## **First Year Exploratory Studies**

## About the Program

Drexel University's First-Year Exploratory Studies Program offers students an undecided major for their first year, providing them the opportunity to explore academic and career options and interests before selecting a major.

The Exploratory Program is comprised of two tracks: the Business, Humanities, and Social Science Track (non-STEM) and the Science, Technology, Engineering, and Mathematics (STEM) track. While the program seeks to help students focus their goals, students are not limited to exploring only majors within a particular track; in fact, it is common for students to explore majors from both tracks. In addition to the non-STEM and STEM tracks, students also have the opportunity to choose the Custom-Designed track (CSDN), a track designed in collaboration with The Custom-Designed major in the Pennoni Honors College. Students who are interested in blending multiple interests to create their own major with the goal of solving complex interdisciplinary problems may choose the CSDN track.

At the end of year one, students will transfer to a full-time major at Drexel provided they meet the internal transition criteria. The First-Year Exploratory Studies Program empowers students to make well-informed decisions around choosing a degree program, getting involved on campus, and following their ambitions.

Students will develop an individualized plan of study with an advisor to help them achieve their academic goals.

## **Additional Information**

More information about the First-Year Exploratory Studies program can be found on the Goodwin College of Professional Studies website (http:// www.drexel.edu/goodwin/academics/first-year-exploratory-studies-program/).

## Degree Requirements

University Requirements		
CIVC 101	Introduction to Civic Engagement	1.0
COOP 101	Career Management and Professional Development	1.0
UNIV G101	The Drexel Experience	1.0
General Education Requirements		
ENGL 101	Composition and Rhetoric I: Inquiry and Exploratory Research	3.0
or ENGL 111	English Composition I	
ENGL 102	Composition and Rhetoric II: Advanced Research and Evidence-Based Writing	3.0
or ENGL 112	English Composition II	
ENGL 103	Composition and Rhetoric III: Themes and Genres	3.0
or ENGL 113	English Composition III	
MATH 101	Introduction to Analysis I	4.0

Total Credits		180.0
Free electives		5.0
Exploratory Track courses		125.0
FYE 103	Career Exploration and Planning	2.0
FYE 102	Academic Exploration and Planning	2.0
Program Requirements		
Science courses		8.0
Social Science electives		18.0
MATH 102	Introduction to Analysis II	4.0

\* COOP 101 registration is determined by the co-op cycle assigned and may be scheduled in a different term. Select students may be eligible to take COOP 001 in place of COOP 101.

Students not participating in co-op will not take COOP 101; 1 credit of Free Elective will be added in place of COOP 101.

## Army Reserve Officers' Training Corps (ROTC)

## About the Program

The Army Reserve Officers' Training Corps, established at Drexel in 1918, is an integral part of the University. Army ROTC courses are open to all students, and enrollment alone does not carry a military obligation. Students selected for the advanced course (normally pre-junior, junior, and senior years) will complete their academic and military studies concurrently, and upon graduation will be commissioned as lieutenants in the United States Army, Army Reserve, or Army National Guard. Participation in the advanced course may qualify participants to receive financial aid through a series of scholarships and co-operative education programs.

The purpose of the Army Reserve Officers' Training Corps (https://www.taskforcedragonarmyrotc.com/) program at Drexel University is to provide this nation with leaders of character for our Army, Army Reserve, and National Guard. ROTC training is also intended to foster ideals of patriotism; promote an understanding of the role of the citizen-soldier; stimulate interest in a military career; and develop character, self-discipline, and leadership ability. Army ROTC is a college elective, and enrollment does not require military service.

Students can apply for on-campus 4-year, 3-year and 2-year scholarships at Drexel. All Army ROTC scholarships at Drexel cover full tuition and fees. Additionally, Army ROTC scholarship winners also receive free room (in dorm of choice on campus) and a 25% discount on Drexel's meal plan. These additional incentives are given by the university and total in excess of \$7,500 annually. For example, a 3-year Army ROTC scholarship at Drexel, including these incentives plus a monthly stipend and a quarterly textbook stipend is worth over \$135,000 over 4-years. In order to be offered a scholarship, students must meet certain physical fitness and academic requirements.

The Military Science program is divided into the basic course and the advanced course. The basic course normally coincides with the student's first two years of college. The purpose of the basic course is threefold: to give the student sufficient information to decide whether to continue in the advanced course, to develop certain military skills, and to allow the instructors an opportunity to evaluate the student's potential to become an officer. In total, the basic course consists of four or five Military Science courses and weekly attendance at Leadership Laboratories each term the cadet is in school. Except for scholarship Cadets, no military obligation is incurred by students participating in these courses. Basic course credit may be granted to students who successfully complete a five-week Cadet Initial Entry Training course at Fort Knox, Kentucky, between the sophomore and junior years. Prior Service Solders who have completed Basic Training also receive credit for the basic course. The advanced course, taken during a student's junior and senior years, is designed to prepare students for commissioned service. The first year of instruction (first two years for co-op students) is directed toward preparing students for the Advanced Camp at Fort Knox, Kentucky. The final year of instruction is devoted to prepare students to be commissioned officers.

To be admitted to the advanced course, a student must have credit for the two-year basic course, volunteer, be selected by the professor of military science, and successfully complete the required screening and physical tests.

Enlisted Army Reservists and National Guardsmen may apply for the Simultaneous Membership Program, which permits them to serve as officer trainees with their units and receive commissions upon completion of the ROTC advanced course.

Airborne training, Air Assault training, Mountain Warfare training, Northern Warfare training, and Cadet Troop Leadership Training with a Regular Army unit are also available to select interested Cadets.

Twice per school year, Cadets are required to participate in a leadership development exercise. These exercises are usually two to three days in duration and are conducted at Fort Dix, New Jersey, or other military instillations. The field training exercises give students a chance to practice skills learned in the classroom and Leadership Laboratories. Contracted students are also required to attend the Advanced Camp over the summer between their Junior and Senior years. The Department of Military Science will work with the co-op coordinators to allow co-op Cadets to attend this training

Uniforms worn during Leadership Laboratory periods and leadership development exercises are issued free of charge to all students enrolled in ROTC. Students are responsible for maintaining the uniforms and returning them upon commissioning or leaving the program.

Students who satisfactorily complete ROTC course requirements are commissioned as Second Lieutenants in the United States Army, Army Reserve, or National Guard. Drexel graduates who receive their commission through ROTC may apply for a commission in any branch of the Army for which they are qualified.

#### **Additional Information**

Further information on the scholarships and Army ROTC is available from the Drexel University ROTC Battalion (https:// www.taskforcedragonarmyrotc.com/) at 267-359-6300.

USACC Pamphlet 145-4 - Enrollment, Retention and Disenrollment Criteria, Policy and Procedures

USACC Circular 37-1 - Financial management for USACC

General Scholarship Benefit Package:

- Up to full tuition and mandatory fees
- Room and Board\*
  - up to \$10,000.00 annually
    - \$5,000.00 (1st Semester) & \$5,000.00 (2nd Semester)
    - \$3,333.00 (1st & 2nd Quarter) & \$3,334.00 (3rd Quarter)
- Book Allowance of \$1,200.00 annually
- Approved summer tuition (up to 12 credit hours) and mandatory fees. NO ROOM & BOARD IS AUTHORIZED FOR SUMMER TERMS\*\*
- Summer book allowance of \$400.00\*\*\*
- · Scholarship benefits begin with the expected start term and end with the expected end term
- Stipend

\*Scholarship Cadet will either select the scholarship to pay for tuition and fees or room & board; Scholarships will ONLY pay one or the other as part of your scholarship benefits

\*\*Summer terms are not normally part of the academic school year and therefore require Cadet Command approval to authorize Summer Term benefits.

\*\*\*Summer book allowance is contingent upon Summer Term benefit approval

- · Summer courses are a mandatory part of your academic alignment
- · Those courses must not be offered during the normal academic school year
- Cadet must take summer courses based on co-op schedule if mandatory for their program of study and not offered at any other time during the academic year.

\*Co-op terms are not authorized scholarship benefits

Scholarship Eligibility, USACC Regulation 145-1:

#### · Citizenship:

- Scholarship applicants must be U.S. citizens or U.S. nationals prior to contracting as a scholarship Cadet. This is a statutory requirement; no waivers or exceptions are authorized. "U.S. Nationals" are persons born in American Samoa and Swains Island
- Students who hold dual citizenship must be advised that when requested, they will be required to provide a statement to the Office of Personnel Management (OPM) investigator, or adjudicative authority, expressing their willingness to renounce dual citizenship. Failure to do so may result in denial of a security clearance, which is a prerequisite for commissioning, and will result in disenrollment.

• Age:

- Scholarship applicants must be at least **17 years** of age within the first semester/quarter in which scholarship benefits are to begin. Students CANNOT contract until they have reached their 17th birthday.
- Scholarship applicants must be under 31 years in the calendar year in which they are to be commissioned. This age limit is determined by law; therefore, it is non-waiverable. Example: a Mission Set 21 (MS21) applicant turns 31 years old in November 2021, he/she would be ineligible for a scholarship as the applicant must be under 31 during the calendar year he/she will be commissioning.

#### Academic status:

• Scholarship applicants must be a high school graduate or possess the equivalent certificate before September first of the year of award.

#### Grade point Average (GPA):

- High school unweighted GPA is used for four-year applicants. All others use the college GPA. The required high school unweighted Cumulative GPA (CGPA) for all high school applicants is 2.5.
- The required CGPA and current GPA for scholarship consideration are 2.5 for students who have already established a college GPA from at least one full term of college.
- A minimum 2.5 academic current and CGPA are required for the scholarship at the time of application. The applicant must also maintain the required current and CGPA before contracting.
- Waivers will be considered for insufficient GPAs. Waivers must be substantiated with other academic achievements.
- Brigade Commanders (2nd Brigade is our program's higher headquarters) have the approval authority of on-campus GPA waivers down to 2.0.
- Any waivers requested for below 2.0 GPA for on-campus applicants must go to Cadet Command For Approval. Cadet Command is the waiver approval authority for insufficient GPAs for Green to Gold and National High School Scholarship Programs applicants.
- ROTC GPA is used for enrolled Cadets only. A minimum ROTC GPA of 3.0 is required for scholarship consideration. This is an eligibility requirement.

#### Medical Qualification:

 Scholarship applicants must successfully pass a medical examination reviewed by the Department of Defense Medical Examination Review Board (DODMERB) or be granted a medical waiver by Headquarters Cadet Command (HQCC). Procedures are outlined in Appendix A, reference R (located on the DODMERB document site - https://dodmerb.tricare.osd.mil/default.asp).

#### · Weight/Body Fat Standards:

- Applicants with any prior service, active or reserve, must pass the height, weight and body fat percentage standards in accordance with (IAW) AR 600-9.
- Applicants with no prior service must pass height, weight and body fat percentage standards IAW 600-9.
- All applicants acknowledge, upon contracting, that they will be required to meet the screening weight or body fat percentage required by the Army Weight Control Program each year.

#### · Physical Aptitude, Assessment of the physical conditioning for scholarship applicants will be accomplished in the following manner:

- The ROTC Physical Fitness Assessment (RPFA) may be used for high school applicants. Cadet Command Incentives division will coordinate with the applicant's high school to have the RFPA conducted.
- ALL scholarship applicants must successfully complete the Army Physical Fitness Test (APFT) at the 60/60/60 scoring level prior to contracting. Failure to do so may result in the withdrawal of scholarship.
- Freshman must successfully complete the APFT at the 60/60/60 standard prior to December first of their Freshman year or their scholarship will be withdrawn.
- · All other scholarship applicants must complete the PFT at the 60/60/60 standard prior to contracting.
- For scholarships beginning in the Spring, the applicants must successfully complete the APFT at the 60/60/60 standard during all subsequent APFTs.

#### Character:

- Scholarship applicants must not have moral obligations or personal convictions that will prevent them from:
  - Supporting and defending the Constitution of the United States against all enemies, foreign and domestic.
  - · Conscientiously bearing arms.
- Scholarship applicants must satisfactorily explain any record of civil conviction.

#### Academic Discipline:

- Scholarship applicants must agree to enroll in one of the approved baccalaureate degree producing programs listed in USACC pamphlet 145-1. Emphasis within the scholarship process will be placed on technical disciplines; i.e., engineering, physical science, and nursing.
- All scholarship students must be enrolled in military science courses to be entitled to payment for that term. All scholarship students must be enrolled and remain enrolled full-time in order to receive scholarship benefits with the exception of their final term as an MSIV. Cadet Academically and militarily aligned to complete degree requirements and commission may be paid scholarship benefits for the last term in less than full-time status.

#### <u>Students Ineligible to Compete for a Scholarship</u>

- Students who fall under one of the following categories are ineligible to compete for or receive benefits from an Army ROTC scholarship:
   ROTC Disenrollment Previous 2 and 3-year contracted scholarship winners who have been disenrolled after entering MSL II are ineligible to compete for another scholarship until they enter the advanced course and are eligible for a 2-year scholarship.
  - Non-citizens If citizenship will not be obtained prior to the fall enrollment. U.S. Nationals are considered citizens of the U.S. for purposes of the Army ROTC.
  - Civil Conviction A student who has an adverse juvenile adjudication or who has been arrested, indicted and convicted by a civil court or military law for other than minor traffic violations (for which forfeiture of \$250.00 or higher was imposed), unless waiver is granted.

The applicant must submit a request for waiver of convictions at the time of scholarship application and award of a scholarship will remain conditional until any required waiver is approved.

- Medically Disqualified A Student with a known disqualifying medical condition/defect, unless proper authority has approved a medical waiver.
- Discharged from the Armed Forces: A student who has been discharged from any branch of the Armed Forces with non-Waiverable disqualifying reenlistment code or with one of the following types of discharges:
  - Dishonorable
  - Bad Conduct
  - Undesirable
  - · Discharge under other than honorable conditions
- Pregnant Students Pregnant students are eligible to compete for scholarships, however, they are ineligible to enroll in ROTC if
  pregnant. Students must be medically qualified at the time of contracting. Pregnancy is a temporary medical disqualification. All
  applicants must meet dependency requirements (AR 145-1, Chapter 3) before contracting. Cadets who become pregnant after
  contracting will not be involuntarily disenrolled solely because of pregnancy.
- Active Federal Service (AFS) Students who will have 10 years or more of AFS at the time of commissioning must request a waiver.
- Former Cadets Students who have already completed undergraduate degree requirements under the Army ROTC program are ineligible. <u>NOTE:</u> This only applies to students who receive their undergraduate degree at the expense of the Army ROTC. If the student earned an undergraduate degree by other means, the student is eligible to apply for a 2-year scholarship.
- Domestic Violence Students convicted of domestic violence are ineligible.
- · Students participating in the SMP, except as Guaranteed Reserve Forces Duty (GRFD) scholarship recipients.
- Students at community colleges, except those approved in the Formal Linkage Program which only allows 2and 3-year scholarships
- Students with only one year remaining to obtain their baccalaureate degree are ineligible.

#### Financial Policy:

- Scholarship recipients are required to make a choice each term of whether their benefits will cover tuition and allowable fees (full) or a flat rate of \$10K for room and board. Cadets that select the room and board option are required to be counseled on their selection.
- Payment of Fall term: If Fall term ends prior to December 15, and the Cadet contracts between end of Fall term and December 15, the Cadet is entitled to Fall benefits.
- Fees: Three Rules generally apply for payment of Fees:
  - If the fee applies to all students, all the time, every year, it is payable. Mandatory educational fees are those fees charged to all students attending the school.
  - If the fee is connected to a specific course that is required for degree completion in the Cadet's major or the fee is required for attendance at that college/university, it is payable. The class must be specifically required for degree completion and is not a free elective.
  - Any fee listed as an optional fee in the school catalog is capped at \$100.00 per course. Any amount that exceeds that cap is the responsibility of the Cadet. Optional means that the cadet need not incur the fee for degree completion.
  - Health Fees will be paid if all students are required to purchase the school's health insurance. Payment of health fees not required to be purchased by the school will be paid up to a \$1000.00 cap where health insurance is not mandatory. Students may opt whether to purchase the school or an independent policy.
  - Scholarship funds will not be used to pay identifiable fees that directly result in the purchase of laptop computers, cellular phones, personal digital assistants or other automated equipment. However, if tuition includes purchase of automated equipment which cannot be identified as a separate fee, then scholarship funds may be used to pay for the automated equipment as an integrated portion of the tuition.
  - Room and Board Cadets may choose for the scholarship benefits to be applied toward their room and board costs. This election is made each term. A flat rate of \$10,000 annually is paid for room and board costs. The amounts are paid directly to the cadet \$5,000 per semester or \$3,333 per quarter term.
    - If scholarship money is used towards Room and Board, State (if applicable for ARNG) Tuition Assistance (TA) may be available to use in conjunction with scholarship money to pay for tuition.
    - FTA may not be used in conjunction with an ROTC scholarship.
  - Book Stipend A "flat rate" fee will be paid for books, supplies and equipment as published annually by Headquarters, United States Army Cadet Command. This is in addition to the tuition and fees or room & board option.
  - Subsistence Allowance All contracted cadets are authorized a stipend.
    - The subsistence allowance will begin on the date that the cadet enters the first term of college work under the scholarship contract or on the date the Cadet meets all requirements for and is contracted as a scholarship cadet, whichever is later.
    - The stipend will continue until the cadet has met all requirements for commissioning or has been disenrolled, except as what is provided by regulation, directive or law.
    - Military Science level (MS) I or II Cadets receive stipend for no more than 10 months of the academic year or the actual duration of the academic year, whichever is shorter.

- MS III IV Cadets receive stipend allowance for no more than 20 months uninterrupted except while attending Cadet Summer Training (CST) during the junior and senior years.
- MS V Cadets receive up to 10 months stipend, which continues uninterrupted after completion of the MS IV year.
- Advanced course ROTC Cadets (to include MS V) and basic course scholarship Cadets MUST be enrolled in ROTC to receive any scholarship benefits or stipend.
- · Non-Reimbursable Items The following are non-reimbursable under the scholarship contract:
  - Any educational expenses incurred prior to the beginning of the scholarship.
  - · Remedial courses taken either for background enrichment or to make up deficiency.
  - Courses not required for the degree, unless charges for such courses can be absorbed within the normal basic tuition charges during the academic year and will not extend graduation date.
  - Course required because of changes in academic majors when such courses cannot be completed within the number of academic terms covered by the scholarship.
  - Courses taken at a school other than that at which the Cadet is enrolled for ROTC training, except in the case of a Cadet selected for scholarship that is enrolled at a Partner School.
  - · Summer sessions, except as authorized.
  - · Unauthorized travel.
  - · Penalties or fines for late registration, when the fault of the cadet.
  - · Charges for makeup examinations, violations of school rules, and the like.
  - · Personal fees, such as laundry, clothes, or grooming.
  - Permits of fees associated with vehicle operation.

#### Military Service Obligation:

· All scholarship winners who contract will be required to sign a contract which obligates them to serve in the military for a period of 8 years.

• If selected for active duty, the lieutenant will serve a minimum of 4 years followed by service in the Army National Guard (ARNG), United States Army Reserve (USAR) or the Idividual Ready Reserve (IRR).

• If selected for reserve duty, the lieutenant will serve eight years in the selected reserve, i.e., an ARNG unit or a USAR Troop Program Unit.

## Air Force Reserve Officers' Training Corp (AFROTC)

## About the Program

Students are eligible to participate in the Air Force Reserve Officers' Training Corps (https://sites.sju.edu/afrotc/) (AFROTC) through a cross-enrollment agreement with St. Joseph's University. All aerospace studies courses will be held on the St. Joseph's campus. The AFROTC program enables a college student to earn a commission as an Air Force officer while concurrently satisfying requirements for their baccalaureate degree. Air Force Cadets will have required courses/training that will be completed at the St. Joseph's University campus. Please refer to their class schedule page (https:// sites.sju.edu/afrotc/afrotc-class-schedule/) for more information.

The Department of Aerospace Studies offered through Detachment 750 at St. Joseph's University offers college students a three- or four-year curriculum leading to a commission as a Second Lieutenant in the United States Air Force (USAF). In the four-year option, a student (cadet) takes General Military Course (GMC) classes during their freshman and sophomore years, attends a four-week summer training program between their sophomore and junior years, and then takes the Professional Officer Course (POC) classes during their junior and senior years. A cadet is under no contractual obligation with the USAF until entering the POC or accepting an AFROTC scholarship. The GMC curriculum focuses on the scope, structure, organization, and history of the USAF with an emphasis on the development of airpower and its relationship to current events. The POC curriculum concentrates on the concepts and practices of leadership and management, and the role of national security forces in American society.

In addition to the academic portion of the curricula, each cadet participates in a two-hour Leadership Laboratory each week. Leadership Laboratory utilizes the cadet organization designed for the practice of leadership and management techniques.

Further information on the AFROTC program at Saint Joseph's University can be found on their website (https://sites.sju.edu/afrotc/), or students can contact detachment personnel directly at:

Unit Admissions Officer AFROTC Detachment 750 Saint Joseph's University Philadelphia, PA 19131 Phone: 610.660.3190 Email: rotc@sju.edu

## Naval Reserve Officers' Training Corp (NROTC)

## About the Program

Students are eligible to participate in the Naval Reserve Officers' Training Corps (http://www.vpul.upenn.edu/nrotc/) (NROTC) through a crossenrollment agreement with the University of Pennsylvania. All naval science courses are held on Penn's campus. The NROTC program enables a college student to earn a commission in the Navy or the Marine Corps while concurrently satisfying requirements for his or her baccalaureate degree. Scholarship and nonscholarship programs are available.

Navy-option scholarship and college program (nonscholarship) students must enroll in Naval Science (NSC) NSC 101 and NSC 102 during their freshman year, NSC 201 and NSC 202 during their sophomore year, NSC 301 and NSC 302 in their junior year, and NSC 401 and NSC 402 in their senior year. Those seeking commissions in the Marine Corps will enroll in NSC 310 and NSC 410 instead of NSC 301 and NSC 302 and NSC 401 and NSC 401 and NSC 402.

Scholarship program students must complete one year of calculus, one year of calculus-based physics, a course in computer science, one course in American military history/national security policy, and one year of English. College program students must complete one year of college-level algebra, one year of physical science courses, one semester of a computer science course, and one year of English. Students must check with their naval science instructors to determine specific courses that fulfill the above requirements.

In addition to the above, all students are required to attend a two-hour professional laboratory period scheduled on Wednesday afternoons (no academic credit) that emphasizes military drill, physical fitness, and leadership/military topics.

For further information regarding physical and other qualifications for admission and other matters pertaining to participation in the NROTC (http:// www.vpul.upenn.edu/nrotc/) program, you can write to the Professor of Naval Science, NROTC Unit, 417 Hollenback Center, 3000 South Street, Philadelphia, PA 19104-6399; 215-898-7436; fax: 215-573-2067.

## Lindy Center for Civic Engagement

Drexel University's Lindy Center for Civic Engagement fosters a culture of civic responsibility by providing programs and resources that empower Drexel students and the broader university community to expand their civic identities through engagement in mutually beneficial partnerships that lead to a more just society.

The Lindy Center for Civic Engagement focuses on four core priorities including: Community-Based Learning, Civic Leadership, Public Service, and Community Partnerships.

For more information, view the Lindy Center's webpage (http://www.drexel.edu/lindycenter/).

## **Continuing Professional Education**

## **Plan Your Professional Education Journey**

No matter where you are in your professional journey, gain the skills needed to stay ahead of the curve in today's global workplace with Goodwin College of Professional Studies. Through the guidance of industry experts, you learn practical, in-demand skills that can be applied immediately. Explore diverse non-credit education in fields ranging from coding and data visualization to project management and Lean Six Sigma.

What sets your professional education apart at Goodwin is the Drexel difference. Known for innovative, relevant, and experiential learning, you gain the industry insider advantage. Whether you are looking to take a self-paced course, earn a certificate, prepare for a professional exam, immerse yourself in one- or two-day workshops, or bring our training to your organization, Goodwin can create a learning pathway to fit your needs around your schedule.

## **Course Offerings include:**

- Industry-recognized certifications: project management and Lean Six Sigma
- · In-demand professional courses: front-end web development, business analysis, Agile Scrum, cybersecurity
- · Self-paced, online courses: career planning, communication, leadership, nonprofit management, digital marketing, and more

#### **Additional Information**

To learn more about these professional education courses, go to our Continuing Professional Education (https://drexel.edu/goodwin/academics/ continuing-professional-education/) website.

## Undergraduate Dual Admission Transfer Student Articulation Agreements

# Dual Admission Transfer Agreements with Two-Year Colleges

Advising is required at the two-year college and Drexel University in order to approve each transfer student application. Please use the Sample Plans of Study below as a guide for suggested coursework for articulation agreements with Drexel University.

Bucks County Community College (p. 16)

Community College of Philadelphia (p. 57)

Delaware County Community College (p. 103)

Montgomery County Community College (p. 155)

Rowan College at Burlington County (p. 208)

Thaddeus Stevens College of Technology (p. 249)

Union County College (p. 255)

# Dual Admission Transfer Agreements with Non-Two-Year Universities

Advising is required at both the non-two-year university and Drexel University in order to approve each transfer student application. Please use the Sample Plans of Study below as a guide for suggested coursework for articulation agreements with Drexel University.

## Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

## **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

## **BA in English**

Drexel Degree Name: B.A. in English

Community College Degree Name: A.A in English

Sample Plan of Study - First & Second Year at Bucks County Community College

## Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

## **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

## **BS in Biological Sciences**

## Drexel Degree: B.S. in Biological Sciences

Community College Degree: Associate of Science, Biology

#### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

#### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

### **Transfer Credits**

First Voar

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

# BS in Criminology and Justice Studies - Criminal Justice Concentration

Drexel Degree Name: B.S. in Criminology and Justice Studies, Criminal Justice Concentration Community College Degree Name: Associate of Arts, Criminal Justice Sample Plan of Study - First & Second Year at Bucks County Community College 61 credits at BCCC transfer over at a maximum of 90 credits at Drexel

### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

## **BS in Materials Science & Engineering**

### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

## **BA in English**

### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

## **BS in Architectural Engineering, Mechanical Concentration**

# Drexel Degree Name: B.S. in Architectural Engineering, Mechanical Concentration (Building Systems)

### Community College Degree Name: A.S. in Engineering Science

### Sample Plan of Study - First & Second Year at Community College of Philadelphia

### 60 semester credits from CCP transfer over as 69.5-70.5 credits to Drexel

Please contact the Department of Civil, Architectural and Environmental Engineering (https:// drexel.edu/engineering/academics/departments/civil-architectural-environmental-engineering/) for the most current Plan of Study.

#### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writing-intensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/

english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

### Transfer Credits

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

\*\* Substitute for ENGR 232

### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

# BS in Criminology and Justice Studies - Criminal Justice Concentration

### Drexel Degree: B.S. in Criminology and Justice Studies, Justice Concentration Community College Degree: A.A.S in Criminal Justice

Sample Plan of Study - First & Second Year at Community College of Philadelphia

#### 60 credits at CCP transfer over as a maximum of 90 credits at Drexel.

Please contact the Department of Criminology and Justice Studies (https://drexel.edu/coas/ academics/departments-centers/criminology-justice-studies/) for the most current Plan of Study.

### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

### **BS in Culinary Arts and Science**

Drexel Degree: B.S. in Culinary Arts and Science

Community College Degree: A.A.S in Culinary Arts

Sample Plan of Study - First & Second Year at Community College of Philadelphia

65 credits at CCP transfer over as 72 credits at Drexel

\*Note: This file is still pending updates. Students will need 185.0 credits to graduate with a B.S.

**Please contact the** Department of Food and Hospitality Management (https://drexel.edu/cnhp/ academics/departments/food-hospitality-management/) for the most current Plan of Study.

### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

### **Transfer Credits**

First Voar

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

### **BS in Engineering Technology - Electrical Engineering Technology**

## Drexel Degree Name: B.S. in Engineering Technology, Electrical Engineering Technology Concentration

Community College Degree Name: A.A.S in Applied Science and Engineering Technology Sample Plan of Study - First & Second Year at Community College of Philadelphia 65 semester credits from CCP transfer over as 62.5 credits at Drexel.

**Please contact the** Department of Engineering Technology (https://drexel.edu/engineering/ academics/departments/engineering-technology/) for the most current Plan of Study.

### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

### **BS in Mechanical Engineering**

Drexel Degree Name: B.S. in Mechanical Engineering Community College Degree Name: A.S. in Engineering Science

### Sample Plan of Study - First & Second Year at Community College of Philadelphia

### 65 credits at CCP transfer over as 82.5 credits at Drexel

**Please contact the** Department of Mechanical Engineering and Mechanics (https://drexel.edu/ engineering/academics/departments/mechanical-engineering/) for the most current Plan of Study.

### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

### **BS in Public Health**

Drexel Degree: B.S. in Public Health

Community College Degree: A.A. in Public Health

Sample Plan of Study - First & Second Year at Community College of Philadelphia

62 semester credits from CCP transfer over as 89.5 credits at Drexel.

**Please contact the** Dornsife School of Public Health (https://drexel.edu/dornsife/academics/ degrees/) for the most current Plan of Study.

#### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

### **BA in Communication - Journalism Concentration**

Drexel Degree Name: B.A. in Communication, Journalism Concentration Community College Degree Name: A.A in Communication Arts; Journalism Option Sample Plan of Study - First & Second Year at Delaware County Community College 61-64 credits at DCCC transfer over as a maximum of 90 credits at Drexel. A minimum of 180.0 credits must be earned for an undergraduate degree.

**Please contact the** Department of Communication (https://drexel.edu/coas/academics/departments-centers/communication/) for the most current Plan of Study.

Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

#### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

## **BA in History**

Drexel Degree Name: B.A. in History

Community College Degree Name: A.A in History

Sample Plan of Study - First & Second Year at Delaware County Community College

61 credits at DCCC transfer over as 81.5-89.5 credits at Drexel

Please contact the Department of History (https://drexel.edu/coas/academics/departments-centers/ history/) for the most current Plan of Study.

#### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

#### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

#### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

#### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

#### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore

year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

#### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

## **BS in Civil Engineering**

#### Drexel Degree Name: B.S. in Civil Engineering

#### Community College Degree Name: A.S in Engineering

Sample Plan of Study - First & Second Year at Delaware County Community College

#### 62-67 credits at DCCC transfer over as 82.5 credits at Drexel

Please contact the Department of Civil, Architectural and Environmental Engineering (https:// drexel.edu/engineering/academics/departments/civil-architectural-environmental-engineering/) for the most current Plan of Study.

#### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

#### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

## **Transfer Credits**

First Year

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

# **BS in General Studies**

#### Drexel Degree: B.S. in General Studies (180 credits required)

#### Community College Degree: A.A. in Liberal Arts

Sample Plan of Study - First & Second Year at Delaware County Community College

### 64 credits at DCCC transfer over as 90 credits at Drexel

**Please contact the** Goodwin College of Professional Studies (https://drexel.edu/goodwin/ academics/overview/) for the most current Plan of Study.

### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

## **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

# **BS in Mechanical Engineering**

# Drexel Degree Name: B.S in Mechanical Engineering

## Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

# **BA in History**

#### Drexel Degree Name: B.A. in History

#### Community College Degree Name: A.A in History

#### Sample Plan of Study - First & Second Year at Montgomery County Community College

#### 62 credits at MCCC transfer as up to 90 credits at Drexel

Please contact the Department of History (https://drexel.edu/coas/academics/departments-centers/ history/) for the most current Plan of Study.

### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

## **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

# **BS in Business Administration - Major in Finance**

#### Drexel Degree Name: B.S. in Business Administration; Major in Finance

#### Community College Degree Name: A.S. in Business Administration

#### Sample Plan of Study - First & Second Year at Montgomery County Community College

#### 62 credits at MCCC transfer as 81 credits at Drexel

**Please contact the** Department of Finance (https://www.lebow.drexel.edu/faculty-and-research/ disciplines/finance/) for the most current Plan of Study.

#### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

#### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be

acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

## BS in Business Administration - Major in Marketing

# Drexel Degree Name: B.S in Business Administration; Major in Marketing Community College Degree Name: A.S. in Business Administration Sample Plan of Study - First & Second Year at Montgomery County Community College 62 credits at MCCC transfer as 81 credits at Drexel

**Please contact the** Department of Marketing (https://www.lebow.drexel.edu/faculty-and-research/ disciplines/marketing/) for the most current Plan of Study.

#### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

## **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

# **BS in Chemical Engineering**

Drexel Degree Name: B.S in Chemical Engineering

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

#### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

# **BS in Culinary Arts and Science**

Drexel Degree Name: B.S. in Culinary Arts and Science

Community College Degree Name: A.A.S in Culinary Arts

Sample Plan of Study - First & Second Year at Montgomery County Community College 68 Credits at MCCC transfers over as 76 Credits at Drexel

**Please contact the** Department of Food and Hospitality Management (https://drexel.edu/cnhp/ academics/departments/food-hospitality-management/) for the most current Plan of Study.

### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

## **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

# **BS** in Electrical Engineering

#### Drexel Degree Name: B.S in Electrical Engineering

#### Community College Degree Name: A.S in Engineering Science

## Sample Plan of Study - First & Second Year at Montgomery County Community College 64 credits at MCCC transfer over as 82.5-84 credits at Drexel

Please contact the Department of Electrical and Computer Engineering (https://drexel.edu/ engineering/academics/departments/electrical-computer-engineering/) for the most current Plan of Study.

#### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

#### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

### **BS in Environmental Engineering**

Drexel Degree Name: B.S in Environmental Engineering

Community College Degree Name: A.S in Engineering Science

Sample Plan of Study - First & Second Year at Montgomery County Community College

60 credits at MCCC transfer over as 73 credits at Drexel

### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

### **BS in Psychology**

Drexel Degree Name: B.S. in Psychology

Community College Degree Name: A.S in Psychology

Sample Plan of Study - First & Second Year at Montgomery County Community College

### 63 credits at MCCC transfer over as a maximum of 90 credits at Drexel

**Please contact the** Department of Psychological and Brain Sciences (https://drexel.edu/coas/ academics/departments-centers/psychology/) for the most current Plan of Study.

### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

### **BA in English**

### Drexel Degree Name: B.A. in English

### Community College Degree Name: A.A in English

### Sample Plan of Study - First & Second Year at Rowan College at Burlington County

### 60 credits at RCBC transfer over as 82-90 credits at Drexel

**Please contact the** Department of English & Philosophy (https://drexel.edu/coas/academics/ departments-centers/english-philosophy/) for the most current Plan of Study.

#### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

#### **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course

will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

## Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

# **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

# **BS in Business Administration - Major in Accounting**

## Drexel Degree Name: B.S in Business Administration; Major in Accounting

## Community College Degree Name: A.S in Business Administration

#### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

## **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

# Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore

year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

## **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

#### Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

## **Transfer Credits**

Eliza A Maran

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.

# **BS in Psychology**

# Writing-Intensive Course Requirements

In order to graduate, all students must pass three writing-intensive courses after their freshman year. Two writing-intensive courses must be in a student's major. The third can be in any discipline. Students are advised to take one writing-intensive class each year, beginning with the sophomore

year, and to avoid "clustering" these courses near the end of their matriculation. Transfer students need to meet with an academic advisor to review the number of writing-intensive courses required to graduate.

A "WI" next to a course in this catalog may indicate that this course can fulfill a writing-intensive requirement. For the most up-to-date list of writingintensive courses being offered, students should check the Writing Intensive Course List (https://drexel.edu/coas/academics/departments-centers/ english-philosophy/university-writing-program/faculty-programs/#writing-intensive-list) at the University Writing Program (http://drexel.edu/coas/ academics/departments-centers/english-philosophy/university-writing-program/). (http://drexel.edu/coas/academics/departments-centers/englishphilosophy/university-writing-program/drexel-writing-center/) Students scheduling their courses can also conduct a search for courses with the attribute "WI" to bring up a list of all writing-intensive courses available that term.

## **Transfer Credits**

To receive transfer credits, the courses must be substantially equivalent to courses offered in the desired curriculum at Drexel and students must have completed the courses with a grade of C (C=2.0) or better. The transfer courses listed should be used as a general guide and might not be acceptable for every major at the University. Drexel University makes every effort to keep this guide current, but cannot guarantee that every course will be acceptable for transfer. The number of credits a student can transfer will be determined by the academic department once the student has been accepted into the program.
