0 Credits

An advanced level course covering nutrient needs to maximize exercise performance. Energy metabolism, with emphasis on macronutrient and micronutrient needs during different levels of exercise will be emphasized. Benefits of exercise in the prevention and treatment of chronic diseases and the safety of ergogenic aids will be discussed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NFS 100 [Min Grade: D] or NFS 101 [Min Grade: D] or BIO 121 [Min Grade: D] or NFS 200 [Min Grade: D] or NFS 230 [Min Grade: D]

NFS 345 Foods and Nutrition of World Cultures 3.0 Credits

Provides an understanding of the diversity of cultural food choices and their nutritional implications. Includes an emphasis on cultural groups in the United States and methods to provide nutrition education to culturally diverse groups.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman

Prerequisites: COM 345 [Min Grade: D]

NFS 365 [WI] Nutrition Laboratory: Food and Nutrient Analysis 4.0 Credits

Provides quantitative study of metabolism and observable effects of nutrient factors (vitamins, minerals, fats, carbohydrates, and proteins), using foods. This is a writing intensive course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman

Prerequisites: NFS 215 [Min Grade: D] or BIO 311 [Min Grade: D]

NFS 370 Foodservice Systems Management 4.0 Credits

In-depth analysis of food purchasing, financial management of foodservices, cost controls, marketing in foodservice, equipment layout and design, and management/leadership theories and applications.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman or Sophomore

Prerequisites: HRM 215 [Min Grade: D] and HRMT 323 [Min Grade: D]

NFS 371 Institutional Organization and Administration 3.0 Credits

Covers organization, administration, and application of managerial techniques in food-service systems; personnel training; job and person analysis; and morale and motivation. Includes field trips to food-service systems.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman

NFS 391 Community Nutrition 4.0 Credits

Studies nutrition services provided by national, state, and local governments and private organizations. Discusses nutritional needs-assessment techniques and program-development methods. Field trips will be made to community nutrition programs.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman or Junior or Pre-Junior or Sophomore

Prerequisites: NFS 203 [Min Grade: D] and PSY 320 [Min Grade: D]

NFS 415 Advanced Nutrition I: Macronutrition 4.0 Credits

Covers biochemical and physiological topics of macronutrient metabolism, with emphasis on ingestion, digestion, absorption, and excretion of carbohydrate, protein, and lipid.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman

Prerequisites: (NFS 200 [Min Grade: D] or NFS 230 [Min Grade: D]) and NFS 215 [Min Grade: D] and NFS 217 [Min Grade: D] and BIO 154 [Min Grade: D]

NFS 416 Advanced Nutrition II: Micronutrients 4.0 Credits

Provides in-depth study of vitamin and mineral absorption, metabolism, and degradation, with an emphasis on human health requirements and a thorough understanding of nutrient and dietary requirements.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman

Prerequisites: NFS 415 [Min Grade: D]

NFS 431 Nutrition Counseling 4.0 Credits

Emphasizes nutrition-counseling techniques for use with individuals and small groups. Includes development of nutrition education materials as well as verbal and non-verbal communication skills.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NFSC and classification is Senior.

Prerequisites: NFS 443 [Min Grade: D] and PSY 342 [Min Grade: D]

NFS 443 Medical Nutrition Therapy I 3.0 Credits

First of a three-course sequence examining the interrelationships of physiology, biochemistry, and nutrition as related to medical nutrition therapy. Emphasizes nutritional assessment and the role of nutrition in preventing and treating diseases/disorders: gastrointestinal diseases, diabetes, obesity, and cardiovascular disease.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman or Junior or Pre-Junior or Sophomore

Prerequisites: NFS 416 [Min Grade: D]

NFS 444 Medical Nutrition Therapy II 3.0 Credits

Second of a three-course sequence examining the interrelationships of physiology, biochemistry, and nutrition as related to medical nutrition therapy. Emphasizes nutrition assessment and the role of nutrition in preventing and treating disease/disorders; disease of the liver, pancreas, and gallbladder; pulmonary disease; renal disease; cancer; HIV/AIDS; allergies, pediatric disease; and metabolic disturbances.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman or Junior or Pre-Junior or Sophomore

Prerequisites: NFS 443 [Min Grade: D]

NFS 445 Medical Nutrition Therapy III 3.0 Credits

Third of a three-course sequence examining the interrelationships of physiology, biochemistry, and nutrition as related to severe/stressful conditions which require enteral or parenteral nutrition or other advanced medical nutrition therapies.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman or Junior or Pre-Junior or Sophomore

Prerequisites: NFS 444 [Min Grade: D]

NFS 446 Perspectives in World Nutrition 3.0 Credits

Examines world nutrition and food supply, including the nutritional status of various peoples, deficiency diseases, problems of food distribution, and other timely subjects.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman

NFS 475 Advanced Seminar in the Dietetics Profession 3.0 Credits

Reviews, evaluates, and synthesizes contemporary professional issues in dietetics.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Cannot enroll if classification is Freshman or Junior or Pre-Junior or Sophomore

Prerequisites: (NFS 154 [Min Grade: D] and NFS 203 [Min Grade: D] and NFS 400 [Min Grade: D]) or (NFS 150 [Min Grade: D] and NFS 152 [Min Grade: D] and NFS 203 [Min Grade: D] and NFS 400 [Min Grade: D])

NFS 480 Special Studies in Nutrition and Food 12.0 Credits

Covers selected topics of interest. May be repeated for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated multiple times for credit

Restrictions: Cannot enroll if classification is Freshman

NFS 494 Senior Project I 2.0 Credits

First in a series of capstone courses in which student carry out the research process. In NFS 494, students work cooperatively to identify an applied, discipline oriented problem and then develop research hypotheses and a written research proposal in response to that problem.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NFSC and classification is Senior.

NFS 495 Senior Project II 2.0 Credits

Second in a series of capstone course in which students carry out the research process. In NFS 495, students work cooperatively to carry out the research objectives according to the research proposal developed in NFS 494.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NFS 494 [Min Grade: D]

NFS 496 Senior Project III 2.0 Credits

Third in a series of capstone course in which students carry out the research process. In NFS 496, students work cooperatively to document the finding of their research in NFS 495. Students make oral and poster presentations as well as produce a written report of their research results.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NFS 495 [Min Grade: D]

NFS 497 Research 1.0-3.0 Credit

Provides individual research in nutrition under faculty supervision.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 9 credits

Restrictions: Cannot enroll if classification is Freshman

NFS 498 Independent Study 1.0-3.0 Credit

Provides individual study or research in nutrition under faculty supervision.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 9 credits

Restrictions: Cannot enroll if classification is Freshman

Nursing

Courses

NURS 104 Ethics, Advocacy and Professionalism in Nursing III 1.0 Credit

The purpose of the third part of this course is to focus on the practical application of redefining nursing, healthcare and medication errors, medication diversion, and end of life issues. These concepts will be introduced and examined as they relate to the student's professional growth.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: NURS 103 [Min Grade: D]

NURS 110 Essentials of Relationship-Based Professional Nursing Practice 4.0 Credits

This course provides students with the tools, strategies, and resources inherent in relationship-based professional nursing practice. This course focuses on exploring the historical context of nursing, introducing the IOM core competencies, and examining the role of the professional nurse in today's healthcare environment.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NACE or major is NURS.

Prerequisites: ANAT 102 [Min Grade: D] (Can be taken Concurrently)ANAT 101 [Min Grade: D] and ENGL 102 [Min Grade: D]

NURS 112 Relationship-Based Health Assessment & Promotion 5.0 Credits

This course focuses on establishing the professional nurse / patient relationship-based care that promotes and assesses health within the adult population. Special emphasis is placed on screening for health risks identified by national goals and population trends. The student develops physical assessment skills applicable to professional practice and incorporates health promotion activities associated with the guidelines established by Healthy People 2020.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NACE or major is NURS.

Prerequisites: NURS 110 [Min Grade: D] (Can be taken Concurrently)ANAT 101 [Min Grade: D] and ANAT 102 [Min Grade: D] and BIO 226 [Min Grade: D]

NURS 200 Principles of Nursing Practice 6.0 Credits

This course will focus on the concepts, skills, and the attitudes fundamental to professional nursing practice within a framework of clinical decision-making. Some or all pre-requisites may be taken as either a pre-requisite or co-requisite. Please see the department for more information.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NACE or major is NURS.

Prerequisites: ANAT 103 [Min Grade: D] and BIO 226 [Min Grade: D]

Corequisites: INFO 204, NURS 112

NURS 204 Nursing Informatics 3.0 Credits

This course is designed to examine computer technology and tools of the Internet and World Wide Web with a focus on the use of cyber technology and selected computer applications. The automation of data management through information systems, expert systems, and telecommunication, and the impact of these technologies on nursing administration, education, practice and research are addressed in the context of nursing informatics. Actual problem-solving and mini-design projects on how computerization and automation can improve the efficiency of nursing care delivery will be emphasized.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 100 [Min Grade: D] and NURS 102 [Min Grade: D] and CS 161 [Min Grade: D]

Corequisites: NURS 200, NURS 201

NURS 300 Comprehensive Adult Nursing I 6.0 Credits

This course will focus on the development of selected competencies for nursing care assessment and management of adults with predictable human responses to specific system alterations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 200 [Min Grade: D] and NURS 112 [Min Grade: D] and INFO 204 [Min Grade: D]

Corequisites: NFS 220, NURS 301

NURS 301 Pharmacology for Nursing I 3.0 Credits

Introduces professional nursing students to the principles of pharmacology and drug therapies, pharmacologic-therapeutic classes of drugs and important drug information resources.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 200 [Min Grade: D] and NURS 112 [Min Grade: D]

Corequisite: NURS 300

NURS 303 Women's Health Nursing 6.0 Credits

This course focuses on the development of competencies for the nursing care management of child-bearing families and health problems/concerns that affect women. The course will also emphasize the nurse's role in health assessment, health promotion, and promotion of adaptive processes for the maternity patient and the promotion of women's health in general. Sociocultural, economic, political, and ethical factors that impact on health promotion, disease prevention, and risk reduction for the childbearing family and women in general are examined. Selected women's health clinical settings will be utilized for clinical practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 300 [Min Grade: D] and NURS 301 [Min Grade: D]

NURS 304 Nursing of Children 6.0 Credits

This course focuses on the development of competencies for the nursing care management of children experiencing potential and actual alterations in health. An emphasis will be placed on the nurse's role in health assessment, health promotion, and promotion of adaptive processes for the child within the context of the family. Selected pediatric clinical agencies will be utilized for clinical practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: PSY 101 [Min Grade: D] and PSY 120 [Min Grade: D] and NURS 300 [Min Grade: D] and NURS 301 [Min Grade: D]

NURS 305 Comprehensive Adult Nursing II 6.0 Credits

This course is a continuation of NURS 300. It will focus on the development of selected competencies for nursing care assessment and management of adults with predictable human responses to specific system alterations. Risk reduction, recovery, and rehabilitation of patients with selected disease processes and common clinical problems are addressed. Didactic medical-surgical content will focus on the gastrointestinal, renal, immunologic, integumentary, sensorineural, neurologic, musculoskeletal, male reproductive, and infectious disease systems. Home care principles and health policy for adults with common acute and chronic illnesses and diseases will also be explored. Selected general medical-surgical settings and home-care agencies will be utilized for clinical practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 300 [Min Grade: D] and NURS 301 [Min Grade: D]

NURS 306 Pharmacology for Nursing II 3.0 Credits

This course is a continuation of NURS 301. The course will begin with a review of drug and dosage calculations. This course will focus on drugs and cardiovascular and renal systems, respiratory system, anti-infective and anti-inflammatory agents, immune and biologic modifiers and chemotherapeutic agents, gastrointestinal system and nutrition, and miscellaneous therapeutics including hematologic, dermatologic, ophthalmic, and optic agents. Strategies to prevent medication errors in health care agencies will be discussed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 301 [Min Grade: D]

NURS 308 Mental Health Nursing 6.0 Credits

This course focuses on the development of competencies necessary for the practice of mental health nursing with emphasis on the use of self in relationships with patients and health team members. An understanding of the brain-behavior connection and the importance of the therapeutic nurse-patient relationship will provide the framework for exploring factors which contribute to stress, maladaptive behaviors and mental illness. Cross-cultural aspects of mental health and appropriate culturally relevant interventions will also be emphasized. Selected inpatient and outpatient mental health settings and agencies will be utilized for clinical practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: PSY 101 [Min Grade: D] and NURS 300 [Min Grade: D] and NURS 301 [Min Grade: D]

Corequisite: PSY 120

NURS 324 Intro to Online Learning: Tools for Success 2.0-3.0 Credits

This course provides a guided, hands-on introduction to the skill sets necessary to support online learning, communication, and the production of scholarship. Students will be introduced to technologies and resources that are fundamental to success in the RN-BSN program.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 325 [WI] Critical Issues in Nursing 3.0 Credits

Critical Issues in Shaping Nursing. The health care system has undergone dramatic shifts, driven by changing economic; demographic; and technological forces. This course explores the impact of these forces on healthcare delivery, and concerns relating to ethical, legal and social issues that influence nursing practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 330 [WI] Research Basis of Nursing 4.0 Credits

This course will introduce the student to the theoretical and research bases on which practice is built. Students will examine the knowledge that guides nursing interventions and critique published research reports. The importance of reviewing the nursing literature in order to maintain currency in practice will be addressed. Ethical issues as they relate to research, theory and practice will be discussed. This is a writing intensive course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if classification is Senior.

Prerequisites: STAT 201 [Min Grade: D] or SOC 364 [Min Grade: D] or STS 345 [Min Grade: D] or PSY 364 [Min Grade: D]

NURS 336 Alternative and Complementary Health Interventions 3.0 Credits

This course is an introduction to the theoretical literature which investigates the efficacy of alternative medicine health care practices and complementary therapies which are broadly defined as biotherapeutic interventions. Any intervention which is aimed at biologic, psychologic, or spiritual healing may be termed biotherapeutic. The context of the human illness experience is explored as an opportunity for nurses to recommend and patients to experience traditional and nontraditional healing practices. Biotherapeutic modalities with applications for nursing and health care are also explored. An emphasis is placed on the delivery, teaching, and referral of biotherapeutic interventions for clients seeking alternative and complementary health therapies.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS and classification is Senior.

NURS 337 [WI] Genetics in Nursing and Health 3.0 Credits

This course will discuss the implications of the Human Genome Project and how to apply genetic knowledge to patient knowledge to patient care in the following ways: identifying those in need of further genetic testing, offering genetic information, recording genetic information, referring patients and families for further genetic information and evaluation, support informed choice regarding health decisions, advocacy for privacy, confidentiality, and non-discrimination with regard to genetic information, and participate in management of patients with genetic conditions. The ethical consideration as they relate to genetics will also be explored. This is a writing intensive course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 103 [Min Grade: D]

NURS 339 Pathophysiology 3.0 Credits

Pathophysiology for Nurses. This course builds upon the theoretical foundations of nursing theory; human anatomy, and physiology by addressing basic concepts, principles, and processes associated with common pathologies, physiological alterations in body system, and the body's ability to compensate for these changes.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 103 [Min Grade: D] and (CHEM 101 [Min Grade: D] or CHEM 103 [Min Grade: D]) and (BIO 226 [Min Grade: D] or BIO 221 [Min Grade: D])

NURS 340 Transformational Leadership 3.0 Credits

Transformational Leadership. This course will focus on the professional nurses roles in applying the principles of leadership, management and ethics in health care organizations across the continuum of care. The course will provide opportunities in problem solving, critical thinking, constructive communication and well as teaching learning strategies that emphasize the leadership/management roles of the nurse.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 345 Holistic Self-Care 3.0 Credits

Holistic Self-Care provides students with an A-Z approach to "living" a holistic, balanced life, complete with step-by-step guidelines necessary to incorporate dietary and lifestyle changes and effective stress reduction and stress management techniques to assist in navigating through the common challenges associated with student life and beyond. Students will be required to purchase a "Holistic Student Stress Reduction Kit", complete with specific essential oils, Meditation DVD, and guided stress reduction techniques.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 346 Health Assessment 6.0 Credits

Health Assessment and Promotion for Diverse Vulnerable Populations. This course is designed to assist professional nurses in developing interviewing skills, physical assessment techniques, and preventive health interventions when working diverse and vulnerable populations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 350 Independent Study in Nursing 1.0-3.0 Credit

This is a guided independent study. Students study a subject under the supervision of the nursing faculty member. May be repeated for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 9 credits

NURS 370 Issues in Aging and Longevity 4.0 Credits

Issues in Aging and Longevity. This course focuses on current issues in promoting longevity with healthy aging. Current biopsychosocial theories on aging are explored. The multidisciplinary needs of older adults, including relationship challenges, are addressed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 375 Nurses Building a Healthy Community 6.0 Credits

Nurses Building a Healthy Community. This course focuses on the professional role of the community public health nurse working collaboratively to build a health community. The role of nurses is explored by their actions with aggregate population, community partners, and other health providers.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 346 [Min Grade: D]

NURS 388 Nursing Case Study I 1.0 Credit

Nursing Case Study Integration I. This course is designed to extend students' understanding of common adult health disorders. Critical thinking skills will be used to integrate and analyze knowledge of therapeutic communication, health assessment and nursing process, pharmacology, nutrition, and anatomy and physiology.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 200 [Min Grade: D] and NURS 110 [Min Grade: D] and NURS 112 [Min Grade: D]

NURS 400 [WI] Leadership, Management, and Entrepreneurship in Nursing 3.0 Credits

Focuses on professional nursing role in applying principles of leadership and management in health care organizations across the continuum of care. Emerging and roles for nurse entrepreneurs and professional practitioners will be explored. Also emphasizes the role of the professional nurse in efficient patient care management in complex health care settings. This is a writing intensive course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NACE or major is NURS.

Prerequisites: NURS 305 [Min Grade: D]

NURS 401 Comprehensive Adult Nursing III 6.0 Credits

This course will focus on the development of selected competencies for nursing care assessment and management of adults with unpredictable and complex human responses to specific system alterations. The course will emphasize the assessment of functioning, adaptation, and recovery for patients with high acuity illnesses and clinical problems. Selected high acuity acute care settings will be utilized for clinical practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 301 [Min Grade: D] and NURS 303 [Min Grade: D] and NURS 304 [Min Grade: D] and NURS 305 [Min Grade: D] and NURS 306 [Min Grade: D] and NURS 308 [Min Grade: D]

NURS 403 Community Public Health Nursing 6.0 Credits

The focus of this course is the professional nurse's role in working with aggregates in the community. The student will first reexamine the principles of health promotion as they form the bases for effective community health nursing practice. The student will then explore the role of the community health nurse working collaboratively with the community as part of an interdisciplinary team. Grounded in systems theory and informed by the concepts and principles of community health nursing, public health nursing, wellness, health promotion, and national goals, the student works with aggregates in the community setting. An introduction to conceptual frameworks that guide community-based, population-focused practice and research is included in both the classroom and clinical portions of the course. The student uses skills in community assessment, program planning and practice interventions in helping identified populations within the community maintain their optimum level of health. Selected measures for evaluating outcomes of community health nursing programs are discussed. Contemporary public health problems encountered in community health nursing practice are explored. Selected community health and public health clinical agencies will be selected for clinical practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 300 [Min Grade: D] and NURS 301 [Min Grade: D] and NURS 303 [Min Grade: D] and NURS 304 [Min Grade: D] and NURS 305 [Min Grade: D] and NURS 306 [Min Grade: D] and NURS 308 [Min Grade: D]

NURS 404 Nursing Informatics for BSN Completion 3.0 Credits

Designed for registered nurses in the RN-BSN completion program. Examines computer applications, technology, internet tools. Focuses on health care informatics context for data management, information systems & telecommunications in nursing administration, education and practice. Problem solving and mini-design projects related to increased efficiency in nursing care delivery.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUOL.

NURS 450 Contemporary Gerontological Nursing 6.0 Credits

This course will focus on the nursing management of older adults. Contemporary theories of gerontology, theories of aging, physiological/psychological functioning, impact of developmental changes, illness, and dysfunction will be emphasized. The geriatric patient will be examined at various levels -- healthy older adult, older adult at risk, the older adult experiencing acute and chronic illness. Students' clinical experiences will be in home health agencies, transitional, and long-term facilities.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if classification is Senior.

Prerequisites: NURS 300 [Min Grade: D] and NURS 301 [Min Grade: D] and NURS 303 [Min Grade: D] and NURS 304 [Min Grade: D] and NURS 305 [Min Grade: D] and NURS 306 [Min Grade: D] and NURS 308 [Min Grade: D] and NURS 401 [Min Grade: D]

NURS 460 Global Health & Policy Issues 6.0 Credits

Global Health and Policy Issues. This course is an overview of global health issues. Emphasis will be placed on understudy of health policy development related to global health issues, healthcare systems, and its effect on selected population.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 325 [Min Grade: D] and NURS 375 [Min Grade: D]

NURS 462 Science, Technology and Health 3.0 Credits

Science, Technology, and Health. This course is an intensive overview of the latest discoveries and trends in science and technology which have implication if the broader health of man-kind and nursing.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUOL.

Prerequisites: NURS 330 [Min Grade: C] and NURS 325 [Min Grade: C]

NURS 464 Senior Concentration in Nursing 3.0 Credits

Senior Concentration in Nursing. The student, with a faculty supervisor, selects a clinical area of practice for in-depth 60 hours of clinical experience. Students will be immersed in the current literature of the clinical discipline to demonstrate competent and safe nursing practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if classification is Senior.

NURS 465 Senior Thesis in Nursing 3.0 Credits

Senior Thesis in Nursing. The student, with a faculty supervisor, plans a project that will be implemented that quarter. The project must be substantive and scholarly and be presented to the nursing community.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if classification is Senior.

NURS 480 Special Topics in Nursing 1.0-12.0 Credit

The course provides a forum for in-depth exploration of a contemporary issue in nursing or health care which can influence the quality of health care services provided to patients. Specific issues covered in the course will change from term to term. This course may be repeated three times for credit as topics vary.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 5 times for 20 credits

Restrictions: Can enroll if major is NURS and classification is Senior.

NURS 481 Issues & Resolutions in End of Life Care 3.0 Credits

Promotes understanding of complexities associated with care of clients and families across the lifespan at end-of-life. Explores nursing management of individuals and families facing end-of-life care and decisions. Emphasis on evidenced-based practice in legal, ethical and professional decision-making framework. Conforms with AACN/ELNEC model.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS and classification is Senior.

NURS 482 Cultural Dimensions of Nursing Care 3.0 Credits

The focus of this course will be on strategies for providing culturally competent nursing care in a multicultural society. Emphasis is placed on evidence-based nursing practice within a framework of ethical, legal, and professional decision making.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS and classification is Senior.

NURS 488 Nursing Case Study II 1.0 Credit

Nursing Case Study Integration II. This course is designed to extend students' understanding of common adult health disorders. Critical thinking will be used integrate and analyze knowledge of therapeutic communication, health assessment and nursing process, pharmacology, nutrition, and anatomy and physiology using selected case studies.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 112 [Min Grade: D] and NURS 110 [Min Grade: D] and NURS 200 [Min Grade: D]

NURS 489 Synthesis of Nursing Knowledge 4.0 Credits

Synthesis of Nursing Knowledge. This course prepares students for senior seminar by providing a comprehensive content review of clinical material and culminating in a comprehensive HESI exam. Skills needed for effective interpersonal communication and professional behaviors of the nurse will be learned and rehearsed utilizing the standardized patient lab experience. May be repeated once for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 1 times for 4 credits

Prerequisites: NURS 401 [Min Grade: D] and NURS 304 [Min Grade: D] and NURS 305 [Min Grade: D] and NURS 306 [Min Grade: D]

NURS 490 Senior Project in Nursing 3.0 Credits

In this course, the student with faculty supervision, plans a long-term project that will be implemented in NURS 491. This project will integrate the academic and practical knowledge the student has acquired in their nursing curriculum. Examples of projects include the following: developing/implementing a teaching tool or a teaching plan, conducting a small clinical research study or evaluating data specific to management patterns that promote effective nursing care. Students will develop objectives relevant to the project, critique the literature and present a plan for implementation.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 300 [Min Grade: D] and NURS 303 [Min Grade: D] and NURS 304 [Min Grade: D] and NURS 305 [Min Grade: D] and NURS 306 [Min Grade: D] and NURS 308 [Min Grade: D] and NURS 400 [Min Grade: D]

NURS 491 Senior Project in Nursing II 3.0 Credits

This is a continuation of NURS 490. Implementation of the project developed in NURS 490 will be done under faculty supervision. Students will make a formal presentation of their project to their professional peers and the MCP Hahnemann/Drexel community.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if classification is Senior.

Prerequisites: NURS 490 [Min Grade: D]

NURS 492 Senior Seminar in Nursing 3.0 Credits

This course will serve as a review of important concepts from the nursing curriculum. Students will focus on those concepts that they need to improve for the successful practice of professional nursing. Students will utilize the Nursing Technology lab to review procedures practiced throughout the nursing curriculum and will use computerized testing to gauge their mastery of professional nursing content.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated multiple times for credit

Restrictions: Can enroll if classification is Senior.

Prerequisites: NURS 300 [Min Grade: D] and NURS 303 [Min Grade: D] and NURS 304 [Min Grade: D] and NURS 305 [Min Grade: D] and NURS 306 [Min Grade: D] and NURS 308 [Min Grade: D] and NURS 400 [Min Grade: D] and NURS 401 [Min Grade: D]

Physiology

Courses

PHGY 325 Physiology 5.0 Credits

Presentation of organ function with emphasis on the integration of neural and humoral control mechanisms.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 101 [Min Grade: D] and ANAT 102 [Min Grade: D] and ANAT 103 [Min Grade: D]

PHGY 382 Pathophysiology for Health Professions 5.0 Credits

Introduction to disturbances of normal function and basic mechanisms involved in diseases of major organ systems. Presentation of the general aspects of the common human pathophysiological conditions and syndromes.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUOL.

Radiologic Sciences

Courses

RADI 100 Introduction to Radiologic Technology 2.0 Credits

Content is designed to provide a fundamental background in ethics.

The student examines a variety of ethical issues and dilemmas found in clinical practice. An introduction to legal terminology, concepts and principles. Topics include malpractice, misconduct and the ASRT scope of practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

RADI 102 Introduction to Radiologic Principles II 1.0 Credit

Introduction to Radiologic Principles II is a continuation of RADI 100 to include medical terminology. An orientation to the understanding of radiographic order and interpretation of diagnostic reports.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 100 [Min Grade: C]

RADI 132 Radiologic Physics I 3.0 Credits

Radiologic Physics I begins with a review of basic mathematics and measurements, then proceeds to investigate the atom, electricity, magnetism electrostatics, electromagnetism, motors, and generators.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: MATH 100 [Min Grade: C]

RADI 133 Radiologic Physics II 3.0 Credits

Radiologic Physics II provides a detailed study of the characteristics of X radiation, production of X radiation, the X-ray tube, and circuitry.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 132 [Min Grade: C]

RADI 140 Imaging Systems in Radiography 3.0 Credits

This course starts with an overview of latent image formation for both conventional and digital image processing. It offers up-to-date coverage of the latent digital imaging systems, including computed radiography (CR), digital radiography (DR), and PACS. Finally, the proper selection of imaging factors such as exam menu choices, technical factors, imaging plate size, grids, and markers is discussed, as are vendor-driven exposure indicators.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 100 [Min Grade: C]

RADI 150 Principles of Radiographic Exposure I 2.0 Credits

Principles of Radiographic Exposure I provides an understanding of factors that govern and influence the production of radiographic images. Also presents accessory equipment and its effects on image quality.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

RADI 153 Principles of Radiographic Exposure II 2.0 Credits

This course is designed to familiarize the student with the pertinent factors involved in radiographic quality. Radiographic equipment involved in daily use is studied and applications to the clinical setting are made.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 150 [Min Grade: C]

RADI 154 Radiographic Exposure III 2.0 Credits

A continuation of RADI 153 to include processing of radiographic films. Processing procedures and artifacts are discussed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 153 [Min Grade: C]

RADI 164 Radiologic Procedures I 3.0 Credits

A thorough presentation of positioning nomenclature, body planes, and anatomic terms, then proceeds to positioning technique for routine chest abdominal studies and the upper extremities.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

RADI 165 Radiographic Procedures II 3.0 Credits

A continuation of RADI 164 to include lower extremities.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 164 [Min Grade: C] and RADI 195 [Min Grade: C]

Corequisite: RADI 196

RADI 166 Radiographic Procedures III 3.0 Credits

A continuation of RADI 165 to include vertebral column and bony thorax.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 165 [Min Grade: C] and RADI 196 [Min Grade: C]

RADI 193 Methods of Patient Care I 2.0 Credits

Discusses principles, techniques, and procedures of patient care with particular emphasis on nursing situations routinely encountered in the radiology department.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

RADI 194 Methods of Patient Care II 1.0 Credit

This course is continuation of RADI 193. This course includes pediatrics, geriatrics, pharmacology, drug administration and alternative medical treatments.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 193 [Min Grade: C]

RADI 195 Clinical Practicum I 1.0 Credit

Introduces the student to the Department of Diagnostic Radiology, including rotations through fluoroscopy, general radiology, trauma unit, and operating suite as well as some clerical areas.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Corequisites: RADI 150, RADI 164

RADI 196 Clinical Practicum II 1.0 Credit

Continues the clinical experience in the Department of Diagnostic Radiology. Allows students to continue to refine their clinical skills through second rotations in areas of the department. Requires students to perform most examinations with direct supervision.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 195 [Min Grade: C] and RADI 164 [Min Grade: C]

RADI 197 Clinical Practicum III 1.0 Credit

Gives the students the opportunity to strengthen their clinical skills. Increases student independence as the course progresses, allowing them to move from direct supervision into areas of indirect supervision.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 196 [Min Grade: C] and RADI 165 [Min Grade: C]

RADI 198 Clinical Practicum IV 2.0 Credits

Clinical Practicum IV provides students indirect supervision and greater responsibility for patients and equipment. Begins rotations through specialty areas such as radiation therapy, computed tomography, and MRI.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 197 [Min Grade: C] and RADI 154 [Min Grade: C] and RADI 166 [Min Grade: C]

RADI 200 Radiologic Procedures IV 3.0 Credits

Skull radiography to include facial bones and orbits, mandible, sinuses and salivary glands. Contrast studies of the urinary upper and lower intestinal tract.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 166 [Min Grade: C] and RADI 198 [Min Grade: C]

RADI 201 Medical Imaging 2.0 Credits

Medical Imaging surveys the various modes of imaging and recording radiographic examinations, including fluoroscopy, computed tomography, ultrasound, digital subtraction, magnetic resonance and digital and PAC's systems.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

RADI 202 Radiologic Procedures V 1.0 Credit

Continuation of RADI 200 to include an overview of CAT scan, MRI and ultrasound Trauma radiology and special procedures are included in this course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 200 [Min Grade: C] and RADI 291 [Min Grade: C]

RADI 203 Principles of Exposure IV 2.0 Credits

Presents a complete review of exposure factors including an investigation of the theory and application of these factors as they relate to body habitus, tissue absorption and pathological changes.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 154 [Min Grade: C]

RADI 204 Principles of Radiation Protection 2.0 Credits

Principles of Radiation Protection provides a detailed study of the procedures and devices developed for maximum protection of patients and personnel from radiation. Discusses government agencies along with their standards and regulations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 133 [Min Grade: C]

RADI 215 Radiation Biology 3.0 Credits

Presents the effects of radiation on cells and the factors affecting cell response. Discusses somatic and genetic effects, both acute and chronic.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 103 [Min Grade: C]

RADI 221 Quality Assurance 2.0 Credits

Introduces the evaluation of radiographic systems to ensure consistent production of quality images. Explains test procedures for evaluating equipment and discusses state and federal regulations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 154 [Min Grade: C]

RADI 222 Pathology 3.0 Credits

Surveys the nature and causes of medical-surgical diseases, with emphasis on the radiographic considerations of disease processes.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ANAT 103 [Min Grade: C]

RADI 223 Registry Review 1.0 Credit

Prepares the radiologic technology student to sit for the American Registry of Radiologic Technology Examination.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 292 [Min Grade: C] and RADI 204 [Min Grade: C] and RADI 202 [Min Grade: C] and RADI 201 [Min Grade: C]

Corequisites: RADI 221, RADI 293

RADI 291 Clinical Practicum V 2.0 Credits

Second year course providing a transition into the clinical environment. Gives students indirect supervision and greater responsibility for patients and equipment. Begins rotation through specialty areas such as radiation therapy, computed tomography.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 198 [Min Grade: C]

RADI 292 Clinical Practicum VI 2.0 Credits

Continues the clinical experience in general areas as well as specialty areas of diagnostic imaging. Requires students to perform examinations with indirect supervision.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 291 [Min Grade: C] and RADI 200 [Min Grade: C]

RADI 293 Clinical Practicum VII 2.0 Credits

The final clinical experience, in which students work to perfect all clinical skills. Includes final-competency testing.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RADI 292 [Min Grade: C] and RADI 202 [Min Grade: C]

RADI 499 Topics in Radiologic Sciences 3.0 Credits

In this course, students will engage in a guided independent learning experience to gain additional knowledge on a particular topic in radiologic technology. This course requires students to collaborate with the professor in constructing a scholarly paper as evidence of their exploration.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 9 credits

Statistics

Courses

STS 345 Statistics for the Health Sciences 4.0 Credits

This course is designed to provide students with a foundation of basic statistical knowledge to aid in reading and understanding research results in the health science literature. Topics will include: variable types, sampling, scales of measurement, reliability and validity of measurement, study designs, descriptive statistics, classical statistical inference, correlation, chi-square, parametric and nonparametric tests for group comparisons.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

STS 350 Advanced Statistics for Clinical Science 4.0 Credits

This course focuses on the statistical methods that are appropriate for clinical research. The subject of medical research and common clinical trials designed are introduced. The use of NCSS and SAS statistical software is initiated during a review of basic statistic methods. Advanced statistical methods used in clinical trials are also covered.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: STS 345 [Min Grade: C]

Graduate Course Descriptions

Creative Arts in Therapy

Courses

ARTS 501 Introduction to Creative Arts Therapy I 2.0 Credits

Foundational theories for the creative arts therapies are discussed. Readings cover psychodynamic and object-relations concepts, symbolism and metaphor, the nature and development of creativity and response to the arts.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 502 Introduction to Creative Arts Therapy II 2.0 Credits

This course uses experiential and didactic formats to facilitate understanding and integration of processes and principles central to the three creative arts therapy modalities of art, dance/movement and music therapy. Students compare features of the different create arts therapy approaches and explore common themes.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

ARTS 503 Introduction to Creative Arts Therapy III 2.0 Credits

Principles and theories of the creative arts therapies are applied to the understanding of several case studies, with the lives of artists, dancers, musicians and writers as exemplars of how the arts impact life and reflect human experience. Clinical mental health implications are discussed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 504 Human Psychological Development I 2.0 Credits

An introduction to human development across the lifespan with an emphasis on psychosocial and emotional development. Major theories and models of normal development, from infancy to old age, are discussed. Development of ego functions and personality, as well as deviations from normal development, are also covered in a lifespan framework.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

ARTS 505 Clinical Diagnosis of Psychopathology I 2.0 Credits

An overview of the Diagnostic and Statistical Manual, TR-IV, including etiological factors and levels of functioning. Designed to enable the beginning clinician to assess various mental and behavioral disorders in adults and children, with consideration of social, cultural and physiologic aspects.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

ARTS 506 Professional Orientation and Ethics I 1.0 Credit

Prepares the beginning student for Clinical Observation in the field and supports the formation of a professional identity as a creative arts therapist. Provides a foundation in ethics and basic clinical mental health skills of observation and interaction, and a theoretical framework for clinical practice that is sensitive to sociocultural differences/diversity.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 507 Group Dynamics and Therapy 2.0 Credits

Students study basic aspects of group dynamics through experiential and didactic sessions, supported by assigned readings. Major emphasis is on the dynamics of groups, i.e., the group process and ways that basic group psychology plays out in psychotherapy groups. Issues include the impact of personal, socio-economic and cultural factors in response to group membership and therapy.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

ARTS 508 Introduction to Behavioral Research I 2.0 Credits

This course introduces basic qualitative, quantitative and mixed method approaches to human and behavioral research. The course emphasizes application to the creative art therapies, preparation for the master's thesis, and competencies as a consumer of research literature and as a beginning clinical researcher.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 509 Human Psychological Development II 2.0 Credits

Continuation of ARTS 504, Human Psychological Development I.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ARTS 504 [Min Grade: C]

ARTS 510 Clinical Practicum I: Observation 1.0 Credit

Nine-week clinical placement focused on the development of fundamental observational skills. The student is assigned to a child or adult mental health facility, with an on-site create arts therapist in the student's modality.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Corequisite: ARTS 506

ARTS 511 Clinical Practicum II 1.0 Credit

10-week clinical placement focused on the development of fundamental observational skills. The student is assigned to a child or adult mental health facility, with an on-site creative arts therapist in the student's modality.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 512 Clinical Practicum III 1.0 Credit

Clinical placement supervised by a qualified creative arts therapist in the student's modality. The student continues to function as a student therapist, co-leading and leading modality-specific groups and individual sessions under supervision. Includes Mental Health Science Supervision with a psychiatrist, psychologist, or other qualified mental health clinician.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 513 Clinical Diagnosis of Psychopathology II 2.0 Credits

Continuation of ARTS 505, Clinical Diagnosis of Psychopathology I.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

ARTS 515 Introduction to Behavioral Research II 2.0 Credits

Continuation of ARTS 508, Introduction to Behavioral Research I.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

ARTS 531 Art Therapy Assessment and Treatment for Adults I 2.0 Credits

This course examines the interactions between theory and ethical practice in art therapy with adult clinical populations. The theoretical principles of psychological development and psychodynamics are applied to clinical art therapy assessments, art media analysis and applications, art therapy treatment approaches, and the therapeutic relationship which are studied in general and as specifically applied to adults suffering from psychiatric illness.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 532 Art Therapy Assessment and Treatment for Adults II 2.0 Credits

This course examines the interaction between theory and ethical practice in art therapy with adult clinical populations. The theoretical principles of psychological development and psychodynamics are applied to clinical art therapy assessments, art media analysis and applications, art therapy treatment approaches, and the therapeutic relationship which are studied in general and as specifically applied to adults suffering from psychiatric illness.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 531 [Min Grade: C]

ARTS 533 Art Therapy Assessment and Treatment for Children I 2.0 Credits

This course examines the interactions between theory and ethical practice in art therapy with children. The principles and application of artistic and psychological development, art therapy assessments, art media analysis and application, art therapy treatment approaches, and the therapeutic relationship are studied in general and as specifically applied with children suffering from developmental delays, psychiatric and medical illness.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 534 Art Therapy Assessment and Treatment for Children II 2.0 Credits

This course examines the interaction between theory and ethical practice in art therapy with children. The principles and application of artistic and psychological development, art therapy assessments, art media analysis and application, art therapy treatment approaches, and the therapeutic relationship are studied in general and as specifically applied with children suffering from development delays, psychiatric and medical illness.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 533 [Min Grade: C]

ARTS 535 Art Therapy Theory and Symbolism I 2.0 Credits

This course includes the study of the history and development of art therapy. The pioneers in art therapy and the origins of art therapy theory are discussed as they relate to historical and present day practices in art therapy. The concepts of psycho-dynamics, developmental levels, and symbolism as they appear in the artwork are studied in the context of human development and behavior.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 536 Art Therapy Theory and Symbolism II 2.0 Credits

This course includes the continued study of the history and development of art therapy. The origins of art therapy theory are discussed as they relate to historical and present day practices in art therapy. The concepts of psychodynamics, developmental levels, and symbolism as they appear in the artwork are studied in the context of human development and behavior.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 535 [Min Grade: C]

ARTS 537 Art Therapy Group Supervision I 2.0 Credits

In this course students participate in presenting, discussing, and evaluating patient case material that they bring from their clinical experiences. The cases are discussed in a small group interactive format where students can begin to connect theory and practice with children, adolescent and adult populations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 538 Art Therapy Group Supervision II 2.0 Credits

In this course, students participate in presenting, discussing, and evaluating patient case material that they bring from their clinical experience. The cases are discussed in a small group interactive format where students can begin to connect theory and practice with children, adolescent and adult clinical populations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 539 Art Therapy Group Supervision III 2.0 Credits

In this course, students participate in presenting, discussing, and evaluating patient case material that they bring from their clinical experiences. The cases are discussed in a small group interactive format where students can begin to connect theory and practice with children, adolescent and adult clinical populations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 540 Art Therapy Literature and Research 2.0 Credits

This course includes a comprehensive review of the historical and current art therapy literature in preparation for the thesis research project. Students will read art therapy literature in the areas of assessment, treatment, ethical and legal issues, research, and cultural diversity gaps in the knowledge for potential research projects.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 541 Jungian Psychology for Art Therapists 2.0 Credits

This course is a survey of the history and principles of Jungian Psychology as applied to the Creative Arts in Therapies. The principles and application of the arts art experienced, applied, to case histories, to oneself and related to Jung's theory and the Post-Jungians.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 542 Group Dynamics: Art Therapy 2.0 Credits

This course is part II of the Group Dynamics track. In the first course, basic group and group psychotherapy theory and practice are learned experientially and didactically. In this course, the principles and practice of group psychotherapy are applied to group art therapy. Group art therapy theory and techniques are studied in the context of the group dynamic, therapeutic factors, behaviors and art processes of members and leaders and applications to different treatment venues.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 507 [Min Grade: C]

ARTS 551 Introduction to Anatomy and Kinesiology for Dance/ Movement Therapy 2.0 Credits

This course introduces anatomy and kinesiology through lecture, discussion, and experiential learning formats. The course provides an overview of the musculoskeletal system and how it functions to support the mechanics of human motion. An introduction to the principles of body connectivity provides a foundation for later dance/movement therapy clinical applications. The course also supports development of body/self awareness.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

ARTS 552 Therapy Relationship Skills I 2.0 Credits

This course introduces and provides practice in skills for establishing, understanding, and developing the therapy relationship and the therapeutic process through movement and verbal counseling processes. Students participate in and lead segments of sessions in the laboratory setting of the classroom.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 553 Therapy Relationship Skills II 2.0 Credits

This course continues Therapy Relationship Skills I with the experience and practice of therapy relationship skills in the laboratory setting of the classroom. Particular attention is given to identifying patterns and shaping themes through which the therapy relationship and therapeutic process develops.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ARTS 552 [Min Grade: C]

ARTS 554 Movement Observation I 2.0 Credits

This course introduces students to movement observation and analysis within the framework of Laban Movement Analysis. In experiential and didactic frameworks, students will examine personal, relational, cultural, and societal dynamics as manifested in movement behavior. Therapeutic implications for both individuals and groups will be discussed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 555 Laban Movement Analysis Lab 0.0 Credits

This course provides experience in improvisational movement and various cultural dance forms. Movement will be reviewed with reference to movement parameters of Laban Movement Analysis to reinforce student' developing movement analysis skills.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

ARTS 556 Movement Observation II 2.0 Credits

This course further develops student skills in movement observation and analysis within the framework of Laban Movement Analysis. In experiential and didactic formats, students will examine personal, relational, cultural, and societal dynamics as manifested in movement behavior. Therapeutic implications for both individuals and adults will be discussed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 554 [Min Grade: C]

ARTS 557 Dance/Movement Therapy Theory and Practice - Children I 2.0 Credits

This experiential didactic course familiarizes students with childhood disorders and concomitant patterns of movement behavior. Theory and clinical methods in dance/movement therapy for children and adolescents are introduced.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 558 Dance/Movement Therapy Theory and Practice - Children II 2.0 Credits

This experiential didactic course familiarizes students with childhood disorders and concomitant patterns of movement behavior. Theory and clinical methods in dance/movement therapy for children and adolescents are introduced.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 557 [Min Grade: C]

ARTS 559 Introduction to Dance/Movement Therapy History and Literature 1.0 Credit

This survey seminar introduces students to the historical development of dance/movement therapy theoretical orientation, and supporting literature. Experiential activities and films will illustrate particular approaches.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 560 Dance/Movement Therapy Group Supervision I 1.0 Credit

This course supports initial integration of clinical experience and academic material. The course facilitates a process in which students examine therapeutic and professional relationships in which they are engaged in the clinical setting in order to enhance their understanding and effectiveness.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 561 Dance/Movement Therapy Group Supervision II 1.0 Credit

This course supports initial integration of clinical experience and academic material. The course facilitates a process in which students examine therapeutic and professional relationships in which they are engaged in the clinical setting in order to enhance their understanding and effectiveness.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 562 Dance/Movement Therapy Group Supervision III 1.0 Credit

This course supports initial integration of clinical experience and academic material. The course facilitates a process in which students examine therapeutic and professional relationships in which they are engaged in the clinical setting in order to enhance their understanding and effectiveness.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 563 Movement Perspectives in Human Development 2.0 Credits

This course provides the student with an understanding of normal movement development from infancy to adulthood. The course addresses the relationship between movement, emotional, and cognitive development and provides examples of development disturbance. Implications for assessment and clinical application with adult and child populations are examined.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

ARTS 564 Group Dynamics and Therapy II: Dance/Movement Therapy 2.0 Credits

Continues Group Dynamics and Therapy I. Group development and group process theory is applied to understanding interaction in the dance/movement therapy group and how this understanding informs group interventions. Course is taught in an experiential classroom lab format which supports lecture and readings and provides opportunity to practice group leadership skills.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 552 [Min Grade: C] and ARTS 553 [Min Grade: C]

ARTS 570 Clinical Musicianship I 2.0 Credits

Provides methods for learning to accompany self and ensembles within music therapy applications. Additional emphasis is placed on clinical improvisation methods for keyboards.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 571 Clinical Musicianship II 2.0 Credits

This course, designed for Music Therapy students, will assist students in the development of functional guitar methods within a variety of musical styles for the purpose of facilitating music therapy processes.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 572 Clinical Musicianship III 2.0 Credits

Provides methods for developing the clinical musical skills needed for internship in piano, guitar, vocal, percussion and major instrument areas. The course also helps to refine skills developed in Clinical Musicianship I and II, and Clinical Musical Improvisation I and II.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 573 Clinical Musical Improvisation I 2.0 Credits

Highly experiential course designed to introduce the student to: a) musical improvisation in general, and b) techniques used within a music therapy environment to develop therapeutic relationships with groups and individuals through the creative musical process. Readings will be used to increase understanding of improvisation as a clinical application.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 574 Clinical Musical Improvisation II 2.0 Credits

Designed to further the student's understanding of music therapy improvisation as used in clinical environments with various populations. Established models of clinical musical improvisation will be included in readings and discussed in class, with exploration of the use of verbal processing in conjunction with the musical experience.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 573 [Min Grade: C]

ARTS 575 Theories in Music Therapy I 2.0 Credits

An overview of clinical and research literature related to psychological theories and musical development for music therapists.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 577 Music Therapy Skills I 2.0 Credits

This course will teach approaches and methods of music therapy as applied in mental health, mental retardation and physical disability for adult clinical populations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 578 Music Therapy Skills II: Child Skills 2.0 Credits

This course will teach the basic approaches and techniques of music therapy for children as applied in mental health, mental retardation and physical disability.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 579 Music Therapy Skills III: Technological Applications 2.0 Credits

This course will teach the basic music technology approaches and techniques for application with adult and child clinical populations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 580 Psychology of Music 2.0 Credits

This course includes the study of acoustics, psychoacoustics, physiological and emotional responses, music cognition, meaning, and the psychosocial processes involved in musical perception.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 581 Music Therapy Group Supervision I 1.0 Credit

Materials and techniques for dealing with mental, neurological and other disorders in children, adolescents and adults in various settings are related to advanced music clinical practice and research in small group presentations and discussions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Corequisite: ARTS 510

ARTS 582 Music Therapy Group Supervision II 1.0 Credit

This is a continuation of ARTS 581. The objectives and course requirements are continuous in a developmental progression toward increasing sophistication and mastery of music therapy skills and conceptual understandings.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 511 [Min Grade: C] (Can be taken Concurrently)

ARTS 583 Music Therapy Group Supervision III 1.0 Credit

This is a continuation of ARTS 581 and ARTS 582. The objectives and course requirements are continuous in a developmental progression toward increasing sophistication and mastery of music therapy skills and conceptual understandings.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 512 [Min Grade: C] (Can be taken Concurrently)

ARTS 601 Theories of Psychotherapy I 2.0 Credits

Through readings, lecture and discussions, this provides an overview of major schools and systems of psychotherapy, with emphasis on examining underlying assumptions and curative factors in each. Students learn to recognize and integrate various theoretical perspectives in the therapeutic process. Comparisons with the creative arts therapies are explored.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX or major is FATX or major is PSY.

ARTS 602 Multicultural Perspectives in Therapy I 2.0 Credits

The class will explore implications of cultures, race, age, ethnicity, gender, sexual orientation, social class, and physical ability within the context of mental health treatment. Through readings, experiential exercises, discussions, reflective writing, role play, and lecture multicultural issues are examined and a framework presented for the practitioner to develop flexibility, openness, knowledge and competence with diverse populations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 603 Clinical Appraisal and Assessment I 2.0 Credits

An introduction to major established instruments and scales in intellectual, behavioral, social, emotional, developmental, and neurological testing. Students learn theories of clinical appraisal and testing, interviewing for mental health functioning, and skills of professional case presentation, with an emphasis on case conceptualization and holistic assessment.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX or major is FATX or major is PSY.

ARTS 604 Career Counseling 4.0 Credits

This introductory course in career counseling covers theory and practice of assessment and counseling of work and career from a lifespan perspective with attention to issues of gender, race, ethics and individuals with special needs. Includes didactic, experiential and computer-lab based learning methods.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX or major is FATX or major is PSY.

ARTS 605 Theories of Psychotherapy II 2.0 Credits

Continuation of ARTS 601: Theories of Psychotherapy I.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ARTS 601 [Min Grade: C]

ARTS 606 Professional Orientation and Ethics II 3.0 Credits

Covers ethical principles, concerns and legal issues as related to the practice of arts, music, dance/movement therapy and professional counseling. Classes use readings, videos, lecture and case discussion for mastery of concepts and problem-solving. Course also addresses the professional identity and professionalism of the psychotherapist.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 506 [Min Grade: C]

ARTS 607 Clinical Appraisal and Assessment II 2.0 Credits

Continuation of ARTS 603: Clinical Appraisal and Assessment I.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: ARTS 603 [Min Grade: C]

ARTS 610 Clinical Internship I 3.0 Credits

Advanced supervised clinical experience with a population of the student's preference, arranged by the student in collaboration with the Clinical Coordinator and Modality Director. Individual clinical supervision provided by a qualified professional in student's modality. Includes Mental Health Science Supervision with a psychiatrist, psychologist or other qualified mental health clinician.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 611 Clinical Internship II 3.0 Credits

Advanced supervised clinical experience with a population of the student's preference, arranged by the student in collaboration with the Clinical Coordinator and Modality Director. Individual clinical supervision provided by a qualified professional in student's modality. Includes Mental Health Science Supervision with a psychiatrist, psychologist or other qualified mental health clinician.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 610 [Min Grade: C]

ARTS 612 Clinical Internship III 3.0 Credits

Advanced supervised clinical experience with a population of the student's preference, arranged by the student in collaboration with the Clinical Coordinator and Modality Director. Individual clinical supervision provided by a qualified professional in student's modality. Includes Mental Health Science Supervision with a psychiatrist, psychologist or other qualified mental health clinician.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 611 [Min Grade: C]

ARTS 621 Thesis I 1.0 Credit

Under individual advisement, the student constructs research focus and questions, conducts literature review and prepares the proposal for the masters' thesis project on an art therapy, music therapy or dance/movement therapy topic.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 508 [Min Grade: C]

ARTS 622 Thesis II 1.0 Credit

Under individual advisement, the student completes the proposal for the masters' thesis project on an art therapy, music therapy or dance/movement therapy topic.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 623 Thesis III 1.0 Credit

Under individual advisement, the student completes data collection and data analysis portions of the masters' thesis project on an art therapy, music therapy or dance/movement therapy topic.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 624 Thesis IV 1.0 Credit

Under faculty committee advisement, the student completes the discussion section of the thesis, submits the full document, defends the thesis in a formal oral defense and completes revisions with committee guidance.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 625 For Thesis Only 0.0 Credits

This no-credit course is available to creative arts therapy students who have submitted the MA thesis to the advisory committee. Students in ARTS 625 are expected to defend the thesis, complete revisions and submit the final copy of the thesis for binding during the quarter covered by this course registration.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for NaN credits

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 621 [Min Grade: C] and ARTS 622 [Min Grade: C] and ARTS 623 [Min Grade: C]

ARTS 626 Gerontology and the Creative Arts Therapies 1.0 Credit

This elective course covers selected topics in normal aging from approximately age 65 until death, including developmental challenges, growth, maintenance of functioning, and creativity. Greater emphasis is placed upon elders with health challenges associated with aging and the uses of the creative arts therapies for both elders in various settings and their caregivers.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 631 Art Therapy Workshop 2.0 Credits

This is an experiential course which utilizes the art process & productions of the students in a controlled setting to facilitate increased sensitivity to group creative and therapeutic processes within the art therapy session. The students develop an awareness of and empathy for the patients that they treat as well as heightened self-awareness through this experiential art and group process format.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 531 [Min Grade: C] and ARTS 532 [Min Grade: C] and ARTS 533 [Min Grade: C] and ARTS 534 [Min Grade: C] and ARTS 535 [Min Grade: C] and ARTS 536 [Min Grade: C]

ARTS 632 Advanced Art Therapy Process and Practice I 2.0 Credits

This course is a seminar in which advanced clinical theory and practice are the focus of lectures, student presentations, small discussion groups, and art experiential. Topics such as assessment, treatment, transference/countertransference, professionalism, and supervision are addressed in this course at an advanced level.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 531 [Min Grade: C] and ARTS 532 [Min Grade: C] and ARTS 533 [Min Grade: C] and ARTS 534 [Min Grade: C] and ARTS 535 [Min Grade: C] and ARTS 536 [Min Grade: C]

ARTS 633 Advanced Art Therapy Process and Practice II 2.0 Credits

This course is the second part of a seminar in which advanced clinical theory and practice are the focus of lectures, student presentations, small discussion groups, and art experientials. Topics such as assessment, treatment, transference/Countertransference, professionalism, and supervision are addressed in this course at an advanced level.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 632 [Min Grade: C]

ARTS 634 Art Therapy Family Assessment 2.0 Credits

This course will provide an introduction to family art therapy assessment. Art therapy and psychological assessment tools, readings and videos illustrating the use of art to aid in assessing families case illustrations, role playing, and art making about families will be used to study the family art therapy assessment process in depth.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 635 Multicultural Perspectives in Art Therapy 2.0 Credits

This course explores competency models in Art Therapy in relation to gender, sexual orientation, ethnicity, socio-economic status, developmental ability, age, religion and spiritual values; via self awareness and appropriate therapeutic interventions. The diversity of artistic language, symbolism across cultures is explored. Art therapists' role in regard to advocacy and social justice are considered.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 636 Studio Art for Art Therapists 0.5 Credits

In this independent study course art therapy students devote at least one hour a week to studio work on their own art productions. They focus on experimentation and development of knowledge of different art media as well as increased awareness of the psychological, cognitive, and emotional responses to their own creative process.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 637 Advanced Art Therapy Group Supervision I 1.5 Credit

Small group format is used to discuss advanced clinical art therapy treatment cases. Emphasis is upon diagnosis, treatment planning, individual and group dynamics, and transference/countertransference issues. In addition, more advanced issues of art therapy program development, professional identity, and ethical issues are address. The method used is small group experiential supervision format with an emphasis upon peer supervision under the guidance of a credentialed art therapy faculty member.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 537 [Min Grade: C] and ARTS 538 [Min Grade: C] and ARTS 539 [Min Grade: C]

Corequisite: ARTS 610

ARTS 638 Advanced Art Therapy Group Supervision II 1.5 Credit

Small group format is used to discuss advanced clinical art therapy treatment cases. Emphasis is upon diagnosis, treatment planning, individual and group dynamics, and transference/countertransference issues. In addition more advanced issues of art therapy program development, professional identity, and ethical issues are addressed. The methods used is small group experiential supervision format with an emphasis upon peer supervision under the guidance of a credentialed art therapy faculty member.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 637 [Min Grade: C] and ARTS 610 [Min Grade: C]

Corequisite: ARTS 611

ARTS 639 Advanced Art Therapy Group Supervision III 1.5 Credit

Small group format is used to discuss advanced clinical art therapy treatment cases. Emphasis is upon diagnosis, treatment planning, individual and group dynamics, and transference/countertransference issues. In addition more advanced issues of art therapy program development, professional identity, and ethical issues are addressed. The methods used is small group experiential supervision format with an emphasis upon peer supervision under the guidance of a credentialed art therapy faculty member.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 637 [Min Grade: C] and ARTS 638 [Min Grade: C] and ARTS 610 [Min Grade: C] and ARTS 611 [Min Grade: C]

Corequisite: ARTS 612

ARTS 640 Medical Art Therapy 1.0 Credit

This elective course includes the history of medical art therapy for pediatrics and adults, psychosocial implications of illness and hospitalization on children and adults, differentiation between acute and sub-acute hospitalization, understanding family response to illness, hospitalization and bereavement. In addition the role of the art therapist is explored including treatment planning and interventions, transference and countertransference.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 641 Forensic Art Therapy 1.0 Credit

This elective course is an overview of forensic issues and forensic art therapy. Legal proceedings, reporting mandates, testimonial capability and evidentiary material is explored along with specific material relevant to forensic populations and practices identified as child abuse, both physical and sexual, custodial disputes and domestic violence.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 642 Art Therapy in an Education Setting 1.0 Credit

This elective course is designed to increase understanding of art therapy in schools with attention to the institution's characteristics and culture, impact of regular and special education, role of the Child Study Team, and the function of the individualized Education Plan. Child social, emotional and cognitive development will be reviewed along with relevant assessment measures.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 643 Trauma and Art Therapy 1.0 Credit

This elective provides an overview of trauma, theories of trauma, and therapeutic approaches for working with individuals recovering from the effects of trauma. Art therapy approaches will be introduced with emphasis on the mechanisms in art therapy that promote trauma recovery.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 651 Medical Dance/Movement Therapy 1.0 Credit

Dance/Movement Therapy is emerging as a useful complementary approach for people with primary medical conditions. Using readings, experiential exercises, lectures, discussion, and video formats, this course examines clinical work reported to date, relevant theory from health psychology, psychoneuroimmunology, and body/mind perspectives to motivate programming and research in this area.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 652 The Kestenberg Movement Profile 3.0 Credits

This course provides an introduction to the fundamentals of the Kestenberg Movement Profile (KMP). The KMP is a theoretically based tool for the assessment of psychological development through body movement. The course will address clinical applications of the KMP and cross-cultural issues. Teaching formats include discussion, experiential activities, and observational practice sessions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

ARTS 654 Dance/Movement Therapy Theory and Practice III: Adults 2.0 Credits

This course addresses the theory and practice of dance/movement therapy with adults. Adult clinical disorders will be reviewed with reference to movement features, psychological issues, and therapy approaches. Medical applications of dance/movement therapy and supports for wellness will be introduced. Students investigate therapy methods through readings, experiential structures, and discussion.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 552 [Min Grade: C] and ARTS 553 [Min Grade: C]

ARTS 655 Multicultural Perspectives in Therapy II: Dance/Movement Therapy 2.0 Credits

This course continues the Multicultural Perspectives in Therapy I course. The course will further develop students' cultural self-awareness and culturally sensitive therapy practice. Dance/movement therapy will be discussed within existing cultural contexts of dance and healing. The course will introduce culture specific and community models of therapy.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 656 Mental Health Applications of Movement Analysis I 2.0 Credits

Refine's students' skills in observing and evaluating movement and nonverbal communication. Reviews the major instruments and approaches for clinical assessment in dance/movement therapy. Addresses the application of Laban Movement Analysis based movement assessment in treatment.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 554 [Min Grade: C] and ARTS 555 [Min Grade: C]

ARTS 657 Mental Health Applications of Movement Analysis II 2.0 Credits

Continuation of ARTS 656: Mental Health Applications of Movement Analysis I.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 656 [Min Grade: C]

ARTS 658 Dance/Movement Therapy Advanced Group Supervision I 1.0 Credit

This course considers professional identity, role related issues, multidisciplinary teamwork, and healthcare system dynamics in the context of group clinical problem solving. Students discuss methods for addressing specific clinical needs in children, adolescents and adults in various settings. Instructors serve as role models and facilitators for constructive evaluation of work.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 659 Dance/Movement Therapy Advanced Group Supervision II 1.0 Credit

This course considers professional identity, role related issues, multidisciplinary teamwork, and healthcare system dynamics in the context of group clinical problem solving. Students discuss methods for addressing specific clinical needs in children, adolescents and adults in various settings. Instructors serve as role models and facilitators for constructive evaluation of work.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 660 Dance/Movement Therapy Advanced Group Supervision III 1.0 Credit

This course considers professional identity, role related issues, multidisciplinary teamwork, and healthcare system dynamics in the context of group clinical problem solving. Students discuss methods for addressing specific clinical needs in children, adolescents and adults in various settings. Instructors serve as role models and facilitators for constructive evaluation of work.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 661 Family Dance/Movement Therapy: A Systems Approach 2.0 Credits

This course views the family through developmental and family systems perspectives. The course reviews nonverbal communication research and introduces students to the assessment of family interaction patterns using Dulcaï's Nonverbal Assessment of Families instrument. The course will also address applications of dance/movement in family systems work.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 662 Advanced Group Dance/Movement Therapy Skills I 2.0 Credits

This course provides support for students to advance understanding and practice of group dance/movement therapy through participation in, leadership, and review of classroom lab sessions. Course continues through two quarters.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 507 [Min Grade: C] and ARTS 564 [Min Grade: C]

ARTS 663 Advanced Group Dance/Movement Therapy Skills II 2.0 Credits

Continuation of ARTS 662: Advanced Group Dance/Movement Therapy Skills I.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 507 [Min Grade: C] and ARTS 564 [Min Grade: C]

ARTS 670 Advanced Music Therapy Skills I 2.0 Credits

Music and imagery approaches in therapy with individuals and groups are examined through laboratory sessions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 577 [Min Grade: C] and ARTS 578 [Min Grade: C]

ARTS 671 Advanced Music Therapy Skills II 2.0 Credits

This course will study music therapy within group formats. Students will have the opportunity to participate as leader and member of an on-going group. Group members will use role playing to simulate a variety of clinical populations. Concepts from assigned reading will be employed during group processing and un seminars.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 670 [Min Grade: C]

ARTS 672 Multicultural Perspectives in Music Therapy 2.0 Credits

Western ethnic and non western uses of music will be explored and adapted for use in music therapy. Also, various cultural understanding of musical behavior, beliefs about music, restricted or prohibited uses of music, and referential influences will be explored through readings and in-class musical experience.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 602 [Min Grade: C]

ARTS 673 Advanced Music Therapy Group Supervision I 1.0 Credit

Materials and techniques for dealing with mental, neurological and other disorders in children, adolescents and adults in various settings are related to advanced music therapy clinical practice and research in small group presentations and discussions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 610 [Min Grade: C] (Can be taken Concurrently)

ARTS 674 Advanced Music Therapy Group Supervision II 1.0 Credit

Materials and techniques for dealing with mental, neurological and other disorders in children, adolescents and adults in various settings are related to advanced music therapy clinical practice and research in small group presentation and discussions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 611 [Min Grade: C] (Can be taken Concurrently)

ARTS 675 Advanced Music Therapy Group Supervision III 1.0 Credit

Materials and techniques for dealing with mental, neurological and other disorders in children, adolescents and adults in various settings are related to advanced music therapy clinical practice and research in small group presentations and discussions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 612 [Min Grade: C] (Can be taken Concurrently)

ARTS 676 Theories in Music Therapy II 2.0 Credits

Course designed to provide an introductory overview of two major theoretical models of psychotherapy as they apply to music, creativity and to music therapy. The first half of the course will focus on perspectives from the psychodynamic orientation while the second half will focus on perspectives of the humanistic orientation.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 677 Advanced Music Therapy Skills III - Group 2.0 Credits

Continuation of ARTS 671 will study music therapy within group formats incorporating wellness and mind/body approaches. Students will participate as leader and member of an on-going group to simulate a variety of clinical, caregiver, and other non-clinical (prevention) populations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 671 [Min Grade: C]

ARTS 678 Clinical Internship Laboratory: Musical Analysis 1.0 Credit

This seminar/lab will introduce methods of analysis of client musical expressions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 612 [Min Grade: C] (Can be taken Concurrently)

ARTS 699 Independent Study in Creative Arts Therapy 0.5-4.5 Credits

Independent opportunities for study may be offered to individual students who have an interest and an academic rationale to pursue in greater depth than is provided in other CAT courses. This course is structured with a contract and under close advisement.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 13 credits

Restrictions: Can enroll if major is CATX.

ARTS 703 Interdisciplinary Seminar I 3.0 Credits

This course is one in a series of four seminars in which students study the inter-relatedness between collective interdisciplinary bodies of knowledge and the CAT's. The seminar is also to be viewed as a venue for identifying knowledge gaps in the CAT's and generating original research topics.

This seminar addresses the study of the interface between aesthetics, creativity and literature and the implications for the CAT's.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Corequisites: ARTS 712, ARTS 716

ARTS 704 Interdisciplinary Seminar II 3.0 Credits

This course is one in a series of four seminars in which students study the inter-relatedness between collective interdisciplinary bodies of knowledge and the CAT's. This seminar addresses the intersection between psychology, biology and neuroscience and the CAT's within the context of mind-body theories. The implications of study in these bodies of knowledge are considered for the development of epistemologies, theory and practice in the CAT's.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 703 [Min Grade: C]

Corequisites: ARTS 713, ARTS 717

ARTS 705 Interdisciplinary Seminar III 3.0 Credits

This course is one in a series of four seminars in which students study the interrelatedness between collective interdisciplinary bodies of knowledge and the CAT's. This seminar addresses the study of how psychoanalysis, philosophy, ethics and interface with the theory, practice and research in the arts therapies.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 703 [Min Grade: C] and ARTS 704 [Min Grade: C]

Corequisites: ARTS 714, ARTS 718

ARTS 706 Interdisciplinary Seminar IV 3.0 Credits

This course is one in a series of four seminars in which students study the inter-relatedness between collective interdisciplinary bodies of knowledge and the CAT's. This seminar addresses the study of the interface between the tenets of anthropology, sociology, cultural diversity and the arts therapies. The study of how embedded cultural thought, semiotics, and healing practices, relate to theory, practice and research in the arts therapies will be the focus of this seminar.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 703 [Min Grade: C] and ARTS 704 [Min Grade: C] and ARTS 705 [Min Grade: C]

Corequisites: ARTS 715, ARTS 719

ARTS 712 Research I: Philosophy & Theory 3.0 Credits

This course is the first in the doctoral research sequence. It introduces the student to the epistemological, philosophical, socio-cultural, and theoretical context for social science research and methods. The exploration of conceptual and philosophical underpinnings of nine perspectives of research guide the development of congruent methods. The significance of the research process and empirical evidence to creative arts therapies and mental health practice will be addressed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX or major is CFTX.

Corequisites: ARTS 703, ARTS 716

ARTS 713 Research Methods II: Quantitative Methods 3.0 Credits

This course is intended to build upon the ideas developed in Research Methods I. In that course, the theoretical, cultural, political, and ethical contexts of social science to research were explored. In this course, the quantitative research designs will be explored in more detail. Quantitative research methods and strategies will be examined and students will be expected to recognize different types of quantitative research and identify why a particular methodology is suited for a particular research agenda.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 712 [Min Grade: C]

Corequisites: ARTS 704, ARTS 717

ARTS 714 Research Methods III: Qualitative Methods 3.0 Credits

This course is the third in the doctoral research sequence. In this course, students will examine qualitative research methodologies. Students will learn various qualitative traditions in social science with a focus on mental health counseling, creative couple and family therapy and the creative arts therapies. Students will also learn of the threads common to qualitative methodologies while getting practical experience.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 712 [Min Grade: C] and ARTS 713 [Min Grade: C]

Corequisites: ARTS 705, ARTS 718

ARTS 715 Innovative and Emergent Research Methods 3.0 Credits

This course introduces students to the newest research paradigms in the Creative Arts Therapies and related fields. The philosophy and methods for mixed methods research, arts-based research, and transformative/emancipator paradigms, among others, will be presented. Experiential assignments that are geared to simulate the data collection and analyses processes within these research methods will be integral to this course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 712 [Min Grade: C] and ARTS 713 [Min Grade: C] and ARTS 714 [Min Grade: C]

Corequisites: ARTS 706, ARTS 719

ARTS 716 Studio Based Artistic Inquiry I 3.0 Credits

The first of this four course study module introduces the method of self-directed intrinsic learning through the arts process. The class consists of two parts: 1) creation of art in the student's art form; and 2) personal reflection, notation, and discussion of the emotional, cognitive, artistic, and intersubjective creative arts experience. Appropriate readings will be introduced to parallel the emergent experiences of the students.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Corequisites: ARTS 703, ARTS 712

ARTS 717 Studio Based Artistic Inquiry II 3.0 Credits

The second of the four course study module continues the method of self-directed intrinsic learning through the arts process. The class consists of two parts: 1) the creation of art in the student's art form; and 2) personal reflection, notation, and discussion of the emotional, cognitive, artistic, and inter-subjective create arts experience. The focus in this course is upon the emergence of metaphor, symbolism, and the process of making meaning within the inter-subjective artistic matrix.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 716 [Min Grade: C]

Corequisites: ARTS 704, ARTS 713

ARTS 718 Studio Based Artistic Inquiry III 3.0 Credits

The third of the four course study module continues the method of self-directed intrinsic learning through the arts process. The class consists of two parts: 1) creation of art in the student's art form, and 2) personal reflection, notation, and discussion of the emotional, cognitive, artistic, and inter-subjective arts experience. The concepts of transference and counter-transference are explored within the context of symbolism, meaning, and the inter-subjective artistic matrix.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 716 [Min Grade: C] and ARTS 717 [Min Grade: C]

Corequisites: ARTS 705, ARTS 714

ARTS 719 Studio Based Artistic Inquiry IV 3.0 Credits

The final of the four course study module continues the method of self-directed intrinsic learning through the arts process. The class consists of two parts: 1) creation of art in the student's art form; and 2) personal reflection, notation, and discussion of the emotional, cognitive, artistic, and inter-subjective arts experience. The formulation of epistemologies, theories, and hypotheses based upon the integration of knowledge from the four courses contributes to the generation of CAT research topics and clinical practice issues.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 716 [Min Grade: C] and ARTS 717 [Min Grade: C] and ARTS 718 [Min Grade: C]

Corequisites: ARTS 706, ARTS 715

ARTS 732 Quantitative Research Methods II 3.0 Credits

This course is an advanced research course in quantitative methods. It builds on information from the previous course in biostatistics, focusing on advanced strategies for quantitative data analysis. Particular focus is on multivariate analysis, examination of power in determining sample size, assessment of instrument reliability and validity, and understanding effect size. Students will have an opportunity to explore specific data analytic strategies necessary for their proposed projects.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 712 [Min Grade: C] and ARTS 713 [Min Grade: C] and ARTS 714 [Min Grade: C] and ARTS 715 [Min Grade: C]

ARTS 733 Qualitative Research Methods II 3.0 Credits

This course is designed as an advanced seminar course for doctoral students interested in developing a research proposal based on qualitative research methods. Through assigned readings, class discussions, experientials, and field experience, this course examines the philosophical, theoretical, ethical and practical aspects of qualitative research methodologies with specific emphasis on those strategies that are aligned with student research interests. Students will be exposed to and practice the use of qualitative software tools and will hone manuscript writing skills in qualitative research.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 1 times for 6 credits

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 712 [Min Grade: C] and ARTS 713 [Min Grade: C] and ARTS 714 [Min Grade: C] and ARTS 715 [Min Grade: C]

ARTS 734 Innovative and Emergent Research Methods II 3.0 Credits

This course includes the advanced study of the practical approaches to and applications of mixed methods and arts based research paradigms. As the second of two courses, this course focuses on an in depth study of mixed methods and arts based research designs including data collection, data analysis, approaches to validity and reliability, and application of these philosophies, paradigms, and methods to evidence based practice and legitimacy in the creative arts therapies and related fields.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 712 [Min Grade: C] and ARTS 713 [Min Grade: C] and ARTS 714 [Min Grade: C] and ARTS 715 [Min Grade: C]

ARTS 804 Dissertation Research I 1.0-9.0 Credit

This course focuses upon choosing a research topic for the dissertation. The topic will be chosen with the assistance of seminars and ongoing faculty advisement. Once the topic is chosen, the student prepares a dissertation proposal outline that includes the identification of the problem to be studied, the purpose of the study, the rationale, the methodology and the research question. The proposal outline must be approved by the program faculty. Following approval the student begins writing the dissertation proposal.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: (ARTS 703 [Min Grade: C] and ARTS 704 [Min Grade: C] and ARTS 705 [Min Grade: C] and ARTS 706 [Min Grade: C]) and (ARTS 712 [Min Grade: C] and ARTS 713 [Min Grade: C] and ARTS 714 [Min Grade: C] and ARTS 715 [Min Grade: C] and ARTS 716 [Min Grade: C] and ARTS 717 [Min Grade: C] and ARTS 718 [Min Grade: C] and ARTS 719 [Min Grade: C])

ARTS 805 Dissertation Research II 1.0-9.0 Credit

In this course, with faculty advisement, the student writes the dissertation proposal. In addition the student finalizes their dissertation committee during this term. The proposal is submitted to the dissertation proposal committee and the oral defense of the proposal takes place. The student must pass the oral proposal defense in order to register for ARTS 806.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 806 Dissertation Research III 1.0-9.0 Credit

In this course the student revises the first three chapters of the dissertation based upon the results of the Dissertation Proposal Defense. The student prepares materials for IRB submission and approval. Once the dissertation is approved by the IRB, and with the advisement of the Supervising Professor, the student establishes a data management system and begins data collection.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated multiple times for credit

Restrictions: Can enroll if major is CATX.

ARTS 807 Dissertation Research IV 1.0-9.0 Credit

This course includes the final stages of the dissertation during which the data is analyzed, the results and discussion chapters are written, and the final dissertation is defended in an oral examination.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Prerequisites: ARTS 804 [Min Grade: C] and ARTS 805 [Min Grade: C] and ARTS 806 [Min Grade: C]

Corequisite: ARTS 810

ARTS 808 Practicum I 3.0 Credits

The practicum provides the practical application component of the doctoral program. With faculty advisement, students choose one of the following practical areas of study: 1) academia/teaching; 2) research; 3) clinical supervision; or 4) advanced clinical practice. The goal of the practicum is to transform knowledge learned in the doctoral program into practical application and research in the creative arts therapies fields.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 809 Practicum II 3.0 Credits

The practicum is a continuation from ARTS 808: Practicum I which provides the practical application experience of the doctoral program. Students continue with one of the following practical areas of study: 1) academia/teaching; 2) research; 3) clinical supervision; or 4) advanced clinical practice. The goal of the practicum is to transform the knowledge learned to this point in the doctoral program into practical application and research in the creative arts therapies fields.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 810 Practicum III 3.0 Credits

The practicum is a continuation from ARTS 808 and ARTS 809: Practicum I & II which provide the practical application experience of the doctoral program. Students continue with one of the following practical areas of study: 1) academia/teaching; 2) research; 3) clinical supervision; or 4) advanced clinical practice. The goal of the practicum is to transform the knowledge learned to this point in the doctoral program into practical application and research in the creative arts therapies fields.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

ARTS 811 Special Topics Course 3.0 Credits

This is a special topics course that is being created for the Ph.D students in Creative Arts Therapies. This course is to be used for the students who wish to create an elective course to fulfill their elective and specialization requirements in the Ph.D Program. The elective course is an option only if no existing course in this area of specialization is offered in the Drexel University curricula. To register for this course students must obtain approval from their academic advisor.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 6 credits

Restrictions: Can enroll if classification is PhD.

ARTS 899 Independent Study PHD in Creative Arts Therapy 1.0-3.0 Credit

In this course a student can (1)pursue additional work suggested by the faculty for completion of program or course requirements, and/or (2)pursue in-depth and specialized study in an area relevant to their educational and research goals under close faculty advisement.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 9 credits

Restrictions: Can enroll if major is CATX.

Couple & Family Therapy

Courses

CFTP 500 Introduction to Systems Theory 4.0 Credits

This course will present an overview of systems theory, particularly general systems theory and cybernetics. This course will include a critique of system theory from a feminist and cross-cultural perspective.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CFTP 501 Introduction to Family Therapy 4.0 Credits

The purpose of this course is to introduce the student to major family therapy theories and their relationship to general systems theory and cybernetics.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CFTP 502 Introduction to Family Therapy II 3.0 Credits

This course will include contemporary and evidence based family therapy models. Students must have successfully completed Systems Theory and Introduction to Family Therapy I prior to enrolling in this course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX or major is FATX.

Prerequisites: CFTP 501 [Min Grade: C] and CFTP 500 [Min Grade: C]

CFTP 503 Historical and Sociocultural Influences 4.0 Credits

This course will introduce students to an examination of the family in a broader social cultural context. This class will explore how sociocultural concepts define and affect social, interpersonal and professional interactions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

CFTP 504 Sociocultural Influences II 3.0 Credits

This course will teach students how to develop culturally competent couple and family therapy models. Special attention to issues of power, privilege and oppression will be infused throughout the course. Students must successfully complete Sociocultural Influences I prior to enrolling in this course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

Prerequisites: CFTP 503 [Min Grade: C]

CFTP 505 Bowen Theory 4.0 Credits

This course offers a brief review of the history and development of the life work of Murray Bowen, M.D., an overview of the resulting theory of human behavior, Bowen Theory, and use of its interactive components in clinical, research and organizational applications.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CFTP 506 Contextual Theory and Therapy 4.0 Credits

This course introduces students to present the basic tenets of Contextual Therapy and Clinical applications.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CFTP 507 Collaborative Approaches 4.0 Credits

This course is designed to introduce students to a variety of postmodern theoretical trends in the family therapy field.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CFTP 508 Structural Family Therapy 4.0 Credits

This course is designed to introduce students to the practice and principles of Structural Family Therapy. This course will identify interventions related to structural theory and person of the therapist.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CFTP 509 Couples Therapy 4.0 Credits

This course will introduce students to the theory and practice of couple therapy. Couple theories, research, clinical practice and techniques will be studies and critiqued.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CFTP 510 Sex Therapy 4.0 Credits

This course will introduce students to the theory and practice of sex therapy. Sexual disorders and sexuality will be addressed from the perspective of the individual, couple and family or origin.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

Prerequisites: CFTP 509 [Min Grade: C] (Can be taken Concurrently)

CFTP 511 Object Relations Theory 4.0 Credits

The focus of this course is to understand Object Relations Theory, and its application to the treatment of individuals, couples and families.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CFTP 512 Behavioral Models of Family Therapy 4.0 Credits

This course introduces the basic behavioral approaches to Couple and Family Therapy. It includes an exposure to Behavioral Marital, Cognitive-Behavioral, Behavioral Family Therapy applications.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CFTP 513 DSM I: Adult Psychopathology 3.0 Credits

This is a survey of the major categories of adult psychopathological disturbance in the DSM-TR classification system. This course emphasizes the dynamics of diagnosis and biological treatment in relational therapy.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

CFTP 514 DSM II: Child Psychopathology 3.0 Credits

This is a survey of the major categories of child psychopathological disturbances in the DSM-TR classification system. This course emphasizes the dynamics of diagnosis and biological treatments in relational therapy.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CFTP 513 [Min Grade: C]

CFTP 515 Introduction to Psychopharmacology 4.0 Credits

This course is designed to present a history and the most current trends in biological treatments in psychiatric disorders. While it focuses on biological treatments the students concurrently will be exposed to historical and contemporary trends in the philosophy and practice of psychopharmacology in the profession.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CFTP 516 Addictions I: The Addictive Process 3.0 Credits

The process of addiction will be examined in the context of the family and the larger social system. Process addictions such as sex, gambling, food, exercise, spending and shopping will be covered in this course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CFTP 517 Addictions in The Family 4.0 Credits

The process of addiction will be examined in the context of the family and the larger social system. A wide exposure to theory and treatment models will be utilized to aid students' assessment and intervention skills in treating families with substance abuse issues.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

CFTP 518 Medical Family Therapy 4.0 Credits

This course is designed to prepare family therapists and other health professionals to work collaboratively in addressing the unique psychosocial problems of individuals, couples and families with acute and chronic medically related concerns.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

CFTP 519 Family Violence 4.0 Credits

This course will introduce students to research and practice of partner violence in the field of couple and family therapy.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CFTP 520 Family Life Cycle 4.0 Credits

This course integrates the interface of individual development with the social structure of coupling and family in family life cycle framework.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

CFTP 521 Human Development 4.0 Credits

This course will introduce students to the foundations of human development. It is designed to engage students in discussions of both traditional and contemporary human development models.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

CFTP 522 Legal and Ethical Implications in Couple and Family Therapy Practice 4.0 Credits

This course will introduce students to ethical and legal issues that may arise in couple and family therapy treatment including confidentiality and its limits, record keeping, custody cases, abuse, privilege, licensure and informed consent.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

CFTP 523 Legal and Ethical Implications in Couple and Family Therapy Practice II 3.0 Credits

This course is a continuation of Legal and Ethical Implications I. Students must successfully complete Legal and Ethical Implications I prior to enrolling in this course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

Prerequisites: CFTP 522 [Min Grade: C]

CFTP 524 Research I: Family Evaluation 3.0 Credits

This course focuses on issues in the clinical assessment of individuals, couples, and families. Assessment will be considered through a multi-method approach that includes: qualitative interview, observational, clinician-rated or global rating scales, and self report inventories.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

CFTP 525 Research in Couple and Family Therapy 4.0 Credits

This course focuses on research methods for couple and family therapy, and is designed to review contemporary family research methods through a multi-method approach. Issues in the clinical assessment of individuals, couples, and families will be explored from diverse contextual variables.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

CFTP 526 Person of the Therapist Experience I 2.0 Credits

Students will use the Person of the Therapist Training Model to actively explore self of the therapist development. This course is designed to help students develop an awareness of the self within one's own family of origin.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

Prerequisites: CFTP 530 [Min Grade: C] (Can be taken Concurrently)

CFTP 527 Person of the Therapist Experience II 2.0 Credits

This course is a continuation of Therapist Experience I: Person of the Therapist Training. Students will use the Person of the Therapist Training Model to actively explore self of the therapist development.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

Prerequisites: CFTP 531 [Min Grade: C] (Can be taken Concurrently)CFTP 526 [Min Grade: C]

CFTP 528 Person of the Therapist Experience III 2.0 Credits

This course is a continuation of Therapist Experience I & II: Person of the Therapist Training. Students will use the Person of the Therapist Training Model to actively explore self of the therapist development.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

Prerequisites: CFTP 532 [Min Grade: C] (Can be taken Concurrently)CFTP 526 [Min Grade: C] and CFTP 527 [Min Grade: C]

CFTP 529 Family Policy 4.0 Credits

The purpose of this course is to enhance student's awareness of policies that affect families in society. It will focus on policy development and process, and the role of policy in addressing family problems. Critical issues in family policy, particularly as it relates to diverse family structures and culture will also be explored.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CFTP 530 Practicum I 2.0 Credits

The purpose of first year Practicum is for the student to develop foundational skills necessary for the practice of couple and family therapy.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

CFTP 531 Practicum II 2.0 Credits

The purpose of first year Practicum is for the student to develop foundational skills necessary for the practice of couple and family therapy.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

Prerequisites: CFTP 530 [Min Grade: C]

CFTP 532 Practicum III 2.0 Credits

The purpose of first year Practicum is for the student to develop foundational skills necessary for the practice of couple and family therapy.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

Prerequisites: CFTP 531 [Min Grade: C]

CFTP 533 Practicum IV 1.0 Credit

The purpose of first year Practicum is for the student to show integration of theory and practice, develop their own style of practice and globally demonstrate comfort and competency in the role and functions of a couple and family therapist.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX or major is FATX.

Prerequisites: CFTP 532 [Min Grade: C]

CFTP 534 Practicum V 2.0 Credits

The purpose of the second year Practicum is for the student to show integration of theory and practice, develop their own style of practice, and globally demonstrate comfort and competency in the role and functions of a couple and family therapist.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

Prerequisites: CFTP 533 [Min Grade: C]

CFTP 535 Practicum VI 2.0 Credits

The purpose of the second year Practicum is for the student to show integration of theory and practice, develop their own style of practice, and globally demonstrate comfort and competency in the role and functions of a couple and family therapist.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

Prerequisites: CFTP 534 [Min Grade: C]

CFTP 536 Practicum VII 2.0 Credits

The purpose of the second year Practicum is for the student to show integration of theory and practice, develop their own style of practice, and globally demonstrate comfort and competency in the role and functions of a couple and family therapist.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CCFT or major is CFTX or major is FATX.

Prerequisites: CFTP 535 [Min Grade: C]

CFTP 537 Nosology & Couple and Family Therapy Practice 4.0 Credits

This course focuses on the principles of individual diagnosis of mental illness as defined in DSM IV and the implications for relational theory.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CFTP 711 Research I: Conceptual Basis 3.0 Credits

Identification of the theoretical basis for family systems research. Ethical and social context issues in family system research. Conceptual structure of the research process and description.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

CFTP 712 Family Theory 3.0 Credits

Comparative analysis of major theories of family life and development, including social context issues involved in the assessment and understanding of family interaction.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

CFTP 713 Couple and Family Therapy Research and Practice Literature 4.0 Credits

Explores historical and current literature in couple and family therapy practice, with a particular focus on evidence-based research literature. Development of a literature review on a selected CFT topic.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

CFTP 714 Professional Development Seminar I 2.0 Credits

Self of the therapist and issues in the development of Ph.D.-level professionals. Identification of program, college, and university academic resources. Identification of professional organizations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

CFTP 715 Quantitative Methods 4.0 Credits

Identification of various strategies for utilizing quantitative research methodology in family studies, including difference in research design, sampling, instruments, and data collection.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

CFTP 716 Advanced Family Therapy Theory and Practice 3.0 Credits

Advanced comparative analysis of historical and contemporary approaches to family therapy theory and their practical application, with particular reference to social context implications.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

Prerequisites: CFTP 712 [Min Grade: C]

CFTP 717 Couple and Family Therapy Assessment and Diagnosis 3.0 Credits

Introduction to the theory and development of instruments designed to assess relational functioning of couples and families, including research evidence and social context implications.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

CFTP 718 Professional Development Seminar II 2.0 Credits

Self of the therapist and issues in the development of Ph.D.-level professionals. Preparation of presentations and publications for submission to professional conferences and journals.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

Prerequisites: CFTP 714 [Min Grade: C]

CFTP 719 Qualitative Methods 4.0 Credits

Identification of various strategies for utilizing qualitative research methodology in family studies, including differences in research design, sampling, and data collection.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

CFTP 720 Couple Therapy Theory & Practice 3.0 Credits

Advanced comparative analysis of historical and contemporary approaches to couple therapy theory and their practical application, with particular reference to social context implications.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

Prerequisites: CFTP 712 [Min Grade: C]

CFTP 721 Critical Theory in Couple and Family Therapy 3.0 Credits

Comparative analysis of postmodern critical theories (e.g., critical race theory, feminist theory, queer theory) of family interaction and development.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

Prerequisites: CFTP 712 [Min Grade: C]

CFTP 722 Professional Development Seminar III 2.0 Credits

Self of the therapist and issues in the development of Ph.D.-level professionals. Teaching couple and family therapy.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

Prerequisites: CFTP 714 [Min Grade: C] and CFTP 718 [Min Grade: C]

CFTP 724 Multicultural Approach to Couple and Family Therapy 4.0 Credits

Develops cultural awareness and competency in working with families around issues of race and class.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

CFTP 725 Trauma and Families 4.0 Credits

Assessment of the impact of both acute and chronic trauma on family members and the response of the family system. Both internal trauma (domestic violence) and external trauma investigated.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

CFTP 726 Professional Development Seminar IV 2.0 Credits

Self of the therapist and issues in the development of Ph.D.-level professionals. Understanding academia, and the tenure process.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

Prerequisites: CFTP 714 [Min Grade: C] and CFTP 718 [Min Grade: C] and CFTP 722 [Min Grade: C]

CFTP 728 Research V: Advanced Qualitative Data Analysis 3.0 Credits

Understanding and using software for qualitative data analysis in family studies. Subjects covered related to current or proposed student projects.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

Prerequisites: CFTP 711 [Min Grade: C] and CFTP 715 [Min Grade: C] and CFTP 719 [Min Grade: C] and RHAB 759 [Min Grade: C]

CFTP 729 Diverse Family Structures 3.0 Credits

Examines the family therapy implications for working with various contemporary family structures (e.g., single-parent, multi-generational, divorced, reformed, same sex parents).

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

CFTP 730 Gender and Sexual Orientation 4.0 Credits

This course covers gender and sexual orientation with special attention given to the intersection of race, class, culture, ethnicity, religion, age, and ability.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

CFTP 731 Professional Development Seminar V 2.0 Credits

Self of the Therapist issues in the development of Ph.D.-level professionals. Understanding the grant writing process.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

Prerequisites: CFTP 714 [Min Grade: C] and CFTP 718 [Min Grade: C] and CFTP 722 [Min Grade: C] and CFTP 726 [Min Grade: C]

CFTP 732 Advanced Quantitative Research Design 4.0 Credits

The development of a research proposal, utilizing principally a quantitative methodology.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

Prerequisites: CFTP 716 [Min Grade: C]

CFTP 733 Advanced Qualitative Research Design 4.0 Credits

The development of a research proposal, utilizing principally a qualitative methodology.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

Prerequisites: CFTP 719 [Min Grade: C]

CFTP 734 Supervision in Couple and Family Therapy 4.0 Credits

Preparation for supervising trainees in couple and family therapy, from a systemic perspective. Exploration of supervision models and modalities; development of a personal model of supervision.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

CFTP 735 Family Healthcare Policy 4.0 Credits

Examines historical and contemporary trends in family healthcare policy, and its socio-political implications for families of different social positions. Relation of family therapy to ecosystemic issues investigated.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

CFTP 736 Professional Development Seminar VI 2.0 Credits

Self of the therapist issues in the development in Ph.D.-level professionals. Ethics in CFT supervision and teaching.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

Prerequisites: CFTP 714 [Min Grade: C] and CFTP 718 [Min Grade: C] and CFTP 722 [Min Grade: C] and CFTP 726 [Min Grade: C] and CFTP 731 [Min Grade: C]

CFTP 741 Religion, Spirituality and Couple and Family Therapy 4.0 Credits

Examines the organizing influence of personal belief system for both the therapist and family. The role of religious practices and differences between therapist and family investigated.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

CFTP 742 Couples Sexual Therapy 3.0 Credits

Explores the definition of "normal" sexual functioning, and the assessment and treatment of sexual dysfunction in couples therapy.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CFTX.

CFTP 751 Special Topics in Couple and Family Therapy 4.0-8.0 Credits

Special topics may be offered when several students share an interest in a particular subject matter related to couple and family therapy. This course may be repeated for a maximum of eight (8) credits.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 8 credits

Restrictions: Can enroll if major is CFTX.

CFTP 752 Independent Study in Couple and Family Therapy 4.0-8.0 Credits

Independent opportunities for scholarly research may be offered to individual students who wish to pursue a particular subject related to couple and family therapy in greater depth than other courses provide.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 8 credits

Restrictions: Can enroll if major is CFTX.

CFTP 801 Couple and Family Therapy Internship 1.0-20.0 Credit

Provides an advanced one-year full time supervised placement in a clinical, research, administrative or academic setting, as determined by the program director and student.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 5 times for 20 credits

Restrictions: Can enroll if major is CFTX.

CFTP 802 Couple and Family Therapy Dissertation 1.0-20.0 Credit

Supervised research, including establishing a topic directly related to family functioning or family therapy; developing a research question and methodology for investigating it, collecting, processing, and analyzing the data; and writing a scholarly description of the research project.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 5 times for 20 credits

Restrictions: Can enroll if major is CFTX.

CFTP 803 Couple and Family Therapy Dissertation Defense 1.0 Credit

The student should enroll for this only in the anticipated final quarter of enrollment, after all other credits for the PhD have been satisfied. This course may be repeated for a maximum of six (6) credits.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 3 credits

Restrictions: Can enroll if major is CFTX.

CFTP 804 Registered for Degree Only 1.0 Credit

The student should enroll for this only in the anticipated final quarter of enrollment, after all other credits for the PhD have been satisfied. This course may be repeated for a maximum of two credits.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 2 credits

Restrictions: Can enroll if major is CFTX.

Complement & Integrative Therapy

Courses

CIT 501 Foundations of Phytotherapy 3.0 Credits

This course serves as a foundation for the safe, effective and rational approach to using some of the most commonly known herbs in clinical practice. Includes a review of primary uses, active constituents, pharmacological actions, known contraindications, drug interactions, potential side effects, and review of the clinical research.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 502 Foundations of Complementary and Integrative Therapies 3.0 Credits

This course provides an overview of the history of medicine and reviews the theoretical foundation of selected CIT areas, including: botanical medicine, clinical aromatherapy, homeopathy, mind-body therapy, energy therapy, and humor and healthcare. It compares the CIT world view with the conventional medical model.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 503 Holistic Living For The Caregiver 3.0 Credits

This course is designed to take students on an experiential journey toward a holistic way of living that emphasizes a mind-body-spirit approach.

Emphasizes development of healthy, nutritious eating, effective exercise, and guidelines for incorporating basic supplementation. Students stress reduction and management techniques including breathing, walking and music. Integrates spiritual concepts.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 511 Spirituality, Health and Healing 3.0 Credits

Spirituality is an essential aspect of one's identity. For some, spirituality is expressed in terms of religious concepts while for others it is less formalized yet no less significant in contributing meaning and purpose to their lives. Health, illness, and healing are three major life experiences impacted upon by one's spirituality.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 512 Body Movement Therapies 3.0 Credits

This course is an overview of the history and theory of the following movement therapies: Dance Movement Therapy, Feldenkrais, Qigong, Yoga, and Pilates. The clinical application of these movement therapies to specific patient populations will be explored. Students will have the opportunity to "experience" an episode of each of the movement therapies.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 513 Yoga for the Enlightened Practitioner 3.0 Credits

This course provides a framework for understanding and experiencing the holistic practice of yoga. It addresses yoga's ancient philosophy of universal wisdom and this philosophy's increasing relevance to humankind today. The eight limbs of yoga are incorporated for study throughout the course content modules to promote self awareness and conscious action in daily life experience. Holistic yoga application as a medical modality is reviewed based on evidence based practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 534 Witches, Wise Women and Women Healers 3.0 Credits

This course provides a chronicle of women healers throughout history from ancient to modern times--those who have served as priestesses, witches, wise women, and ultimately the healers who have helped to shape and form healthcare as we know it today. It examines the influence of religion, misogyny, science, politics, economics, and sexuality on the creation of the female archetype and the lasting impression that has influenced her role in healing practices. Students will also look at the role of modern healers and the evolving model of integrative healthcare in healing practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 600 Foundations in Clinical Aromatherapy 3.0 Credits

This course provides a strong foundation for the safe and effective use of 20 therapeutic essential oils. Includes the clinical application of each essential oil, basic essential oil organic chemistry, safety, dosages and known contraindications. Reviews essential oil biosynthesis, specific plant morphological structures, extraction methodologies, primary avenues of absorption, and an overview of the history of aromatherapy. This course adheres to the educational standards (level one) set forth by the National Association for Holistic Aromatherapy (NAHA).

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 601 Integration of Complementary and Integrative Therapies 3.0 Credits

This course is an overview of the availability, utilization and integration of complementary and integrative therapies in the United States today. Emphasis is placed on the coordination of traditional and non-traditional healing practices and the roles and responsibilities of the provider as the coordinator of the patients' health care.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CIT 501 [Min Grade: C] and CIT 502 [Min Grade: C] and CIT 503 [Min Grade: C]

CIT 602 Women's Integrative Health 3.0 Credits

This course presents an Integrative Mind-Body approach for supporting various states of health imbalance specific to women's health. Applied integrative strategies highlight the use of dietary and lifestyle changes, nutritional supplementation, botanical medicines and other specific healing modalities. Takes into account the eastern philosophy of anatomy energetics, the integration of the physical and the spiritual, psyche and soma, into a harmonious whole for addressing specific women's health conditions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CIT 501 [Min Grade: C] or CIT 502 [Min Grade: C] or CIT 503 [Min Grade: C]

CIT 617 Qigong: Bio-energy Therapy 3.0 Credits

This course teaches Qigong in the context of traditional Oriental medicine, and includes body movement and energy medicine for health and healing. The course provides students with principles of bio-energy (Qi) and practical ways of using them for healing. The key component of the course includes lectures, slow relaxing exercises, Qi meditations, and self-healing treatment techniques for specific symptoms. Lectures cover principles, history of bio-energy therapy, self-healing and treatment for special symptoms, case studies, and effects.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 618 Principles of Holistic Nursing 3.0 Credits

This course provides a foundation of holistic nursing knowledge, understanding and insight, including holistic nursing theories, ethics, and beliefs. The course will focus on the American Holistic Nurses Association's Scope and Standards of practice, as well as the Holistic Nursing Core Values. Students will explore the concept of healing, evaluate current local and national trends and environmental conditions that affect health, and identify ways to incorporate the concepts of holistic nursing into professional practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 619 Principles of Bioenergy Therapies 3.0 Credits

Principles of Bioenergy Therapies examines the concept of human bioenergy fields and the healing modalities known as energy therapies that rebalance the bioenergy field to promote healing. The history and research into energy therapies is covered as students explore the paradigm shift in treatment of individuals in Western medicine.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 620 Integrative Meditation: Where East Meets West 3.0 Credits

This course provides an introduction to the practice of meditation from Eastern civilizations to the West by presenting an overview of the major categories, including: Zen, Vipassana/Insight, Shambhala, Mindfulness and Centering Prayer. The course focuses on the experiential cultivation of both "formal" and "informal" mindfulness meditation practices as a foundation for positive health behaviors and psychological and emotional resilience that can be effectively utilized across the adult life span.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 621 Spirituality in Hospice and Palliative Care 3.0 Credits

This course offers health care professionals the guidelines and tools necessary to provide compassionate spiritual care to patients and their families at the end of life, by examining spiritual beliefs, rituals and opportunities through the combined effort of patient, family and a multidisciplinary health care team. Techniques will be explored that acknowledge and support individual goals, values, wishes, through discovery, reverence, and tending of the spirit. This course will examine the ancient texts of death and dying, the use of scripture, and the unique energy of the ancient hospices in Europe.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 622 Holistic Therapies in Hospice and Palliative Care 3.0 Credits

This course introduces health care professionals to the use of complementary and integrative therapies (CIT) used during the end of life. Methods for assessment, the influence of the environment in healing, and therapeutic interventions for various stages of patient concerns will be explored. The current use of proven modalities in end of life care will be discussed, as well as the potential for expanding current practice. Care of the dying will be viewed from many disciplines, clinical and domestic.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 623 Cross Cultural Issues 3.0 Credits

Culture plays an important role in an individual's view of death and in a health care provider's provision of care at the end of life. This course will explore culture, the learned behaviors, beliefs, and values that define an individual's experience, affecting their views of health, illness, dying, and life after death. The health care provider will develop skills necessary to recognize, assess, and address the psychological, social/religious issues, and cultural taboos realizing that different cultures may require significantly different approaches, ultimately, providing a meaningful context for dying.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 624 Foundations of Integrative Addiction Therapy 3.0 Credits

This course introduces the health care professional to the foundational principles of integrative healthcare. Reviews the neuroscience of addiction and the neuronutritional model of addiction. It provides the student with an understanding of complementary and integrative therapies (CIT) which can be used during the recovery phase of addiction treatment. Care of the recovering client will be viewed from many disciplines, allowing practitioners the perspective needed to enhance the physical, emotional/mental and spiritual aspects of healing throughout the recovery process.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 625 Spirituality, Empowerment, and Transformation 3.0 Credits

Advanced recovery from addiction requires the development of an expanded sense of self that is communal and spiritual in awareness. This course serves as an introduction to the significance of spiritual development using the 12-steps as spiritual practice and the wisdom of the great spiritual leaders, philosophers, and psychologists of our time. This course offers insight and practices that can energize the spirit, increase inner peace and work at the deepest root of the addiction process, providing students with the tools necessary to promote successful long-term recovery of those suffering from addictions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 628 Special Topics in Complementary and Integrative Therapies 3.0 Credits

This course covers special topics of relevance and significance to complementary and integrative therapies in health care. This course may be repeated up to three times for credit, as topics vary from term to term.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 9 credits

CIT 631 Introduction to Nutritional Neuroscience 3.0 Credits

This course explores the emerging interdisciplinary field of nutritional neuroscience that relates directly to many healthcare and quality-of-life issues at the forefront of modern society, in particular to addictions. Students will review the foundational neuroscience of addiction and the neuronutritional model of addiction. This course examines specific neuronutritional agents that are now used for their effects on behavior or brain function as it relates to addictions, the primary focus of the field of nutritional neuroscience.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

CIT 690 Independent Study 3.0 Credits

The student works under the guidance of a faculty member to study in depth a topic related to his or her program of study. Independent study courses may be undertaken when there is no specific formal coursework available to support the student's program of study. Specific objectives and requirements are negotiated individually and students will sign an Independent Study Contract. This course may be repeated three times for credit as topics vary from term to term.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 9 credits

Medical Family Therapy

Courses

MFTP 518 Medical Family Therapy 3.0 Credits

This course is designed to prepare family therapist and other health professionals to work in a collaborative manner addressing the unique psychosocial problems of individuals, couples, and families with acute and chronic medically related concerns.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

MFTP 537 Multicultural & Family Systems Approach to Healthcare 4.0 Credits

This course builds on Introduction to Family Therapy Theory and Concepts by extending foundation knowledge on serving diverse families who are challenged by particular health and developmental problems.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CFTP 501 [Min Grade: C]

MFTP 538 Issues and Trends in Health Policy for Families 3.0 Credits

This course will provide the clinician with an introduction to the history structure and function of health policy. The overall learner objective for clinicians is to analyze health policies that impact children, families, and aging populations. Students need to learn about how health care policies are developed, implemented, evaluated, and changed by policy makers and interest groups and how such policies affect the lives of clients and their families.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Neuroscience

Courses

NEUR 507 Neuroscience I 3.0 Credits

NEUR 507 is the first of two courses that provide a foundation in the structure and function of the nervous system. Clinical correlations relate the material to effective clinical practice and provide a neurophysiological basis for pathological entities described in the student's clinical neurology courses and commonly encountered in the clinic.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

NEUR 508 Neuroscience II 2.0 Credits

The course is designed to provide the student with a strong foundation in the structure and function of the nervous system. Clinical correlations are provided throughout the course to: 1). underscore the necessity for understanding the material for effective clinical practice and 2). provide a neurophysiological basis for various pathological entities described in their clinical neurology courses and commonly encountered in the clinic.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

NEUR 534 Neuroscience 3.0 Credits

This course describes: structure and functions of the human central nervous system; neurons; basic topography of the spinal cord and brain; major sensory and motor pathways; higher cortical functions. Neurological deficits resulting from stroke, brain trauma and other neuropathological processes; as well as implications for rehabilitation and psychotherapy are presented.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CATX.

Nutrition & Food Science

Courses

NFS 510 Profession of Dietetics 3.0 Credits

This course will introduce the learner to the profession of dietetics.

Topics covered will include: educational preparation and credentialing of registered dietitians and the organizational units responsible for these functions; professional roles and practice areas of dietitians; professional responsibilities of the credentialed dietitian; the Academy of Nutrition and Dietetics and other professional organizations; and, trends affecting the dietetics profession.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 525 Nutritional Assessment Through the Life Cycle 3.0 Credits

This course is designed to introduce students to and provide hands-on experience with the four primary methods of nutritional assessment: dietary, anthropometric, laboratory, and clinical assessment. Assessment methodology appropriate to each stage of the life cycle, including infants, children, adolescents, adults and elderly, will be used.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 530 Macronutrient Metabolism 3.0 Credits

Covers absorption, utilization, digestion, storage, and excretion of carbohydrates, lipids, and proteins.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 531 Micronutrient Metabolism 3.0 Credits

Covers absorption, utilization, digestion, storage, and excretion of vitamins, macrominerals, and microminerals.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 543 Medical Nutrition Therapy I 3.0 Credits

In-depth coverage of nutrition assessment and the Nutrition Care Process. Pathophysiology of selected acute & chronic disease states and their associated medical problems, with focus on using the Nutrition Care Process to meet the medical nutrition needs of patients.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NFS 525 [Min Grade: C] and BIO 610 [Min Grade: C]

NFS 544 Medical Nutrition Therapy II 3.0 Credits

Pathophysiology of selected acute & chronic disease states and their associated medical problems, with focus on using the Nutrition Care Process to meet the medical nutrition needs of patients.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NFS 543 [Min Grade: C]

NFS 545 Nutrition in Critical Care 3.0 Credits

Pathophysiology of selected critical care conditions and their associated medical problems, and the use of the Nutrition Care Process to meet the medical nutrition needs of patients. Also covers nutrition support including use of enteral and parenteral nutrition.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NFS 544 [Min Grade: C]

NFS 546 World Nutrition 3.0 Credits

Discusses the nutritional status of peoples in various parts of the world, the incidence and treatment of deficiency diseases, problems of the food supply and efforts to improve it, and other timely aspects of this comprehensive problem.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 550 Foodservice Systems Management 3.0 Credits

In-depth treatment of food purchasing, financial management of foodservices, cost controls, marketing in foodservice, equipment layout and design, and management/leadership theories and applications.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is HNUT.

NFS 601 Research Methods 3.0 Credits

Covers current techniques and evaluation methods for human nutrition research. Focuses on human subject aspects and critique of the literature.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 602 Methods of Nutrition Research 3.0 Credits

Laboratory methods current in nutrition research techniques. The emphasis will be on methods of instrumental analysis.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 609 Individualized Supervised Practice Pathway 1.0-3.0 Credit

The Individualized Supervised Practice Pathway is designed to prepare competent, entry-level dietitians for positions in medical nutrition therapy, outpatient nutrition counseling, food service management and community nutrition. The program will provide a curriculum for the student to experience and practice the many roles of the dietitian under the supervision of the preceptor.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 11 times for 36 credits

NFS 625 Nutrition and Exercise Physiology 3.0 Credits

The principles of exercise science and their interaction with nutrition are explored in-depth. The physiological and biochemical effects of training are examined in relation to sports performance and prevention of chronic diseases prevalent in developed countries.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 629 Readings in Nutrition Science 3.0 Credits

Covers advanced nutritional aspects of selected subjects in metabolism via an in-depth survey of current research literature in the field.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 630 Nutrition Counseling 3.0 Credits

Emphasizes nutrition counseling techniques for use with individuals and small groups, including development of nutrition education materials as well as verbal and non verbal communication skills.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 634 Women's Issues in Nutrition 3.0 Credits

Deals with the interface between nutrition, medicine, psychology, sociology, and anthropology as it relates to the female life cycle. Emphasizes pregnancy, lactation, maternal obesity, eating disorders, menopause, and society's roles for women in relation to food.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 640 Nutrition of the Schoolchild 3.0 Credits

Covers normal growth patterns and nutrition requirements for children of school age (K to 12). Stresses nutritional problems of schoolchildren, attitudes toward food, the role of the school lunch in nutrition, and evaluation of school lunches in relation to total nutritive needs.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 641 Nutrition in Later Maturity 3.0 Credits

Considers physiologic changes and nutritional requirements in later maturity and applications to dietary planning in the home and in the institution. Stresses economic, management, and community resources for meeting dietary needs and special nutrition problems of the elderly.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 680 Special Topics 0.5-9.0 Credits

Covers selected topics of study in the field of nutrition and food.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated multiple times for credit

NFS 690 Community Nutrition 3.0 Credits

Surveys nutrition services of city, state, and national organizations.

Develops suggestions for the development of a community program with appropriate educational methods and illustrative materials.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 695 Nutrition Education in K-12 3.0 Credits

Curriculum development for nutrition and food study in elementary and secondary schools; instructional materials; methods of teaching.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 696 Methods of Teaching Dietetics 3.0 Credits

Analyzes teaching situations in dietetics, including development of educational programs and instructional methods and materials for implementation in a clinical or management dietetics setting.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 732 Weight Management and Eating Disorders 3.0 Credits

Investigate current aspects of the treatment of obesity and eating disorders through nutrition therapy by studying research from medical science, nutrition knowledge, and dietary modalities.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 799 Independent Study 12.0 Credits

Provides an independent study in human nutrition.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated multiple times for credit

NFS 849 Readings in Therapeutic Nutrition 3.0 Credits

Covers current literature pertaining to nutrition in various conditions such as malabsorption, inborn errors of metabolism, diabetes mellitus, diseases of the gastrointestinal tract, diseases of the liver, and surgical conditions. Discusses nutrition assessment and parenteral and enteral nutrition.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NFS 997 Research 1.0-12.0 Credit

Requires students, in consultation with an appropriate faculty adviser, to identify a specific food and/or nutrition problem area of mutual interest, carefully document its background, and present research reports for study. All thesis students use this number. May be repeated for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Nursing

Courses

NURS 500 Confronting Issues in Contemporary Health Care**Environments 3.0 Credits**

Confronting Issues in Contemporary Health Care Environments examines Health care policy and politics in terms of contemporary issues relative to nurses in advanced roles, health care access, quality, and cost. The focus of this course is the critical analysis of health policy and global health utilizing advanced nursing roles in relation to the broader health landscape.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

NURS 501 Dimensions of Human Sexuality in Health & Illness 3.0 Credits

This course explores the multiple dimensions of sexual expression as one of the central elements of human experience. Using a developmental framework, students explore physiological, psychological and social facets of human sexuality in the context of health and illness. The course will assist health care clinicians to address sexuality as an aspect of holistic care of clients. Students should be aware that course materials may be sexually explicit and the course may involve topics that are controversial in nature.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Cannot enroll if classification is Freshman or Junior or Pre-Junior or Sophomore

NURS 502 Advanced Ethical Decision Making in Health Care 3.0 Credits

The focus of this course is to develop the student's ability to identify ethical dilemmas, apply moral reasoning, and then take action necessary to resolve the dilemma. Questions of clinical and applied ethics, including basic principles and theories that support and challenge the decision making process will be examined from various perspectives to address the moral difficulties the advance practice nurse is likely to encounter.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

NURS 503 Basic Principles of Nurse Anesthesia 3.0 Credits

This course is designed to provide the theoretical knowledge of basic equipment utilized in the routine care of the surgical patient. The objectives of this course are geared toward immediate application of the acquired anesthesia knowledge in the clinical setting.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Corequisites: NURS 504, NURS 526, NURS 549

NURS 504 Overview of Nurse Anesthesia 3.0 Credits

This course is designed to provide an overview of nurse anesthesia principles and basic anesthesia skills utilized in the routine care of the surgical patient. The lecture content is reinforced in the simulation lab experience. The objectives of this course are geared toward immediate application of the acquired knowledge in the simulated laboratory experience and for integration in the clinical setting.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Corequisites: NURS 503, NURS 526, NURS 549

NURS 505 Chemistry and Physics 3.0 Credits

Nurse anesthesia students examine physical phenomena relevant to anesthesia and anesthesia equipment. Basic organic chemistry, chemistry of drugs and specific technologies will be discussed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Prerequisites: NURS 503 [Min Grade: C] and NURS 504 [Min Grade: C] and NURS 549 [Min Grade: C]

Corequisites: NURS 507, NURS 508, NURS 520

NURS 506 Health Policy 4.0 Credits

The purpose of this course is to enhance the graduate student's ability to examine and evaluate social policy and its impact on health policy, health status and systems, delivery of care and on nursing practice, education and research.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 507 Nurse Anesthesia Pharmacology I 3.0 Credits

This course will provide an overview and in-depth analysis of general principles and concepts related to pharmacology of anesthetic agents used in clinical practice. Perioperative fluid management and blood components, an overview of general pharmacokinetics and pharmacodynamics principles, pharmacologic mechanism of action, effects on organ systems and considerations related to age and pathophysiological conditions will be explored.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Prerequisites: NURS 503 [Min Grade: C] and NURS 504 [Min Grade: C] and NURS 549 [Min Grade: C]

Corequisites: NURS 505, NURS 508, NURS 520

NURS 508 Nurse Anesthesia Clinical Practicum I 1.0 Credit

Clinical Practicum courses are designed to enable the student to apply and integrate the knowledge gained in pre and co-requisite courses to learn the skills to safely administer anesthesia to patients undergoing a wide variety of surgical or diagnostic procedures. These clinical practicums build on the student's previous anesthesia experiences each quarter.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Prerequisites: NURS 503 [Min Grade: C] and NURS 504 [Min Grade: C] and NURS 549 [Min Grade: C] and NURS 526 [Min Grade: C]

Corequisites: NURS 505, NURS 507, NURS 520

NURS 509 Health Promotion 4.0 Credits

This course addresses the health of individuals and populations from a systems perspective. Students investigate leading causes of illness and injury, develop and evaluate a multi-level intervention model. Focus is on the Health People 2010. Concepts and tools of continuous improvement are utilized.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 510 Advanced Principles of Nurse Anesthesia I 3.0 Credits

This course builds on the foundation learned in prerequisite courses. Emphasis is on the development of advanced knowledge of the respiratory system and cardiovascular systems. A comprehensive study of the physiology, pathophysiology and the relationship to patient management is the focus of the course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Prerequisites: NURS 520 [Min Grade: C] and NURS 505 [Min Grade: C] and NURS 507 [Min Grade: C] and NURS 508 [Min Grade: C]

Corequisites: NURS 511, NURS 512, NURS 521

NURS 511 Nurse Anesthesia Pharmacology II 3.0 Credits

This course will provide a continued in-depth analysis of general principles and concepts related to pharmacology of anesthetic agents used in clinical practice. The objective of this course are geared toward immediate application of the acquired knowledge for integration in the clinical setting. Additional drugs will be presented.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Prerequisites: NURS 507 [Min Grade: C]

Corequisites: NURS 510, NURS 512, NURS 521

NURS 512 Nurse Anesthesia Clinical Practicum II 1.0 Credit

Clinical Practicum II will provide the opportunity for the novice student to participate in the anesthesia management of healthy patients undergoing uncomplicated surgical and/or diagnostic procedures.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Prerequisites: NURS 505 [Min Grade: C] and NURS 507 [Min Grade: C] and NURS 508 [Min Grade: C] and NURS 520 [Min Grade: C]

Corequisites: NURS 510, NURS 511, NURS 521

NURS 513 Research and Theory I 4.0 Credits

The course is designed to provide professional graduate students with the skills necessary to evaluate the relationship between practice and published research. The course content includes an overview of research concepts, ethics in research, literature reviews, quantitative and qualitative research designs, research methods, and data analysis.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 514 Leadership in Nursing 3.0 Credits

This course addresses key concepts and skills required of nurses in today's health care climate, including the ability to analyze situations from a systems perspective, identity and attend to the context in which information is given and perceived, and to enhance interactions by clarifying communication.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 515 Advanced Principles of Nurse Anesthesia II 3.0 Credits

This course extends the knowledge learned in basic principles. During this quarter, students learn anesthetic management principles for regional anesthesia, orthopedic surgery, renal patients, morbidly obese patients and pediatrics. Important concepts include anatomical, physiological and pathophysiological, and pharmacological principles.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Prerequisites: NURS 510 [Min Grade: C] and NURS 511 [Min Grade: C] and NURS 512 [Min Grade: C] and NURS 521 [Min Grade: C]

Corequisites: NURS 516, NURS 522

NURS 516 Nurse Anesthesia Clinical Practicum III 2.0 Credits

Clinical Practicum III will provide the student the opportunity to administer anesthesia to patients scheduled for more complex surgical procedures and who may also exhibit significant pathophysiology. Students will begin to analyze the patient's physiological response to intra-operative surgical events and adjust the anesthetic and regional anesthesia.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Prerequisites: NURS 521 [Min Grade: C] and NURS 510 [Min Grade: C] and NURS 511 [Min Grade: C] and NURS 512 [Min Grade: C]

Corequisites: NURS 515, NURS 522

NURS 517 Nurse Anesthesia Clinical Practicum IV 3.0 Credits

Clinical practicum IV will provide the student the opportunity to administer anesthesia to patients scheduled for more complex surgical procedures and who may also exhibit significant pathophysiology. Students will begin to analyze the patient's physiological response to intra-operative surgical events and adjust the anesthetic and regional anesthesia.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Prerequisites: NURS 515 [Min Grade: C] and NURS 516 [Min Grade: C] and NURS 522 [Min Grade: C]

Corequisites: NURS 518, NURS 524, NURS 530

NURS 518 Advanced Principles of Nurse Anesthesia III 3.0 Credits

The content presented will enable the student to incorporate previous learned knowledge of physiology, pathophysiology, pharmacology, and patient management into the care of subspecialty populations with more complex medical problems. The anesthesia management of the pregnant, cardiothoracic, neurosurgical and burn patient will be presented.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Prerequisites: NURS 515 [Min Grade: C] and NURS 516 [Min Grade: C] and NURS 522 [Min Grade: C]

Corequisites: NURS 517, NURS 524, NURS 530

NURS 519 Forensic Science Foundations 3.0 Credits

This course examines the defining characteristics of offender behavior including the importance of obtaining complete victim histories, investigation of a motive and suspects as it relates to healthcare and practice. Investigative and therapeutic factors and approaches including examination of environment, place, time and crime scene indicators will be explored.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 6 credits

NURS 520 Advanced Physiology 3.0 Credits

This course presents the essentials of organ system function in humans, with an emphasis on the integration of neural and hormonal mechanisms in the control of organ system function. This course is limited to students in the Nursing Anesthesia Program of the College of Nursing and Health Professions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

NURS 521 Advanced Pathophysiology I 3.0 Credits

A detailed discussion of the disturbances of normal function and basic mechanisms involved in the diseases of the major organ systems and the general aspects of the common human pathophysiological conditions and syndromes. This course includes general pathological processes that are specific to the cardiovascular system.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 520 [Min Grade: C]

NURS 522 Advanced Pathophysiology II 3.0 Credits

A detailed discussion of the disturbances of normal function and basic mechanisms involved in diseases of the major organ systems and the general aspects of the common human pathophysiological conditions and syndromes. This course includes respiratory, renal, digestive, hepatobiliary and pancreatic pathophysiology.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 521 [Min Grade: C]

NURS 523 Advanced Pathophysiology III 3.0 Credits

A detailed discussion of the disturbances of normal function and basic mechanisms involved in diseases of the major organ systems and the general aspects of the common human pathophysiological conditions and syndromes. This course includes the endocrine, reproductive, sensory/motor pathways, pain pathways, neuromuscular, neurological, and skeletal pathophysiology.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 522 [Min Grade: C]

NURS 524 Analysis and Application of Forensic Trends and Issues 3.0 Credits

This course requires synthesis of information gathered from previous core courses with application to actual forensic case studies from a healthcare perspective. Students will analyze characteristics of offender behavior, victim histories and trajectories, investigative factors and related approaches are based on integration of theory and research with translation and application to forensic practice within their discipline.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 6 credits

Prerequisites: NURS 519 [Min Grade: B] and NURS 528 [Min Grade: B] and NURS 533 [Min Grade: B]

NURS 525 Advanced Physiology 4.0 Credits

This course builds on the student's knowledge of anatomy and physiology, emphasizing the complex nature of bodily function from the molecular to the systems level. The focus is on integrating the individual functions of all the body's cells into a total functional whole.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 339 [Min Grade: C]

NURS 526 Information, Innovation & Technology in Advanced Nursing Practice 3.0 Credits

This course is designed to provide an in-depth introduction to information systems and technologies that support practice and improve patient care and outcomes. Students develop an understanding of relationships between patient care and information and data issues involved in clinical practice in addition to examining informatics issues within complex healthcare systems.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

NURS 527 Evidence Based Approaches to Practice 3.0 Credits

This course focuses on using research to guide evidence-based practice. Communication, collaboration, and decision making skills from a multidisciplinary approach essential to collect, evaluate, and apply research to practice will be emphasized. During this course the student will learn to (1) conduct efficient, thorough searches of the research literature; (2) evaluate the quality of a body of research through an appraisal of design, methodology, and data analysis; (3) summarize the findings from an overall body of research; and (4) apply research evidence to issues of current nursing practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: C] and RSCH 523 [Min Grade: C]

NURS 528 Victimology – Contemporary Trend 3.0 Credits

This course examines the wide range of victimization experiences from the perspective of the crime victim, the offender, families, and the healthcare community. Basic tenets of assessment and intervention with victims and survivors are explored. Emphasis will focus on understanding the etiologic and motivation issues as well as response patterns to victimization and perpetration dynamics from a healthcare provider perspective.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 6 credits

NURS 529 Foundations of Complementary and Integrative Therapies 3.0 Credits

This course provides an overview of the history of medicine, and reviews the theoretical foundation of selected CIT areas including: botanical medicine, clinical aromatherapy, homeopathy, mind-body therapy, energy therapy, and humor and healthcare. It compares the CIT world-view with the conventional medical model.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 530 Anesthesia Seminar 1.0 Credit

This seminar will integrate the academic and practical knowledge the student has acquired in the nurse anesthesia curriculum. Students will work independently with a faculty advisor to develop a State of the Science Paper on a topic relevant to anesthesia practice. Students are required to perform a comprehensive review of the literature, provide an educational hand-out to their colleagues and present the information using multimedia approaches.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Prerequisites: NURS 515 [Min Grade: C] and NURS 516 [Min Grade: C] and NURS 522 [Min Grade: C]

Corequisites: NURS 517, NURS 518, NURS 524

NURS 531 Epidemiology in Action: Tracking Health & Disease 3.0 Credits

Assists students to examine and actualize the processes for development and measurement of outcomes in health care in the context of evidence-based practice. Explores epidemiologic theories and models to promote understanding of risks and disease pathogenesis. Examines the dynamic balance between health and illness. Understanding of health assessment, risk identification and outcomes measurement is emphasized.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 519 [Min Grade: C]

NURS 532 Evaluation of Health Outcomes 3.0 Credits

Examines standard models for evaluation of health outcomes for clients. Clinical interventions and outcomes for specific populations will be explored from the client, provider, and payer perspective, using selected methodological and evaluative approaches. The impact of health care, disease management and outcomes will be examined in relation to public policy and legislation. Key steps in measuring clinical outcomes are explored in developing an analysis plan for a selected clinical population.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is HI or major is NURS.

Prerequisites: RSCH 519 [Min Grade: C]

NURS 533 Forensic Mental Health 3.0 Credits

This course examines the various foundations of offender behavior including theory, research and motivational models. Basic tenets of assessment and intervention with offenders will be examined from a healthcare perspective.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 6 credits

NURS 534 FNP I: Primary Care of the Emerging Family 5.0 Credits

This is the first course in a series of five clinical courses for the graduate student studying to become a family nurse practitioner. This course introduces the FNP student to the health care needs and dynamics of the emerging family throughout the lifecycle. Clinical practicum of 160 hours occurs concurrently.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 556 [Min Grade: B] and NURS 664 [Min Grade: B]

NURS 535 FNP II: Primary and Episodic Care of Infants, Children and Adolescents 5.0 Credits

This is the second course in a series of five clinical courses for the graduate student who is studying to become a family nurse practitioner. This course is designed to introduce the FNP student to primary and episodic care of infants, children, adolescents, and their families. Clinical practicum of 160 hours occurs concurrently.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: B] or RSCH 523 [Min Grade: B] or NURS 500 [Min Grade: B] or NURS 502 [Min Grade: B] or NURS 526 [Min Grade: B] or NURS 527 [Min Grade: B] or NURS 548 [Min Grade: B] or NURS 549 [Min Grade: B] or NURS 550 [Min Grade: B] or NURS 556 [Min Grade: B] or NURS 664 [Min Grade: B] or NURS 534 [Min Grade: B]

NURS 536 FNP III: Primary Care of Adults and Older Adults Across the Adult Age Spectrum I 5.0 Credits

This is the third in a series of five clinical courses for the graduate student who is studying to become a family nurse practitioner. The course is designed to introduce the FNP student to primary care of the adult-older adult population across the age spectrum. Clinical practicum of 160 hours occurs concurrently.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 556 [Min Grade: B] and NURS 664 [Min Grade: B] and NURS 534 [Min Grade: B] and NURS 535 [Min Grade: B] and NURS 575 [Min Grade: B]

NURS 537 FNP IV: Primary Care of Adults and Older Adults Across the Adult Age Spectrum II 5.0 Credits

This is the fourth in a series of five clinical courses for the graduate student who is studying to become a family nurse practitioner. The course is designed to build on topics from FNP III, Primary Care of the Adult-Older Adult I, with a focus on care of the adult-older adult with multisystem and chronic illness that impacts quality of life. Clinical practicum of 160 hours occurs concurrently.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 556 [Min Grade: B] and NURS 664 [Min Grade: B] and NURS 534 [Min Grade: B] and NURS 535 [Min Grade: B] and NURS 536 [Min Grade: B] and NURS 575 [Min Grade: B]

NURS 538 FNP V: Integrative Practicum in Family Practice Across the Lifespan 4.0 Credits

This is the final clinical courses for the graduate student studying to become a family nurse practitioner. This course is designed to assist the student to apply knowledge from all previous clinical courses to guide them in the transition from student to practitioner. Clinical practicum of 80 hours occurs concurrently.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 556 [Min Grade: B] and NURS 664 [Min Grade: B] and NURS 534 [Min Grade: B] and NURS 535 [Min Grade: B] and NURS 536 [Min Grade: B] and NURS 537 [Min Grade: B]

NURS 539 Holistic Living for the Caregiver 3.0 Credits

This course is designed to take the student on an experiential journey toward a holistic way of living that emphasizes a mind-body-spirit approach. Emphasizes development of healthy, nutritious eating, effective exercise, and guidelines for incorporating basic supplementation. Students stress reduction and management techniques including breathing, walking and music. Integrates spiritual concepts.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 540 ASD I: Introduction to Autism Spectrum Disorder 3.0 Credits

This course will provide an overview of the public health problem of autism spectrum disorder including natural history, etiology, rising prevalence, risk factors, and core features of ASD. The student will be introduced to the important and evolving role of nurses in the life-long care of people with ASD.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 541 ASD II: Health and Behavioral Care Planning and Intervention for Children and Adolescents 3.0 Credits

This course will provide an overview of the range of treatments for ASD and pharmacotherapy for symptom managements of the pediatric population across the lifespan. A family centered approach to care is emphasized, developing understanding of the medical, nursing and behavioral management of the range of functional problems and core features across the lifespan.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 540 [Min Grade: B]

NURS 542 ASD III: Health and Behavioral Care Planning and Intervention for Adults with ASD 3.0 Credits

Students acquire in-depth knowledge of the various treatment approaches to ASD and learn strategies for managing acute and chronic health and behavioral problems experienced by adults with ASD. Core features manifest differently based on age, environmental stressors, therefore the students learn how to predict and prevent problems in a variety of health care settings and circumstances as individuals with ASD require treatment for other health conditions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 540 [Min Grade: B]

NURS 543 ASD IV: Nursing Leadership and Advocacy for ASD 3.0 Credits

Students will examine the role of nursing in the life-long care of people with ASD and identify ways to expand the scope of nursing care for this vulnerable population. Practical issues of collaboration and reimbursement for services will be explored. Students will explore the availability of services in the community and discuss approaches to patient advocacy. Students will identify and implement an independent project.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: (NURS 540 [Min Grade: B] or NURS 541 [Min Grade: B] or NURS 542 [Min Grade: B]) and (NURS 541 [Min Grade: B] or NURS 542 [Min Grade: B])

NURS 548 Advanced Pathophysiology 3.0 Credits

Building on a foundation of normal physiology, students are exposed to the major disturbances of normal function and the basic mechanisms involved in disease of the major organ systems. The course includes discussion of the general aspects of the common human pathophysiological conditions and syndromes.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 549 Advanced Pharmacology 3.0 Credits

This course is designed to build on prior pharmacologic study of actions and effects of drugs on the human system across the life span. Students will study pharmacologic mechanisms of action, effects on organ systems, routes of administration, pharmacokinetics, therapeutic uses, considerations related to age and physiologic state, adverse reactions, contraindications, and drug interactions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 550 Advanced Clinical Assessment & Diagnostic Reasoning Across the Lifespan 4.0 Credits

This Course is designed to introduce the experienced clinical nurse to diagnostic reasoning, advanced clinical history taking, and physical assessment for individuals/families across the life span. Course content focuses on the concepts, theory and practice related to obtaining comprehensive health histories for patients of all ages and states of health.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 500 [Min Grade: C] and NURS 502 [Min Grade: C] and RSCH 519 [Min Grade: C] and INFO 526 [Min Grade: C] and NURS 527 [Min Grade: C] and NURS 548 [Min Grade: C] and NURS 549 [Min Grade: C] and RSCH 523 [Min Grade: C]

NURS 551 Foundations of Phytotherapy: Clinical Applications of Herbal Therapy 3.0 Credits

This course serves as a foundation for the safe, effective and rational approach to using some of the most commonly known herbs in clinical practice. Includes a review of the primary uses, active constituents, pharmacological actions, known contraindications, drug interactions and potential side effects, as well as a review of the clinical research and historical significance of each herb.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 554 Pharmacology for Adult-Gerontology Acute Care Nurse Practitioners 3.0 Credits

This course is designed to prepare the Adult-Gerontology Acute Care Nurse Practitioner student for the safe prescribing and monitoring of therapeutic agents across the spectrum of adult-older adult patient population in acute and critical illness.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is ACNP.

Prerequisites: NURS 549 [Min Grade: B] and NURS 548 [Min Grade: B]

NURS 555 Psychopharmacology Across the Lifespan 3.0 Credits

This course provides scientific knowledge of psychopharmacology and its application to treatment of clients with psychiatric disorders across the lifespan. The course focuses on advanced concepts in neuroscience, pharmacokinetics and pharmacodynamics of psychotropic drugs in the management of targeted symptoms of psychiatric disorders in clients across the lifespan.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 664 [Min Grade: B]

NURS 556 Pharmacology for Family Nurse Practitioners 3.0 Credits

This course is designed to prepare the FNP students for the safe managing and prescribing of therapeutics. Students will study pharmacologic mechanisms of action, effects on organ systems, routes of administration, pharmacokinetics, therapeutic uses, considerations related to physiologic state, adverse reactions, contraindications and drug interactions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 548 [Min Grade: C] and NURS 549 [Min Grade: C]

NURS 557 Leadership and Stewardship in the Health Professions 3.0 Credits

Changes in the health care system are demanding practitioners with well-honed leadership skills and with a sense of stewardship. This course explores the concepts of leadership and stewardship from a historical and contemporary perspective with particular application to the health professions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is HI or major is NURS.

NURS 558 Economics of Healthcare Management & Policy 3.0 Credits

Understanding the economic and financial issues that affect today's health care environment is required for the nurse providing evidence-based services to manage and compete effectively in the health care marketplace. This course will address the changing demands for health care services, quality improvement and management measures and cost containment strategies.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

NURS 559 Operations Management in Contemporary Healthcare Organizations 3.0 Credits

Ongoing demands for increased productivity, quality and service have resulted in a renewed emphasis on operational efficiency in the delivery of healthcare services and nursing care. This course will utilize clinical practice settings and case studies to examine critical issues related to restructuring patient care delivery models and clinical practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 557 [Min Grade: B] and NURS 558 [Min Grade: B]

NURS 560 Wicked Problems in Health Care 3.0 Credits

The term "wicked problem" originated in designing and planning literature and crept into healthcare, capturing problems such as access to care, healthcare errors, etc. this course offers a perspective on wicked healthcare problems and a framework to understand their complexity, and explores what happens in attempts to solve them.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 561 Spirituality, Health and Healing 3.0 Credits

Spirituality is an essential aspect of one's identity. For some, spirituality is expressed in terms of religious concepts while for others it is less formalized yet no less significant in contributing meaning and purpose to their lives. Health, illness, and healing are three major life experiences impacted upon by one's spirituality.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 563 Building and Leading High Performance Healthcare Organizations 3.0 Credits

This course presents an intensive examination of the role of organizational leaders in building and leading high performance teams for maximum effectiveness. It is focused on the evolving roles of leaders as they advance from front line to higher level management positions in clinical settings.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 557 [Min Grade: B] and NURS 558 [Min Grade: B] and NURS 559 [Min Grade: B]

NURS 564 The Business of Healthcare 3.0 Credits

This course will address the basics of financial management in health care organizations including accounting, cost analysis, managing financial resources, and other management tools helpful to a nurse manager. Budget development and full-time equivalent (FTE) allocation will be addressed along with federal and state regulations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is HI or major is NURS.

NURS 565 Body Movement Therapies 3.0 Credits

This course is an overview of the history and theory of the following movement therapies: Dance Movement Therapy, Feldenkrais, Qigong, Yoga, and Pilates. The clinical application of these movement therapies to specific patient populations will be explored. Students will have the opportunity to "experience" an episode of each of the movement therapies.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 566 Yoga for the Enlightened Practitioner 3.0 Credits

This course provides a framework for understanding and experiencing the holistic practice of yoga. It addresses yoga's ancient philosophy of universal wisdom and this philosophy's increasing relevance to humankind today. The eight limbs of yoga are incorporated for study throughout the course content modules to promote self awareness and conscious action in daily life experience. Holistic yoga application as a medical modality is reviewed based on evidence based practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 567 Strategic Management: Power, Politics and Influence in Healthcare Systems 3.0 Credits

Nursing care is increasingly recognized as vital to the success of healthcare initiatives and organizations. This course will utilize a systems focus to analyze the "fit" and "position" of nursing within organizations. Issues related to power, politics and influence; the ethics of scarcity management systems and processes; and organizational dynamics will be examined.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 558 [Min Grade: B]

NURS 568 Practicum and Symposium in Healthcare Operations Management 3.0 Credits

This practicum provides the student an opportunity to operationalize the leadership role in appropriate agencies and facilities in conjunction with an expert nursing leader. A capstone project involving a project of interest to both the student and the organization will be initiated, to be completed in conjunction with NURS 569.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 557 [Min Grade: B] and NURS 558 [Min Grade: B] and NURS 559 [Min Grade: B] and NURS 563 [Min Grade: B] and NURS 564 [Min Grade: B] and NURS 567 [Min Grade: B]

NURS 569 Practicum and Symposium in Technology and Management of Information in Healthcare Organizations 3.0 Credits

The focus of the practicum will be on exposure to the management of information to support decision-making, communication, and strategic planning. These include systems for managing human resources, improving quality of care and tracking organizational metrics. The capstone project begun in the Operations Management Practicum (NURS 568) will be completed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 557 [Min Grade: B] and NURS 558 [Min Grade: B] and NURS 559 [Min Grade: B] and NURS 563 [Min Grade: B] and NURS 564 [Min Grade: B] and NURS 567 [Min Grade: B]

NURS 570 Adult Gerontology Acute Care NP I: Introduction to Adult Gerontology Acute Care Medicine 5.0 Credits

This is the first course in a series of five clinical courses for the graduate student studying to become an Adult-Gerontology Acute Care Nurse Practitioner. This course is designed to introduce the student to the role of the Adult-Gerontology Acute Care Nurse Practitioner in adult acute/critical and chronic healthcare settings.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is ACNP.

Prerequisites: NURS 548 [Min Grade: B] and NURS 554 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 519 [Min Grade: B] and NURS 664 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 523 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B]

NURS 571 Adult Gerontology Acute Care Nurse Practitioner II: Mgmt/ Care of Patients in Acute/Crit Care Med Set 5.0 Credits

This is the second course in a series of five clinical courses for the graduate student studying to become an Adult-Gerontology Acute Care Nurse Practitioner. This course is designed to foster development of clinical competency and role transition in the setting of acute medicine.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is ACNP.

Prerequisites: NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 570 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 519 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 523 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 664 [Min Grade: B] and NURS 554 [Min Grade: B]

NURS 572 Adult Gerontology Acute Care Nurse Practitioner III: Mgmt/ Care of Patients in Acute Surgical Setting 5.0 Credits

This is the third course in a series of five clinical courses for the graduate student studying to become an Adult-Gerontology Acute Care Nurse Practitioner. This course is designed to foster ongoing development of clinical competency and role transition in the setting of acute surgical patients.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is ACNP.

Prerequisites: NURS 548 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 523 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 570 [Min Grade: B] and NURS 571 [Min Grade: B] and NURS 664 [Min Grade: B] and NURS 554 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 519 [Min Grade: B] and NURS 502 [Min Grade: B]

NURS 573 Adult Gerontology Acute Care NP IV: Management of Care of Patients in Critical Care Settings 5.0 Credits

This is the fourth course in a series of five clinical courses for the graduate student studying to become an Adult-Gerontology Acute Care Nurse Practitioner. This course is designed to foster ongoing development of clinical competency and role transition in the setting of critically ill patients.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is ACNP.

Prerequisites: NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 570 [Min Grade: B] and NURS 571 [Min Grade: B] and NURS 572 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 519 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 523 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 664 [Min Grade: B] and NURS 554 [Min Grade: B]

NURS 575 Family Nurse Practitioner I: Primary Care of Infants, Children & Adolescents 5.0 Credits

This course is designed to introduce the FNP student to primary care of children and their family. The student will begin the critical analysis of clinical strategies and interventions in health promotion, health maintenance, disease prevention and common health problems seen primarily in pediatric populations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: C] and RSCH 523 [Min Grade: C] and NURS 500 [Min Grade: C] and NURS 502 [Min Grade: C] and NURS 526 [Min Grade: C] and NURS 527 [Min Grade: C] and NURS 548 [Min Grade: C] and NURS 549 [Min Grade: C] and NURS 550 [Min Grade: C] and NURS 556 [Min Grade: C]

NURS 576 Family Nurse Practitioner I: Primary Care of Adults 5.0 Credits

This course is designed to introduce the students to primary care of the adult population with a focus on well adult care and the management of acute illness. Critical analysis of clinical strategies and interventions in health promotion, health maintenance, disease prevention and common health problems seen primarily in adult populations are studied.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: C] and RSCH 523 [Min Grade: C] and NURS 500 [Min Grade: C] and NURS 502 [Min Grade: C] and NURS 526 [Min Grade: C] and NURS 527 [Min Grade: C] and NURS 548 [Min Grade: C] and NURS 549 [Min Grade: C] and NURS 550 [Min Grade: C] and NURS 556 [Min Grade: C] and NURS 575 [Min Grade: C] and NURS 578 [Min Grade: C]

NURS 577 Family Nurse Practitioner IV: Primary Geriatric Care 5.0 Credits

This course is designed to introduce the NP student to primary care of the adult population with a focus on well adult care of the older adult with multisystem and chronic illnesses. Critical analysis of clinical strategies and interventions in health promotion, health maintenance, disease prevention and common chronic health problems seen primarily in older adult populations are studied.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: C] and RSCH 523 [Min Grade: C] and NURS 500 [Min Grade: C] and NURS 502 [Min Grade: C] and NURS 526 [Min Grade: C] and NURS 527 [Min Grade: C] and NURS 548 [Min Grade: C] and NURS 549 [Min Grade: C] and NURS 550 [Min Grade: C] and NURS 556 [Min Grade: C] and NURS 575 [Min Grade: C] and NURS 576 [Min Grade: C] and NURS 578 [Min Grade: C]

NURS 578 Family Nurse Practitioner III: Primary Care of Women 5.0 Credits

This course is designed to introduce the FNP student to the health care of women. Critical analysis of clinical strategies and interventions in health promotion, health maintenance, disease prevention and common health problems seen primarily in female populations is studied. Emphasis is on the care of women from menarche through menopause, including the care of pregnant women.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: C] and RSCH 523 [Min Grade: C] and NURS 500 [Min Grade: C] and NURS 502 [Min Grade: C] and NURS 526 [Min Grade: C] and NURS 527 [Min Grade: C] and NURS 548 [Min Grade: C] and NURS 549 [Min Grade: C] and NURS 550 [Min Grade: C] and NURS 556 [Min Grade: C] and NURS 575 [Min Grade: C]

Corequisite: NURS 579

NURS 579 Family Nurse Practitioner V: Integrative Practicum in Family Practice 4.0 Credits

This course is designed to assist the student to apply knowledge from all of the previous clinical courses to guide them in the transition from student to practitioner. Content will include extensive use of case management of complex problems seen in Family Practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: C] and RSCH 523 [Min Grade: C] and NURS 500 [Min Grade: C] and NURS 502 [Min Grade: C] and NURS 526 [Min Grade: C] and NURS 527 [Min Grade: C] and NURS 548 [Min Grade: C] and NURS 549 [Min Grade: C] and NURS 550 [Min Grade: C] and NURS 556 [Min Grade: C] and NURS 575 [Min Grade: C] and NURS 576 [Min Grade: C] and NURS 577 [Min Grade: C] and NURS 578 [Min Grade: C]

NURS 580 Adult-Gerontology Acute Care NP V: Mgmt/Care of Patients in Acute, Crit Care, Med or Surg Settings 5.0 Credits

This is the fifth course in a series of five clinical courses for the graduate student studying to become an Adult-Gerontology Acute Care Nurse Practitioner. This course is designed to foster independent and interprofessional practice in the role of the Adult-Gerontology Acute Care Nurse Practitioner.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is ACNP.

Prerequisites: NURS 500 [Min Grade: B] and NURS 519 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 523 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 548 [Min Grade: B] and NURS 664 [Min Grade: B] and NURS 554 [Min Grade: B] and NURS 570 [Min Grade: B] and NURS 571 [Min Grade: B] and NURS 572 [Min Grade: B] and NURS 573 [Min Grade: B]

NURS 581 Intra/Entrepreneurism, The Process of Innovation 3.0 Credits

The course is designed for the student who desires to understand the entrepreneurial process and how it can be used to creatively build new structures within health care, potentially discovering intra/entrepreneurial potential within themselves. Through an analysis of contemporary theories on change, the theoretical framework of intra/entrepreneurism will be analyzed and applied to innovative products and processes within health care.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 582 Foundation of Good Clinical Practice in Clinical Trials Mngmt 3.0 Credits

This foundation course in clinical research provides a comprehensive review of the fundamentals of human clinical research. It includes the principles of Good Clinical Practice (GCP's), regulatory requirements and guidelines, and ethical requirements for human drug and device development in the United States.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 583 Operational Leadership in Clinical Trials Management 3.0 Credits

This course focuses intensely on the integration and application of Good Clinical Practices (GCPs) and regulatory requirements in clinical trials management, including the development of an informed consent and responsibilities of an institutional review board (IRB). There is a strong focus on the financial aspects of study management including developments of study budgets.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 582 [Min Grade: B]

NURS 584 Current Topics in Clinical Trials 3.0 Credits

This third course in clinical research builds on the regulatory knowledge and skills learned in the foundation courses and offers an opportunity for the student to explore current topics in clinical trials management. It focuses on the challenges of running a clinical trial including fraud, adverse event reporting and patient recruitment.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 582 [Min Grade: B] and NURS 583 [Min Grade: B]

NURS 585 Clinical Trials Research Practicum 5.0 Credits

The practicum/project provides an opportunity for the student to operationalize the clinical trials role in appropriate agencies and facilities in conjunction with an expert clinical trials researcher. Emphasis is placed on practical experience in the clinical trials research process. A capstone project will be completed in conjunction with the practicum.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 582 [Min Grade: C] and NURS 583 [Min Grade: C] and NURS 584 [Min Grade: C]

NURS 586 Innovation in Advanced Nursing Practice: Theory and Application 3.0 Credits

Explores the theoretical literature from diverse disciplines on how innovations are conceived and implemented, particularly in nursing practice, and how such innovations run their course and spawn other innovations. Professional issues, practice issues, legislative issues, certification issues, insurance issues, legal issues and ethical conflict resolution in advanced nursing practice are explored.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CUIE or major is NURS.

NURS 587 Case Studies in Intra/Entrepreneurship and Innovation in Nursing 3.0 Credits

Using a case study model of great and bad ideas in nursing practice, education, and administration, students will explore some of the intra/entrepreneurial experiments, innovations and creative ventures in nursing, including both successes and failures. Professional issues, practice issues, legislative issues, certification issues, insurance issues, legal issues and ethical conflict resolution in advanced nursing practice are explored.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CUIE or major is NURS.

Prerequisites: NURS 586 [Min Grade: B]

NURS 588 The Nurse as Intra/Entrepreneur and Consultant 3.0 Credits

Using a business development model, each individual will create a business plan from vision, through action plan, to opening day. Researcher, expert and leader are presented and explored. Interpretation and application, professional issues, practice issues, legislative issues, certification issues, insurance issues, legal issues and ethical conflict resolution in advanced nursing practice are explored.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CUIE or major is NURS.

Prerequisites: NURS 586 [Min Grade: B] and NURS 587 [Min Grade: B]

NURS 589 Witches, Wise Women and Women Healers 3.0 Credits

This course provides an intriguing chronicle of women healers throughout history from ancient to modern times, those who have served as priestesses, witches, wise women, and ultimately the healers who have helped to shape and form healthcare, as we know it today. It examines the influence of religion, misogyny, science, politics, economics, and sexuality on the creation of the female archetype and the lasting impression that has influenced her role in healing practices. Finally, students will look at the role of modern healers and the evolving model of integrative healthcare in healing practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 590 Versatile Individualized Program I 3.0 Credits

The focus of the project is determined by the student and Track Coordinator. The project and related assignments will be individualized to match the student's selected area of focus. The project should contribute to the body of nursing knowledge and prepare the student to be a leader in this area of knowledge.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: C] and RSCH 523 [Min Grade: C] and NURS 500 [Min Grade: C] and NURS 502 [Min Grade: C] and NURS 526 [Min Grade: C] and NURS 527 [Min Grade: C]

NURS 591 Foundations of Nursing Education 3.0 Credits

This course prepares the prospective nurse educator with the foundational principles necessary for teaching in various settings: classroom, clinical and college laboratories, and health care agencies.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 527 [Min Grade: B] and RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and INFO 526 [Min Grade: B]

NURS 592 PMHNP I: Advanced Mental Health Nurse Practitioner Theoretical Foundations and Psychopathology I 5.0 Credits

This course introduces conceptual models and theories related to the practice of psychiatric mental health nursing. The course integrates assessment, diagnosis and treatment of clients with selected mental disorders across the lifespan, using concepts from various sciences. Students integrate theory and practice of PMHNP in a supervised clinical practicum.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 664 [Min Grade: B] and RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 555 [Min Grade: B] and NURS 500 [Min Grade: B]

NURS 593 PMHNP II: Advanced Mental Health Nurse Practitioner Theoretical Foundations and Psychopathology II 5.0 Credits

NURS593 is a continuation of NURS592 focusing on the role of the advanced psychiatric mental health nurse in the assessment, diagnosis, and treatment of clients with selected mental disorders across the lifespan, using concepts from various sciences. Students integrate theory and practice of PMHNP in a supervised clinical practicum.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 555 [Min Grade: B] and NURS 592 [Min Grade: B] and RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 664 [Min Grade: B]

NURS 594 PMHNP III: Adv Mental Hlth NP Treatment Modalities for Diverse Populations Across the Lifespan 5.0 Credits

This course examines treatment modalities for advanced practice psychiatric nursing. The course focuses on theoretical and conceptual foundation for specialty practice with individuals, families and groups across the lifespan with the emphasis of psychotherapy approaches and considerations. Students integrate theory and practice of PMHNP in a supervised clinical practicum.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 555 [Min Grade: B] and NURS 592 [Min Grade: B] and NURS 593 [Min Grade: B] and RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 664 [Min Grade: B]

NURS 595 PMHNP IV: Adv Mental Hlth NP Management and Care of Clients in Diverse Pop Across the Lifespan. 5.0 Credits

This course expands on previous courses focusing on assessment, diagnosis, and management of acute and chronic mental disorders of special population across the lifespan. It examines the PMHNP role in various models of community mental health and consultation-liaison. Students integrate theory and practice of PMHNP in a supervised clinical practicum.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 555 [Min Grade: B] and NURS 592 [Min Grade: B] and NURS 593 [Min Grade: B] and NURS 594 [Min Grade: B] and RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 664 [Min Grade: B]

NURS 596 Versatile Individual Program II 3.0 Credits

The focus of the project is determined by the student and Track Coordinator. The project and related assignments will be individualized to match the student's selected area of focus. The project should contribute to the body of nursing knowledge and prepare the student to be a leader in this area of knowledge.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: C] and RSCH 523 [Min Grade: C] and RSCH 526 [Min Grade: C] and NURS 500 [Min Grade: C] and NURS 502 [Min Grade: C] and NURS 526 [Min Grade: C] and NURS 527 [Min Grade: C] and NURS 590 [Min Grade: C]

NURS 597 Clinical & Didactic Teaching Methods 3.0 Credits

The purpose of this course is to prepare the prospective nurse faculty with the foundational principles and skills necessary for didactic teaching in the classroom and for supervision in clinical settings. Educational theories and instructional methods will be explored to enhance learning among traditional and non-traditional student populations in differing types of programs within the higher education environment.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 598 Teaching Critical Thinking & Clinical Decision-Making in Nursing 3.0 Credits

This course is designed to prepare the prospective nurse faculty with theoretical principles, processes, and instructional skills to promote critical thinking that results in appropriate clinical decision-making when interacting with student nurses in the classroom and clinical settings. Techniques for the facilitation of learning will be emphasized.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 597 [Min Grade: B] (Can be taken Concurrently)

NURS 599 Curriculum Design in Nursing Education 3.0 Credits

This course offers the student practical applications in curriculum design, including the development of a teaching/learning philosophy, mission statement, programmatic goals, learning objectives, individual courses, and teaching plans.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: NURS 597 [Min Grade: B], NURS 598 [Min Grade: B] (Can be taken Concurrently)

NURS 600 Measurement & Evaluation in Nursing Education 3.0 Credits

This course offers the student practical applications in assessment of learning outcomes, systematic test construction using multiple-choice format and alternative formats, and basic test statistics. Participants will explore advantages and limitations of a wide variety of classroom and clinical testing modalities.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: NURS 597 [Min Grade: B], NURS 598 [Min Grade: B] (Can be taken Concurrently)

NURS 601 Advanced Health Assessment 6.0 Credits

This course provides physical assessment didactic and lab experiences which builds upon NURS 201, Health Assessment Across the Lifespan. Students will refine the history taking and physical assessment skills necessary for advanced nursing roles. Students collect, synthesize, assess and interpret data from a variety of sources.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 506 [Min Grade: C] and NURS 509 [Min Grade: C] and NURS 513 [Min Grade: C] and NURS 611 [Min Grade: C]

Corequisite: NURS 525

NURS 602 Foundations for Clinical Nurse Leader 4.0 Credits

First of 3 CNL clinical courses in the track. Students experience point of care management of cohorts of clients with an interdisciplinary team model and from a Microsystems perspective. Integrates core and support course content into assessment, diagnosis and of health and illness conditions of adult clients. Concepts, theories, & research related to health promotion, illness management, risk identification and reduction to improve client safety are addressed. Emphasizes collaboration and interdisciplinary approach.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 500 [Min Grade: C] and NURS 502 [Min Grade: C] and NURS 527 [Min Grade: C] and NURS 531 [Min Grade: C] and NURS 532 [Min Grade: C] and RSCH 519 [Min Grade: C] and RSCH 523 [Min Grade: C] and INFO 526 [Min Grade: C]

NURS 603 Clinical Nurse Leader Capstone Immersion I 5.0 Credits

Second of 3 CNL clinical courses in the track. Students apply concepts, theories and evidence to the care of cohorts of clients with chronic illness. Emphasis is placed on utilization of technology at the point of care. Students will collaborate with other health care providers to develop and interdisciplinary approach to epidemiologically significant problems and to design, coordinate and evaluate plans of care using evidence and outcome data. Capstone project design begins in this course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 602 [Min Grade: C]

NURS 604 Clinical Nurse Leader Capstone Immersion II 5.0 Credits

Third course of 3 CNL clinical courses in the track. Students complete and present the capstone project to health care administrators and other stakeholders. Emphasis is on utilization of technology at the point of care. Students will collaborate, negotiate and articulate evidence based approaches to develop an interdisciplinary plan for significant epidemiologically significant problems and potential problems in diverse populations. Students develop in-depth understanding and skills in care of chronically ill client cohorts.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 602 [Min Grade: C]

NURS 605 Pharmacology for Acute Care Nurse Practitioner 3.0 Credits

This course is designed to prepare the Adult Acute Care Nurse Practitioner student for the safe managing and prescribing of therapeutics. Students will study pharmacologic mechanisms of action, effects on organ systems, routes of administration, pharmacokinetics, therapeutic uses, considerations related to physiologic state, adverse reactions, contraindications, and drug interactions. Case studies will be used to aid students in the transition from course work to clinical practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 548 [Min Grade: C] and NURS 549 [Min Grade: C]

NURS 606 Curriculum Design for Higher Level Cognition 3.0 Credits

The purpose of this course is to offer the student applications in nursing curriculum design, including the development of a teaching/learning philosophy, mission statement, programmatic goals, learning objectives, teaching plans, and individual courses.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and INFO 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 591 [Min Grade: B]

NURS 609 Forensic Mental Health 3.0 Credits

This course examines the various foundations of offender behavior including theory, research and motivational models. Basic tenets of assessment and intervention with offenders will be examined from a healthcare perspective. Public policy and practice guidelines for a variety of healthcare settings will occur via case examples.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 3 credits

NURS 610 Foundations in Clinical Aromatherapy 3.0 Credits

This course provides a strong foundation for the safe and effective use of 20 therapeutic essential oils. Includes the clinical application of each essential oil, basic essential oil organic chemistry, safety, dosages and known contraindications. Reviews essential oil biosynthesis, specific plant morphological structures, extraction methodologies, primary avenues of absorption, and an overview of the history of aromatherapy, and quality of essential oils. This course adheres to the educational standards (level one) set forth by the National Association for Holistic Aromatherapy (NAHA).

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 611 Research and Theory II 4.0 Credits

This is the second course in a sequence of two required research courses in the graduate nursing program. The course builds on the foundation of a research proposal to student a problem in the student's identified areas of interest.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 513 [Min Grade: C]

NURS 612 Women's Integrative Health 3.0 Credits

This course presents an Integrative Mind-Body approach for supporting various states of health imbalance specific to women's health. Applied integrative strategies highlight the use of dietary and lifestyle changes, nutritional supplementation, botanical medicines and other specific healing modalities. Takes into account the eastern philosophy of anatomy energetics, the integration of the physical and the spiritual, psyche and soma, into a harmonious whole for addressing specific women's health conditions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CIT 501 [Min Grade: C] or CIT 502 [Min Grade: C] or CIT 503 [Min Grade: C]

NURS 613 The Role and Responsibility of the Nursing Professor 3.0 Credits

Academic policies, protocols, and legal aspects of education will be explored. Campus relationships, prospective and current student issues, as well as laws affecting students will be examined. Situational events that occur in the classroom and clinical settings will be highlighted for students to research, discuss and develop a format for applying case law to student faculty issues.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 597 [Min Grade: B] and NURS 598 [Min Grade: B]

NURS 614 Technology for Nursing Education & Practice 3.0 Credits

The purpose of this course is to expand on technology skills that support the nurse educator in the virtual learning environment. This course prepares the student educator with the skills to utilize available technology for the development of on-line course work for the academic setting and program development for staff and patient education and the preparation of community outreach programs.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 615 Assessment, Measurement and Evaluation 3.0 Credits

This course explores the theories, principles and practices that underpin the measurement and evaluation of educational settings. This course includes content on approaches to giving feedback, test construction and psychometrics evaluation, development and grading of written assignments, evaluation of clinical performance and self-evaluation for personal teaching effectiveness.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: NURS 500 [Min Grade: B] and RSCH 519 [Min Grade: B] and NURS 502 [Min Grade: B] and RSCH 523 [Min Grade: B] and INFO 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 591 [Min Grade: B] and NURS 606 [Min Grade: B] and NURS 613 [Min Grade: B]

NURS 616 Teaching Methods in Nursing Education 3.0 Credits

This course provides an overview of teaching methods utilized within nursing education to support student learning in clinical, didactic and online learning environments. Students will examine various teaching/learning technologies, including simulation, and integrate these technologies with select teaching methods in the design of coursework to support learning.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and INFO 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 591 [Min Grade: B] and NURS 606 [Min Grade: B] and NURS 613 [Min Grade: B]

NURS 617 Qigong: Bio-energy Therapy 3.0 Credits

This course teaches Qigong in the context of traditional Oriental medicine, and includes body movement and energy medicine for health and healing. The course provides students with principles of bio-energy (Qi) and practical ways of using them for healing. The key component of the course includes lectures, slow relaxing exercises, Qi meditations, and self-healing treatment techniques for specific symptoms. Lectures cover principles, history of bio-energy therapy, self-healing and treatment for special symptoms, case studies, and effects.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 618 Principles of Holistic Nursing 3.0 Credits

This course provides a foundation of holistic nursing knowledge, understanding and insight, including holistic nursing theories, ethics, and beliefs. The course will focus on the American Holistic Nurses Association's Scope and Standards of practice, as well as the Holistic Nursing Core Values. Students will explore the concept of healing, evaluate current local and national trends and environmental conditions that affect health, and identify ways to incorporate the concepts of holistic nursing into professional practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 619 Principles of Bioenergy Therapies 3.0 Credits

Principles of Bioenergy Therapies examines the concept of human bioenergy fields and the healing modalities known as energy therapies that rebalance the bioenergy field to promote healing. The history and research into energy therapies is covered as students explore the paradigm shift in treatment of individuals in Western medicine.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 620 Integrative Meditation: Where East Meets West 3.0 Credits

This course provides an introduction to the practice of meditation from Eastern civilizations to the West by presenting an overview of the major categories, including: Zen, Vipassana/Insight, Shambhala, Mindfulness and Centering Prayer. The course focuses on the experiential cultivation of both "formal" and "informal" mindfulness meditation practices as a foundation for positive health behaviors and psychological and emotional resilience that can be effectively utilized across the adult life span.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 621 Spirituality in Hospice and Palliative Care 3.0 Credits

This course offers health care professionals the guidelines and tools necessary to provide compassionate spiritual care to patients and their families at the end of life, by examining spiritual beliefs, rituals and opportunities through the combined effort of patient, family and a multidisciplinary health care team. Techniques will be explored that acknowledge and support individual goals, values, wishes, through discovery, reverence, and tending of the spirit. This course will examine the ancient texts of death and dying, the use of scripture, and the unique energy of the ancient hospices in Europe.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 622 Holistic Therapies in Hospice and Palliative Care 3.0 Credits

This course introduces health care professionals to the use of complementary and integrative therapies (CIT) used during the end of life. Methods for assessment, the influence of the environment in healing, and therapeutic interventions for various stages of patient concerns will be explored. The current use of proven modalities in end of life care will be discussed, as well as the potential for expanding current practice. Care of the dying will be viewed from many disciplines, clinical and domestic.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 623 Cross Cultural Issues 3.0 Credits

Culture plays an important role in an individual's view of death and in a health care provider's provision of care at the end of life. This course will explore culture--the learned behaviors, beliefs, and values that define an individual's experience--and how it affects views of health, illness, dying, and life after death. The health care provider will develop skills necessary to recognize, assess, and address psychological, social/religious issues, and cultural taboos, realizing that different cultures may require significantly different approaches in order to provide a meaningful context for dying.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 624 Foundations of Integrative Addiction Therapy 3.0 Credits

This course introduces the health care professionals to the foundational principles of integrative healthcare. It provides the student with an understanding of complementary and integrative therapies (CIT) which can be used during the recovery phase of addiction treatment. Care of the recovering client will be viewed from many disciplines, allowing practitioners the perspective needed to enhance the physical, emotional/mental and spiritual aspects of healing throughout the recovery process.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 625 Spirituality, Empowerment, and Transformation 3.0 Credits

Advanced recovery from addiction requires the development of an expanded sense of self that is communal and spiritual in awareness. This course serves as an introduction to the significance of spiritual development using the 12-steps as spiritual practice and the wisdom of the great spiritual leaders, philosophers, and psychologists of our time. This course offers insight and practices that can energize the spirit, increase inner peace and work at the deepest root of the addiction process, providing students with the tools necessary to promote successful long-term recovery of those suffering from addictions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 626 Masters Nursing Education Practicum I 3.0 Credits

First half of a 2-term sequence focusing on the role of the nurse educator in classroom and clinical settings. Includes precepted didactic and clinical teaching hours. Settings vary according to interests, goals and career objectives. NURS 627 continues the practicum sequence.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NEFR.

Prerequisites: NURS 597 [Min Grade: B] and NURS 598 [Min Grade: B] and NURS 599 [Min Grade: B] and NURS 600 [Min Grade: B] and NURS 613 [Min Grade: B] and NURS 614 [Min Grade: B] and NURS 597 [Min Grade: B]

NURS 627 Masters Nursing Education Practicum II 3.0 Credits

Second half of a 2-term sequence focusing on the role of the nurse educator in classroom and clinical settings. Includes precepted didactic and clinical teaching hours. Settings vary according to interests, goals and career objectives. NURS 626 begins the practicum sequence.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NEFR.

Prerequisites: NURS 597 [Min Grade: C] and NURS 626 [Min Grade: C] and NURS 598 [Min Grade: C] and NURS 599 [Min Grade: C] and NURS 600 [Min Grade: C]

Corequisite: NURS 669

NURS 628 Special Topics in Nursing 3.0 Credits

This course covers special topics of relevance and significance to the disciplines of nursing. This course may be repeated three times for credit as topics vary from term to term.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 9 credits

Restrictions: Can enroll if major is NURS.

NURS 629 Independent Study in Nursing 1.0-3.0 Credit

The Master's nursing student works under the guidance of a faculty member to study in depth a topic related to their Program of Study. Independent study courses can be undertaken when there is no specific formal coursework available to support the student's program of study. Specific objectives and requirements are negotiated individually and students will sign an Independent Study Contract. This course may be repeated three times for credit as topics vary from term to term.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 9 credits

NURS 630 Principles of Nurse Anesthesia Practice VI 3.0 Credits

This course focuses on gastrointestinal and hepatic dysfunction related to anesthesia planning and intervention in the advanced practice role as a CRNA. Specific attention is given to mechanisms and management of coagulopathies and administration of blood and blood products. Blood borne diseases associated with blood product administration is addressed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

NURS 631 Introduction to Nutritional Neuroscience 3.0 Credits

This course explores the emerging interdisciplinary field of nutritional neuroscience that relates directly to many healthcare and quality-of-life issues at the forefront of modern society, in particular to addictions. Students will review the foundational neuroscience of addiction and the neuronutritional model of addiction. This course examines specific neuronutritional agents that are now used for their effects on behavior or brain function as it relates to addictions, the primary focus of the field of nutritional neuroscience.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 632 Nurse Educator and Faculty Role Practicum 6.0 Credits

This course focuses the student on the role of the nurse educator in either academic or agency settings. Students will have the opportunity to apply all of the content from prior course work in a precepted situation and a required residency.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and INFO 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 591 [Min Grade: B] and NURS 606 [Min Grade: B] and NURS 613 [Min Grade: B] and NURS 615 [Min Grade: B] and NURS 616 [Min Grade: B]

NURS 633 Pediatric Health I 7.0 Credits

The course includes didactic and clinical experiences focused on advanced child health nursing. Areas of focus include the spectrum of pediatric health services, technology, diversity, ethics, political and social dimension of pediatric health care and interdisciplinary collaborative team process skills.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 506 [Min Grade: C] and NURS 509 [Min Grade: C] and NURS 513 [Min Grade: C] and NURS 525 [Min Grade: C] and NURS 609 [Min Grade: C] and NURS 611 [Min Grade: C]

NURS 634 Pediatric Health II 7.0 Credits

This course concentrates on the application of advanced nursing skills and knowledge related to pediatric assessment, pediatric and family theories and the economics, viability and availability of pediatric health care delivery systems locally and nationally. Student work with nurses and interdisciplinary collaborative teams.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 633 [Min Grade: C]

NURS 635 Spirituality in Hospice and Palliative Care 3.0 Credits

This course offers health care professionals the guidelines and tools necessary to provide compassionate spiritual care to patients and their families at the end of life, by examining spiritual beliefs, rituals and opportunities through the combined effort of patient, family and a multidisciplinary health care team. Techniques will be explored that acknowledge and support individual goals, values, wishes, through discovery, reverence, and tending of the spirit. This course will examine the ancient texts of death and dying, the use of scripture, and the unique energy of the ancient hospices in Europe.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 636 Capstone Project I 3.0 Credits

The first of a 3-course sequence where under the direction of a nursing faculty mentor with direct expertise in the student's planned project, students will spend three quarters developing and producing a capstone project. Researcher, expert and leader are presented and explored. Interpretation and application, professional issues, practice issues, legislative issues, certification issues, insurance issues, legal and ethical conflict resolution in advanced nursing practice are explored.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CUIE or major is NURS.

Prerequisites: NURS 586 [Min Grade: B] and NURS 587 [Min Grade: B] and NURS 588 [Min Grade: B]

NURS 637 Capstone Project II 3.0 Credits

The second of a 3-course sequence where under the direction of a nursing faculty mentor with direct expertise in the student's planned project, students will spend three quarters developing and producing a capstone project. Researcher, expert and leader are presented and explored. Interpretation and application, professional issues, practice issues, legislative issues, certification issues, insurance issues, legal and ethical conflict resolution in advanced nursing practice are explored.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CUIE or major is NURS.

Prerequisites: NURS 636 [Min Grade: B]

NURS 638 Capstone Project III 3.0 Credits

The third and final course sequence where under the direction of a nursing faculty mentor with direct expertise in the student's planned project, students will spend three quarters developing and producing a capstone project. Researcher, expert and leader are presented and explored. Interpretation and application, professional issues, practice issues, legislative issues, certification issues, insurance issues, legal and ethical conflict resolution in advanced nursing practice are explored.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is CUIE or major is NURS.

Prerequisites: NURS 636 [Min Grade: B] and NURS 637 [Min Grade: B]

NURS 639 Holistic Therapies in Hospice and Palliative Care 3.0 Credits

This course introduces health care professionals to the use of complementary and integrative therapies (CIT) used during the end of life. Methods for assessment, the influence of the environment in healing, and therapeutic interventions for various stages of patient concerns will be explored. The current use of proven modalities in end of life care will be discussed, as well as the potential for expanding current practice. Care of the dying will be viewed from many disciplines, clinical and domestic.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 640 Women's Integrative Health 3.0 Credits

This course presents an Integrative Mind-Body approach for supporting various states of health imbalance specific to women's health. Applied integrative strategies highlight the use of dietary and lifestyle changes, nutritional supplementation, botanical medicines and other specific healing modalities. Takes into account the eastern philosophy of anatomy energetics, the integration of the physical and the spiritual, psyche and soma, into a harmonious whole for addressing specific women's health conditions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: CIT 501 [Min Grade: C] or CIT 502 [Min Grade: C] or CIT 503 [Min Grade: C]

NURS 642 PNP I: Primary Care of Infants, Children and Adolescents 5.0 Credits

This course provides the pediatric nurse practitioner student with an introduction to the conceptual basis for meeting the health needs of diverse pediatric populations. Course content and clinical experiences prepare the student to assume the role of primary care provider for children from birth through adolescence.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 646 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 556 [Min Grade: B] and RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B]

NURS 643 PNP II: Episodic Care of Infants, Children and Adolescents in Primary Care 5.0 Credits

This course focuses on the diagnosis and management of common pediatric episodic and emergency issues. Course content and clinical experiences prepare the student to assume the role of primary care provider for children from birth through adolescence.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 646 [Min Grade: B] and NURS 642 [Min Grade: B] and RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 574 [Min Grade: B] and NURS 556 [Min Grade: B]

NURS 646 Pharmacology for the Pediatric Nurse Practitioner 3.0 Credits

This course focuses on the appropriate medication regimens utilized in pediatric health care. The action, therapeutic effect and rationale for selection of each drug class will be examined. Toxicity and complications of each drug class will be discussed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 556 [Min Grade: B] and NURS 574 [Min Grade: B] and NURS 642 [Min Grade: B]

Corequisites: NURS 548, NURS 549

NURS 647 PNP III: Management and Care of Adolescents in the Primary Care Setting 5.0 Credits

This course focuses on the assessment, diagnosis and management of common health issues of adolescence. Reproductive health management and anticipatory guidance unique to the adolescent population will be discussed. Course content and clinical experiences prepare the student to assume the role of primary care provider to adolescents.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 556 [Min Grade: B] and NURS 642 [Min Grade: B] and NURS 643 [Min Grade: B] and NURS 646 [Min Grade: B]

NURS 648 PNP IV: Primary Care of Children with Special Health Care Needs 5.0 Credits

This course focuses on the management of children with special health care needs in the primary care setting. Course content and clinical experiences emphasize the complex issues of chronicity, behavioral and developmental disabilities and common health problems seen in primary care.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 556 [Min Grade: B] and NURS 642 [Min Grade: B] and NURS 643 [Min Grade: B] and NURS 646 [Min Grade: B] and NURS 647 [Min Grade: B]

NURS 659 Advanced Principles of Nurse Anesthesia IV 3.0 Credits

As the last of a 4 course sequence in nurse anesthesia specialties, student will incorporate previously learned knowledge of physiology, pathophysiology, pharmacology, and patient management into the care of subspecialty populations and patients with various disease states. Examples of topics include: trauma, shock, endocrine and hepatic disorders, and cancers.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Prerequisites: NURS 517 [Min Grade: C] and NURS 518 [Min Grade: C] and NURS 524 [Min Grade: C] and NURS 530 [Min Grade: C]

Corequisite: NURS 683

NURS 664 Professional Issues for Nurse Practitioners 1.0 Credit

This required course is the application and integration of the role and competencies of the nurse practitioner. The roles of the nurse practitioner as clinician, educator, researcher, expert, and leader are presented and explored. Interpretation and application of professional issues, practice issues, legislative issues, certification issues, insurance issues, legal issues and ethical conflict resolution in advanced nursing practice are explored and integrated into a model of interdisciplinary collaborative practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 548 [Min Grade: B] and RSCH 519 [Min Grade: B] and NURS 523 [Min Grade: B]

NURS 669 Professional Seminar for Advance Practice Nurses 1.0 Credit

This required course is the application and integration of the role and competencies of the MSN prepared nurse with advanced nursing knowledge who will seek employment in a diversity of advanced practice roles. The roles of the MSN graduate as clinician, educator, researcher, expert, and leader are presented and explored. Interpretation and application, professional issues, practice issues, legislative issues, certification issues, insurance issues, legal issues and ethical conflict resolution in advanced nursing practice are explored.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 670 Interdisciplinary Clinician Perspectives on Health Law 3.0 Credits

Introduces students to areas of law and legal theory that serve as the basis for the U.S. health care system. Students will examine statutes, regulations, and case law that regulate health care practice. Students will observe a courtroom proceeding, integrate professional knowledge with health law principles, and analyze testimony of a clinical expert witness. Legal underpinnings of provider liability, defenses, health policy access to care, and the patient safety movement are among topics discussed and analyzed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 500 [Min Grade: C]

NURS 678 Health, Wellness, and Primary Care for WHNP I 3.0 Credits

This course focuses on primary care of women throughout the life cycle. Within the framework of a multicultural viewpoint, students begin by examining strategies for preventive interventions as well as health screening and immunization schedules as women progress from adolescence to maturity.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: C] and RSCH 523 [Min Grade: C] and NURS 500 [Min Grade: C] and NURS 502 [Min Grade: C] and NURS 526 [Min Grade: C] and NURS 527 [Min Grade: C] and NURS 548 [Min Grade: C] and NURS 549 [Min Grade: C] and NURS 550 [Min Grade: C] and NURS 682 [Min Grade: C]

NURS 679 Health, Wellness, and Primary Care for WHNP II 3.0 Credits

This course follows NURS 678 Health, Wellness, and Primary Care for WHNP I. Students build upon the introductory framework presented in WHNP I with emphasis on disorders which are likely to be encountered in a women's health care setting.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: C] and RSCH 523 [Min Grade: C] and NURS 500 [Min Grade: C] and NURS 502 [Min Grade: C] and NURS 526 [Min Grade: C] and NURS 527 [Min Grade: C] and NURS 548 [Min Grade: C] and NURS 549 [Min Grade: C] and NURS 550 [Min Grade: C] and NURS 682 [Min Grade: C] and NURS 678 [Min Grade: C]

NURS 680 Primary Care for Women's Health 3.0 Credits

This course focuses on primary health care needs of women throughout the lifecycle concentrating on prevention, screening, risk factor assessment, health maintenance as well as signs and symptoms, assessment, management.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 519 [Min Grade: B], RSCH 523 [Min Grade: B] (Can be taken Concurrently) NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 556 [Min Grade: B]

NURS 682 Pharmacology for the Women's Health Nurse Practitioner 3.0 Credits

This course is designed to prepare the Women's Health Nurse Practitioner student for the safe managing and prescribing of therapeutic agents used in Obstetrics/Gynecology and primary care settings for women's health care.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 556 [Min Grade: B]

NURS 683 Nurse Anesthesia Clinical Practicum V 3.0 Credits

Clinical practicum V provides the student with the opportunity to administer a variety of anesthetics to patients presenting with a history of complex pathophysiological needs who are scheduled for a variety of surgical/diagnostic procedures. Students are provided invasive monitoring and regional anesthesia experiences.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Prerequisites: NURS 517 [Min Grade: C]

Corequisite: NURS 659

NURS 684 Nurse Anesthesia Clinical Practicum VI 3.0 Credits

Clinical practicum VI provides the student with the opportunity to administer a variety of anesthetics to patients presenting with a history of complex pathophysiological needs who are scheduled for a variety of surgical/diagnostic procedures. Students are provided opportunities to insert invasive monitors and manage regional anesthesia to patients.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Prerequisites: NURS 683 [Min Grade: C]

Corequisite: NURS 523

NURS 687 Clinical Residency I 6.0 Credits

The Clinical Practicums and Residencies provide opportunities for students to continue their development of critical thinking skills and anesthesia techniques when providing care for all types of surgical patients. Under the guidance of CRNAs and Staff Anesthesiologists, students work more autonomously and collaborate with others when providing comprehensive anesthesia care.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Prerequisites: NURS 684 [Min Grade: C]

Corequisite: NURS 527

NURS 688 Clinical Correlative Seminars 3.0 Credits

This seminar will integrate and review the academic and clinical knowledge the student has acquired in the nurse anesthesia program. The student will receive a weekly assignment of topical questions to research and present to classmates. A faculty member will serve as the course facilitator.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Prerequisites: NURS 687 [Min Grade: C]

Corequisite: NURS 689

NURS 689 Clinical Residency II 6.0 Credits

Clinical Residency II continues the students development of their critical thinking skills and anesthesia techniques as well as manage care for patients that they may not have had the opportunity to care for in their previous rotations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NUAN.

Prerequisites: NURS 687 [Min Grade: C]

Corequisite: NURS 688

NURS 690 WHNP I: Mngmnt & Care of the Common Gyn and Gender Related Issues throughout the Lifespan 5.0 Credits

This is the first course in a series of four clinical courses for the graduate student who is studying to become a (WHNP). This course is designed to introduce the WHNP student to the gynecological needs of women and their partners from puberty throughout the post reproductive years. Clinical practicum of 160 hours in Women's Health occurs concurrently.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 556 [Min Grade: B] and NURS 680 [Min Grade: B] and NURS 682 [Min Grade: B]

NURS 691 WHNP II: Mngmnt & Care of the Complex Gyn and Gender Related Issues of Women throughout the Lifespan 5.0 Credits

This is the second women's health course in a series of four clinical courses for the graduate student who is studying to become a WHNP. This course is designed to build upon the didactic and clinical content presented in N690 by addressing more complex gender related issues throughout the lifespan. Clinical practicum of 160 hours in Women's Health occurs concurrently.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 682 [Min Grade: B] and NURS 690 [Min Grade: B] and NURS 556 [Min Grade: B] and NURS 680 [Min Grade: B]

NURS 692 WHNP III: Management & Care of the Low Risk Obstetrical and Post Partum Needs of Women and Families 5.0 Credits

This is the third course in a series of four clinical courses for the graduate student who is studying to become a WHNP. This course is designed to introduce the WHNP student to low risk obstetrics. Clinical practicum of 160 hours in Women's Health Low Risk Obstetrical Care.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 682 [Min Grade: B] and NURS 690 [Min Grade: B] and NURS 691 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 556 [Min Grade: B] and NURS 680 [Min Grade: B]

NURS 693 WHNP IV: Mngmnt & Care of the High Risk Obstetrical and Post Partum Needs of Women and Families 5.0 Credits

This is the fourth course in a series of four clinical courses for the graduate student w studying to become a WHNP. The course is designed to introduce the WHNP student to the assessment of high-risk obstetrical care of the pregnant woman, the fetus, and the family unit. Clinical practicum of 160 hours in high risk obstetrics occurs concurrently.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

Prerequisites: RSCH 519 [Min Grade: B] and RSCH 523 [Min Grade: B] and NURS 500 [Min Grade: B] and NURS 502 [Min Grade: B] and NURS 526 [Min Grade: B] and NURS 527 [Min Grade: B] and NURS 548 [Min Grade: B] and NURS 549 [Min Grade: B] and NURS 550 [Min Grade: B] and NURS 556 [Min Grade: B] and NURS 680 [Min Grade: B] and NURS 682 [Min Grade: B] and NURS 690 [Min Grade: B] and NURS 691 [Min Grade: B] and NURS 692 [Min Grade: B]

NURS 700 Philosophy of Science Applied to Advanced Nursing Practice 3.0 Credits

This course will introduce students to the philosophy of science, especially as it pertains to advanced nursing practice across service settings. We will investigate theories of science within the context of several philosophical problems and link them directly to nursing practice. These include the nature of the scientific method; the role of explanation and scientific principles applied to the delivery of care; observation and theory as ways of knowing; distinguishing between science and non-science when to developing and evaluating therapeutic modalities.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Corequisite: NURS 703

NURS 703 Health Policy and Economics 3.0 Credits

This course bridges the chasm between politics, economics, public policy making, and the U.S. health care system, by examining and critiquing the components of each. Students analyze foreign and domestic health care policies that provide the framework that drives regulation and delivery of health care. Critical analysis of global factors, national allocation of healthcare resources and current healthcare policy debates prepares the doctor of nursing practice student to organize, advocate, and implement health policy initiatives at multiple levels.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 706 Applied Epidemiology 3.0 Credits

This is an applied course on methods of population-based epidemiologic research that includes a discourse on statistical analysis and causal inference. This course follows a prerequisite introductory biostatistics/epidemiology course, and is designed for nursing and health sciences doctoral students who are expected to integrate statistical reasoning into the decisions they make in the health care setting. A combination of Excel-based, SPSS, and hand calculated assignments will be used to supplement the content.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 519 [Min Grade: B]

Corequisite: NURS 700

NURS 710 Human Responses - Physiologic 3.0 Credits

The student explores the critical and seminal health research conducted by nurse scientists that has examined such human responses to altered physiologic function as urinary incontinence, impaired sleep, altered thermoregulation, pain, fatigue, and other physiological nursing phenomena.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 700 [Min Grade: C] and NURS 703 [Min Grade: C]

Corequisite: NURS 715

NURS 713 Human Responses to Altered Function in Health and Illness 3.0 Credits

This course will explore critical and seminal health research studies that examined human responses to health and illness. A bio-behavioral model will be used to discuss interactions among physiological, psychological, social, behavioral, environmental, and biological factors in health and illness. Health concepts relevant in the study and evaluation of nursing will be addressed. Students will critically explore health concepts in the application of evidence in nursing practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 519 [Min Grade: B] and NURS 716 [Min Grade: B]

NURS 715 Human Responses - Psychologic 3.0 Credits

Psychosocial concepts relevant in the study and evaluation of nursing practice such as stress, anxiety, depression, grief, coping, addiction, impulse control, uncertainty, violence, spirituality, social support, and self-transcendence are discussed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 700 [Min Grade: C] and NURS 703 [Min Grade: C]

Corequisite: NURS 710

NURS 716 Scientific Foundation of Nursing Knowledge Development 3.0 Credits

This course is designed to help students explore the development of nursing knowledge that is generated from clinical practice. A critical analysis of historical and contemporary views of nursing science knowledge development and the evolution of nursing inquiry will be addressed. Concept analysis will be an integral part of this course.

Students will examine relationships between the components of theory and the role that theory plays in research and clinical nursing practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 717 Applied Epidemiology/Biostats 3.0 Credits

This is an introductory course in clinical epidemiology and an intermediate course in biostatistics. The purpose of the course is to teach epidemiologic and intermediate biostatistical methods in clinical research with an integrated framework, and to develop beginning SPSS proficiency for performing the analysis of clinical datasets.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 700 [Min Grade: C] and NURS 703 [Min Grade: C] and NURS 710 [Min Grade: C] and NURS 715 [Min Grade: C]

Corequisite: NURS 716

NURS 718 Quantitative Methods in Clinical Nursing 3.0 Credits

This advanced quantitative research methods course provides an opportunity to examine various research designs used to investigate clinical nursing variables. Students who intend to conduct a quantitative research dissertation will use this course to complete the first draft of their dissertation proposal.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 519 [Min Grade: B] and NURS 716 [Min Grade: B] and NURS 706 [Min Grade: B] and NURS 713 [Min Grade: B]

NURS 719 Leadership in Organizations and Systems 3.0 Credits

This course is designed to broaden and enhance leadership skills for the Doctor of Nursing Practice Student enrolled in the Clinical Nurse Executive Track. Current topics affecting the health care delivery system will be explored, i.e. decreased revenue sources; unionization; health care reform; staffing models; magnet organization status; informatics; the aging population and its effect on the health care delivery system; strategic management, succession planning, and facilitation of clinical interdisciplinary relationship to improve clinical outcomes and research opportunities.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 519 [Min Grade: B] and NURS 716 [Min Grade: B] and NURS 706 [Min Grade: B] and NURS 713 [Min Grade: B]

NURS 720 Health Information Technology and Information Systems 3.0 Credits

This course prepares a doctoral student to be proficient in the use of health information technology and information systems to assume a leadership role to improve practice and health care delivery. This course will provide students with skills in the selection, use and evaluation of technologies for care; development and implementation of a plan for data extraction from databases containing practice information. The use of appropriate software to generate statistics and accurately interpreting statistical results will be addressed. The student is expected to use these technologies in translation of evidence to clinical practice to improve health care, health care systems and patient outcomes. Additionally, the concept of interprofessional collaboration to improve patient outcomes will be addressed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 519 [Min Grade: B] and NURS 716 [Min Grade: B] and NURS 706 [Min Grade: B] and NURS 713 [Min Grade: B] and NURS 719 [Min Grade: B] and NURS 718 [Min Grade: B]

NURS 731 Human Responses to Altered Function in Health and Illness 3.0 Credits

This course will explore critical and seminal health research studies that examined human responses to health and illness. A bio-behavioral model will be used to discuss interactions among physiological, psychological, social, behavioral, environmental, and biological factors in health and illness. Health concepts relevant in the study and evaluation of nursing will be addressed. Students will critically explore health concepts in the application of evidence in nursing practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

NURS 819 Qualitative Methods in Clinical Nursing 3.0 Credits

This advanced qualitative research methods course provides an opportunity to examine various research designs used to investigate clinical nursing variables. Students who intend to conduct a qualitative research study will use this course to complete their first draft of their capstone project.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 703 [Min Grade: B] and NURS 716 [Min Grade: B] and NURS 718 [Min Grade: B] and RSCH 519 [Min Grade: B] and NURS 706 [Min Grade: B] and NURS 713 [Min Grade: B] and NURS 719 [Min Grade: B] and NURS 720 [Min Grade: B]

NURS 830 Doctoral Nursing Practice Clinical Practicum 3.0 Credits

This course is designed to enhance the clinical knowledge development of the clinical nursing scholar. Doctoral students, under the direction of their DNP advisor and course faculty, will select an area of clinical nursing practice that will be driven by their capstone project. Models of the reflective practitioner, interdisciplinary novice-to-expert theories, use of evidence-based data bases to drive interventions, and cost effectiveness evaluation of clinical interventions derived from students' Clinical Practica will be addressed. The Clinical Practicum will consist of 125 hours of practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 519 [Min Grade: B] and NURS 716 [Min Grade: B] and NURS 706 [Min Grade: B] and NURS 713 [Min Grade: B] and NURS 719 [Min Grade: B] and NURS 718 [Min Grade: B] and NURS 720 [Min Grade: B] and NURS 703 [Min Grade: B]

NURS 835 Doctoral Nursing Practice Role Practicum 3.0 Credits

This course is designed to broaden and enhance the role development knowledge and skills of the clinical nursing scholar. Students, under the direction of faculty advisor, will select an area of role development as a practitioner, or nurse executive. This course will address content relevant to various role careers of the clinical nursing scholar such as role negotiation theory, lifelong mentorship; leadership abilities and professional development trajectory; and stress management and role strain. The Role Practicum will consist of 125 practice hours.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 519 [Min Grade: B] and NURS 716 [Min Grade: B] and NURS 706 [Min Grade: B] and NURS 713 [Min Grade: B] and NURS 719 [Min Grade: B] and NURS 718 [Min Grade: B] and NURS 720 [Min Grade: B] and NURS 703 [Min Grade: B] and NURS 819 [Min Grade: B] and NURS 830 [Min Grade: B]

NURS 836 Clinical and Applied Nursing Ethics 3.0 Credits

The course is designed to enhance ethical reasoning of nursing scholars in their role as clinicians or executives. The course will focus on the practical application of ethical theories such as utilitarianism, Kantianism, principle-based, pragmatism, and casuistry. Clinical topics will address ethical issues at the beginning and end of life. Issues of resource allocation and cross-cultural influences will be examined. Discussion of the virtue ethics and obligations of professional nurses will be interwoven through-out the course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 703 [Min Grade: B] and NURS 716 [Min Grade: B] and NURS 718 [Min Grade: B] and NURS 830 [Min Grade: B] and RSCH 519 [Min Grade: B] and NURS 706 [Min Grade: B] and NURS 713 [Min Grade: B] and NURS 719 [Min Grade: B] and NURS 720 [Min Grade: B] and NURS 819 [Min Grade: B]

NURS 837 Translating Evidence into Clinical Practice 3.0 Credits

This course explores the process on how to translate research evidence into practice that includes assessing the need for change in practice, linking the clinical problem with nursing interventions and patient outcomes, synthesizing the best evidence, designing practice change, and integrating and maintaining the change in practice. Various critical analyses for assessing the quality of research evidence will be investigated. The PICOT format for translating research evidence into practice will be utilized.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 519 [Min Grade: B] and NURS 716 [Min Grade: B] and NURS 706 [Min Grade: B] and NURS 713 [Min Grade: B] and NURS 719 [Min Grade: B] and NURS 718 [Min Grade: B] and NURS 720 [Min Grade: B] and NURS 703 [Min Grade: B] and NURS 819 [Min Grade: B] and NURS 830 [Min Grade: B] and NURS 835 [Min Grade: B] and NURS 836 [Min Grade: B]

NURS 840 Capstone Seminar 3.0 Credits

This doctoral seminar is focused on developing a proposal for a capstone project to use evidence to improve practice through either healthcare delivery or patient outcomes. This project could either be a pilot study, a program evaluation, a quality improvement project, an evaluation of a new practice model, or a consultation-type project. Students are expected to work with the faculty advisor in the development of the proposal. The proposal will be peer reviewed in class.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 519 [Min Grade: B] and NURS 716 [Min Grade: B] and NURS 706 [Min Grade: B] and NURS 713 [Min Grade: B] and NURS 719 [Min Grade: B] and NURS 718 [Min Grade: B] and NURS 720 [Min Grade: B] and NURS 703 [Min Grade: B] and NURS 819 [Min Grade: B] and NURS 830 [Min Grade: B] and NURS 835 [Min Grade: B] and NURS 836 [Min Grade: B] and NURS 837 [Min Grade: B]

NURS 890 Special Topics 3.0 Credits

This course covers special topics of relevance and significance to the discipline of nursing. May be repeated three times for credit with varying topics.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 9 credits

Restrictions: Can enroll if program is DRNP.

NURS 891 Doctoral Nursing Special Topics for the Nurse Executive 3.0 Credits

This course is designed to broaden and enhance leadership skills for the Doctor of Nursing Practice Student enrolled in the Clinical Nurse Executive Track. Current topics affecting the health care delivery system will be explored, i.e. decreased revenue sources; unionization; health care reform; staffing models; magnet organization status; informatics; the aging population and its effect on the health care delivery system; strategic management and succession planning.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 519 [Min Grade: C]

NURS 892 Doctoral Nursing Special Topics for the Nurse Practitioner 3.0 Credits

This course is designed to broaden and enhance the leadership skills and research capabilities for the Doctor of Nursing Practice Student enrolled in the Clinical Nurse Practitioner Track. Current topics affecting the advanced roles of the DNP health care professional will be explored, i.e. role differentiation between the MSN and DrNP prepared clinicians; competencies of DNP as entry level into clinical practice within the changing paradigms of the health care delivery systems; integration of research into busy practice/clinical settings to improve patient care; leadership opportunities for the DrNP.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 519 [Min Grade: B] and NURS 716 [Min Grade: B] and NURS 706 [Min Grade: B] and NURS 713 [Min Grade: B] and NURS 719 [Min Grade: B] and NURS 718 [Min Grade: B] and NURS 720 [Min Grade: B] and NURS 703 [Min Grade: B] and NURS 819 [Min Grade: B] and NURS 830 [Min Grade: B] and NURS 835 [Min Grade: B] and NURS 836 [Min Grade: B]

NURS 899 Independent Study 3.0 Credits

The doctoral student works under the guidance of a faculty member to study in depth a topic related to their Program of Study. Independent study courses can be undertaken when there is no specific formal coursework available to support either the student's dissertation topic, or clinical and role practicum. May be repeated once for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 1 times for 3 credits

NURS 900 Dissertation Seminar 3.0 Credits

Topics covered include the IRB process, constructing an appropriate Informed Consent for the student's proposed study. Other topics include strategies for the timely completion of the dissertation proposal and final dissertation. Students are expected to make substantive progress on the dissertation proposal during this course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: NURS 700 [Min Grade: C] and NURS 703 [Min Grade: C] and NURS 710 [Min Grade: C] and NURS 715 [Min Grade: C] and NURS 716 [Min Grade: C] and NURS 717 [Min Grade: C] and NURS 718 [Min Grade: C] and NURS 830 [Min Grade: C] and NURS 835 [Min Grade: C] and NURS 836 [Min Grade: C]

NURS 996 Dissertation Advisement I 2.0 Credits

The student conducts a research study under the guidance of a dissertation chair and dissertation committee. The focus of advisement is the completion of the dissertation proposal and its successful defense. Afterward, advisement is directed toward the successful submission of all IRB materials. May be repeated three times for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 6 credits

Prerequisites: NURS 900 [Min Grade: C]

NURS 997 Dissertation Advisement II 2.0 Credits

The focus of this course is the completion of all data collection for the proposed dissertation study. May be repeated for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated multiple times for credit

Prerequisites: NURS 996 [Min Grade: CR]

NURS 998 Dissertation Advisement III 2.0 Credits

The focus of this course is for the student to analyze their data, write and revise drafts as directed by the dissertation committee, and successfully defend the dissertation. Students must register for at least one quarter of this course. May be repeated for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated multiple times for credit

Prerequisites: NURS 997 [Min Grade: CR]

NURS 999 Continued Dissertation Advisement 1.0 Credit

Students who have not submitted and defended their dissertation after two quarters of NURS 998 register for this course in perpetua until they have defended their dissertation. May be repeated for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated multiple times for credit

Prerequisites: NURS 998 [Min Grade: CR]

Physician Assistant

Courses

PA 540 Clinical Anatomy 5.0 Credits

This five (5) credit lecture and laboratory course is tailored to the specific needs of physician assistant students. It reviews the fundamentals of gross anatomy, and discusses the relationships between structure and function in a regional anatomy approach and major clinical applications of anatomic relationships. Material is coordinated with the PA 544 Clinical Assessment course.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 10 credits

PA 542 Patient Communication 2.0 Credits

This lecture and seminar course provides instruction in communication skills for the effective exchange of information with patients. Addressed in the course are patient-provider collaboration, health literacy, and communication techniques for patients across cultural and generational groups, and counseling techniques for patient education, treatment adherence, and health promotion.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

PA 543 Ethical Issues in Physician Assistant Practice 2.0 Credits

This is a lecture and seminar course addressing ethical and professional issues in Physician Assistant practice. Topics include medical ethics, ethical decision-making, professional responsibility, and commitment to patients' welfare. The link between health as a human right and medical ethics is explored.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

PA 544 Clinical Assessment 5.0 Credits

This course provides the PA student with the knowledge, demeanor, and motor skills required to professional and proficiently elicit thorough medical histories and perform precise physical examination techniques for each body system. Accurate, organized recordings of clinical findings from patient encounters in the hospital setting are required.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Corequisites: PA 542, PA 543

PA 545 Physician Assistant Practice 1.0 Credit

Physician Assistant Practice is a one (1) credit lecture course that introduces the concept, history, and future directions of the PA profession, and discusses professional practice issues and theories of leadership applicable to PA practice. Stewardship and strategies for effecting change as a leader are discussed in the context of cases applicable to PA professional settings.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 2 credits

Restrictions: Can enroll if major is PA.

PA 546 Health Policy for Physician Assistant Practice 2.0 Credits

This course explores the US health care system and health policy issues related to the costs of health care, inequities in quality and access to care, and current US policies. The role of Physician Assistants in the health care system is examined along with issues related to malpractice, reimbursement, and quality assurance.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

PA 547 Evidence Based Medicine for Physician Assistants 3.0 Credits

This is a three (3) quarter credit course designed to introduce PA students to epidemiologic principles, methodologies, and applications to primary care clinical practice. The course content includes an overview of epidemiologic and research concepts; ethics and the roles of politics and culture in research; quantitative and qualitative research methods and designs; and level of scientific evidence for clinical practice. Through evaluation of published research and national practice guidelines, the skills of evidence-based practice are introduced. The course is lecture-based and utilizes cooperative learning strategies to engage students in individual and group inquiry learning outside the classroom.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 6 credits

Restrictions: Can enroll if major is PA.

PA 548 Principles of Medical Science I 2.0 Credits

This course is the first of three courses which provide the physiologic foundation for clinical courses. Emphasizing the complex nature of bodily functions, the course reviews normal physiology and provides a bridge to the concepts of pathophysiology that underlie dysfunction and disease. Clinical applications enhance understanding and introduce the skill of clinical reasoning.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 540 [Min Grade: B]

PA 549 Principles of Medical Science II 2.0 Credits

This course is the second of three courses which provide the physiologic foundation for clinical courses. Emphasizing the complex nature of bodily functions, the course reviews normal physiology and provides a bridge to the concepts of pathophysiology that underlie dysfunction and disease. Clinical applications enhance understanding and introduce the skill of clinical reasoning.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 540 [Min Grade: B]

PA 550 Principles of Medical Science III 2.0 Credits

This course is the last of three courses which provide the physiologic foundation for clinical courses. Emphasizing the complex nature of bodily functions, the course reviews normal physiology and provides a bridge to the concepts of pathophysiology that underlie dysfunction and disease in geriatrics, women's health, pediatrics, emergency medicine, and surgery while refining clinical reasoning skills.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 541 [Min Grade: C]

PA 551 Pharmacology and Therapeutics I 3.0 Credits

This is the first in a series of three courses to provide Physician Assistant students with basic knowledge in pharmacology and therapeutics. Principles of pharmacodynamics, pharmacokinetics, and clinical therapeutics are discussed for applications to primary care practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Corequisite: PA 548

PA 552 Pharmacology and Therapeutics II 2.0 Credits

This is the second in a series of three courses to provide Physician Assistant students with basic knowledge in pharmacology and therapeutics. Principles of pharmacodynamics, pharmacokinetics, and clinical therapeutics are discussed for applications to primary care practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 549 [Min Grade: C] (Can be taken Concurrently) PA 551 [Min Grade: C]

PA 553 Pharmacology and Therapeutics III 2.0 Credits

The third in a series of three courses, this course provides Physician Assistant students with basic knowledge in pharmacology and therapeutics for specific patient populations. Principles of pharmacodynamics, pharmacokinetics, and clinical therapeutics across the lifespan are discussed for applications to primary care practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 550 [Min Grade: C] (Can be taken Concurrently) PA 551 [Min Grade: C]

PA 554 Biopsychosocial Issues in Patient Care 5.0 Credits

This course introduces the PA student to the biopsychosocial model of patient care. Covering topics ranging from normal psychological development and human sexuality across the lifespan to responses to stress, injury, illness, and death, the course also introduces psychiatric disorders common to primary care practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 542 [Min Grade: C]

PA 556 Clinical Medicine I 5.0 Credits

This is the first of two courses designed to prepare the PA student with a body-system, problem-oriented approach to diseases encountered in primary care. Discussion of the etiology, epidemiology, pathophysiology, clinical manifestations, and diagnostic studies for common disorders allows the PA student to problem solve through clinical reasoning.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 548 [Min Grade: C], PA 551 [Min Grade: C] (Can be taken Concurrently) PA 542 [Min Grade: C] and PA 544 [Min Grade: C]

Corequisite: PA 559

PA 557 Clinical Medicine II 5.0 Credits

This is the second of two courses designed to prepare the PA student with a body-system, problem-oriented approach to diseases encountered in primary care. Discussion of the etiology, epidemiology, pathophysiology, clinical manifestations, and diagnostic studies for common disorders allows the PA student to problem solve through clinical reasoning.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 549 [Min Grade: C], PA 552 [Min Grade: C] (Can be taken Concurrently) PA 542 [Min Grade: C] and PA 544 [Min Grade: C]

Corequisite: PA 560

PA 558 Topics in Clinical Practice 5.0 Credits

The course prepares the PA student for clinical rotations through lecture and a problem-oriented approach to disorders in geriatrics, women's health, pediatrics, emergency medicine, and surgery.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 10 credits

Restrictions: Can enroll if major is PA.

Prerequisites: PA 550 [Min Grade: C], PA 553 [Min Grade: C] (Can be taken Concurrently) PA 542 [Min Grade: C] and PA 544 [Min Grade: C] and PA 556 [Min Grade: C] and PA 557 [Min Grade: C] and PA 551 [Min Grade: C] and PA 559 [Min Grade: C] and PA 560 [Min Grade: C]

Corequisite: PA 561

PA 559 Clinical Skills I 2.0 Credits

This is the first of three courses designed to prepare the PA student with a problem-oriented, clinical approach to the evaluation, diagnosis, and management of common primary care disorders. The course uses clinical reasoning and clinical skills application laboratories based on clinical scenarios to facilitate skill development.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 548 [Min Grade: C], PA 551 [Min Grade: C] (Can be taken Concurrently) PA 542 [Min Grade: C] and PA 544 [Min Grade: C]

Corequisite: PA 556

PA 560 Clinical Skills II 2.0 Credits

This is the second in a series of three courses designed to prepare the PA student with a problem-oriented, clinical approach to the evaluation, diagnosis, and management of common primary care disorders. The course uses clinical reasoning and clinical skills application laboratories based on clinical scenarios to facilitate skill development.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 549 [Min Grade: C], PA 552 [Min Grade: C] (Can be taken Concurrently) PA 542 [Min Grade: C] and PA 544 [Min Grade: C]

Corequisite: PA 557

PA 561 Clinical Skills III 4.0 Credits

This is the third in series of three courses designed to prepare the PA student with a problem oriented, clinical approach to the evaluation, diagnosis, and management of common primary care disorders. The course uses clinical reasoning and clinical skills laboratories based on clinical scenarios to facilitate skill development.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 550 [Min Grade: C], PA 553 [Min Grade: C] (Can be taken Concurrently) PA 542 [Min Grade: C] and PA 544 [Min Grade: C] and PA 556 [Min Grade: C] and PA 557 [Min Grade: C]

Corequisite: PA 558

PA 570 Clinical Assessment Competency 1.0 Credit

Clinical Assessment Competency is a required course for any PA student who experiences an interruption in the usual sequence of didactic and clinical training. The course provides the forum for the student to demonstrate competencies in knowledge and skills germane to clinical assessment requisite to patient evaluation and clinical practice.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 3 credits

Restrictions: Can enroll if major is PA.

Prerequisites: PA 544 [Min Grade: C]

PA 571 Competency for Clinical Training 1.0 Credit

Competency for Clinical Training is a required course for any PA student who experiences an interruption in the usual sequence of didactic and clinical training after the second quarter in the program. The course provides the forum for the student to demonstrate competencies requisite for continued didactic and/or clinical training.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 3 credits

Restrictions: Can enroll if major is PA.

Prerequisites: PA 544 [Min Grade: C] and PA 551 [Min Grade: C] and PA 556 [Min Grade: C] and PA 559 [Min Grade: C]

PA 581 Research Methods and Designs 5.0 Credits

The course introduces the knowledge and skills necessary to evaluate published research for clinical practice. Topics in this web-based course are research concepts, hypotheses and questions; literature searches and reviews; ethics in research; qualitative and quantitative research methods and designs including sampling, data collection and interpretation; and levels of scientific evidence.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

PA 582 Principles of Evidence-Based Practice 5.0 Credits

With an emphasis on developing skills for clinicians to critically appraise the validity of medial literature, this online course offers a critical analysis of several types of research studies for use in clinical practice. The course requires knowledge and application of basic research and statistical concepts, and online searching skills.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 581 [Min Grade: C]

PA 583 Clinical Application of Epidemiology 5.0 Credits

This online course introduces basic terminology and concepts in epidemiology and develops knowledge for application of evidence-based health promotion strategies to clinical practice. The leading causes of morbidity and mortality in the United States are discussed in conjunction with recommendations for health promotion across the lifespan and population groups.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

PA 584 Health Policy 5.0 Credits

This web-based course explores health policy issues relating to the cost of health care and disparities in access and quality of care, and strategies to address the deficiencies in the US health care system. Each student critiques a health policy imperative and proposes solutions to remedy the issues identified in the critique.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

PA 585 Leadership and Stewardship 5.0 Credits

Key concepts of leadership with a focus on servant and visionary leadership are discussed in this online course. Stewardship and strategies for effecting change as a leader are explored through cases applicable to professional settings. Synthesis of course content is evidenced in the compilation of a professional leadership portfolio.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

PA 629 Medicine Rotation 5.0 Credits

The Medicine Rotation is a clinical course that provides the PA student with adult patient care experience under the supervision of a licensed medical practitioner. Students apply knowledge and skills learned in the didactic year to patient evaluation, and begin to apply patient management strategies to patients in an assigned clinical setting.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 545 [Min Grade: C] and PA 546 [Min Grade: C] and PA 547 [Min Grade: C] and PA 550 [Min Grade: C] and PA 553 [Min Grade: C] and PA 554 [Min Grade: C] and PA 558 [Min Grade: C] and PA 561 [Min Grade: C]

PA 630 Pediatrics Rotation 5.0 Credits

The Pediatrics Rotation is a clinical course that provides the PA student with pediatric patient care experience under the supervision of a licensed medical practitioner. Students apply knowledge and skills learned in the didactic year to patient evaluation, and begin to apply patient management strategies to patients in an assigned clinical setting.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 545 [Min Grade: C] and PA 546 [Min Grade: C] and PA 547 [Min Grade: C] and PA 550 [Min Grade: C] and PA 553 [Min Grade: C] and PA 554 [Min Grade: C] and PA 558 [Min Grade: C] and PA 561 [Min Grade: C]

PA 631 Obstetrics and Gynecology Rotation 5.0 Credits

The OB/Gyn Rotation is a clinical course that provides the PA student with prenatal and gynecologic patient care experience under the supervision of a licensed medical practitioner. Students apply knowledge and skills learned in the didactic year to patient evaluation, and begin to apply patient management strategies to patients in an assigned clinical setting.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 545 [Min Grade: C] and PA 546 [Min Grade: C] and PA 547 [Min Grade: C] and PA 550 [Min Grade: C] and PA 553 [Min Grade: C] and PA 554 [Min Grade: C] and PA 558 [Min Grade: C] and PA 561 [Min Grade: C]

PA 632 Psychiatry and Behavioral Health Rotation 5.0 Credits

The Psychiatry/Behavioral Health Rotation is a clinical course that provides the PA student with psychiatric/behavioral health patient care experience under the supervision of a licensed medical practitioner. Students apply knowledge and skills learned in the didactic year to patient evaluation, and begin to apply patient management strategies to patients in an assigned clinical setting.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 545 [Min Grade: C] and PA 546 [Min Grade: C] and PA 547 [Min Grade: C] and PA 550 [Min Grade: C] and PA 553 [Min Grade: C] and PA 554 [Min Grade: C] and PA 558 [Min Grade: C] and PA 561 [Min Grade: C]

PA 633 Surgery Rotation 5.0 Credits

The Surgery Rotation is a clinical course that provides the PA student with surgical patient care experience under the supervision of a licensed medical practitioner. Students apply knowledge and skills learned in the didactic year to patient evaluation, and begin to apply patient management strategies to patients in an assigned clinical setting.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 545 [Min Grade: C] and PA 546 [Min Grade: C] and PA 547 [Min Grade: C] and PA 550 [Min Grade: C] and PA 553 [Min Grade: C] and PA 554 [Min Grade: C] and PA 558 [Min Grade: C] and PA 561 [Min Grade: C]

PA 634 Emergency Medicine Rotation 5.0 Credits

The Emergency Medicine Rotation is a clinical course that provides the PA student with patient care experience in an emergency department setting under the supervision of a licensed medical practitioner. Students apply knowledge and skills learned in the didactic year to patient evaluation, and begin to apply patient management strategies to patients in an assigned clinical setting.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 545 [Min Grade: C] and PA 546 [Min Grade: C] and PA 547 [Min Grade: C] and PA 550 [Min Grade: C] and PA 553 [Min Grade: C] and PA 554 [Min Grade: C] and PA 558 [Min Grade: C] and PA 561 [Min Grade: C]

PA 635 Primary Care Practicum I 10.0 Credits

The Primary Care Practicum I is a clinical course that provides the PA student with patient care experience in an ambulatory medicine setting under the supervision of a licensed medical practitioner. Students refine clinical skills learned in preparation for practice and increase knowledge of disease mechanisms and patient management for common primary care disorders.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 629 [Min Grade: C] and PA 630 [Min Grade: C] and PA 631 [Min Grade: C] and PA 632 [Min Grade: C] and PA 633 [Min Grade: C] and PA 634 [Min Grade: C]

PA 636 Graduate Project I 3.0-6.0 Credits

Graduate Project I is a variable credit course, 3-6 quarter credits, intended to prepare the PA student for the development of a project related to the candidate's research interests. The Graduate Project I course provides the PA student an opportunity to creatively address a proven deficiency in the realms of clinical medicine such as patient or medical provider educational material.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 547 [Min Grade: C] (Can be taken Concurrently)

PA 637 Primary Care Practicum II 10.0 Credits

The Primary Care Practicum II is a clinical course in which PA students continue to progress to higher levels of clinical responsibility for patient evaluation and management as clinical skills, medical knowledge, and professional confidence coalesce under the supervision of licensed medical providers. This course is the final clinical experience in the PA professional training program.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 635 [Min Grade: C] and PA 629 [Min Grade: C] and PA 630 [Min Grade: C] and PA 631 [Min Grade: C] and PA 632 [Min Grade: C] and PA 633 [Min Grade: C] and PA 634 [Min Grade: C]

PA 638 Graduate Project II 3.0-6.0 Credits

Graduate Project II is a supervised independent study course of variable credit, 3-6 quarter credits, in which the PA student further develops, implements, and evaluates the project proposed in the Graduate Project I course. Continued review and critique of the literature related to the project are required. The PA student works with an assigned faculty advisor for guidance and feedback.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 547 [Min Grade: C] and PA 636 [Min Grade: C]

PA 640 Clinical Practicum 5.0-10.0 Credits

Clinical Practicum is an elective clinical course that provides a forum for a PA student to acquire knowledge and clinical experience in a clinical specialty after completion of the required entry-level Physician Assistant Program curriculum. Through supervised clinical practice and review of current related literature, the PA student will develop foundational clinical skills and knowledge in the subspecialty studied.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 20 credits

Prerequisites: PA 637 [Min Grade: C] and PA 638 [Min Grade: C]

PA 641 Clinical Update 5.0 Credits

This web-based course explores recent advances in clinical knowledge and recommendations for clinical practice, and develops the student's lifelong learning skills. The student undertakes a broad review of clinical medicine and identifies areas for enhancement of clinical knowledge and skills through the use of reputable electronic information sources.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 582 [Min Grade: C]

PA 642 Clinical Colloquium 5.0 Credits

In this online didactic course the student explores a clinical specialty through use of current, reputable information sources. The student identifies a clinical topics for in-depth study, and with faculty guidance uses critical appraisal of current literature for enhancement of knowledge in the topic, and application to the capstone project.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 641 [Min Grade: C]

PA 643 Clinical Practice Project Research 5.0 Credits

Working with an assigned advisor, the student reviews and catalogues the published literature related to the clinical practice project topic. The student composes a literature review and gap analysis, and critically appraises articles as the foundation for the design and outline of the capstone project proposal within this course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 642 [Min Grade: C]

PA 661 Tenets of Health Promotion 5.0 Credits

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 583 [Min Grade: C]

PA 662 Health Promotion Materials 5.0 Credits

In this online course, knowledge from the Health Promotion course is applied to the review of national health promotion campaigns, and the design of a theory-driven, audience-centered health promotion proposal. Topics essential to the design of effective health promotion campaigns such as health literacy, cultural competency, and the challenges presented by special population groups are explored.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 661 [Min Grade: C]

PA 663 Health Promotion Project Research 5.0 Credits

Working with an assigned advisor, the student reviews and catalogues the published literature related to the health promotion project topic. The student composes a literature review and gap analysis, and critically appraises articles as the foundation for the design and outline of the capstone project proposal within this course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 582 [Min Grade: C] and PA 662 [Min Grade: C]

PA 680 Summative Remediation 1.0 Credit

Summative Remediation is one credit course which provides an intensive review of major topics covered in the didactic and clinical phases of the PA program for any PA student who has not achieved minimum passing grades on two administrations of the Summative Examination /OSCE.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 637 [Min Grade: C]

PA 695 Portfolio Preparation 1.0 Credit

Working with an assigned advisor, this course assists the student document significant professional experience as a clinician, researcher, leader, and/or advocate in the preparation of a professional portfolio. Approval of the Program Director is required for course registration.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 581 [Min Grade: C] and PA 582 [Min Grade: C] and PA 583 [Min Grade: C] and PA 584 [Min Grade: C] and PA 585 [Min Grade: C]

Corequisite: PA 696

PA 696 Portfolio Review 5.0-10.0 Credits

The Portfolio Review is conducted by a multi-disciplinary Portfolio Review Committee to award 5-10 academic credits for learning substantiated in the professional portfolio and matched to the educational competencies and outcomes of the Program. The portfolio must demonstrate analysis, synthesis, and interpretation of the professional experiential learning and be substantiated by documentation.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Corequisite: PA 695

PA 697 Independent Study 3.0-6.0 Credits

Independent Study is a variable (3-6) credit course in which the student works with an assigned advisor to review and catalogue the published literature related to the cognate topic of interest. The student composes a literature review and gap analysis, and critically appraises articles as the basis for the design and outline of the capstone project proposal within this course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 582 [Min Grade: C]

PA 698 Capstone Project 5.0 Credits

Working with an assigned advisor, the student develops, implements, and evaluates the literature-based capstone project designed within the cognate courses. Continued critical analysis of the literature related to the project is required to fulfill the goals of the project to advance dissemination of medical knowledge and quality of care.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PA.

Prerequisites: PA 643 [Min Grade: C] or PA 663 [Min Grade: C] or PA 697 [Min Grade: C]

Physical Therapy Rehab Science

Courses

PTRS 501 Introduction to Research 4.0 Credits

The course is designed to provide professional graduate students with the skills necessary to evaluate the relationship between practice and published research using an interdisciplinary approach. The content includes an overview of research concepts, research ethics, literature reviews, quantitative and qualitative research methods, including sampling, data collection, and analysis.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 530 Kinesiology I 4.0 Credits

This course is part one of a two-part series designed to provide students with basic knowledge of biomechanics and functional aspects of the musculoskeletal system. It involves the study of the anatomical, biomechanical, and physiological fundamentals of human motion as it pertains to the upper extremity.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 531 Kinesiology II 3.0 Credits

This course is part two of a two-part series designed to provide students with basic knowledge of biomechanics and functional aspects of the musculoskeletal system. It involves the study of the anatomical, biomechanical, and physiological fundamentals of human motion as it pertains to the spine and lower extremity.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 532 Human Gross Anatomy I 4.0 Credits

This course is part one of a two-part series designed to introduce students to the structure and function of the back, neck, face, and upper extremity with particular emphasis on the nervous and musculoskeletal systems. Special emphasis is placed on clinical relevance and functional interrelationships of the anatomic structures.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 533 Human Gross Anatomy II 3.5 Credits

This course is part two of a two-part series designed to introduce students to the structure and function of the cranium, thorax, abdomen, and lower extremity with particular emphasis on the nervous and musculoskeletal systems. Special emphasis is placed on clinical relevance and functional interrelationships of the anatomic structures.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 534 Physical Therapy Exam & Intervention I 3.0 Credits

This course prepares a student to perform a basic musculoskeletal examination of the cervical spine and upper extremity. The entire patient management process from history taking to prescription of interventions is introduced and applied. Basic skills needed in the examination are described and practiced.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 535 Physical Therapy Exam & Intervention II 3.0 Credits

This course prepares a student to perform a basic musculoskeletal examination of the lumbar spine and lower extremities. The entire patient management process from history taking to prescription of interventions is applied. Basic skills needed in the examination are described and practiced.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 537 Clinical Correlations I 3.0 Credits

Utilizing a case-based format, this course assists students with clinical decision-making strategies as outlined in the Guide to Physical Therapist Practice. Students apply concepts of patient-client management including examination, evaluation, diagnosis, prognosis, and intervention. Through small group discussion, students develop their group skills and are introduced to the team approach.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 538 Clinical Correlations II 3.0 Credits

This course emphasizes decision-making strategies for patients with multiple co-morbidities. Meta-cognitive strategies are used during clinical decision making to assist with student transitions from novice to entry-level clinicians.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 539 Topics in Pathophysiology I 3.5 Credits

Topics in Pathophysiology I is the first of two lecture-format courses that introduce physiology of organ systems, disease states and conditions. Differential diagnosis, medical screening, the impact of pathology and medical management in physical therapy practice will be investigated.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 540 Topics in Pathophysiology II 2.0 Credits

Topics in Pathophysiology II is the second of two lecture-format courses that introduce physiology of organ systems, disease states and conditions. Differential diagnosis, medical screening, the impact of pathology and medical management in physical therapy practice will be investigated.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 590 Clinical Anatomy 3.0,4.0 Credits

Exposes clinicians to the structure and function of the body with particular emphasis on the nervous and musculoskeletal systems. The format consists of online presentations and an optional onsite lecture session that includes prosections/dissections. Special emphasis is placed on clinical relevance and functional interrelationships of the anatomic structures.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 604 Induction Inquiry Integration 3.0 Credits

This course provides an introduction to the learning philosophy of the program, introducing models of adult learning, learning styles and experiential learning. Different forms of knowledge are explored. Methods of creating knowledge from experimentation, observation and experience are studied.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 609 Experiential Accreditation 6.0 Credits

Provides an opportunity for bachelors prepared students to gain credit for their professional experiential learning. With guidance from the course director, students compile a portfolio, reflecting on evidence that demonstrates their ability to perform higher-level academic functions in a clinical context: analysis and decision making.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 610 Issues in Pharmacotherapy 3.0 Credits

Issues in Pharmacotherapy is a lecture-format course that focuses on providing foundational information about pharmacotherapy, pharmacokinetics, and pharmacodynamics that is applicable in physical therapy. Drug classifications are described. Examples are provided of various drug categories.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 612 Pharmacotherapeutics 3.0 Credits

Pharmacotherapeutics is a lecture-format course that focuses on providing foundational information about pharmacotherapeutics, pharmacology, pharmacokinetics, and pharmacodynamics that is applicable in physical therapy. Drug classifications are described. Examples are provided of various drug categories.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 613 Clinical Practice I 0.5 Credits

Clinical Practice I is the first in a series of four clinical practice courses. It is an opportunity for students to practice physical therapy skills learned in the curriculum to date. Students will have the opportunity to practice and refine their skills under the direct supervision of a licensed physical therapist.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 614 Clinical Practice II 0.5 Credits

Clinical Practice II is the second in a series of four clinical practice courses. It is an opportunity for students to practice physical therapy skills learned in the curriculum to date. Students will have the opportunity to practice and refine their skills under the direct supervision of a licensed physical therapist.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 615 Clinical Practice III 0.5 Credits

Clinical Practice III is the third in a series of four clinical practice courses. It is an opportunity for students to practice physical therapy skills learned in the curriculum to date. Students will have the opportunity to practice and refine their skills under the direct supervision of a licensed physical therapist.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 616 Clinical Practice IV 0.5 Credits

Clinical Practice IV is the last in a series of four clinical practice courses. It is an opportunity for students to practice physical therapy skills learned in the curriculum to date. Students will have the opportunity to practice and refine their skills under the direct supervision of a licensed physical therapist.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 620 Orthopedic Physical Therapy: Upper Extremity 4.0 Credits

This is the first in a series of three courses on orthopedic physical therapy. This course emphasizes differential diagnosis, clinical decision making, and development and implementation of a plan of care for conservative and post-operative management of patients demonstrating musculoskeletal dysfunction of the upper extremity.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 621 Orthopedic Physical Therapy: Lower Extremity 4.0 Credits

This is the second in a series of three courses on Orthopedic Physical Therapy. This course emphasizes differential diagnosis, clinical decision making, and development and implementation of a plan of care for conservative and post-operative management of patients demonstrating musculoskeletal dysfunction of the lower extremity.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 622 Orthopedic Physical Therapy: Spine 4.0 Credits

This course is one of three courses in orthopedic physical therapy. Emphasis is on examination, differential diagnosis, clinical decision making, and development and implementation of a plan of care for conservative management (including joint manipulation) and post operative interventions for patients with musculoskeletal dysfunction.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 623 Physical Agents 4.0 Credits

Physical Agents discusses the equipment used and the general application of thermal agents, electrotherapy, compression devices and massage. The clinical decision making when using all of these modalities in the management of clinical conditions including pain, edema, inflammation, decreased range of motion, and muscle weakness will be discussed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 624 Functional Modality 2.5 Credits

This course addresses the functional management of patients with limited mobility and their equipment needs, emphasizing functional training and clinical decision making for therapeutic intervention as well as prescription of durable medical equipment. Patient, caregiver, and healthcare provider safety for injury prevention are stressed throughout this course.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 627 Cardiopulmonary Physical Therapy I 4.0 Credits

This is the first of two courses designed to provide exposure to the normal and abnormal anatomy, physiology and function of the cardiac, vascular and pulmonary systems. Physiology and pathophysiology are explored in relation to functional performance, compensation for disease process and implications for management. Clinical decision making is emphasized.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 628 Cardiopulmonary Physical Therapy II 4.0 Credits

Cardiopulmonary Physical Therapy II is the second of two courses designed to provide students with exposure to the normal and abnormal anatomy, physiology and function of the cardiac, vascular and pulmonary systems. Primary and secondary cardiopulmonary diseases/dysfunction are discussed as they relate to functional ability.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 632 Pediatric Physical Therapy 5.5 Credits

This course takes a systems approach to understanding the basis for pediatric disabilities. Examination and intervention planning are discussed both broadly and in terms of specific disabilities in the context of current evidence for client management models. Lab component provides opportunity to work with a child with a disability in a community setting.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 633 Professional Development 1.0 Credit

This is the first in a series of four professional development courses. The focus of this course is to provide students with opportunities to enhance self-awareness and to develop the professional skills inherent in physical therapy practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 634 Health Professional Roles 3.0 Credits

This is the second in a series of four professional development courses. This course focuses on professional issues and behaviors that are necessary to prepare physical therapy students for their clinical experiences. Structured modules focus on cultural competency, ethics, communication, and developing roles as a health care professional.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 637 Professional Project I 1.0 Credit

This is part I of a capstone course that will require students to integrate and apply information they have learned throughout the curriculum to a specific project. These projects are identified by faculty and fulfill needs within Drexel, local or international communities or gaps in knowledge. Students will investigate topics and explore resources related to their project. The culmination of these projects will be a scholarly presentation.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 639 Motor Learning 2.5 Credits

This course examines topics in movement science at different points in the life span, traces the evolution of skill acquisition, and critically reviews current theories of motor learning and control. Emphasis will be placed on basic concepts of motor learning and control in populations with typical development.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 641 Neurological Exam and Intervention I 4.0 Credits

This course introduces the student to examination, evaluation, diagnosis and comprehensive interventions for the adult with neurological dysfunction. It focuses on examination skills and common interventions used with this patient population. Clinical decision making will be utilized to develop appropriate intervention strategies, application techniques, and neuromuscular strengthening and conditioning principles.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 642 Neurological Exam and Intervention II 5.0 Credits

This course focuses on adults with central nervous system dysfunction where vestibular, sensory, perceptual, cognitive, and communication deficits result in more complex movement dysfunction and limited capacity for learning. Students will learn to integrate neuromuscular, sensory-perceptual, cognitive, behavioral and functional mobility strategies into a comprehensive plan of care.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 643 Applied Biomechanics 3.0 Credits

This course provides content essential for understanding and evaluating research literature related to the effects of aging, pathology, immobilization, and therapeutic procedures on biological tissues and human movement. Methods for quantifying and evaluating tissue properties and human neuromuscular control are included. Application to practice will come from discussion of current literature.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

Prerequisites: PTRS 776 [Min Grade: C]

PTRS 644 Wound Care Management 1.5 Credit

The focus of this course is on wound assessment and management techniques used in the clinical setting as outlined in the Guide to Physical Therapy Practice. The use of evidence-based practice to guide clinical decision making will be emphasized.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 645 Prosthesis Management 1.5 Credit

This course will provide students with knowledge of appliance components and biomechanical principles of upper and lower extremity prosthesis. In addition to the basic principles, a foundational knowledge will be presented regarding appliance prescription, checkout and functional training with such devices.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 646 Orthosis Management 1.5 Credit

Using a combination of lecture and laboratory, this course will provide students with knowledge of appliance components and biomechanical principles of lower and spinal orthoses. A foundational knowledge will be provided regarding appliance prescription, checkout and functional training with such devices. Case presentation will be used to enhance learning.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 647 Professional Project II 2.0 Credits

This is part II of a capstone course that will require students to integrate and apply information they have learned throughout the curriculum to a specific project. These projects are identified by faculty and fulfill needs within Drexel, local or international communities or gaps in knowledge. Students will investigate topics and explore resources related to their project. The culmination of these projects will be a scholarly presentation.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 650 Motor Control and Learning Rehabilitation 3.0 Credits

Students examine topics in movement science in motor control and motor learning throughout the lifespan and the application of these principles to varied patient populations. This course also allows students to review the movement science literature as it applies to select patient populations.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 651 Applied Tissue Biomechanics 3.0 Credits

This course is designed to provide the information necessary for the understanding and evaluation of the effects of immobilization, increased stress and strain, injury, disease, healing and aging on biological tissues. Emphasis is placed upon the integration of tissue biomechanics into the rationale and basis for therapeutic interventions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 652 Life Span Development I 3.0 Credits

Life Span Development I is a required course for professional DPT students. This course addresses physical, cognitive, emotional, and social-cultural aspects of development and the changes that occur during childhood and adolescence. Course content will provide foundational knowledge for concurrent and subsequent courses and for physical therapy evaluation, examination and intervention.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 653 Life Span Development II 2.0 Credits

Life Span Development II is a required course for all Professional Doctor of Physical Therapy students. This course addresses the physical, cognitive, emotional, and social-cultural aspects of aging, and the changes that occur throughout adulthood. Course content will provide foundational knowledge for concurrent and subsequent courses for physical therapy examination and intervention.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 654 Topics in Health Policy & Services 2.0 Credits

This is the third course in the professional development series for professional doctor of physical therapy students. This course provides information on health policy and health services specific to physical therapy. Students are exposed to health legislation, social determinants of health, issues in health disparities and development of advocacy skills.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 655 Health Administration 2.5 Credits

This is the last in a series of four professional development courses. The focus of the course is on the organizational, fiscal and administrative workings of the health care environment and the responsibilities of individual physical therapists in these areas.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 656 Motor Control and Rehabilitation 2.0 Credits

This course examines contemporary insights for the application of motor control and learning in physical therapy for children and adults with movement dysfunctions. Emphasis is placed on critical review of current evidence applied to patient populations. Practice paradigms for patient scenarios for evaluations and intervention will be critically discussed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 720 Rehabilitation Management 3.0 Credits

This course focuses the student on the organization and administrative aspects of health care delivery. Students knowledge of managerial and service-related business concepts are enhanced in order to increase the efficiency and effectiveness of their and others' practice in today's health care environment.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 721 Teaching Concepts in Rehabilitation 3.0 Credits

The course provides information on the means of teaching/learning theory, teaching and learning styles, planning of learning experiences, clinical teaching tools and strategies, teaching objectives, effective feedback, and performance evaluation, all within the context of adult education and with the acknowledgment of the clinical experience of the participants.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 740 Issues in Pediatric Health & Rehabilitation 4.0 Credits

The course addresses issues within health, prevention and rehabilitation, services and outcomes for children, youth and families. Key themes are participation, self-determination and advocacy. Materials addressing intervention, service delivery models and care across the lifespan, leadership, innovation and knowledge translation will be integrated.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 750 Differential Diagnosis 1.0 Credit

This course uses published evidence to explore the process of differential diagnosis and explain how it is an essential piece of all physical therapy examinations. The recognition of significant medical conditions that fall out of the scope of physical therapy practice is emphasized.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 751 Evidence-Based Practice 2.0 Credits

The objective of this course is development of skills for finding, analyzing, communicating and applying knowledge and research to physical therapy practice. Students will develop competencies in evidence-based clinical decision making.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 752 Research and Measurement in Physical Therapy 2.0 Credits

This course introduces stages of research processes including research theory, formulating the research question, literature review, sampling, and experimental controls. Areas of psychometric measurement theory including reliability and validity issues will be examined. This information is applied to common clinical and research tests and measurements related to physical therapy.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 753 Evaluation of Research in Physical Therapy 4.0 Credits

This course builds upon courses in evidence-based practice and measurement. Emphasis is on understanding the research designs and statistical analyses most often used in biomedical and rehabilitation research; interpretation of statistics; methods of clinical inquiry including case reports, single subject research, and program evaluation; and dissemination of research and scholarship.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 758 Evidence-Based Rehabilitation 4.0 Credits

The focus of this web-based course is on analysis of the evidence for physical (occupational) therapy practice including models and guidelines for practice. Participants development competencies in transfer of knowledge and research into practice, clinical reasoning, and evidence based decision making.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 760 Pediatric Decision Making 4.0 Credits

The course focuses on evidence-based examination and intervention of children with disabilities within the context of child, family, and environmental factors. The course highlights the role of therapists in promoting the status of the neuromuscular and musculoskeletal systems. The importance of family-centered care, parent-child interactions, and play are explored.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 761 Pediatric Clinical Application 4.0 Credits

Pediatric Clinical Application is a primary course in the post-professional pediatric concentration area. Through a problem-based case study format, the course facilitates transfer of knowledge into the specialty practice area of pediatrics and promotes independent learning.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 762 Women's Health in Physical Therapy 4.0 Credits

Provides a review of female anatomy and physiology. Emphasis on aspects of examination, evaluation and intervention for selected topics related to women's health across the lifespan, especially during reproductive and menopausal years. Students are encouraged to explore the unique niche physical therapists have in providing health care services for women.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 763 Decision Making in Rehabilitation 4.0 Credits

This course is designed to provide students with the opportunity to integrate basic and clinical science research in the design of intervention paradigms for patients being served in rehabilitation settings.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 764 Geriatric Rehabilitation 4.0 Credits

This course examines the implications of an aging population, effects of age on physiological, kinesiological, social, and psychological function, using evidence as a framework for examination, intervention and clinical decision making, advocacy for patients and caregivers, health promotion and wellness, the impact of Medicare, and pharmacological issues in the elderly.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 765 Spinal Rehabilitation 4.0 Credits

This course applies an evidence-based approach to answering clinical questions about examination, diagnosis, prevention, and management of spinal and pelvic disorders. Goals are to foster independent, critical thinking based on interpretation of scientific literature and its integration into PT theory and practice and to enhance clinical examination and intervention skills.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 766 Extremity Rehabilitation 4.0 Credits

This elective, on-line course explores advanced examination and intervention strategies for the upper and lower extremities. Clinical examination procedures (including clinical imaging), outcome measures, prevention and treatment interventions will be critically analyzed using an evidence-based approach.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 767 Foundations in Hand Therapy 4.0 Credits

This course introduces the student to the specialized field of hand therapy. The principles of hand therapy included are musculoskeletal tissues and pathology, clinical reasoning, hand examination, splinting principles, physical agents, and therapeutic exercise. Common elbow, wrist, and hand disorders are discussed to integrate the foundation topics into clinical practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 768 Upper Quarter Joint Pathology 4.0 Credits

This course reviews the common pathologies that effect the articulations and surrounding soft tissues, especially tendons and ligaments. Anatomy, biomechanics, and examination principles for each region, shoulder, elbow, wrist, and hand are discussed. Conservative and post-operative therapeutic management for fractures, dislocations, tendon repairs, ligament injuries, and degenerative disorders are presented.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: PTRS 767 [Min Grade: C]

PTRS 769 Nerve Injuries of the Upper Quarter 4.0 Credits

This course emphasizes the anatomy and basic science principles for the cervical spine and major peripheral nerves of the upper quarter. Age-related changes and pathophysiology of nerve lacerations and entrapment neuropathies are discussed. Advanced examination skills and interventions, conservative and post-operative, for the peripheral nervous system are presented.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: PTRS 767 [Min Grade: C]

PTRS 770 Diseases That Affect the Hand 4.0 Credits

Course content emphasizes the impact of disease on hand function, especially with activities of daily living, vocational activities, and recreational activities. The overview includes pathology, clinical presentation, examination techniques and clinical interventions specific to the hand. Additionally, multisystem involvement associated with mutilated hand injuries and pain syndromes is discussed.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: PTRS 767 [Min Grade: C]

PTRS 771 Work Injury Management 3.0 Credits

This course emphasizes management of clients with work-related musculoskeletal injuries with focus on identifying and defining the therapists' involvement in the return to work process. Topics such as ergonomic assessment, onsite programs, safety and wellness programs, and government regulations will be presented with a global view of the industrial setting.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 772 Selected Topics in Pediatrics 1.0-4.0 Credit

This course is designed to provide the opportunity for advanced content and discussion regarding issues facing the pediatric practitioner. This course is designed to address current issues related to practice in various pediatric settings. Topics are introduced and content delivered, but the emphasis will be on student/instructor interaction and discussion.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 4 times for 16 credits

PTRS 774 Clinical Education Seminar 0.5 Credits

This seminar-based course precedes the student's first full-time clinical education experience and assists the student in transitioning from the classroom to the clinical setting. Through simulated cases and role-playing exercises, the student will develop knowledge and behavioral skills for effective practice as a student physical therapist in the clinical environment.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 775 Clinical Education I 1.0 Credit

This course is the first of four required full-time supervised clinical education experiences. This course is the student's opportunity to begin to apply classroom knowledge and laboratory skills to patients and clients. The student also begins to develop as a professional through role modeling by the clinical instructor.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 776 Clinical Education II 2.0 Credits

This course is the second of four required full-time supervised clinical education experiences. The student continues to apply classroom knowledge and laboratory skills and will be involved in all aspects of patient-client management (examination, evaluation, diagnosis, prognosis, intervention, discharge, and outcomes management).

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 777 Clinical Education III 2.0 Credits

This course is the third of four required full-time supervised clinical education experiences. Prior to this course the student will have completed all didactic coursework. He or she is expected to demonstrate competence in the comprehensive management of the simple patient and occasional guidance in managing the complex patient.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 778 Clinical Internship 3.0 Credits

This course is the final and capstone full-time supervised clinical education experience. The student attains mastery of knowledge, skills, and attitudes to effectively and safely practice in today's healthcare environment. The student will experience the multiple roles of the physical therapist, such as those related to administration and health promotion.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 779 Independent Project 1.0-3.0 Credit

Independent Project provides the student an exposure to physical therapy scholarship and research through participation in a faculty research project or self-directed study.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

PTRS 780 Foundations of School-based Practice 2.0 Credits

This web-based course is designed to enhance knowledge and competencies of physical therapists in school-based practice. Emphasis on the roles and responsibilities of the physical therapist in educational settings. Participants will develop competencies to support students, families and educational teams.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 781 Advanced Competencies in School-based Practice 2.0 Credits

This web-based course builds on Foundations of School-base Practice. The focus is on advanced competencies for physical therapists in school-based practice. Emphasis is on innovation in practice, solutions to challenges, and leadership roles as a member of the education team.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

PTRS 786 MHS Final Project I 1.0-2.0 Credit

Students develop a final project to demonstrate the ability to use current best evidence to evaluate methods of service delivery or interventions at individual or program levels. Completion of an in-depth literature review associated with the project approved by the student's advisory committee is the focus of this course.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 6 credits

Restrictions: Can enroll if major is PT or major is RHAB and program is MHS.

Prerequisites: PTRS 501 [Min Grade: C] and RHAB 759 [Min Grade: C] and PTRS 758 [Min Grade: C] and PTRS 721 [Min Grade: C] and PTRS 650 [Min Grade: C] and PTRS 651 [Min Grade: C]

PTRS 787 MHS Final Project II 1.0-2.0 Credit

Students conduct a well designed and executed study that addresses service delivery at the individual or program level. The results of the study are presented in manuscript format suitable for dissemination at a professional meeting, in a relevant peer-reviewed journal, or other educational resources used by rehabilitation specialists.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 6 credits

Restrictions: Can enroll if major is PT or major is RHAB and program is MHS.

Prerequisites: PTRS 786 [Min Grade: C]

PTRS 799 Essentials of Physical Therapy 0.5-3.0 Credits

Designed to remediate students who require intensive instruction to achieve acceptable performance in the Doctor of Physical Therapy Program. Addresses students' individual performance deficiencies. Credits assigned based on extent of remediation required. Specific requirements are outlined in a learning contract.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 9 credits

Rehabilitation Sciences

Courses

RHAB 760 Academia for Rehabilitation Scientists 1.0 Credit

Students are introduced to the organizational structures and functions commonly found in universities and colleges. Internal and external environmental issues of higher education and professional development are discussed. Familiarity with the context of academic environments enables the students to understand their roles and responsibilities as faculty members.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

RHAB 761 Foundations of Rehabilitation Research 3.0 Credits

Provides exposure to theories and models related to rehabilitation sciences research. Theories that may be applied to various phases of the enabling-disabling process are examined. Students discuss how these theories are tied to development of research questions in line with the mission, goals and research priorities of funding sources.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

RHAB 763 Biomechanics in Rehabilitation 3.0 Credits

The first half of the class focuses on statics (muscle forces and stress-strain analysis), and the second half concentrates on dynamics (kinematic and kinetic analysis of human motion) with applications. Some minor computer work is required for this class, mainly using the Microsoft Excel spreadsheet program.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

RHAB 764 Biomechanics in Human Movement 3.0 Credits

The first half of the class focuses on the development of the tools necessary to conduct biomechanics research, process the data, and perform biomechanical data analysis. The second half of the class works through common biomechanics questions related to human movement in three dimensions.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

RHAB 765 Introduction to Movement Science 3.0 Credits

This class focuses on structures and mechanisms underlying human movements, principles of movement control and learning, and methods of motor control and learning research using current theories of motor control and motor learning in healthy populations. Applied lab activities are used to enhance student learning of theoretical concepts. May be repeated once for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 1 times for 3 credits

Restrictions: Can enroll if major is PT or major is RHAB.

RHAB 812 Interpretation of Data 3.0 Credits

This is an advanced seminar on issues such as power and effect size calculations and interpretation of results of statistical analysis including outputs of statistical software packages.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 1 times for 3 credits

RHAB 813 Measurement Theory in Rehabilitation 3.0 Credits

The emphasis of this course is on the assessment of the uses, advantages, validity, reliability, and sources of error in measurement tools commonly used in rehabilitation sciences and on methodological and outcome research methods.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

RHAB 814 Research Designs in Rehabilitation 3.0 Credits

Research Designs is a core course in the PhD program and provides a review of concepts and principles for PhD students. The focus is on application of research designs and methods that are applicable to rehabilitation sciences research.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

RHAB 815 Scientific Inquiry and Writing 3.0 Credits

This seminar focuses on the conceptual framework and aims of a research project, including the use of theory, evidence and practice models to develop the rationale for the project; writing a review article, research proposal, and research report; identifying sources for funding and the peer-review process.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

Prerequisites: RHAB 761 [Min Grade: C] and RHAB 811 [Min Grade: C] and RHAB 812 [Min Grade: C] and RHAB 813 [Min Grade: C] and RHAB 814 [Min Grade: C]

RHAB 816 Special Topics 1.0-4.0 Credit

The course description will be developed by the Course Director depending upon the course content. May be repeated three times for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 12 credits

Restrictions: Can enroll if major is PT or major is RHAB.

RHAB 817 Sensors & Transducers in Rehabilitation 3.0 Credits

This course combines clinical, electronics and engineering background, and a step-by-step process of understanding the different instrumentation used to gather information about the status of human activity and motion. The course provides the student with knowledge needed to choose, use and improve measurement systems for application in rehabilitation sciences.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is PT or major is RHAB.

RHAB 818 Clinical Question Development 1.0 Credit

This course consists of identifying the research question or project for the clinical dissertation, developing a time line for completion, and reviewing the relevant literature.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 4 times for 5 credits

Restrictions: Can enroll if major is RHAB.

Prerequisites: RSCH 758 [Min Grade: B]

RHAB 819 Advanced Clinical Practicum 1.0-3.0 Credit

This course is designed to provide an individualized advanced-level mentored experience to integrate didactic knowledge and enhance clinical skills in a specialty practice area. Students are expected to develop a learning contract with specific objectives, and work with their faculty advisor to identify resources needed to successfully complete this practicum.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 12 credits

Restrictions: Can enroll if major is RHAB.

RHAB 820 Independent Study 1.0-4.0 Credit

Independent study is offered PhD students to afford them the opportunity to develop various components of their research or for content related to their interests. The course is structured with a contract and is designed to allow students access to avenues and resources (personnel, mentorship, institutional) to enrich their learning. May be repeated three times for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 9 credits

Restrictions: Can enroll if major is PT or major is RHAB.

RHAB 823 Research Practicum 1.0-6.0 Credit

Prepares the student for dissertation research through faculty-supervised research experiences. Focuses on one or more stages of the research process, such as developing a question, literature review, design and method, IRB, grant writing, subject recruitment, instrumentation, measurement, data collection, data analysis, interpretation of results, and/or dissemination of results. May be repeated for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 12 times for 12 credits

Restrictions: Can enroll if major is PT or major is RHAB.

RHAB 824 Teaching Practicum I 1.0 Credit

This course requires a negotiated agreement, leading to a contract among the Course Director/Instructor, the student and the student's advisor.

The student develops a syllabus, write goals and objectives, prepare and present materials, develop assessments strategies, and participate in the administrative responsibilities of the course. May be repeated three times for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 3 credits

Restrictions: Can enroll if major is PT or major is RHAB.

Prerequisites: RHAB 762 [Min Grade: C]

RHAB 825 Teaching Practicum II 2.0 Credits

This course requires a negotiated agreement, leading to a contract among the Course Director/Instructor, the student and the student's advisor.

The student develops a syllabus, write goals and objectives, prepare and present materials, develop assessments strategies, and participate in the administrative responsibilities of the course. May be repeated twice for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 4 credits

Restrictions: Can enroll if major is PT or major is RHAB.

Prerequisites: RHAB 762 [Min Grade: C]

RHAB 826 Teaching Practicum III 3.0 Credits

This course requires a negotiated agreement, leading to a contract among the Course Director/Instructor, the student and the student's advisor.

The student develops a syllabus, write goals and objectives, prepare and present materials, develop assessments strategies, and participate in the administrative responsibilities of the course. May be repeated twice for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 6 credits

Restrictions: Can enroll if major is PT or major is RHAB.

Prerequisites: RHAB 762 [Min Grade: C]

RHAB 827 Clinical Dissertation Research I 1.0 Credit

Through clinical dissertation a student produces an original contribution of knowledge. Clinical Dissertation I consists of developing the proposal, completing any pilot projects that may be required and defending the proposal.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 4 times for 5 credits

Restrictions: Can enroll if major is RHAB.

Prerequisites: RHAB 813 [Min Grade: B] and RHAB 814 [Min Grade: B] and RHAB 818 [Min Grade: CR] and RSCH 519 [Min Grade: B] and RSCH 831 [Min Grade: B]

RHAB 828 Clinical Dissertation Research II 1.0 Credit

Through dissertation a student produces an original contribution of knowledge. Clinical Dissertation II consists of obtaining IRB approval, as needed, and implementing the proposed project. This may include data collection and analysis.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 4 times for 5 credits

Restrictions: Can enroll if major is RHAB.

Prerequisites: RHAB 827 [Min Grade: CR]

RHAB 829 Clinical Dissertation Research III 1.0 Credit

Through dissertation a student produces an original contribution of knowledge. Clinical Dissertation III consists of developing the dissemination product, defending the clinical dissertation and disseminating the project.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 4 times for 5 credits

Restrictions: Can enroll if major is RHAB.

Prerequisites: RHAB 828 [Min Grade: CR]

RHAB 830 Dissertation Research 1.0-12.0 Credit

Through dissertation a student demonstrates mastery of the research process unique to his/her specialty and produces an original contribution of knowledge. The dissertation process provides the student with the foundation for a continued career as a scholar. May be repeated for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 12 times for 12 credits

Restrictions: Can enroll if major is RHAB.

RHAB 832 Leadership Practicum 3.0 Credits

This course is designed for students interested in an administration and leadership mentored practicum to assist them in meeting their future career goals. Students are expected to develop a learning contract with specific objectives, and work with their faculty advisor to identify the resources needed to successfully complete this practicum.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 3 times for 9 credits

Restrictions: Can enroll if major is RHAB.

Research

Courses

RSCH 503 Research Methods and Biostatistics 3.0 Credits

This course provides an exploration of research concepts, literature searches, research methods, designs, data collection, analysis, and interpretation techniques. This course is designed to provide graduate students with the skills necessary to evaluate the relationship between practice and published research.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is NURS.

RSCH 504 Evaluation and Translation of Health Research 3.0 Credits

This course provides specific approaches to the evaluation of the quality and translation of relevant research. The student will learn to conduct efficient literature searches, evaluate the quality of that research through the appraisal of research design, methodology, and data analysis. Each student will develop and evaluate a plan for the translation of the research into their practice.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Prerequisites: RSCH 503 [Min Grade: C]

RSCH 519 Introduction to Biostatistics 3.0 Credits

This is an introductory course which focuses on the fundamentals of biostatistics for health sciences graduate students. Excel-based and SPSS assignments will be used to supplement the content.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is HI or major is NURS.

RSCH 523 Methods for Health Research 3.0 Credits

The course is designed to provide professional graduate students with the skills necessary to evaluate the relationship between practice and published research. The course content includes an overview of research concepts, ethics in research, literature searches and reviews, quantitative and qualitative research methods and designs, and data collection, analysis and interpretation techniques. An interdisciplinary team of faculty teaches the course using a problem solving approach. When feasible, concepts and problems are addressed by students in interdisciplinary teams through evaluation of published research.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

Restrictions: Can enroll if major is HI or major is NURS.

Prerequisites: RSCH 500 [Min Grade: C]

RSCH 701 Introduction to Biostatistics for Clinical Research 3.0 Credits

This is an introductory course which focuses on the fundamentals of biostatistics and clinical research for nursing graduate students. Excel-based and SPSS assignments will be used to supplement the content.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

RSCH 758 Application of Evidence to Practice 2.0 Credits

The focus of this course is on finding, appraising, communicating, and applying knowledge and research to the health professions. Participants will develop competencies in clinical decision making for individual patients/clients and development and evaluation of health care services.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

RSCH 759 Foundations of Biostatistics 3.0 Credits

This is an introductory course which focuses on the fundamentals of biostatistics for nursing and health science doctoral students. Excel-based and SPSS assignments are used to supplement the content. May be repeated once for credit.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 6 credits

RSCH 811 Intermediate Biostatistics 3.0 Credits

This is an advanced level statistics course focusing on repeated measures analysis of variance (ANOVA) and selected multivariate statistical tests used in the rehabilitation and health sciences and biomedical engineering.

College/Department: College of Nursing Health Professions

Repeat Status: Can be repeated 2 times for 6 credits

RSCH 812 Interpretation of Data 3.0 Credits

This is an advanced topics course on issues such as power and effect size calculations and interpretation of results of statistical analysis including output of statistical software packages.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit

RSCH 813 Measurement Theory in Healthcare 3.0 Credits

The emphasis of this course is on the assessment of the uses, advantages, validity, reliability, and sources of error in measurement tools commonly used in healthcare and on methodological and outcome research methods.

College/Department: College of Nursing Health Professions

Repeat Status: Not repeatable for credit
