Thomas R. Kline School of Law

The Thomas R. Kline School of Law (<http://www.drexel.edu/law/>) was established in 2006, and was built on the strengths of Drexel University, including experiential education and the fields of engineering, science, business, and health care.

At the graduate level, the School offers:

- the Juris Doctor (JD) degree, which has been designed to prepare law students for the challenges of 21st-century practice. Within the JD, students can elect to fulfill concentrations in business and entrepreneurship law, health law, intellectual property law, criminal law, and civil litigation and dispute resolution;
- a Master of Legal Studies (MLS) program for individuals in other disciplines and professions who would benefit from focused legal knowledge in their field;
- a Master of Laws (LLM) in American Legal Practice for internationally trained attorneys that offers an optional focus on New York Bar Exam preparation;
- specialized LLMs for attorneys who want to dive deeply into one area of practice; and
- specialized Certificates for post-baccalaureate professionals looking to bolster knowledge in an emerging area.

Educational Objectives

The educational objectives of the Thomas R. Kline School of Law include knowledge of the law, training in practical skills, and commitment to professionalism. The Juris Doctor (JD) degree program offers a standard law school curriculum in combination with electives that strengthen knowledge in core and emerging fields, to ensure that its graduates are well-equipped to pass the bar examination upon graduation and to be competent legal professionals, regardless of their particular practice areas. Students may complete the JD on a full-time basis in either two or three years.

The Master of Legal Studies (MLS) program and associated Certificates, designed for individuals who are not seeking to become attorneys, are intended to develop and improve career-related skills through the study of the legal system, legal writing, law, regulation, and policy.

The Master of Laws (LLM) in American Legal Practice allows for a flexible curriculum or specialized tracks to target the student's goals for US practice or legal knowledge. LLM students can take advantage of experiential learning opportunities as well as courses designed to develop proficiency in English legal vocabulary.

The specialized LLMs are designed for practicing attorneys to develop expertise beyond the curriculum offered in their JD programs. The programs are ideal for new and experienced attorneys who are looking for advancement in their organizations or who wish to explore trending areas of law and regulation more deeply.

Accreditation

The JD program at the Drexel University Thomas R. Kline School of Law is fully accredited by the American Bar Association (ABA). The ABA does not offer accreditation to non-JD programs, but has acquiesced to the

Master of Laws, Master of Legal Studies, and certificate programs offered by the Thomas R. Kline School of Law.

The JD Program

Major: Law

Degree Awarded: Juris Doctor (JD)

Calendar Type: Semester

Total Credit Hours: 85.0

Classification of Instructional Programs (CIP) code: 22.0101

Standard Occupational Classification (SOC) code: 23-1011

About the Program

The Kline School of Law offers a rigorous law curriculum that aims to prepare students for the realities of practice, combining the classic foundation of legal education with the experiential components that are so vital to both Drexel University's mission and to legal employers today. Students have the option of completing the JD in the traditional three years, or through an accelerated two-year program designed to get students into the legal workforce faster with the same essential skills and knowledge.

Students spend their first year on campus being introduced to the foundations of legal analysis, skills, and professionalism in a diverse learning community. The program includes traditional first-year courses such as contracts, property, and criminal law, as well as a critical introduction to lawmaking and statutory interpretation through a Legislation & Regulation course. The first year also includes a comprehensive legal methods course taught by full-time faculty which instructs students on the fundamentals of legal writing and analysis.

The remaining curriculum exposes students to a broad array of topics relevant to the study of law. Students are required to complete courses in professional responsibility, legal writing and other practice skills, and statutory law. Students must also complete at least 50 hours of pro bono work, documented with the Law School's Experiential Learning Office (<https://drexel.edu/law/academics/kline-difference/public-interest-law-pro-bono-service/pro-bono/>).

The Experiential Education Program

Students are required to complete either a co-op placement or a clinical experience in order to graduate. This requirement provides students with an integrated learning experience that prepares them for the complexities of modern-day practice.

The cooperative education program (co-op) allows upper-level students to spend a semester at a single legal placement. The Kline School of Law has relationships with a wide-ranging selection of co-op partners including judicial chambers, private law firms, in-house counsel offices, and non-profit organizations, but has also assisted many students in creating opportunities in other practice jurisdictions. Students will receive academic credits for their co-op experiences and for a lawyering practice seminar

that must be taken in conjunction with the co-op. At the discretion of the employer, co-ops may be paid or unpaid.

Clinical experiences offer students the chance to represent real clients in a clinical setting. Clinical offerings include a Civil Litigation Field Clinic, Criminal Litigation Field Clinic, Federal Litigation and Appeals Clinic, Community Lawyering Clinic, and an Entrepreneurial Law Clinic. These experiences are paired with seminar time that guides students through reflection on their work and its impact on the community.

In addition to the co-op and clinical requirement, students may also take advantage of a broad selection of simulation courses that involve in-depth trial practice, advocacy, litigation, transactional practice, and alternative dispute resolution.

About the Concentrations

The Thomas R. Kline School of Law builds on some of the strengths for which Drexel University is nationally known by offering five optional concentrations. These are areas in which there are expanding employment opportunities and a need for specialized knowledge and skills: intellectual property, health, business and entrepreneurship, criminal law, and civil litigation and dispute resolution. These concentrations consist not only of specialized courses taught in the classroom, but also experiential learning opportunities such as co-ops and simulations.

Dual Degrees

For those law students interested in pursuing expertise in another area of study, the School also offers several dual degrees combining law with other subjects, including Law and Business Administration (JD/MBA), Law and Clinical Psychology (JD /PhD; currently paused), Law and Public Health (JD/MPH), and Law and Public Policy (JD/MPP). For more details about dual degree opportunities, visit the Thomas R. Kline School of Law Dual Degree website (<https://drexel.edu/law/academics/dual-degrees/>).

About the Program

Amid demographic, economic, political and environmental change, leaders in either the public or private sector require insight and analysis grounded in policy, democratic process and the law. The overlapping roles of public agencies and private organizations create a wide range of issues that raise legal challenges and opportunities.

Our JD-Master of Science in Public Policy Program gives students a strong foundation in research, analysis, economics and law in tandem with hands-on learning and networking opportunities with non-profit organizations and government agencies throughout the Delaware Valley.

Students take courses at the law school and Drexel's College of Arts & Sciences (Center for Public Policy), earning degrees from both. In addition to acquiring basic skills in the two disciplines, students gain a unique perspective on legal research and its application in legal practice.

Our faculty features widely recognized scholars whose expertise covers a range of topics in public policy. Course offerings include Essentials of Economics, Sustainability and Public Policy, Case Study Research, Constitutional Law, Theory and Practice of Policy Analysis and a Lawyering Practice Seminar.

Legal Studies MLS

Major: Legal Studies

Degree Awarded: Master of Legal Studies (MLS)

Calendar Type: Quarter

Minimum Required Credits: 45.0

Classification of Instructional Programs (CIP) code: 22.0203

Standard Occupational Classification (SOC) code: 23-1011

About the Program

As society becomes increasingly regulated, job candidates with advanced skills in legal and regulatory analysis, as well as regulatory compliance, have become highly appealing to many employers. Although many employers do not want to hire additional attorneys, they require employees with sophisticated and narrowly focused exposure to law and legal regulation.

The Master of Legal Studies (MLS) program is a post-baccalaureate degree designed for individuals to develop and improve career-related skills through the study of the legal system, legal writing, law, regulation, and policy. Ideal candidates include individuals in other disciplines, professionals who would benefit from focused legal knowledge (such as those in the fields of health, college sports, education, human resources, finance, etc.), individuals seeking career changes, and those generally interested in the field of law.
